How to Use Technology Effectively in Post-Compulsory Education May 01 2021 The use of technology within the lifelong learning sector brings many benefits to learners, teachers and managers. Aimed at trainee and practising teachers, this book contains clear, practical guidance on how to use technology and e-learning effectively to enhance all aspects of teaching and learning in the post-compulsory sector. Alan Clarke explains the technologies that are available and how to use them from whiteboards and virtual learning environments to digital photographs, podcasts and e-portfolios. Each chapter is fully aligned with the new LLUK standards and includes teaching strategies, practical examples and case studies to show how these work in practice. Chapters include guidance on: using e-portfolios, blogs and wikis to present and share information with colleagues and encourage reflection motivating students and promoting collaboration using mobile devices, discussion groups and forums how to use ICT to develop literacy and numeracy skills ways to keep up to date with new and emerging technologies using technology safely and securely. Including a wide range of activities, questions for reflective practice and links to further sources of information, this essential textbook will help trainee and practising teachers in post-compulsory education to understand the major ILT tools and use them confidently and effectively in their teaching.

Effective Surveillance for Homeland Security Jul 27 2023 Effective Surveillance for Homeland Security: Balancing Technology and Social Issues provides a comprehensive survey of state-of-the-art methods and tools for the surveillance and protection of citizens and critical infrastructures against natural and deliberate threats. Focusing on current technological challenges involving multi-disciplinary problem analysis and systems engineering approaches, it provides an overview of the most relevant aspects of surveillance systems in the framework of homeland security. Addressing both advanced surveillance technologies and the related socio-ethical issues, the book consists of 21 chapters written by international experts from the various sectors of homeland security. Part I, Surveillance and Society, focuses on the societal dimension of surveillance—stressing the importance of societal acceptability as a precondition to any surveillance system. Part II, Physical and Cyber Surveillance, presents advanced technologies for surveillance. It considers developing technologies that are part of a framework whose aim is to move from a simple collection and storage of information toward proactive systems that are able to fuse several information sources to detect relevant events in their early incipient phase. Part III, Technologies for Homeland Security, considers relevant applications of surveillance systems in the

framework of homeland security. It presents real-world case studies of how innovative technologies can be used to effectively improve the security of sensitive areas without violating the rights of the people involved. Examining cutting-edge research topics, the book provides you with a comprehensive understanding of the technological, legislative, organizational, and management issues related to surveillance. With a specific focus on privacy, it presents innovative solutions to many of the issues that remain in the quest to balance security with the preservation of privacy that society demands.

Digital Citizenship in Schools, Second Edition Nov 19 2022 Digital Citizenship in Schools, Second Edition is an essential introduction to digital citizenship. Starting with a basic definition of the concept and an explanation of its relevance and importance, author Mike Ribble goes on to explore the nine elements of digital citizenship. He provides a useful audit and professional development activities to help educators determine how to go about integrating digital citizenship concepts into the classroom. Activity ideas and lesson plans round out this timely book.

Practical Tips for Developing Your Staff Feb 27 2021 This book offers innovative tips and tried-and-tested best practice to enable library and knowledge workers to take control of professional development regardless of the budget and time available to them. Continuing professional development (CPD) is a key component of a successful and satisfying career. Part of the Practical Tips for Library and Information Professionals series, this book offer a wide range of ideas and methods for all library and information professionals to manage the development of those who work for and with them. You will find flexible tips and implementation advice on topics including: - enabling others to plan, reflect on and evaluate their personal development - appraisals and goal setting: linking personal objectives to organizational objectives - performance management - sourcing funding to attend and run events - planning formal development activities such as courses and conferences - accessing informal activities - using social media as a development tool - the role of professional bodies and networks mentoring, buddying and coaching networking. Readership: All library and information professionals who have responsibility for managing, mentoring and training staff and individuals wishing to manage their own CPD.

Negation in Uralic Languages Dec 28 2020 The grammaticalized expression of negation is a linguistic universal. This volume deals with negation in the Uralic language family in a typological perspective. As in no other major language family before, a comprehensive typological questionnaire provides the basis for the chapters documenting negation in 17 languages. Most of them are endangered. The chapters highlight negative auxiliary verbs—the special Uralic feature—and their ways of combining with the rich inventory of other negators in different types of clauses, as well as negative replies, negative indefinites, abessives/caritives/privatives, scope, polarity and emphatic negation. Selected aspects of negation, such as negative indefinites, negation of non-verbal predicates and information structure, are discussed in more detail in five further chapters. The book brings new typologically informed perspectives on negation in the Uralic family, and it provides valuable data and insights for any linguist working on negation.

The Transformative Potential of Participatory Budgeting Apr 24 2023 In this book, George Robert Bateman, Jr. presents a philosophical examination of the potential benefits of participatory budgeting (PB), with recommendations of how they might be realized. The work of social philosophers like Thomas Jefferson, John Dewey, Robert Putnam are studied to better understand the potential benefits and their effect on individuals and communities. Using social provisioning and John Fagg Foster's theories of instrumental value and institutional adjustment, Bateman demonstrates how participatory budgeting in New York City (PBNYC) can realize its full potential and transform individual participants into their better selves and also transform their communities. This transformation can occur when participants are able to make decisions about things that matter in their lives. As more of us become empowered and actively engaged in deliberations concerning local economic/political issues the more we will experience public happiness, greater understanding of others, greater development of our morality, and an increased sense of belonging. The Transformative Potential of Participatory Budgeting will be of great interest to scholars in the fields of normative political theory, political philosophy, local politics, heterodox economics, institutional economics, political sociology, urban sociology, and community sociology.

BIALL Handbook of Legal Information Management Dec 20 2022 The second edition of this popular handbook has been thoroughly updated by the original team of experts and some new contributors, to provide current best practice guidance on the key legal information issues for every type of service. Each of the chapters is updated to reflect general changes in law libraries and their users in the past seven

years. In particular, the handbook covers new information technologies, including social networking and communication. New chapters also focus on the key topics of outsourcing, and the impact of the 2007 Legal Services Act. The second edition of this valuable handbook continues to be an important professional reference tool for managers and staff of all types of legal information services, and will help them with the challenges they face in their work every day.

Forgotten Continent: The Battle for Latin America's Soul Oct 06 2021 The bestselling primer on the social, political, and economic challenges facing Central and South America by The Economist editor and author of *Brazil*. Latin America has often been condemned to failure. Neither poor enough to evoke Africa's moral crusade, nor as explosively booming as India and China, it has largely been overlooked by the West. Yet this vast continent, home to half a billion people, the world's largest reserves of arable land, and 8.5 percent of global oil, is busily transforming its political and economic landscape. This book argues that rather than failing the test, Latin America's efforts to build fairer and more prosperous societies make it one of the world's most vigorous laboratories for capitalist democracy. In many countries—including Brazil, Chile and Mexico—democratic leaders are laying the foundations for faster economic growth and more inclusive politics, as well as tackling deep-rooted problems of poverty, inequality, and social injustice. They face a new challenge from Hugo Chávez's oil-fueled populism, and much is at stake. Failure will increase the flow of drugs and illegal immigrants to the United States and Europe, jeopardize stability in a region rich in oil and other strategic commodities, and threaten some of the world's most majestic natural environments. Drawing on Michael Reid's many years of reporting from inside Latin America's cities, presidential palaces, and shantytowns, the book provides a vivid, immediate, and informed account of a dynamic continent and its struggle to compete in a globalized world. "No one who seriously aspires to discuss Latin American politics, economics, and culture should go without reading *Forgotten Continent*."—National Interest

Occupational Therapy Practice Framework Jan 09 2022 The Framework, an official AOTA document, presents a summary of interrelated constructs that define and guide occupational therapy practice. The Framework was developed to articulate occupational therapy's contribution to promoting the health and participation of people, organizations, and populations through engagement in occupation. The revisions included in this second edition are intended to refine the document and include language and concepts relevant to current and emerging occupational therapy practice. Implicit within this summary are the profession's core beliefs in the positive relationship between occupation and health and its view of people as occupational beings. Numerous resource materials include a glossary, references and a bibliography, as well as a table of changes between the editions.

Improving Learning Through Assessment Rubrics: Student Awareness of What and How They Learn May 21 2020 Assessment by rubrics has emerged as a tool with great potential to guide successful student learning from a competency-based approach. Rubrics, as instruments that make it possible to share the criteria for carrying out learning and assessment tasks with students, are excellent roadmaps for student learning largely because they allow students to know what they are expected to do and what they are expected to achieve by carrying out the learning tasks. *Improving Learning Through Assessment Rubrics: Student Awareness of What and How They Learn* contributes to the improvement of what is being evaluated by identifying the strengths as well as the weaknesses of the didactic use of rubrics in the assessment of university learning. The book also provides a set of theoretical issues, methodological elements, and practical resources for the assessment of university learning using rubrics. Covering topics such as active learning, self-assessment, and teacher identity, this reference work is ideal for administrators, policymakers, researchers, scholars, academicians, practitioners, educators, and students.

Creating Your Best Life Nov 26 2020 The passion for life lists has spawned an industry that includes thoughtful experts such as Caroline Miller, a life coach and motivational book author, and Dr. Michael Frisch, a positive psychology coach and clinical psychologist at Baylor University. Working together, they have fashioned the most useful, science-based, and up-to-date book on the topic of goal setting and accomplishment. *Creating Your Best Life* supplies dozens of interactive exercises and quizzes readers can use to identify their most cherished needs, ambitions, and wishes. The exercises are fun, making the process of self-discovery enjoyable and productive. The authors' unique "life list coaching" program organizes life lists into 16 key areas that are universally known to make people happy--to help you actually achieve your aspirations. No other life list book offers research-validated information on why certain steps matter in goal accomplishment, or even how goals are connected with any type of life

satisfaction. Readers will feel both educated and inspired to start writing goal-setting lists in order to live their lives more consciously, productively, and happily.

Knowledge Management for Libraries May 13 2022 Libraries are creating dynamic knowledge bases to capture both tacit and explicit knowledge and subject expertise for use within and beyond their organizations. Knowledge Management for Libraries guides the reader through the process of planning, developing, and launching their own library knowledge base.

L2 Collaborative Writing in Diverse Learning Contexts May 25 2023 This book is the first edited volume to compile up-to-date scholarship that discusses frontier knowledge on second language (L2) collaborative writing (CW) and highlights technology-mediated solutions to it. The volume consists of conceptual papers and empirical studies that explore theoretical, methodological, and pedagogical approaches to CW in face-to-face, online, and hybrid learning contexts. The ten chapters of the book are divided into three sections: (1) theoretical perspectives and a methodological review of CW; (2) empirical research addressing the processes, products, and effects pertaining to CW; (3) pedagogical aspects relevant to CW, namely task design, technology use, and assessment. By examining the implementation of various CW tasks across modes, genres, and L2 learning settings, this book re-evaluates the practices of CW and illustrates how diverse forms of CW can facilitate students' L2 learning and writing development.

Crystallizing Ideas – The Role of Chemistry Sep 05 2021 Twenty-three carefully selected, peer-reviewed contributions from the International Conference on Pure and Applied Chemistry (ICPAC 2014) are featured in this edited book of proceedings. ICPAC 2014, a biennial meeting, was held in Mauritius in June 2014. The theme of the conference was “Crystallizing Ideas: The Role of Chemistry” and it matched the declaration of the year 2014 as the International Year of Crystallography. ICPAC 2014 was attended by 150 participants from 30 countries. The chapters in this book reflect a wide range of fundamental and applied research in chemistry and interdisciplinary subjects. Crystallizing Ideas - The Role of Chemistry is written for graduates, postgraduates, researchers in industry and academia who have an interest in the fields ranging from fundamental to applied chemistry.

Distributed Application Development with PowerBuilder 6 Jul 03 2021 Covering PowerBuilder (DPB) in great detail, going over various concepts and components that are involved with building an application and making it available over the network, this resource begins with an explanation of the main thrust behind distributed computing, followed by the steps of creating a simple application. An exploration of how PowerBuilder can be used in distributed solutions both with and without using DPB is also provided.

Biofuel Production Jul 15 2022 This book aspires to be a comprehensive summary of current biofuels issues and thereby contribute to the understanding of this important topic. Readers will find themes including biofuels development efforts, their implications for the food industry, current and future biofuels crops, the successful Brazilian ethanol program, insights of the first, second, third and fourth biofuel generations, advanced biofuel production techniques, related waste treatment, emissions and environmental impacts, water consumption, produced allergens and toxins. Additionally, the biofuel policy discussion is expected to be continuing in the foreseeable future and the reading of the biofuels features dealt with in this book, are recommended for anyone interested in understanding this diverse and developing theme.

Using Web 2.0 and Social Networking Tools in the K-12 Classroom Jan 29 2021 Here's a book that describes Web 2.0 tools in-depth, models Web 2.0 tools through classroom examples, explains how to get started with each tool, presents practical unit plans illustrating the use of Web 2.0 in the K-12 content-area curricula, and identifies and describes what tools are most useful to educators for networking, productivity and insight into the technologies. Part 1 of each chapter answers many questions you will have about Web 2.0 and social networking tools: What is the tool? Why use it with students? How are K-12 classrooms using the tool? Can you provide me with specific examples for my science, history, or language arts curriculum? Part 2 describes specific tools and the steps to get started. Part 3 contains a detailed sample unit plan, teacher exercises and a summary following. Screen shots of websites are used to make the advice straightforward and easy to understand. You'll find an entire chapter on special instruction for ESL students with objectives, tools, and K-12 classroom examples. To help you implement Web 2.0 tools beyond the curriculum, there's even a chapter devoted to technology tools specifically designed for teachers and librarians to use for personal productivity, communication, and collaboration. The conclusion offers ideas for integrating Web 2.0 in art, music, and health. Exciting examples of the book's contents include: Collaborating and Communicating with Blogs Creating Multidisciplinary Wikis Google Tools: Enhancing Instruction in the Science Curriculum K-12 Classrooms Join the Social

Networking Revolution Using VoiceThread and Video to Improve Language Development Creating Community In addition to the great content you'll find in the book, *Using Web 2.0 and Social Networking Tools in the K-12 Classroom* features a companion Web site that provides the most current curriculum examples from pioneering educators around the world, as well as up-to-date exercises and lessons in subject areas and grade levels.

Complementary Democracy Aug 28 2023 Democracy is on the run, and elected governments are suffering from a legitimacy crisis. Legislatures are increasingly seen as unrepresentative. To give legitimacy to democratic government, experts argue that we need more democracy and more opportunities for direct citizen participation. Representative democracy needs to be complemented by forms of direct engagement, such as referendums, popular votes, the recall, citizens' juries, eDemocracy, etc. This is what we term Complementary Democracy. In this book experts from the worlds of practice and theory come together to explain – and occasionally critique – these complements to representative democracy. The volume provides an invaluable starting point for anyone who wants to know more about the new directions of democratic governance, and hopes to inspire those who seek to build stronger democracies.

Systematic Classroom Assessment Sep 24 2020 Systematic Classroom Assessment promotes a fresh vision of assessment for student learning and achievement. Using a framework that positions assessment as both an iterative, purposeful cycle of inquiry for teachers as well as a coherent system of activities through which students engage in their own learning, this framework for classroom assessment is unique in incorporating self-regulated learning, motivation, and non-cognitive processes. Key components such as assessment for learning, feedback, emerging technologies, and specific content areas are treated in depth, and fundamental principles like reliability, validity, and fairness are approached from the classroom perspective.

Role Development in Professional Nursing Practice Apr 19 2020 Role Development in Professional Nursing Practice, Sixth Edition, is comprehensive resource to guide students along their journey as professional nurses.

Motivation, Leadership and Curriculum Design Jan 21 2023 This book discusses the links between the basis of motivational, leadership and curricular constructs with regards to 21st century and net-generation learning. It brings together recent developments in motivation, educational leadership and curriculum design in order to offer a better understanding of what is already known and what is yet to be explored in these fields. It consists of a collection of findings on recent educational developments, including topics such as motivating the 21st century learner, leadership practices and influences, curriculum design and models, novel learning environments and 21st century learners and their needs.

The One Thing You Need to Know Mar 31 2021 Drawing on a wide body of research, including extensive in-depth interviews, *THE ONE THING YOU NEED TO KNOW* reveals the central insights that lie at the core of: Great Managing, Great Leadership and Great Careers. Buckingham uses a wealth of relevant examples to reveal that at the heart of each insight lies a controlling insight. Lose sight of this 'one thing' and all of your best efforts at managing, leading, or individual achievement will be diminished. For great managing, the controlling insight has less to do with fairness, or team building, or clear expectations (although all are important). Rather, the one thing great managers know is the need to discover and then capitalize on what is unique about each person. For leadership, the controlling insight is the opposite - discover and capitalize on what is universal to all your people, regardless of differences in personality, race, sex, or age. For sustained individual success, the controlling insight is the need to discover what you don't like doing, and know how and when to stop doing it. In every way a groundbreaking work, *THE ONE THING YOU NEED TO KNOW* offers crucial performance and career lessons for business people at every level.

Amazon Sellers' Guide: Copyright Law Jun 14 2022 Rosenbaum Famularo, P.C., the law firm behind AmazonSellersLawyer.com, helps Amazon Sellers around the world. This book, the latest in a series, focuses on U.S. Copyright Law and how it comes into play on the Amazon platform. This book aims to explain Copyright Law, teach Amazon Sellers how to register for copyright protection, fight copyright infringers, and ensure Sellers do not inadvertently infringe another's copyrights.

Tackling Poverty and Social Exclusion Aug 04 2021 In our highly unequal Britain poverty and social exclusion continue to dominate the lives of users of social work and social care services. At the same time, spending cuts and welfare reform have changed the context within which services are delivered. The third edition of this unique textbook seeks to capture the complexity and diversity of practice relating to social exclusion as social workers adapt to this challenging environment. *Tackling Poverty and Social*

Exclusion prepares practitioners to engage directly with the social and personal circumstances facing excluded individuals and their families. The volume: • Explains the development of the concept of social exclusion as a framework for understanding the impact of poverty and other deprivations on users' lives and outlines five building blocks for combating exclusion in practice; • Locates practice within social work values of fairness and social justice while acknowledging the many challenges to those values; • Includes individual chapters on excluded children and families, young people and adults -- with chapters also on practice in disadvantaged neighbourhoods and rural communities; • Discusses inclusionary practice in relation to racism as well as refugees and asylum seekers. Throughout, the book encourages students and practitioners to think through the range of approaches, perspectives and value choices they face. To facilitate engagement each chapter includes up-to-date practice examples, case studies and specific questions for readers to reflect on.

Making Intellectual Property Work for Business - A Handbook for Chambers of Commerce and Business Associations Setting Up Intellectual Property Services Aug 24 2020 This publication provides practical guidance on the key areas where business membership organizations can integrate intellectual property into their services. This user-friendly handbook is written to support a wide range of basic to more advanced intellectual property services and contains a large number of references to online resources.

Crossing the Chasm Dec 08 2021 Here is the bestselling guide that created a new game plan for marketing in high-tech industries. Crossing the Chasm has become the bible for bringing cutting-edge products to progressively larger markets. This edition provides new insights into the realities of high-tech marketing, with special emphasis on the Internet. It's essential reading for anyone with a stake in the world's most exciting marketplace.

An Introduction to Systematic Reviews Oct 18 2022 Focused on actively using systematic review as method, this book provides clear, step-by-step advice on the logic and processes of systematic reviewing. Stressing the importance of precision and accuracy, this new edition carefully balances a need for insightful theory with real-world pragmatism; it introduces a wide range of cutting-edge approaches to research synthesis including text mining, living reviews and new ideas in mixed methods reviews such as qualitative comparative analysis. The book also includes: A new chapter on statistical synthesis Coverage of computer-assisted methods and relevant software Expanded sections on data extraction and management A guide to working with many different types of data including longitudinal and panel. Packed with examples from across the social sciences, this book helps students and researchers alike in turning systematic reviews into recommendations for policy and practice.

The Articulate Mammal Sep 17 2022

Teaching ELLs Across Content Areas Feb 10 2022 The book, *Teaching ELLs Across Content Areas: Issues and Strategies*, is a unique, useful text written for K-12 teachers. This book is the culmination of the professional knowledge, expertise, and experience from the distinguished authors who represent the entire range of the content areas, including: language arts, science, mathematics, technology, arts, psychology, and Hispanic studies. The ELL school population has reached 5.3 million with the increase rate of 51 percent from School Year 1998-1999 to 2008-2009 (NCELA, 2012). By 2025, one out of four K-12 students will be ELLs (NEA Policy Brief, 2013). The NEA data states that the ELLs are the fastest-growing student population group in our schools and providing them with high-quality services and programs is an important investment in America's future (NEA Policy Brief, 2013). With the fast growth of the ELLs in schools, basic information and strategies are needed by all K-12 teachers. This book provides useful information and strategies for all K-12 teachers in content classrooms. This book has three significances. First, the book provides the most needed information for K-12 teachers with issues and strategies that are important in content areas to help ELLs' success. With the fast growth of the ELLs in schools, K-12 teachers need this information in content classrooms. Second, the book fills the gap related to teaching ELLs in content areas. There are some existing books with titles on teaching ELLs across content areas; yet, these books provide general information with fewer books that really address specific content topics. This book is unique because it has the dedicated chapters for specific content areas, e.g., Language Arts, Science, Math, Social Studies with issues and strategies in these respective contents as well as general information, e.g., L2 theories for teachers to know and work with ELLs. Third, the book is reader-friendly with carefully crafted chapters. Each chapter begins with a scenario to catch the reader's attention, is followed by issues and strategies, and ends with a summary. A scenario begins with each chapter for teachers to get to know the ELLs with the content that focuses on the related information and teaching strategies. With the continued increase in the ELL school population, this book is intended helping all

K-12 teachers in content areas have knowledge and strategies to better serve their ELLs.

Mathematicians' Reflections on Teaching Jun 02 2021

Redesigning Educational Leadership Preparation for Equity Oct 26 2020 Delivering equity for PK-12 learners is an essential aim for educational leadership preparation programs. This book serves as a resource for equity-focused design and redesign through innovation, improvement and impact. Based on direct experience while also drawing from innovative exemplars, and unpacking a decade of program improvement practice, this book explores how to foster partnerships and pipelines, recruit and select candidates, map the curriculum, develop powerful learning experiences, create field experiences, design program evaluation, and support faculty learning. Chapters open with a vignette that presents scenarios in which many faculty members find themselves, particularly when programs are in need of improvement. Drawing on years of experience facilitating redesign, the authors offer both processes and resources to assist faculty, including diagnostic tools, sample agendas, templates, guiding questions, and suggested protocols. Whether facing new accreditation requirements, state program approval changes, institutional redesign challenges or as part of a grant funded redesign, this book is a critical resource for educational leadership faculty and program coordinators looking to garner the appropriate resources, ask the right questions, and follow reliable processes in program design and continuous improvement toward equity. Chapter resources and templates available for download online at <https://www.routledge.com/9780367673543> on the tab that is entitled "Support Material." Please also join Redesign.Improve.Innovate—an online forum focused on preparation and practice improvement found here: www.RedesignImproveInnovate.org.

Graduate Employability and Workplace-Based Learning Development Mar 23 2023 This book presents a comprehensive discussion of sociocultural perspectives on graduate employability and workplace-based learning development. It draws on Vygotsky's theories such as situated learning and sociocultural perspectives, as well as the constructivist learning theory. This book showcases theoretical and empirical analyses that show how institutions, decision-makers or academics can work together to enhance job employability in this age of uncertainty. It discusses issues such as the development of emerging and employability skills, examines research in higher education and workplace-based learning development, and proposes directions for the changing nature in real-world settings. This book details empirical research in the field using quantitative, qualitative and mixed method approaches, and summarizes the key conclusions pertaining to graduate employability skills as well as workplace learning culture and technology-mediated environment. It includes contributions from experienced international scholars, and offers detailed insights for readers who want a timely understanding of research trends in graduate employability and workplace-based learning development.

Curriculum and Teaching Dialogue Mar 11 2022 Curriculum and Teaching Dialogue (CTD) is a publication of the American Association of Teaching and Curriculum (AATC), a national learned society for the scholarly field of teaching and curriculum. The field includes those working on the theory, design and evaluation of educational programs at large. At the university level, faculty members identified with this field are typically affiliated with the departments of curriculum and instruction, teacher education, educational foundations, elementary education, secondary education, and higher education. CTD promotes all analytical and interpretive approaches that are appropriate for the scholarly study of teaching and curriculum. In fulfillment of this mission, CTD addresses a range of issues across the broad fields of educational research and policy for all grade levels and types of educational programs.

Marketing for Sustainable Tourism Apr 12 2022 Tourism marketing has typically been seen as exploitative and fuelling hedonistic consumerism. Sustainability marketing can, however, use marketing skills and techniques to good purpose, by understanding market needs, designing more sustainable products and identifying more persuasive methods of communication to bring behavioural change. This book summarises the latest research on the theories, methods and results of marketing that seeks to make tourist destinations better places to live in, and better places to visit. It shares evidence on the motivations, mechanisms and barriers that businesses encounter, and on successes in changing consumer behaviour and pursuing sustainability goals. Particular attention is given to the methodologies of sustainable tourism marketing, to the subject's breadth and complexity, and to its many innovations. Further research is called for to fully understand what contextual aspects influence these pro-sustainability interventions to achieve which outcomes in other settings, in order to validate some of the exploratory studies discussed, and establish the feasibility of scaling up pilot studies for more general use. This book was originally published as a special issue of the Journal of Sustainable Tourism.

Essentials of Business Communication Nov 07 2021 **ESSENTIALS OF BUSINESS COMMUNICATION, 9TH EDITION** presents a streamlined approach to business communication that includes unparalleled resources and author support for instructors and students. **ESSENTIALS OF BUSINESS COMMUNICATION** provides a four-in-one learning package: authoritative text, practical workbook, self-teaching grammar/mechanics handbook, and premium Web site. Especially effective for students with outdated or inadequate language skills, the Ninth Edition offers extraordinary print and digital exercises to help students build confidence as they review grammar, punctuation, and writing guidelines. Textbook chapters teach basic writing skills and then apply these skills to a variety of e-mails, memos, letters, reports, and resumes. Realistic model documents and structured writing assignments help students build lasting workplace skills. The Ninth Edition of this award-winning text features increased coverage of electronic messages and digital media, redesigned and updated model documents to introduce students to the latest business communication practices, and extensively updated exercises and activities. **Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.**

How to Give Effective Feedback to Your Students, Second Edition Feb 22 2023 Properly crafted and individually tailored feedback on student work boosts student achievement across subjects and grades. In this updated and expanded second edition of her best-selling book, Susan M. Brookhart offers enhanced guidance and three lenses for considering the effectiveness of feedback: (1) does it conform to the research, (2) does it offer an episode of learning for the student and teacher, and (3) does the student use the feedback to extend learning? In this comprehensive guide for teachers at all levels, you will find information on every aspect of feedback, including • Strategies to uplift and encourage students to persevere in their work. • How to formulate and deliver feedback that both assesses learning and extends instruction. • When and how to use oral, written, and visual as well as individual, group, or whole-class feedback. • A concise and updated overview of the research findings on feedback and how they apply to today's classrooms. In addition, the book is replete with examples of good and bad feedback as well as rubrics that you can use to construct feedback tailored to different learners, including successful students, struggling students, and English language learners. The vast majority of students will respond positively to feedback that shows you care about them and their learning. Whether you teach young students or teens, this book is an invaluable resource for guaranteeing that the feedback you give students is engaging, informative, and, above all, effective.

Fast Food Nation Jun 26 2023 Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy, politics, popular culture, entertainment, and food production.

Teaching Information Literacy Reframed Aug 16 2022 The six threshold concepts outlined in the Framework for Information Literacy for Higher Education are not simply a revision of ACRL's previous Information Literacy Competency Standards for Higher Education. They are instead an altogether new way of looking at information literacy. In this important new book, bestselling author and expert instructional librarian Burkhardt decodes the Framework, putting its conceptual approach into straightforward language while offering more than 50 classroom-ready Framework-based exercises. Guiding instructors towards helping students cross each threshold, this book discusses the history of the development of the Framework document and briefly deconstructs the six threshold concepts;thoroughly addresses each threshold concept, scaffolding from the beginner level to the intermediate level;includes exercises that can be used in the one-shot timeframe as well as others designed for longer class sessions and semester-long courses;offers best practices in creating learning outcomes, assessments, rubrics, and teaching tricks and tips; andlooks at how learning, memory, and transfer of learning applies to the teaching of information literacy.Offering a solid starting point for understanding and teaching the six threshold concepts in the Framework, Burkhardt's guidance will help instructors create their own local information literacy programs.
