Public Value and Social Development Sep 09 2021

This book aims to seek for the truth which connects public value and social development as basis to build a harmony community for individuals as well as society. The book tries to bridge science, technology, economics, politics, history, ethics, and environment under the concept of public values, and reveals the essentials of public policy for individual and social development. The potential audience of the book are officials and policy makers in the public sectors, as well as managers in the private sectors.

Complex Networks & Their Applications X Jun 30 2023

This book highlights cutting-edge research in the field of network science, offering scientists, researchers, students, and practitioners a unique update on the latest advances in theory and a multitude of applications. It presents the peer-reviewed proceedings of the X International Conference on Complex Networks and their Applications (COMPLEX NETWORKS 2021). The carefully selected papers cover a wide range of theoretical topics such as network models and measures; community structure, network dynamics; diffusion, epidemics and spreading processes; resilience and control as well as all the main network applications, including social and political networks; networks in finance and economics; biological and neuroscience networks, and

technological networks.
