[Guardian of the Trust](#) May 30 2023 Can a descendant of Merlin and King Arthur bring peace between King John and an aging (and almost respectable) Robin Hood? The quest for peace and protection in Britain has passed down from the Merlin and Arthur the Pendragon to the sole survivor, Resmiranda Griffin. Raised in the Christian tradition, she refuses to acknowledge her magical talents or the existence of helpful fairies, until dark forces force her into the complex politics, both mundane and magical, that divides England from their lawful king, John Plantagenet. Inspired by a demon, her distant cousin Radburn Blakely whispers divisive advice into John's ear. Only Resmiranda can counter this darkness and lead England to what will create peace between a fearful king and his power-mad barons: The Magna Carta.

The Descendants 2 Sep 02 2023 With the death of his mother, and his father held captive by their enemies, Surreal found himself trusting the ones that surrounded him. But trusting the wrong one will cause a death that Surreal's inner God can't handle. Surreal and his friends traveled on the sea and land to get to the Olympia Stadium. During their journey, Surreal encouraged Rico to accept Xaniah as a mate and provoked feelings out of Nova. Surreal tried to make her understand that he wouldn't leave her and that it was okay for her to open up to him. Nova denied him of his request because of her past and forced his focus away from her. Surreal didn't complain. He began to think of ways to get his father back from Jael and his brothers. An option was given when they rescued a descendant from Jael's attack near a friend's palace. Surreal trusted him enough to be in the group, but Xaniah wasn't having it. After displaying the power that she has, Nova had to answer more questions that the group has. She isn't ready for that, but she knows that she has to give them something. When she did, Asteria threw her out of her mind and erased the encounter that

they had. Yentle and Naomi told Nova what the Titan Goddess was capable of. Nova didn't want to risk the chance of hurting her new loved ones and decided to keep her under. When she got more devastating news, Nova decided that the group would be better without her. With her bags packed and a window to crawl out of, a friend that she didn't expect was waiting on the other side to lend her a helping hand. A plan that was perfectly planned by Jael, had the descendants shook. He was willing to sacrifice it all to release his father from his tomb. With Bachman in the descendant's group, Jael knew exactly what he needed to do to defeat them. He was going to eliminate the weakness of Surreal and Xaniah. Will the descendants get it together in time, or will Jael's sacrifice cause them internal pain? *A Complete Indexed Digest of the United States Supreme Court Reports* Apr 28 2023

Voices in the Dark Dec 25 2022 Asking for the truth can be as painful as telling it. . . . Anselm Andros has clearly defined roles in his family and they are roles he plays very well—he is confidante to his mother, Maria. He is the confessor to his stepfather, Leo, a man haunted by the secrets of his past. And Anselm is also the patient, caring brother to his precocious sister, Jasmine. When the political landscape of Malonia starts to shift, this unassuming family begins to unravel. Even though they've spent the past fifteen years leading a quiet life, Maria and Leo's actions are forever linked to the turbulent history of Malonia and its parallel world, modern-day England. With so much uncertainty at home and in his world, it is more important than ever for Anselm to put all the pieces of the past together. He must listen to his own voice and acknowledge his fears and desires—whatever the cost.

Rise of the Isle of the Lost Apr 04 2021 Ride with the tide! Deep beneath the waves, King Triton's powerful trident has passed through the magical barrier that surrounds the Isle of the Lost—keeping villains in and magic out. And when Mal's longtime rival Uma, daughter of Ursula, gets wind of this, she can't believe her luck. The tide has dragged in something good for a change, and Uma is determined to get her wicked hands on it. But first, she needs a pirate crew. A storm is brewing back in Auradon, and when Mal, Evie, Carlos, and Jay hear that the trident has been washed away, they realize they'll have to find it before anyone from the Isle does. Luckily, they seem to have a talent for locating missing magical objects. As Uma readies for the high seas alongside Harry, son of Captain Hook, Gil, son of Gaston, and the toughest rogues on the Isle of the Lost, the reformed villains of Auradon devise their own master plan. And with King Ben away on royal business, they won't have to play by all the rules. Using bad for good can't be totally evil, right? The thrilling, perilous race to the trident pits old friends—and current enemies—against each other with the future of Auradon on the line. Both teams might like to make waves, but only one will come out on top of this one.

Down from the Trees May 25 2020 Down from the Trees: Man's Amazing Transition from Tree-Dwelling Ape Ancestors covers the evolution of man from tree-dwelling ape to Homo sapiens as he is today. Using easy-to-read language, the author takes complex, jargon-filled material and extracts the essence of the topic and conveys it in a clear and engaging manner. He approaches the subject of human evolution from three different disciplines: fossil evidence and its interpretation, evolutionary theory and its applicability, and genetic evidence and its ability to unlock prehistoric information. The third discipline has advanced unbelievably in the last few years, and this book includes the most up-to-date research. There is nothing more interesting to humans than the story of their origins. The evolutionary process of a tree-dwelling ape becoming a walking, talking man who has developed the technology to walk on the moon, transplant hearts, or modify living things is no trivial story. This book provides a fascinating and comprehensive view of what science has learned of human evolution.

The encyclopedia provides roughly 270 easily accessible entries on topics essential to understanding everything from Greek high culture to daily life.
