*The Da Vinci Code Jan 30 2021 If I die, the truth will be lost for ever . . . I must pass on the secret. History professor Robert Langdon receives an urgent late-night phone call while on business in France- the curator of the Louvre in Paris has been brutally murdered inside the museum. Alongside the body, police have found a series of baffling codes and need Langdon's help to decipher them. When Langdon and a French cryptologist, Sophie Neveu, begin to sort through the bizarre riddles, they find a trail that leads to the works of the famous artist and inventor Leonardo Da Vinci. As the clues unfold, Langdon and Neveu must decipher the code and quickly assemble the pieces of the puzzle before a stunning historical truth is lost forever . . .*

*Model-Based Demography Jul 07 2021 Late in a career of more than sixty years, Thomas Burch, an internationally known social demographer, undertook a wide-ranging methodological critique of demography. This open access volume contains a selection of resulting papers, some previously unpublished, some published but not readily accessible [from past meetings of The International Union for the Scientific Study of Population and its research committees, or from other small conferences and seminars]. Rejecting the idea that demography is simply a branch of applied statistics, his work views it as an autonomous and complete scientific discipline. When viewed from the perspective of modern philosophy of science, specifically the semantic or model-based school, demography is a balanced discipline, with a rich body of techniques and data, but also with more and better theories than generally recognized. As demonstrated in this book, some demographic techniques can also be seen as theoretical models, and some substantive/behavioral models, commonly rejected as theory because of inconsistent observations, are now seen as valuable theoretical models, for example demographic transition theory. This book shows how demography can build a strong theoretical edifice on its broad and deep empirical foundation by adoption of the model-based approach to science. But the full-fruits of this approach will require demographers to make greater use of computer modeling [both macro- and micro-simulation], in the statement and manipulation of theoretical ideas, as well as for numerical computation. This book is open access under a CC BY license.*

*Regenerative and Positive Impact Architecture Feb 11 2022 This book is a guide to energy efficiency and environmental impact assessment in high-performance buildings projects. It compares four state-of-the-art*

*buildings to examine the steps needed for a transition from negative impact reduction architecture to positive impact regenerative architecture, utilizing life cycle analysis. The book provides a solid grounding in the areas of energy-efficient building and building materials life-cycle assessment, discussing carbon efficiency within a wider context that includes its technical, socio-cultural and environmental dimensions and covers the key areas for green buildings performance (operational and embodied energy). The analysis and comparison of four case studies of state-of-art modern building projects in Europe and North America serve as inspiring examples for architects and building professionals in the fields of high performance buildings, ecological materials and carbon efficiency.*

*Life in a Jar Jun 29 2023 Tells story of Irena Sendler who organized the rescue of 2,500 Jewish children during World War II, and the teenagers who started the investigation into Irena's heroism.*

*The Noticer Nov 22 2022 New York Times best-seller. A new story of common wisdom from the best-selling author of The Traveler's Gift. Orange Beach, Alabama, is a simple town filled with simple people. But like all humans on the planet, the good folks of Orange Beach have their share of problems--marriages teetering on the brink of divorce, young adults giving up on life, business people on the verge of bankruptcy, as well as the many other obstacles that life seems to dish out to the masses. Fortunately, when things look the darkest, a mysterious man named Jones has a miraculous way of showing up. An elderly man with white hair, of indiscriminate age and race, wearing blue jeans, a white T-shirt and leather flip flops carrying a battered old suitcase, Jones is a unique soul. Communicating what he calls "a little perspective," he explains that he has been given a gift of noticing things that others miss. "Your time on this earth is a gift to be used wisely," he says. "Don't squander your words or your thoughts. Consider even the simplest action you take, for your lives matter beyond measure...and they matter forever." Jones speaks to that part in everyone that is yearning to understand why things happen and what we can do about it. Like The Traveler's Gift, The Noticer is a unique narrative blend of fiction, allegory, and inspiration in which gifted storyteller Andy Andrews helps us see how becoming a "noticer" just might change a person's life forever. The story of Jones continues in The Noticer Returns, available now. The Noticer and The Noticer Returns also are available in Spanish, La maleta and Perspectiva.*

*Cadbury's Purple Reign Apr 27 2023 A unique expose of the Cadbury story, providing an unprecedented insight into the makings of an iconic brand. Cadbury's Purple Reign for the first time tells the in-depth story and definitive history of the Cadbury brand, and how it came to be the world's pre-eminent chocolate brand. It presents a no holds barred account of the rollercoaster ride the organization has experienced that has, ultimately, led to its success. It is a story of endurance, where, in the UK, Cadbury is a clear market leader. This fascinating journey that has been the history of Cadbury makes it an ideal example with which to illuminate the story of consumerism. The company was established even before there were a mass of consumers to sell to, and was at the forefront of many of the developments which facilitated the rise of mass markets: Putting product quality at the heart of the brand. Harnessing the miracles of the Industrial and Transportation Revolutions to drive explosive growth Industry consolidation via mergers and acquisitions to cement critical mass A radical approach to harnessing the potential of its workforce to create the most effectively run company in Britain The virtuous circle of economies of scale which slashed prices and brought chocolate to the masses Innovative marketing and selling approaches that put the Cadbury brand into not just the minds of consumers, but their hearts. Illustrated with fact, anecdote and beautiful images from previously archived material, this book provides the reader with an unprecedented insight into one of the world's most iconic brands. These insights will help any consumer business that aspire to build longevity for their brand with lessons on how to better endear*

*itself to consumers, and how to turn that relationship into profitable sales. The book has the full backing from Cadbury and chairman Sir John Sunderland provides the foreword.*

*Dynamics of Contention May 24 2020 In recent decades the study of social movements, revolution, democratization and other non-routine politics has flourished. And yet research on the topic remains highly fragmented, reflecting the influence of at least three traditional divisions. The first of these reflects the view that various forms of contention are distinct and should be studied independent of others. Separate literatures have developed around the study of social movements, revolutions and industrial conflict. A second approach to the study of political contention denies the possibility of general theory in deference to a grounding in the temporal and spatial particulars of any given episode of contention. The study of contentious politics are left to 'area specialists' and/or historians with a thorough knowledge of the time and place in question. Finally, overlaid on these two divisions are stylized theoretical traditions - structuralist, culturalist, and rationalist - that have developed largely in isolation from one another. This book was first published in 2001.*

*Handbook of Healthcare Operations Management Dec 24 2022 From the Preface: Collectively, the chapters in this book address application domains including inpatient and outpatient services, public health networks, supply chain management, and resource constrained settings in developing countries. Many of the chapters provide specific examples or case studies illustrating the applications of operations research methods across the globe, including Africa, Australia, Belgium, Canada, the United Kingdom, and the United States. Chapters 1-4 review operations research methods that are most commonly applied to health care operations management including: queuing, simulation, and mathematical programming. Chapters 5-7 address challenges related to inpatient services in hospitals such as surgery, intensive care units, and hospital wards. Chapters 8-10 cover outpatient services, the fastest growing part of many health systems, and describe operations research models for primary and specialty care services, and how to plan for patient no-shows. Chapters 12 – 16 cover topics related to the broader integration of health services in the context of public health, including optimizing the location of emergency vehicles, planning for mass vaccination events, and the coordination among different parts of a health system. Chapters 17-18 address supply chain management within hospitals, with a focus on pharmaceutical supply management, and the challenges of managing inventory for nursing units. Finally, Chapters 19-20 provide examples of important and emerging research in the realm of humanitarian logistics.*

*Goethe's Faust Nov 30 2020*

*The Nature of Design May 17 2022 Design is a widely-misunderstood discipline. This misunderstanding is not just simple ignorance and indifference in the layman. It is the design profession itself that accepts and promotes a vague and ultimately damaging definition of design. This lack of clarity is nurtured to thwart the scrutiny that would reveal designers' incompetence--as well as to advance more insidious agendas. While there is no lack of criticism, it too misses the point. Critics and designers are content to argue about superficial distinctions but not to understand the true criteria for evaluation, nor the process that would accomplish it. These willful misunderstandings are highly detrimental both to the client and to the development of capable designers.*

*Iraqi Kurdistan Mar 15 2022 The Iraqi Kurds have enjoyed de facto statehood in the north of Iraq for over a decade but Intra-Kurdish fighting, military incursions by Turkey and Iran and the constant threat posed by Saddam Hussein have plagued this 'democratic experiment'. In this book, Stansfield explores the development of the Kurdish political system since 1991. He examines the difficult and often violent relations between the two dominant powers, the Kurdistan Democratic Party (KDP) and the Patriotic Union of Kurdistan (PUK), and their relationship with the Kurdish Regional Government in order to understand the current state of Iraqi Kurdish politics and the operation of the state. This topical in-depth study identifies the main dynamics of Iraqi Kurdish politics, analyzes the record and potential of the 'Kurdish democratic experiment', and identifies the*

*present and future Kurdish leaders.*

*Childlessness in Europe: Contexts, Causes, and Consequences* Mar 27 2023 *This book is published open access under a CC BY 4.0 license. This open access book provides an overview of childlessness throughout Europe. It offers a collection of papers written by leading demographers and sociologists that examine contexts, causes, and consequences of childlessness in countries throughout the region. The book features data from all over Europe. It specifically highlights patterns of childlessness in Germany, France, the United Kingdom, Finland, Sweden, Austria and Switzerland. An additional chapter on childlessness in the United States puts the European experience in perspective. The book offers readers such insights as the determinants of lifelong childlessness, whether governments can and should counteract increasing childlessness, how the phenomenon differs across social strata and the role economic uncertainties play. In addition, the book also examines life course dynamics and biographical patterns, assisted reproduction as well as the consequences of childlessness. Childlessness has been increasing rapidly in most European countries in recent decades. This book offers readers expert analysis into this issue from leading experts in the field of family behavior. From causes to consequences, it explores the many facets of childlessness throughout Europe to present a comprehensive portrait of this important demographic and sociological trend.*

*New Venture Creation* Sep 08 2021 *This new 7th Edition of New Venture Creation: Entrepreneurship for the 21st Century, is the most heavily revised edition since its existence, yet it still maintains the market defining "Timmons Model of the Entrepreneurial Process." As always, Timmons & Spinelli cover the process of getting a new venture started, growing the venture, and successfully harvesting it. Through text, case studies, and hands-on exercises, this how-to text guides students in discovering the concepts of entrepreneurship and the competencies, skills, tools, and experience to equip students to successfully launch a new venture and recognize entrepreneurial opportunities.*

*The Tetris Effect* May 29 2023 *The definitive story of a game so great, even the Cold War couldn't stop it Tetris is perhaps the most instantly recognizable, popular video game ever made. But how did an obscure Soviet programmer, working on frail, antiquated computers, create a product which has now earned nearly 1 billion in sales? How did a makeshift game turn into a worldwide sensation, which has been displayed at the Museum of Modern Art, inspired a big-budget sci-fi movie, and been played in outer space? A quiet but brilliant young man, Alexey Pajitnov had long nurtured a love for the obscure puzzle game pentominoes, and became obsessed with turning it into a computer game. Little did he know that the project that he labored on alone, hour after hour, would soon become the most addictive game ever made. In this fast-paced business story, reporter Dan Ackerman reveals how Tetris became one of the world's first viral hits, passed from player to player, eventually breaking through the Iron Curtain into the West. British, American, and Japanese moguls waged a bitter fight over the rights, sending their fixers racing around the globe to secure backroom deals, while a secretive Soviet organization named ELORG chased down the game's growing global profits. The Tetris Effect is an homage to both creator and creation, and a must-read for anyone who's ever played the game—which is to say everyone.*

*ABC for Me: ABC What Can She Be?* Sep 20 2022 *ABC What Can She Be? presents a world of possibilities—from astronaut to zoologist and everything in between—for all little girls with big dreams. Not even the sky is the limit with this fun approach to learning the alphabet! This book from Walter Foster Jr. encourages young girls by presenting a colorful variety of choices for their future careers. Talented illustrator Jessie Ford artfully pairs the letters of the alphabet with vibrant, eye-catching illustrations that paint an inspiring picture for budding trailblazers everywhere. Representing all kinds of girls, ABC What Can She Be? depicts girls with different colors, sizes, shapes, and abilities in both traditional and nontraditional occupations. ABC What Can She Be? explores 26 different career paths, including engineer, writer, neurosurgeon, software engineer, and pilot. Each page introduces a letter of the alphabet with bright artwork and highlights a career that is fun, challenging, and makes a big impact in its own way. These 26 careers are just some of the things she*

*can be! A boldly illustrated, fun family read, ABC What Can She Be? is a great way for parents to introduce their small children to the bright futures before them. Girls can dream big and do anything! The ABC for Me series presents a world of possibilities from A to Z and everything in between! For all little kids with big dreams, the endearing illustrations and mindful concepts in this series pair each letter of the alphabet with words that promote big dreams, inclusion, acceptance, healthy living, and other key concepts important to emotional well-being. Other books in this series include: ABC What Can He Be? (2019) ABC What Can I Be? (2020) ABC Let's Celebrate You & Me (2021) ABC Everyday Heroes Like Me (2021)*

*Skills for the Labor Market in Indonesia Jan 01 2021 In Indonesia, the past two decades have been a time of great progress but also massive transformations and abrupt setbacks. In this context, this book reviews the main characteristics of - and trends in - demand for skills in Indonesia. It seeks to document the existence of a possible skills mismatch between employer demands and the available supply, the contribution of the education and training sector to this mismatch, and possible measures to improve the education and training system's responsiveness to what the labor market and the economy need. In today's job market in Indonesia, there appears to be a premium on theoretical and practical knowledge of the job. While skills do not appear to be yet among the most important constraints for the economy, the situation is different for larger more export-oriented manufacturing firms. Subjective assessments of difficulties of matching needs with available skills provide evidence that skills are becoming an issue overall in Indonesia. The widest gaps across professional profiles are for English and computer skills followed by thinking and behavioral skills. Theoretical and practical knowledge of the job are also considered to be weak. There are important gaps in creativity, computing and some technical skills for young workers. English remains the largest gap. Five general skill related priorities can be highlighted for Indonesia. First, the country needs to improve skill measurement to get a fuller understanding of skill needs and gaps. Second, it is urgent for Indonesia to address the still unsatisfactory quality and relevance of its formal education, including higher education. Third, the country needs to set-up multiple pathways for skill development. Fourth, the country needs to develop an integrated approach to tackle skill development for youth. Fifth, Indonesia should also tackle labor market constraints which affect the skill matching process.*
