Screwed: First Time Gay Romance Jan 04 2022 "I never thought I'd want to get screwed by a mechanic ..." After a seedy auto repair shop over-charged the wrong customer, Miami 8 News secretly dispatches intern Liam Byrne to investigate. His assignment? To get ripped off by the crooked crew at Scud's Auto, and catch it all on camera. There's only one problem: hunky mechanic Paul Parisi keeps getting in the way. And even though the tall, muscular stud in the oil-stained jumpsuit swears he's straight, Liam's convinced they have a spark. With a promotion on the line, can Liam resist Paul's flirting and obtain the footage he needs? Can he keep his cover, or will Paul learn the truth? "Thanks to my past, I'm stuck here." For a guy who stands behind quality service, cutting corners is causing all sorts of stressors in Paul's life -- like an embarrassing failure to ignite with women. But when Paul takes a private test drive with a handsome customer, and talks revolve around pistons? Paul's engine doesn't just fire right up ... he throws a rod. And he's pretty sure Liam saw it, too. If anyone at the shop found out what they were up to, Paul knows he'd be out of a job. But Liam won't take his car elsewhere -- it's almost like the guy wants to get ripped off. What's his deal, anyway? *Screwed* is a 45,000 word first time gay romance! A light-hearted novel featuring a jacked and bi-curious mechanic, a terrible disguise, two men playing doctor, sex on Miami Beach, and more! No cliffhanger, no cheating, but the HEA is guaranteed.

It is about discovering and utilizing specific activities that will make your customers buy again and again...and tell the world why everyone else should buy from you too! Managing Customer Value Dec 03 2021 Even today with quality improvement the battle cry of American industry, the quality programs in most companies are limited to "conformance to technical standards," according to quality expert Bradley Gale. While some have ventured a step farther to measure customer satisfaction, few of them, Gale demonstrates, have attempted to track market-perceived "quality" -- how buyers select among competing suppliers, why orders are won or lost, and which competitors are succeeding in which market segments. Using cases including Milliken & Company; AT&T, United Van Lines, and Gillette, Gale shows how leading-edge companies have gone beyond the minimal achievements of conformance quality and customer satisfaction to focus on the third, higher stage, "market-perceived quality versus competitors" and aspire to an emerging fourth stage, "true strategic management." Drawing on his extensive research at AT&T, Johnson & Johnson, Parke-Davis, and other world-class companies, Gale provides new metrics for market-perceived quality that are straightforward and easy to interpret. His set of seven integrative tools for customer value analysis makes up the heart of the "war room wall" to help guide business-unit teams in their effort to outperform competitors in satisfying customers. The great value of these tools is that they are derived from a future-oriented strategic navigation system that tracks competitive information and market-perceived quality.

Learning to master this system accelerates customer satisfaction from a slogan to a science and leads ultimately to true strategic management -- the fourth stage of Total Quality Management. The processes described in this book provide an insider's perspective on the criteria of the Baldrige Award. Bradley Gale's insights and innovative methods for defining, measuring, and improving market-perceived quality will create an entirely new thrust for the worldwide quality movement.
