John and Tomaz stepped feet on Earth. This is Tomaz's first travel, and his eyes are wide open with excitement. He is going to see, feel, and experience new things. But he does not seem to be pleased with the first look. Tomaz is all set to witness new things that are different from where he comes from. Tomaz is filled with curiosity. He has a million questions to ask John. Tomaz shoots. John has all the answers. Even though the earth is miniscule compared to other stars and planets in this universe, we the human beings divided it into many smaller fragments of land and then further again divide it into ethnics and communities subdivided into even smaller denominations based on manmade differences. John analyzes and explains, how some countries

apply and use common sense to improve their countries living standards and provide a better environment for its inhabitants and at the same time some countries use the worst possible methods of planning & construction which leads to the path of self-destruction, "They claim that the souls go through evolution." RSS, School Texts and the Murder of Mahatma Gandhi undertakes the novel experiment of juxtaposing three apparently quite different issues, the nature of the RSS school textbooks, the murder of the Mahatma and the basic ideology of Savarkar and Golwalkar. While deeply delving into all three aspects, it brings out the deep connection between them. The book, which brings out the basic ideological underpinnings of the Hindu Communal Project, is divided into three parts. Part I discusses how this ideology is propagated among young impressionable minds through school textbooks. Part II studies the role of the Sangh combine in the murder of Mahatma Gandhi and Part III analyses the basic elements of the Hindu communal ideology, as propounded by some of its founders like Savarkar and Golwalkar. The book brings home to us in a dramatic manner the great threat communalism poses to our society, thus making it a must-read for the general educated reader, including politicians, political workers, social

activists and journalists. Wilson This essay is the lecture delivered by James Q.  
Wilson at the annual dinner of the American  
Enterprise Institute for Public Policy Research in  
Washington, DC, on 4th December 1997. The  
United States is among the wealthiest nations in the  
world, but it is far from the healthiest. Although life  
expectancy and survival rates in the United States

have improved dramatically over the past century, Americans live shorter lives and experience more injuries and illnesses than people in other high-income countries. The U.S. health disadvantage cannot be attributed solely to the adverse health status of racial or ethnic minorities or poor people: even highly advantaged Americans are in worse health than their counterparts in other, "peer" countries. In light of the new and growing evidence about the U.S. health disadvantage, the National Institutes of Health asked the National Research Council (NRC) and the Institute of Medicine (IOM) to convene a panel of experts to study the issue. The Panel on Understanding Cross-National Health Differences Among High-Income Countries examined whether the U.S. health disadvantage exists across the life span, considered potential explanations, and assessed the larger implications of the findings. U.S. Health in International Perspective presents detailed evidence on the issue, explores the possible explanations for the shorter and less healthy lives of Americans than those of people in comparable countries, and recommends actions by both government and nongovernment agencies and organizations to address the U.S. health disadvantage. In nearly two decades since Samuel P. Huntington proposed his influential and

troubling 'clash of civilizations' thesis, nationalism has only continued to puzzle and frustrate commentators, policy analysts, and political theorists. No consensus exists concerning its identity, genesis, or future. Are we reverting to the petty nationalisms of the nineteenth century or evolving into a globalized, supranational world? Has the nation-state outlived its usefulness and exhausted its progressive and emancipatory role? Opening with powerful statements by Lord Acton and Otto Bauer—the classic liberal and socialist positions—Mapping the Nation presents a wealth of thought on this issue: the debate between Ernest Gellner and Miroslav Hroch; Gopal Balakrishnan's critique of Benedict Anderson's seminal Imagined Communities; Partha Chatterjee on the limitations of the Enlightenment approach to nationhood; and contributions from Michael Mann, Eric Hobsbawm, Tom Nairn, and Jürgen Habermas. Election 2000: Aberration or paradigm? The essays in this innovative volume combining scholarly and journalistic views, seek to place the extraordinary events of the 2000 presidential election into context with the trends of electoral politics before and after. Originally presented as a series of public lectures at Oxford University, this volume benefits from an international perspective, a stellar lineup of

contributors, and a remarkably cohesive analysis that lays the election results (and thus, the current state of American politics) at the feet of a persistent American cultural divide. Theologian, philosopher, and political radical, Martin Buber (1878–1965) was actively committed to a fundamental economic and political reconstruction of society as well as the pursuit of international peace. In his voluminous writings on Arab-Jewish relations in Palestine, Buber united his religious and philosophical teachings with his politics, which he felt were essential to a life of public dialogue and service to God. Collected in *A Land of Two Peoples* are the private and open letters, addresses, and essays in which Buber advocated binationalism as a solution to the conflict in the Middle East. A committed Zionist, Buber steadfastly articulated the moral necessity for reconciliation and accommodation between the Arabs and Jews. From the Balfour Declaration of November 1917 to his death in 1965, he campaigned passionately for a "one state solution. With the Middle East embroiled in religious and ethnic chaos, *A Land of Two Peoples* remains as relevant today as it was when it was first published more than twenty years ago. This timely reprint, which includes a new preface by Paul Mendes-Flohr, offers context and depth to current

affairs and will be welcomed by those interested in Middle Eastern studies and political theory. "The United States and Kenya: How Similar or Different are the Two Nations?" is relevant to and suitable for business people, missionaries, educators, students, tourists, politicians and people of other professions interested in having a better understanding of the United States and Kenya. Immigrants come to the United States from all over Latin America in search of better lives. They obtain residency status, find jobs, pay taxes, and they have children who are American citizens by birth; yet decades may go by before they seek citizenship for themselves or become active participants in the American political process. *Between Two Nations* examines the lack of political participation among Latin American immigrants in the United States to determine why so many remain outside the electoral process. Michael Jones-Correa studied the political practices of first-generation immigrants in New York City's multiethnic borough of Queens. Through intensive interviews and participant observation, he found that immigrant participation was stymied both by lack of encouragement to participate and by the requirement to renounce former citizenship, which raised the fear of never being able to return to the country of origin. The hesitation to naturalize as

American citizens can extend over decades, leaving immigrants adrift in a political limbo. *Between Two Nations* is the first qualitative study of how new immigrants assimilate into American political life. Jones-Correa reexamines assumptions about Latino politics and the diversity of Latino populations in the United States, about the role of informal politics in immigrant communities, and about gender differences in approaches to political activity. Dr Soufiani, founder and director of a civil engineering firm in London, is a London University PhD qualified and practising civil and environment engineer. He was researcher at University of London, research assistant at University of East London, and lecturer at Iran University of Science & Technology. Soufianis passion about Persian literature has steered him to over ten years of extensive research with a great Persian philosopher, Manuchehr Jamali. Jamali has managed to open up many incredible doors to him in comprehending Persian literature to its true meaning of values, love, unity, and dignity. Soufianis understanding of Eastern and Western cultures has given him a great leverage in his exploration of Persian literature in comparison with Western civilization and the lack of democracy in the Middle East. With this book, he highlights Persian literature as an invaluable asset and the lost key in

opening the lock of the declining morality in our modern world and the absence of democracy in the Middle East. The world must sincerely assist in exploration of this nations literature for the sake of morality. The Middle East must explore and use her own invaluable potential rich literature to rise and fl y from her own ashes to establish the ethical society that will give them the tools for building and establishing the foundation of a democratic system. Many Persian poems have been translated throughout this book to highlight the core values of beautiful Persian romantic and humanistic culture. In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated indicators on access to and use of formal

and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at [www.worldbank.org/globalindex](http://www.worldbank.org/globalindex).

Introduction The basic obligations of a state towards its nation(s) are to provide Justice, control of powers - of organizations or individuals - peace, advancement of understanding - including science - and economy. Freedom, although essential, is secondary and a consequence of justice and control of powers. Since its creation in 1948, Israel under

Zionism - Jewish Nationalism by reliance on international power(s) - has become a state of “abuse of powers, inherited from world powers”, a “place of anti-humanity acts, against the humane formal principles that it was founded on”, and a prophet of “transfer - forced migration - of the nations who helped its people to be transferred” in the region. In short, an inconsistency in the consistent humanity that arose from that region. There is a new enlightenment in the world, however, due to post era realities of the events: “end of the cold war”, “fall of the Soviet Union”, “Christian revolution in Poland”, “Islamic revolution in Iran”, “uprisings in Islamic world such as Intifada - uprising of Palestinians - and rise of Al-Qaeda”, “defeat of Israel by Hesbollah in Lebanon” and “re-evaluation of South-American and African countries of their political and economical situations”, on one hand, and “catastrophes of war in Iraq and the military assault on Gaza Strip” on the other hand. Based on this enlightenment, the people of the world adhere to: (i) Demand for maintaining the holy land - land of prophets - as a sacred region for all three great religions of Judaism, Christianity and Islam that have deep historical roots in the region, by reliance on their practical objectives - which are peace and justice for mankind - and not on their subjective

theological Ideas - due to interpretations which may be wrong, or unacceptable to the majority of the faithful - for unification of humanity, to promote peace and humanity justice around the world dominated by these three religions, on one hand, and to prevent disastrous events such as crusade wars or dominance by world powers such as Roman Empire, on the other hand; (ii) Remove the “threat to the world peace” and the “strategy of human transfer” in the Middle East, created by the dominant secular Zionist Ideology that exploits Judaism and Christianity under the unfounded theology of Dispensationalism of John Nelson Darby - devised before 1917 in Great Britain and presumed to be a basis for the Balfour declaration in 1917; (iii) Speak in a unified religious basis that the problem of Palestinian and Israelis can not be solved by ignoring the atrocities of Israeli government towards people of Palestine - by killing them purposefully as a result of strategy of transfer, looking at them inhumanely, and using the historic anti-humanity tactics of the king Herod (around 18 BCE) who killed and enslaved even Jews for the abuse of Roman Empire, against them - and instead obligate it to choose the humane tactics of Moses; And on the spectrum of power, require the United States - as a Christian Country - to choose between Roman

Empire Ideas and the Jesus' Ideas of humanity in its foreign policies. The rights of Palestinians in all aspects should be realized as justice suggests, and not as the power imposes. It is time for the people of the world to re-negotiate the establishment of Israel, on the basis of the principles promised to the nations of the world in 1947 and 1948. In this re- negotiation, the major goal must be the creation of a political system in the present state of Israel that guarantees independence of nations, equal rights of all nations, peace and humanity justice between the nations, and ends the suffering of people of Palestine by abusive power of Zionists. This book - based on the beliefs of it's author in a humane and just way to resolve the conflict in the Middle East - suggests a bi-national Federal system for a state consisting of nations of Palestinians - Moslem or Christians - and Jews, under provision The JPS Jewish Heritage Torah Commentary shows Jews of all ages and backgrounds that the Jewish people's most significant book is not dusty and irrelevant but an eternally sacred text wholly pertinent to our modern lives. Designed to keep the attention of all readers, each lively essay is both brief enough to be read in minutes and deep and substantive enough to deliver abundant food for thought. Its cornerstone is its unique four-part meditation on the Jewish heritage.

After briefly summarizing a Torah portion, the commentary orbits that portion through four central pillars of Jewish life—the Torah (Torat Yisrael), the land of Israel (Eretz Yisrael), the Jewish people (Am Yisrael), and Jewish thought (Mahshevet Yisrael)—illuminating how the four intersect and enrich one another. Furthering the Jewish thought motif, every essay ends with two questions for thought well suited for discussion settings. Each commentary can be used as the launchpad for a lesson, a sermon, a d’var Torah, or a discussion. Readers from beginners to experts will come away with new understandings of our Jewish heritage—and be inspired to draw closer to its four dimensions. In this new edition of his classic 1970 memoir about the notorious U-2 incident, pilot Francis Gary Powers reveals the full story of what actually happened in the most sensational espionage case in Cold War history. After surviving the shoot-down of his reconnaissance plane and his capture on May 1, 1960, Powers endured sixty-one days of rigorous interrogation by the KGB, a public trial, a conviction for espionage, and the start of a ten-year sentence. After nearly two years, the U.S. government obtained his release from prison in a dramatic exchange for convicted Soviet spy Rudolph Abel. The narrative is a tremendously exciting

suspense story about a man who was labeled a traitor by many of his countrymen but who emerged a Cold War hero. This carefully edited collection has been designed and formatted to the highest digital standards and adjusted for readability on all devices.

from pole to pole—the subject of immigration demands innovative inquiry. In *The Rhetorics of US Immigration*, some of the most prominent and prolific scholars in immigration studies come together to discuss the many facets of immigration rhetoric in the United States. *The Rhetorics of US Immigration* provides readers with an integrated sense of the rhetorical multiplicity circulating among and about immigrants. Whereas extant literature on immigration rhetoric tends to focus on the media, this work extends the conversation to the immigrants themselves, among others. A collection whose own eclecticism highlights the complexity of the issue, *The Rhetorics of US Immigration* is not only a study in the language of immigration but also a frank discussion of who is doing the talking and what it means for the future. From questions of activism, authority, and citizenship to the influence of Hollywood, the LGBTQ community, and the church, *The Rhetorics of US Immigration* considers the myriad venues in which the American immigration question emerges—and the interpretive framework suited to account for it. Along with the editor, the contributors are Claudia Anguiano, Karma R. Chávez, Terence Check, Jay P. Childers, J. David Cisneros, Lisa M. Corrigan, D. Robert DeChaine, Anne Teresa Demo, Dina Gavrilos, Emily Ironside,

Christine Jasken, Yazmin Lazcano-Pry, Michael Lechuga, and Alessandra B. Von Burg. Reprint of the original, first published in 1874. This book deals with the State of Israel as a binational political entity, focusing on patterns of political behavior in Israel today in an atmosphere of continuing crisis, growing fragmentation and polarization, and important changes in the country's domestic and international environment. This book is one of the first ever published on Haiti after the catastrophic Earthquake of January 12 2010. In *Haiti: The Refoundation of a Nation* we are introduced to the fruit of the authors long reflection and diligent research on the nature of the Haitian state and its difficult evolution through more than two hundred years of history. In it, the author believes that Haiti's errors began as far back as 1804, and therein lies the primary reason for its troubles. The state has unwittingly underdeveloped the country, thus any solution will inevitably work via the reconstruction efforts of the state and contribute to the development, at last, of the Nation. The earthquake of January 12, 2010, that destroyed Port-au-Prince and all physical symbols of governance within, added to the already existing concept of reconstruction of the Haitian state not only institutional applications, but now also a physical, infrastructural aspect; crafting the state and

also rebuilding its house. As it relates to infrastructure, Dr. Pauyo relies on the recommendations of experienced planners, geologists, architects and other scientific experts. He believes that it is time we learn to trust these scientists, those with knowledge and experience, and not amateurs or self-taught builders. Despite the challenges posed by the monstrous physical and institutional ruins of January 12th, Pauyo's work is a bold endeavor towards discovery. Haiti must flush out the erroneous tracks leading her nowhere. Her sons and daughters, welded with the international community, must pave new paths for the full development of this country, and the emergence of a just society and a proud nation!

Seminar paper from the year 2009 in the subject Politics - International Politics - Region: USA, grade: 3,0, University of Bonn (Institut für Politische Wissenschaft und Soziologie), course: American Foreign Policy in the Post-Cold War World, language: English, abstract: Following World War Two the world stood at a new beginning. The United States had finally taken its spot as Superpower acting globally and the Jewish people, after the horrors they had experienced under Nazi persecution were finally given the opportunity to return to what they considered their "promised land" to live in their own state. In 1948 the state of Israel

was officially founded and with it the entire Middle-East would change. While Imperialism and Colonialism had been dominating the centuries before a new world was about to begin, at the very least for the people in the Middle-East. Since then U.S. foreign policy in the Middle-East has been dominated by the United States' foreign policy towards Israel. The relations between these two nations has often been described as a special friendship, a friendship in which the two nations stick together regardless of right or wrong. This text undertakes the difficult task of examining the origins of this truly special friendship and the implications of this on U.S. foreign policy. One of the central questions to examine is without a doubt whether the United States' support for the state of Israel is based upon a small but powerful Jewish lobby within the United States or whether it is much more so because of fundamental ideals and values shared by both nations and its people. The text points out many fundamental ideologies and ideas about the world and the two nation's role in this world in an attempt to get to the root of this truly unique friendship between the United States and Israel. By taking corporate marketing concepts and applying it to countries, "nation branding" is a way for these regions to enhance their reputations and project a

desired image for international recognition. New modes of publicity and marketing geared towards geographic location fall into this category, leading nation branding to have vast benefits for the economics and societies of countries. New marketing strategies have emerged and are being adopted to consequently brand countries with this purpose of economic growth. By studying these emerging strategies and methods, nations can best develop a desired brand and reputation to foster growth and prosperity. The Handbook of Research on Future Policies and Strategies for Nation Branding discusses how exactly nation branding works to benefit the function and mission of these nations along with showing how nation branding can be used as a strategic asset for the redesign of economic, political, and social characteristics of a country. The chapters outline the given situation of nations and the nature and implications of the brand that is required, measure branding inference, and propose future steps for nation branding. This book is a critical reference source for brand managers, tourism professionals, marketers, advertisers, government officials, travel agencies, academicians, researchers, and students working in the fields of international relations, economics, social sciences, business studies, marketing, and entrepreneurship.

A casual encounter between an Oxford University-educated scion of a Nawabi family and a comely young woman belonging to a Christian family of Kumaon transformed into a 'happily ever after' alliance. Their romantic entanglement had as its backdrop of the tug-of-war between Congress and Muslim League in undivided India. When Irene converted to Islam, her family ostracised her. Liaqat Ali Khan (1896-1951) went on to become the first Prime Minister of Pakistan and his wife Irene Pant (1905-90) attained fame as his wife and fondly came to be known as Gul-e-Ra'ana. In the 1930s, women were not easily allowed to get an education or work. The writer Raj Gopal Singh Verma narrates the fascinating story of this famous couple in the style of a fast-paced historical novel set against the complexities and upheavals of that time. After Liaqat's assassination, the Begum brought up their two children alone and made a stellar contribution to Pakistan's political, social, and cultural domains. She also served as the country's finance minister and diplomat to several Western countries. On her return, she continued to work for empowerment of Muslim women of the country. She raised her voice against the dictatorial regime of Zia-ul-Haq. This book leaves no doubt that Irene Pant deserves to be counted as an iconic woman leader of South Asia,

but we hardly know her. In 1949, mounting tensions between the Soviet Union and the United States created an intense distrust between the two nations. This book tells the story of how that rivalry-known as the Cold War-dominated the foreign policies of the time, ultimately leading America into the Korean War and the Vietnam War. It also tells the story of how influential leaders, both black and white, advanced the cause of civil rights. Book jacket. As the United States and the rest of the world face the unprecedented challenge of aging populations, this volume draws together for the first time state-of-the-art work from the emerging field of the demography of aging. The nine chapters, written by experts from a variety of disciplines, highlight data sources and research approaches, results, and proposed strategies on a topic with major policy implications for labor forces, economic well-being, health care, and the need for social and family supports. "A novel that depicts the harsh living conditions of the working class in England, with a thesis that argues for action" --Provided by publisher.
