Championships, and were amazingly successful for almost a decade. All types combined high-performance, great reliability, and superb preparation by Toyota Team Europe (based in Cologne, Germany), their 300bhp/four-wheel-drive chassis package being among the best in the world. Over the years, the cars won some of the roughest events in the world (such as the Safari and the Acropolis), and were also supreme on tarmac, snow and ice, including Monte Carlo. After fighting a running battle with Lancia for years, the Celicas won the World Manufacturers' Championship twice. Its famous drivers included Carlos Sainz (World Champion in 1990 and 1992), Juha Kankkunen (Champion in 1993) and Didier Auriol (Champion in 1994). Never far from controversy, and at times embroiled in technical and regulatory disputes, these cars brought real glamour to the colourful sport of rallying, and were only replaced by an even higher-tech Toyota – the Corolla World Rally Car – in 1997. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship. Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented by stunning photography. The book includes a detailed and accurate statistical career record of each driver, plus highlights of all the significant cars. New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 11.0px Arial} The Celica, as well as a much-loved road car, was the first Japanese model to claim the World Rally Championship crown. This book tells the full story of the seven Celica generations (from 1970 to date), and that of its close cousin the Supra with detailed coverage of all the road cars from the world's leading markets, and the story surrounding the many race and rally models based on the two vehicle lines. Written with the full co-operation of the factory in Japan (and various official sales organizations from around the globe), this truly is the definitive history of these sporting Toyotas. Written by an acclaimed motoring historian with full co-operation from the factory this is an extremely comprehensive reference containing well over 250 mainly color photographs. Contemporary advertising brochures and exhaustive appendices complete the package making this a vital addition to any enthusiast's library. Popular Science gives our readers the

Excerpt: The Lexus LFA is a two-seat supercar from Lexus. It is the second model in the F marque line of performance vehicles from Lexus, following the IS F. Three concept versions have been shown, each debuting at the North American International Auto Show with the LF-A designation as part of the LF Series concept line. After beginning development in the early 2000s (codenamed P280), the first LF-A concept premiered in 2005, followed in 2007 by a second LF-A with a more completely furnished interior and exterior. The third version of the LF-A, a roadster model, premiered in 2008. The production model, trademarked LFA, was shown at the Tokyo Motor Show in October 2009. The production Lexus LFA features a new V10 engine and a carbon fiber-reinforced polymer (CFRP) body. CFRP materials account for 65 percent of the LFA's body composition by mass. The LFA went into production in late 2010, with a projected run of 500 vehicles at the base price of . A circuit-tuned variant debuted in 2012 with a base price of, making it the most expensive Japanese road car ever built. In February 2000 the LF-A began development as a supercar project codenamed P280, which was intended to showcase the performance capabilities of Toyota Motor Corporation and its Lexus marque. The first prototype was completed during June 2003. Prototypes of the LF-A were spotted regularly undergoing testing at Nurburgring, the famous motorsport race track in Nurburg, Germany, since October 2004. Numerous test vehicles had been equipped with automatic retractable rear wings, and carbon ceramic brake discs. The first..."
