Tao has been built into the foundation of East Asian culture for millennia, and many books have been written to explain it. But Tao cannot fully be explained in words; it can only be felt and experienced. Tao is something you live, day by day, moment by moment. It's the omnipresent oneness beyond ephemeral phenomena that expresses itself in everything. New York Times bestselling author Ichi Lee, an enlightened Tao master from South Korea, has laid out a path to living Tao every day. Along this path, he guides you to an understanding of the meaning of birth, death, and everything in between, building a foundation for living a complete and whole life. The universal principles contained in "Living Tao: Timeless Principles for Everyday Enlightenment" stem from the Korean practice of Sundo, an ancient tradition of mind-body training, as well as Lee's own life experience. With these tangible principles, Ichi Lee makes this profound topic simple and accessible. "Living Tao" has an unparalleled depth in its simplicity that anyone can absorb and immediately apply. * 2015 INDIEFAB Book of the Year Award Winner, Bronze, Body, Mind & Spirit In thinking about life and what it is all about, I have come to believe that all men and woman should discover what it is that they can leave behind for the next generation or the next adventurer. Some leave behind buildings, some appear in movies, and others create music, poetry, or other timeless gifts. After much evaluation and thought, I have decided to leave an idea behind in the form of a book, and that idea is that of A Total Life. What I offer is myself and what I have in my thoughts on how I see life and the world. These observations have come through constant examination, continual reading, life experiences, and a general care for others. I believe for some there is freedom in this work because the ideas when understood help people rediscover their passions and live more exciting happy lives. As a young man I was always desperately searching for mentors. I was looking for people I could model my life after, and in my search I found and walked with many great men and women. After years of watching these individuals and growing with them, I started to respect each mentor and role model for their specific respective strengths. For example, one individual was amazing with her financial affairs, another had a great marriage, another was healthy and yet another really had his spiritual life together. What was so interesting was none of my early mentors had it all. It seems each them was lacking either wealth, health, spirituality or relationship success. At some point I started to think about finding someone who had it all. Who can I model my life after who isn't making any trade-offs? Which of these men or women are healthy, happy, wealthy, fun, spiritual, have great relationships, and more? After years of searching I discovered men and women who had it all, who were living A Total Life, and this book is about Four Timeless Principles they all used to achieve total, complete, multifaceted lives. My legacy is my thoughts that have been developed through friendships, business, pain, sadness, success, betrayal, and a constant yearning for truth. In this writing are my hopes for my children, my dreams for my friends, and my love for humanity and all of us who have a deep longing for more. I hope each of you will enjoy my thoughts on life. The central concept within the ebook “The Dynamics of Gender and Life” is the universe as a self-organizing system (SOS) wherein everything and everyone is engaged in an ongoing, dynamic, cyclical, interactive dance between unity and individuality, feminine and masculine, wave and particle, togetherness and separateness, Yin and Yang, possibility and actuality. The exploration of this interactive possibility-actuality, feminine-masculine dance yields valuable and useful insights into creativity, identity politics, personality structure, belief-systems, intuition, gender, spirituality, neuroplasticity, peak-states, health, well-being and more ... Some reviews "I liked (Stephen's) generalized summaries of what it all meant as I went along, e.g., 'We, and each part within creation, are . . . an active pivot-point, a door-way, an active, creative portal through which the creative potential and power of the quantum vacuum, the implicate order, the ground of being, flows and creates. We are the delivery vehicles and directors of where and how that energy is congealed into actuality.' Beautifully expressed. These occasional "boosts" in his explication keeps the reader in touch with the overall context of what he is saying and sustains an emotional connection with the content. All in all, a wonderful piece of work, which I earnestly hope will reach a vast multitude of readers." Have you ever taken the time to consider why it seems like non-Christians find it easy to live their dreams, while believers continue to run from pillar to post in search of their next meal? Have you ever wondered why even in the remotest parts of the world, people are still divided into two categories - the haves and the have-nots? These questions burn a whole in our hearts, especially when we consider them in the light of what we know about the superfluous love and provision that God has made available for the humanity. Unfortunately, not every person will experience God's provision in the same measure. The reason is not too far-fetched, and it is not what you think it should be. As it were, there are intangibles that determine the quality of man's experience on this side of eternity. And until man's eyes are open to receive a revelation of what these variables are, he will continue to run helter-skelter in search of elixirs and shortcuts that promise so much but offer so little. The good news is that there's another way. A much better way to lead the life that God originally ordained every individual to live. But to see that way, you need to develop a special kind of mastery which will put you in an elite group of people that can partner with God to take full delivery of all that He has provided. To do this, you need to be proficient in Mastering the Art of Observation and this book will teach you all you need to know. While it is possible for a company to achieve short-term profit, it is much more difficult to sustain corporate success over time. Indeed, the real purpose of corporate strategy is not only to make quick profits, but more importantly to create an organization that will endure. This book is a veritable tackle box of lines, leaders, and lures. Any one of the 36 chapters may provide the solution to a vexing problem at home or at work. Any one idea may empower you to improve relationships and reel in impressive bottom-line results. Leadership by the Good Book will inspire, empower, and equip men and women to lead their businesses, their teams, their ministries, and even their families to greater heights and to have an eternal impact. For David L. Steward, founder and chairman of World Wide Technology, his philosophy for building a successful business is simple and founded on a Biblical principle: "For even the Son of Man did not come to be served, but to serve" (Mark 10:45 NIV). As a business leader, he says, the first priority is to serve employees. Together with Brandon K. Mann, these two leaders distill their wisdom in this field guide for leaders who want to bring respect, integrity, honesty, and trust to the workplace. Steward and Mann draw from personal experiences as well as share insights and examples of how God's Word has informed and influenced their leadership. Each chapter ends with a section titled Your Leadership Flywheel: Learn, Live, Lead, Legacy, which includes self-reflection questions, application of biblical principles, as well as a prayer.
