WEEKLY PLANNER | GET THE MOST OUT OF YOUR LIFE "Think of a ship with the complete voyage mapped out and planned. The captain and crew know exactly where the ship is going and how long it will take - it has a definite goal. And 9,999 times out of 10,000, it will get

there. Now let's take another ship and just like the first and only let's not put a crew on it, or a captain at the helm. Let's give it no aiming point, no goal, and no destination. We just start the engines and let it go. I think you'll agree that if it gets out of the harbor at all, it will either sink or wind up on some deserted beach and a derelict. It can't go anyplace because it has no destination and no guidance. It's the same with a human being." ~ Earl Nightingale

SWEET HOME If you're from the state of Michigan, you know there's no place like home. Great people, great companies, great universities and that's just the start. Just like there's no place like Michigan, there's no replacement for a good old fashioned notebook. Let your inspirations and ideas pour out onto the pages of this gorgeous notebook. If Michigan has a special place in your heart, and you enjoy the creativity and feeling of writing in old fashion notebooks and journals, then you need the Michigan Notebook Laptop Or Paper Notebook? Technology promises to make

our lives more productive. Indeed, some things are faster and easier than ever. Unfortunately, a lot of technology is designed for the task, not for the user. As a result, people are able to take more notes, yet understand less. Have you ever taken copious notes in a class or meeting using your computer only to realize afterwards you still didn't understand? Taking notes on paper forces you to synthesize rather than merely transcribe. Because you desire comprehension and understanding rather than simple transcription, the Michigan Notebook is a must. Studies About Benefits of

Paper Notebooks Don't just take my word, based on a study conducted at a top university, the Association for Psychological Science indicated that "taking notes by hand is better than taking notes on a laptop for remembering". Will you take advantage of this knowledge to gain an edge on your competition at school, work, or business? How will better understanding make things help you achieve your goals? Organize Your Life Get rid of little scraps of paper you use to capture inspirations and ideas, daily tasks, notes, and phone numbers. Use the Michigan Notebook to neatly organize your life.

Feel Better By Logging Your Progress In my corporate days, I'd instruct employees to write down accomplishments as they happened. During annual reviews, we are bogged down with current issues and activities and it's hard to remember the great things we did 9, 6, or even 3 months ago. Write down your accomplishments with your hobbies, weight loss, and other life goals. Use the Michigan Notebook to look back feel good about yourself and the things you've done! **FREE BONUS INSIDE** Included inside is a link to download a free copy or an amazing adult coloring book

featuring mandalas, animals and butterflies. Aside from enjoying your Michigan Notebook, enjoy hours of enjoyment and relaxation with beautiful adult coloring pages. Inside, you'll find: 100 pages for writing A 2017 calendar for remembering birthdays and anniversaries Four adult coloring pages featuring mandalas, dream catchers and more A link to download a **FREE** adult coloring book What Really Matters? Think about the importance of your birth certificate, marriage certificate, property deeds, or even the laws that govern our society...the stuff that really

matters goes onto paper! Make what you do matter! Buy the Michigan Notebook today, make what you write matter! ! look at time, and can be defined in a variety of ways. In a comprehensive how-to manual, James Saltvold shares valuable insight on how to use his unique concepts to make practical perpetual calendars for everyday home and office use. These calendars, which save resources and look like a conventional calendar, can be set to display any month for any year within their range. They are set by simply moving a slider, and typically have a range of 50 to 100 years. Saltvold uses skills he acquired during an engineering career to present design ideas and concepts for calendars that are

easy to produce and use. After providing a brief description of the four types or categories that his calendars fit into, Saltvold leads readers on an informative journey, enhanced by figures and tables. He explains how to bring calendar prototypes into mass production, describes products that can be made from the four types of perpetual calendars, details which products might be attractive to various markets and manufacturers, and shares a brief history of his own work in developing concepts and researching patents. Additional sections include material on where to search for more information on

perpetual calendars, as well as references with comments. Practical Perpetual Calendars includes designs for desk calendars, wall calendars, pocket calendars, photo holders, and other applications. The calendars shown on the front cover are described on the following pages: wall calendar (p. 129), clock (p. 77), pocket calendar (p. 68), full-year calendar (p. 157), 7-column desk calendar (p. 145), and 13-column desk calendar (p. 120).
