Philip Perry's Sketch of the Ancient British History Aug 27 2020 This book presents a thorough edition of a so-far unpublished manuscript preserved at St Alban's English College in Valladolid, Spain. Written by Philip M. Perry, who was rector of this Catholic seminary from 1768 until his death in 1774, the Sketch of the Ancient British History provides a historical account stretching from the arrival of the Romans in Britain up to and including St Columba's Christianizing mission in the sixth century and possesses an intrinsic value insofar as it is genuinely (and historically) anchored in major historical and cultural phenomena: the history of the English Church and the huge influence of Bede's work, the religious history of Europe since the sixteenth century, the perception of antiquity during the Enlightenment or the theological and historiographical debates of the eighteenth century. Additionally, the edition includes an inventory of bibliographical sources used by Philip Perry and extant at St Alban's as well as the author's own transcript of the Stannington military diploma (AD 124), a

unique historical document registered by Perry himself around 1761.

The Great Cat Massacre - A History of Britain in 100 Mistakes Jan 13 2022 In 1914 a train pulled into a provincial British railway station. The porter, a curious chap, asked the regiment of soldiers where they were from. 'Ross-shire,' one called down, but the porter heard 'Russia'. And so began a rumour that led to Germany losing the First World War. Often the history we learn at school is only half the story. We hear of heroic deeds and visionary leaders, but we never hear about the people who turned up late for court and thereby changed the law, or who stood in the wrong queue at university and accidentally won a Nobel Prize. The Great Cat Massacre: A History of Britain in 100 Mistakes demonstrates that the nation is as much a product of error as design. Through chapters on religion, law, culture, war, science and politics, it reveals such things as how an edict from Pope Gregory IX helped spread the Black Death, how the sister of cricketer John Willes invented overarm bowling, and how, had a

letter not been lost, Disraeli might never have become prime minister. This book is history told through human failings, schoolboy errors, bad luck and extraordinary consequences; a history of mishearing, misdiagnosis and misinterpretation - a history that you won't find in the textbooks.

They are hotbeds of invention, industry and creativity and they bring our nation's story to life. *Dec 12 2021 From the first British concentration camps to the only Nazi labour***

camp on British soil, and from a trench map used at the Battle of the Somme to an escape and evasion map from the first Gulf War, this book explores the cartographic legacy of 20th-century conflict, from top-secret documents to mass propaganda. These 100 maps tell many stories, revealing changing social attitudes towards the unfamiliar and unconventional, from Jewish London at the turn of the century to women in the workplace.

The British School of Osteopathy the First 100 Years May 24 2020 The British School of Osteopathy is the oldest and largest teaching institution of osteopathy in the UK. To mark the one hundred years of its history, the book traces its chequered history and the characters involved from when it was simply providing vocational training and awarding its own diploma to it becoming a mature, higher education institution with Taught Degree Awarding Powers. It is a story of incredible achievement despite sometimes almost insurmountable obstacles to its progress.

A History of the World in 100 Objects Oct 10 2021 This book takes a dramatically

original approach to the history of humanity, using objects which previous civilisations have left behind them, often accidentally, as prisms through which we can explore past worlds and the lives of the men and women who lived in them. The book's range is enormous. It begins with one of the earliest surviving objects made by human hands, a chopping tool from the Olduvai gorge in Africa, and ends with an object from the 21st century which represents the world we live in today. Neil MacGregor's aim is not simply to describe these remarkable things, but to show us their significance - how a stone pillar tells us about a great Indian emperor preaching tolerance to his people, how Spanish pieces of eight tell us about the beginning of a global currency or how an early Victorian tea-set tells us about the impact of empire. Each chapter immerses the reader in a past civilisation accompanied by an exceptionally well-informed guide. Seen through this lens, history is a kaleidoscope - shifting, interconnected, constantly surprising, and shaping our world today in ways that most of us have never imagined. An intellectual

and visual feast, it is one of the most engrossing and unusual history books published in years.

***The Story of the British Isles in 100 Places
Jul 31 2023 "Everyone should have two copies - one for the car and one for the house to plan journeys. . . a reminder to think more about the places you pass and less about your route, because every British journey is through rich history." (Edward Stourton) From much-loved historian Neil Oliver, comes this beautifully written, kaleidoscopic history of a place with a story like no other. The British Isles, this archipelago of islands, is to Neil Oliver the best place in the world. From north to south, east to west it cradles astonishing beauty. The human story here is a million years old, and counting. But the tolerant, easygoing peace we enjoy has been hard won. We have made and known the best and worst of times. We have been hero and villain and all else in between, and we have learned some lessons. The Story of the British Isles in 100 Places is Neil's very personal account of what makes these islands so special, told through the places that have witnessed the***

unfolding of our history. Beginning with footprints made in the sand by humankind's earliest ancestors, he takes us via Romans and Vikings, the flowering of religion, through civil war, industrial revolution and two world wars. From windswept headlands to battlefields, ancient trees to magnificent cathedrals, each of his destinations is a place where, somehow, the spirit of the past seems to linger.

A History of England in 100 Places Dec 24 2022 From battlefield to sacred building, from castle to cottage, from the Bridgwater Canal to Blackpool Pier, acclaimed historian John Julius Norwich tells the political, cultural, social, religious and economic story of England through one hundred key places you can still visit today. A History of America in 100 Maps May 17 2022 Throughout its history, America has been defined through maps. Whether made for military strategy or urban reform, to encourage settlement or to investigate disease, maps invest information with meaning by translating it into visual form. They capture what people knew, what they thought they knew, what they hoped for, and what they feared. As such they offer unrivaled windows onto the past. In this book Susan Schulten uses maps to explore five centuries of American history, from the voyages of European discovery to the digital age. With stunning visual clarity, A History

of America in 100 Maps showcases the power of cartography to illuminate and complicate our understanding of the past. Gathered primarily from the British Library's incomparable archives and compiled into nine chronological chapters, these one hundred full-color maps range from the iconic to the unfamiliar. Each is discussed in terms of its specific features as well as its larger historical significance in a way that conveys a fresh perspective on the past. Some of these maps were made by established cartographers, while others were made by unknown individuals such as Cherokee tribal leaders, soldiers on the front, and the first generation of girls to be formally educated. Some were tools of statecraft and diplomacy, and others were instruments of social reform or even advertising and entertainment. But when considered together, they demonstrate the many ways that maps both reflect and influence historical change. Audacious in scope and charming in execution, this collection of one hundred full-color maps offers an imaginative and visually engaging tour of American history that will show

readers a new way of navigating their own worlds.

100 Great Black Britons Jul 19 2022 'An empowering read . . . it is refreshing to see somebody celebrate the role that black Britons have played in this island's long and complicated history' DAVID LAMMY, author of Tribes, in 'The best books of 2020', the Guardian 'Timely and so important . . . recognition is long overdue . . . I would encourage everyone to buy it!' DAWN BUTLER MP A long-overdue book honouring the remarkable achievements of key Black British individuals over many centuries, in collaboration with the 100 Great Black Britons campaign founded and run by Patrick Vernon OBE. 'Building on decades of scholarship, this book by Patrick Vernon and Dr Angelina Osborne brings the biographies of Black Britons together and vividly expands the historical backdrop against which these hundred men and women lived their lives.' From the Foreword, by DAVID OLUSOGA 'I am delighted to see the relaunch of 100 Great Black Britons. For too long the contribution of Britons of African and Caribbean heritage have been

underestimated, undervalued and overlooked' SADIQ KHAN, Mayor of London
Patrick Vernon's landmark 100 Great Black Britons campaign of 2003 was one of the most successful movements to focus on the role of people of African and Caribbean descent in British history. Frustrated by the widespread and continuing exclusion of the Black British community from the mainstream popular conception of 'Britishness', despite Black people having lived in Britain for over a thousand years, Vernon set up a public poll in which anyone could vote for the Black Briton they most admired. The response to this campaign was incredible. As a result, a number of Black historical figures were included on the national school curriculum and had statues and memorials erected and blue plaques put up in their honour. Mary Seacole was adopted by the Royal College of Nursing and was given the same status as Florence Nightingale. Children and young people were finally being encouraged to feel pride in their history and a sense of belonging in Britain. Now, with this book, Vernon and Osborne have relaunched the campaign with

an updated list of names and accompanying portraits -- including new role models and previously little-known historical figures. Each entry explores in depth the individual's contribution to British history - a contribution that too often has been either overlooked or dismissed. In the wake of the 2018 Windrush scandal, and against the backdrop of Brexit, the rise of right-wing populism and the continuing inequality faced by Black communities across the UK, the need for this campaign is greater than ever.

English and British History in 100 Bite-size Chunks Sep 01 2023 Very often, history is thought of as that lesson we suffered through at school, made into boring facts and figures rather than the rich and interesting tales that actually comprise it. In English and British History in 100 Bite-size Chunks, history is enlivened and broken down into readable 'chunks' that anyone can read, and learn, at their leisure. Beginning at the beginning, with the physical formation of these lands, it ends where we are now, with our current lifestyle, government, society, beliefs, complexities,

fears and hopes. It charts the development of England's characteristics through the great and the good, and ordinary men and women; those who often get the glory and those who lived lives more hidden from history's storytellers. It brings to life people, places, events and ideas; and successes and failures. This is not a story of England in splendid isolation but a more rounded picture touching on the influences from and on other places and nations, for good or bad, near and far in geography and time. 100 Bitesize Chunks are followed by a recognition of historic themes and some conclusions, and just a glimpse of the possible future history of a nation. A commentary on history itself, how we know, how 'history works', what we think of it, and how we care for it - or don't care for it, this book is an encouragement to study history actively through the evidence we can see and touch and interpret, in museums and in its real locations. Ideal for anyone returning to history or for an enthusiast!

***The Century Girls Oct 29 2020 THE
SUNDAY TIMES BESTSELLER 'Tessa Dunlop
made pains to select women from broad***

walks of life and succeeds in weaving a rich tapestry of experiences.'The Independent 'A warm-hearted and engaging read, The Century Girls is replete with wonderful characters.' Sunday Express 'Dunlop has pulled off an impressive feat of oral history...creating a moving portrait of a world that is now lost forever.' Who Do You Think You Are?? A celebration of the one-hundred years since British women got the vote, told, in their own voices, by six centenarians: Helena, Olive, Edna, Joyce, Ann and Phyllis - The Century Girls? In 2018 Britain celebrates the centenary of some women getting the vote. The intervening ten decades have witnessed staggering change, and The Century Girls features six women born in 1918 or before who haven't just witnessed that change, they've lived it. Empire shrank, war came and went, and modern society demanded continual readjustment.... the Century Girls lasted the course, and this book weaves together their lifetime's adventures - what they were taught, how they were treated, who they loved, what they did and where they are now. With stories that are intimately knitted

into the history of the British Isles, this is a time-travel epic featuring our oldest, most precious national treasures. Edna, 102, was a domestic servant born in Lincolnshire. Helena is 101 years old and the eldest of eight born into a Welsh farming family. Olive, 102, began life as a child of empire in British Guiana and was one of the first women to migrate to London after the war. There's Ann, a 103-year-London bohemian; 100-year-old Phyllis, daughter of the British Raj, who has called Edinburgh home for nearly eighty years; and finally 'young' Joyce - a 99-year-old Cambridge classicist who's still at work. It is through the prism of these women's very long lives that The Century Girls provides a deeply personal account of British history over the past one hundred years. Their story is our story too. Further praise for The Century Girls 'The book's atmosphere of intimacy, enhanced by a generous selection of evocative photographs, is compelling and Dunlop's attention to her subjects' day-to-day lives renders this an absorbing alternative to grander views of recent history.' TLS 'Fascinating.... a deeply personal account of

British history over the past 100 years.'
Countryside Magazine, Book of the Month 'A delightful book . . . all about women and women's lives.' Jane Garvey, Radio 4
Woman's Hour? 'A wonderful blend of British history with individual stories - and for any reader under about 90, an often startling reminder of how much things have changed.' Reader's Digest? ***'A warm-hearted and engaging read, The Century Girls is replete with wonderful characters.'*** Sunday Express

The Story of the World in 100 Moments Jun 25 2020 We reveal ourselves not through what we display but through what we conceal and discard; a rusty trowel, a crooked needle, the hilt of a sword, these are the objects that furnish our lives. Priceless is not just about obvious treasure, gold and jewels, but also those unexpected, unintended glimpses of the everyday of the ancients. How and where were they found, and by whom? What can we learn about ourselves from looking again at the physical traces of lives lived thousands of years ago? By unearthing both the epic and the domestic, Neil Oliver is able to piece

together an ungilded and awe-inspiring account of Britain and the lives that took place on these shores. Priceless is a rare treasure map that takes you back in time, showing us the extraordinary collection of artefacts that reveal who we are and where we came from.

The Story of English in 100 Words Mar 03 2021 The world's foremost expert on the English language takes us on an entertaining and eye-opening tour of the history of our vernacular through the ages.

In The Story of English in 100 Words, an entertaining history of the world's most ubiquitous language, David Crystal draws on one hundred words that best illustrate the huge variety of sources, influences and events that have helped to shape our vernacular since the first definitively English word—'roe'—was written down on the femur of a roe deer in the fifth century. Featuring ancient words ('loaf'), cutting edge terms that reflect our world ('twittersphere'), indispensable words that shape our tongue ('and', 'what'), fanciful words ('fopdoodle') and even obscene expressions (the "c word"...), David Crystal takes readers on a tour of the winding byways of our language via the rude, the obscure and the downright surprising.
