Excerpt: Imperial was the Chrysler Corporation's prestige automobile brand between 1955 and 1975, with a brief reappearance in 1981 to 1983. The Imperial name had been used since 1926, but was never a separate make, just the top-of-the-line Chrysler. In 1955, the company decided to spin it off as its own make and division to better compete with its rivals, Lincoln and Cadillac. Imperial would see new body styles introduced every two to three years, all with V8 engines and automatic transmissions, as well as technologies that would filter down to Chrysler corporation's other models. 1955 Imperial Newport 1955 Imperial Newport with rear view of free-standing "gunsight" taillights 1955 Imperial Newport For the 1955 model year, the Imperial was launched and registered as a separate marque, apart from the Chrysler brand. Excerpt: The Plymouth Valiant is an automobile manufactured by the Plymouth division of Chrysler Corporation in the United States from 1960 to 1976. It was created to give the company an entry in the compact car market emerging in the late 1950s. The Valiant was built and marketed worldwide in countries including Australia, Canada, Mexico, New Zealand, South Africa, Argentina, Brazil, Switzerland, Sweden, as well as other countries in South America and Western Europe. Road & Track magazine considered the Valiant to be "one of the best all-around domestic cars." In May 1957, Chrysler president Lester Lum "Tex" Colbert set up a committee to develop a competitor for the increasingly popular small imports. Virgil Exner, Chrysler's chief stylist, designed a car that was smaller and lighter than a full-size car without sacrificing passenger and luggage space. Originally named the Falcon after Exner's 1955 Chrysler Falcon concept car, the vehicle was renamed the 'Valiant' honoring Henry Ford II's request to use the name for the Ford Falcon. The Valiant debuted at the 44th International Motor Show in London on October 26, 1959. It was introduced as a 1960 model and was officially considered a distinct brand, advertised with the tagline 'Nobody's kid brother, this one stands on... The automotive industry underwent great change in the 1960s and the early 1970s. The continuing trend toward market consolidation, the proliferation of sizes and nameplates, and the "need for speed" characterized this period, loosely labeled as the muscle car era. This is an exhaustive reference work to American made cars of model years 1960–1972. Organized by year (and summarizing the market annually), it provides a yearly update on each make's status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options and their prices, curb weight and dimensions (interior and exterior), paint color choices, changes from the previous year's model, and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate. The book is profusely illustrated with 1,018 photographs. Saville hates sewing. How can she not when her father, the Tailor, loves his bolts of velvet and silk far more than he's ever loved her? Yet, when he is struck ill shortly after they arrive in the city of Reggen, Saville must don boy's clothes in the hopes of gaining a commission from the king to keep them fed. The kingdom is soon on edge when stories spread of an army of giants led by a man who cannot be killed. But giants are just stories, and no man is immortal. And then the giants do come to the city gates, two larger-than-life scouts whom Saville cunningly tricks into leaving. The Tailor of Reggen is the hero of the kingdom, the king promises his sister's hand in marriage, and by the time Saville reaches the palace doors, it is widely known that the Tailor single-handedly killed the giants. When her secret—that she's a girl—is quickly discovered by Lord Galen Verras, the king's cousin, Saville's swept into the twists and turns of court politics. The deathless man is very real, and he will use his giant army to ensure he is given the throne freely or by force. Now, only a tailor girl with courage and cunning can see beyond the tales to discover the truth and save the kingdom again. Debut author Sarah McGuire artfully crafts a story of understanding, identity, and fighting to protect those you love most in Valiant, a rich reimagining of "The Brave Little Tailor." Here is the definitive book on the sensational Chrysler Valiant Chargers of Australia. 1971 Wheels Magazine car of the year, the Charger still has a strong cult following. From the 1961 model year, the Valiant was classified as a Plymouth model. The 1961-62 Dodge Lancer was essentially a rebadged Valiant with different trim and styling details. The Valiant was less radical in configuration than General Motors' compact Chevrolet Corvair, which had an air-cooled rear-mounted engine, but was considered more aesthetically daring than the also-new Falcon which had a... The Plymouth Valiant, and its cousin the Dodge Dart, travelled Detroit's path from economy car to high-performance machine in style. Snazzier still, were the subsequent Plymouth Barracuda and Dodge Challenger relations that took on all comers in the pony and muscle car wars. By the mid '70s a change of pace saw Dodge Aspen and Plymouth Volaré meet the blend of economy, sports and luxury that buyers wanted. All through the years, and underpinning all models, was Chrysler Corp's engineering excellence. Such excellence was apparent on racetracks and drag strips across the country, so too were the exploits of racing heroes that became Mopar legends. Through hard times and corporate change, Chrysler returned with the modern Hemi V8 motorvated 300s, Chargers and Challengers. The Demon still lives at Highland Park. Marc Cranswick's knowledge and enthusiasm for the subject shine through in another unique homage to some of America's most iconic cars in MOPAR Muscle - Barracuda, Dart & Valiant 1960-1980.
