Fish Sticks, Sports Bras, & Aluminum Mar 31 2021 A revealing look at the history, politics, and social meanings behind everyday objects. Who would have guessed that the first sports bra was made out of two jockstraps sewn together or that it succeeded because of federal anti-discrimination laws? What do simple decisions about where to build a road or whether to buy into the carbon economy have to do with Hurricane Katrina or the Fukushima nuclear disaster? How did massive flood control projects on the Mississippi River and New Deal dams on the Columbia River lead to the ubiquity of high fructose corn syrup? And what explains the creation—and continued popularity—of the humble fish stick? In *Fish Sticks, Sports Bras, and Aluminum Cans*, historian Paul R. Josephson explores the surprising origins, political contexts, and social meanings of ordinary objects. Drawing on archival materials, technical journals, interviews, and field research, this engaging collection of essays reveals the forces that shape (and are shaped by) everyday objects. Ultimately, Josephson suggests that the most familiar and comfortable objects—sugar and aluminum, for example, which are inextricably tied together by their linked history of slavery and colonialism—may have the more astounding and troubling origins. Students of consumer studies and the history of technology, as well as scholars and general readers, will be captivated by Josephson’s insights into the complex relationship between society and technology. “Josephson’s conclusions are guaranteed to make you think of the modern world and its interconnectedness in a different light.”

The Oxford Handbook of Sports Economics: Volume 1: The Economics of Sports Jan 29 2021 Stephen Shmanske and Leo Kahane have brought together nearly all of the important authors in the quickly growing field of Sports Economics to contribute chapters to this two-volume set. The result is truly informative in its content and path breaking in its importance to the field. Anyone contemplating research in the field of sports economics will find the works in these volumes to provide both ample background in subject after subject and numerous suggestions for future avenues of research. The editors have recognized two ways that economics and sports interact. First, economic analysis has helped everyone understand many of the peculiar institutions in sports. And second, quality data about individual productivity, salaries, career histories, teamwork, and managerial behavior has helped economists study topics as varied as the economics of discrimination, salary dispersion, and antitrust policy. These two themes of economics helping sports and sports helping economics provide the organizational structure to the two-volume set. The reader will find that sports economists employ or comment on practically every field in economics. Labor Economics comes into play in the areas of salary formation, salary dispersion, and discrimination. Baseballs history and the NCAA are studied with Industrial Organization and Antitrust. Public Finance and Contingent Value Modeling come into play in the study of stadium finance and franchise location. The Efficient Market Hypothesis is examined with data from

gambling markets. Macroeconomic effects are studied with data from mega events like the Super Bowl, The World Cup, and the Olympics. The limits of Econometrics are pushed and illustrated with superb data in many of the papers herein. Topics in Applied microeconomics like demand estimation and price discrimination are also covered in several of the included papers. Game Theory, measurement of production functions, and measurement of managerial efficiency all come into play. Talented authors in each of these fields have made contributions to these volumes. The volumes are also rich from the point of view of the sports fan. Every major team sport is covered, and many interesting comparisons can be made especially between the North American League organization and the European-style promotion and relegation leagues. Golf, NASCAR, College athletics, Womens sports, the Olympics, and even bowling are represented in these pages. There is literally something for everyone.
