Love Alone Is Credible Jul 17 2020 In this volume David L. Schindler presents readers with a collection of essays garnered from the 2005 conference marking the centenary of Hans Urs von Balthasar's birth. That conference hosted an international gathering of scholars, among them students, colleagues, friends, and critics of Balthasar, all making an effort to engage the fundamental questions of faith and reason in light of his influential contribution to Catholic theology. A wide range of topics is explored in light of the Christian mystery, including metaphysics and causality, the nature of rationality, the relationship between God and the world, and the meaning of the body. Featuring an impressive list of contributors, Love Alone Is Credible is a tribute to the profound relevance of Balthasar's thought.

Towards a Phenomenological Axiology Aug 18 2020 This book attempts to open up a path towards a phenomenological theory of values (more technically, a phenomenological axiology). By drawing on everyday experience, and dissociating the notion of value from that of tradition, it shows how emotional sensibility can be integrated to practical reason. This project was prompted by the persuasion that the fragility of democracy, and the current public irrelevance of the ideal principles which support it, largely depend on the inability of modern philosophy to overcome the well-entrenched skepticism about the power of practical reason. The book begins with a phenomenology of cynical consciousness, continues with a survey of still influential theories of value rooted in 20th century philosophy, and finally offers an outline of a bottom-up axiology that revives the anti-skeptical legacy of phenomenology, without ignoring the standards set by contemporary metaethics.

Responsible Parenthood Jul 09 2022 When a person sets out to do a major project, he begins with the confidence that he will see the task completed. Most often, the author does not appreciate the effort the work will require when he takes his pen up. Such was the case with this author. A little over a year ago, the first page of the study was begun. There was little idea of the many hours of

study and thought, which were yet to be encountered. Despite this work, the problem of sexual morality in marriage was a pressing one that urged us on every day. Many people were living in a state of doubt and depression because there was such a variety of opinion about the morality of birth control. Almost daily, another author wrote another article or another publishing house placed another title on the bookshelf. Each of these works considered marriage, sex, or the population explosion. Some of these works offered solutions to the problem; others merely explored the difficulties without making any recommendations.

Sculpture and Touch Nov 20 2020 Since the Renaissance, at least, the medium of sculpture has been associated explicitly with the sense of touch. Sculptors, philosophers and art historians have all linked the two, often in strikingly different ways. In spite of this long running interest in touch and tactility, it is vision and visuality which have tended to dominate art historical research in recent decades. This book introduces a new impetus to the discussion of the relationship between touch and sculpture by setting up a dialogue between art historians and individuals with fresh insights who are working in disciplines beyond art history. The collection brings together a rich and diverse set of approaches, with essays tackling subjects from prehistoric figurines to the work of contemporary artists, from pre-modern ideas about the physiology of touch to tactile interaction in the museum environment, and from the phenomenology of touch in recent philosophy to the experimental findings of scientific study. It is the first volume on this subject to take such a broad approach and, as such, seeks to set the agenda for future research and collaboration in this area.

Beyond Sex Roles Sep 11 2022 This first-rate biblical and theological study offers an accessible examination of the key texts of Scripture pertinent to understanding female roles, affirming full equality of the sexes in family and church. The third edition has been revised throughout. Gilbert Bilezikian avoids using scholarly jargon and complex argumentation in the main text of the book to encourage readers to interact with the biblical research. The aim is for nonspecialized readers to be able to follow his discussion step-by-step, evaluate arguments, consider alternative views, and arrive at independent conclusions. The study guide format of the book is designed for either individual investigation or group work. Pastors, church leaders, students, and those interested in issues relating to gender and church life will value this classic work on the egalitarian viewpoint.

Conjugal Love and Procreation Dec 14 2022 While some argue that this German Catholic philosopher and theologian neglected the role of procreation in marriage, this book shows that von Hildebrand's writings on reverence and superabundant finality contribute to a contemporary understanding of the significance of procreation within marriage. Schemenauer analyzes von Hildebrand's integration of conjugal love and procreation, showing him to be an insightful and parallel voice to the that of John Paul II.

The Eucharist: Mystery of Presence, Sacrifice, and Communion Mar 05 2022 *The Eucharist: Mystery of Presence, Sacrifice, and Communion* explores the three ends of the Sacrament of Sacraments: God's true presence, His redemptive sacrifice, and spiritual nourishment through communion with Him. In this follow-up to his groundbreaking work, *Faith Comes From What Is Heard*, Lawrence Feingold constructs a biblical vision of the Eucharist from its prefigurement in the Old Testament to its fulfillment in the New and presents the Eucharistic theology of the Church Fathers, St. Thomas Aquinas, and magisterial teaching from centuries past through today. *The Eucharist* is a masterful text, both challenging and spiritually rich, that comprehensively examines the unspeakable mystery that is the Eucharist.

La filosofia dell'amore in Dietrich von Hildebrand Jul 21 2023 Nel panorama filosofico del Novecento sono fiorite tante riflessioni e analisi sulle emozioni e sui sentimenti, tra cui l'amore. Dietrich von Hildebrand ha contribuito a ciò ponendo l'accento sul fenomeno "amore" osservato fenomenologicamente nel suo darsi e accadere. Non un puro sentimento, bensì un atto che afferisce alla sfera dei valori. Ciò che, infatti, accade nell'amante è il riconoscimento dell'unicità dell'altro/a in quanto bene che lo/la tocca generando un atteggiamento di donazione verso di lui/lei. Il compimento di tale atto è raggiunto nella reciprocità; quando, cioè, non si limita al solo donare, ma viene donato (nel senso di un ricevere il dono). "In ogni amore vive un gesto di donazione di se stessi. L'amante che nel suo amore si dona all'amato (...) diviene in questa donazione più se stesso; vive in maniera più piena e autentica". In tale dinamica di donazione il processo amoroso fiorisce in donazione d'essere che, tuttavia, sottostà ad un continuo "mancare il segno", a meno che non si ponga in un orizzonte di senso assoluto.

The Cambridge Handbook of Natural Law and Human Rights Jun 08 2022 This Handbook provides an intellectually rigorous and accessible overview of the relationship between natural law and human rights. It fills a crucial gap in the literature with leading scholarship on the importance of natural law as a philosophical foundation for human rights and its significance for contemporary debates. The themes covered include: the role of natural law thought in the history of human rights; human rights scepticism; the different notions of 'subjective right'; the various foundations for human rights within natural law ethics; the relationship between natural law and human rights in religious traditions; the idea of human dignity; the relation between human rights, political community and law; human rights interpretation; and tensions between human rights law and natural law ethics. This Handbook is an ideal introduction to natural law perspectives on human rights, while also offering a concise summary of scholarly developments in the field.

The Moral Philosophy of Dietrich Von Hildebrand Apr 18 2023 "This book lays out and examines three central aspects of the moral philosophy of Dietrich von Hildebrand: his notions of value, value response, and value blindness. This discussion is supplemented by analysis of the relationship between happiness and morality in von Hildebrand. Martin Cajthaml is the main author of the book; Vlastimil Vohánka contributed most of chapter 5"--

Phenomenology World-Wide Apr 06 2022 Phenomenology is the philosophy of our times. Through the entire twentieth century this philosophy unfolded and flourished, following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl. Now its seminal ideas have been handed over to a new era. The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers. It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge, transforming our way of seeing the world, our actions toward others, and our lives. Phenomenology's universal spread has, however, oftentimes diluted its original sense, even beyond recognition, and led to a weakening of its dynamics. There is at present an urgent need to retrieve the original understanding of phenomenology, to awaken its dormant forces and redirect them. This is the aim of the present book: resourcement and reinvigoration. It is meant to be not only a reference work but also a guide for research and study. To restore the authentic vision of phenomenology, we propose returning to its foundational source in Husserl's project of a 'universal science', unpacking all its creative capacities. In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality: ideal structures, constitutive consciousness, the intersubjective lifeworld, and beyond. The key concepts and phases of Husserl's thought are here exfoliated. Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated. Phenomenology's geographic spread is reviewed. We then proceed to the culminating work of this philosophy, to the phenomenological life engagements so vigorously advocated by Husserl, to the life-significant issues phenomenology addresses and to how

it has enriched the human sciences. Lastly the phenomenological project's new horizons on the plane of life are limned, horizons with so powerful a draw that they may be said not to beckon but to summon. Here is the movement's vanguard. This collection has 71 entries. Each entry is followed by a relevant bibliography. There is a helpful Glossary of Terms and an Index of Names.

Emotion - Feeling - Mood Sep 18 2020 This volume provides systematic, interdisciplinary, and intercultural impulses for a phenomenological pedagogy of emotions, feelings, and moods without subordinating them to the logocentric dualism of emotion and rationality. Starting from foundational and cultural perspectives on pedagogical relations of education, learning, and Bildung, specific emotions in individual studies, as well as different approaches of important representatives of phenomenological research on emotions are presented. The contributions include pedagogical, philosophical, and empirical approaches to feelings, emotions, and moods, highlighting their fundamental importance and productivity for learning, Bildung, and education in different pedagogical institutions and fields.

Esperienza morale e persona May 19 2023 Come e possibile un recupero della nozione di esperienza in teologia morale e quali sono i modelli filosofici di interpretazione sono le domande che l'autore si pone in questo studio. L'indagine si concentra sulla riflessione di un pensatore cristiano, Dietrich von Hildebrand (1889-1977) il quale ha svolto un'interessante fenomenologia dell'esperienza morale. La sua riflessione e indagata nei suoi presupposti epistemologici e nei suoi contenuti fondamentali attraverso il riferimento alla categoria centrale di Wertantwort (risposta al valore). L'esperienza morale viene fissata nella sua struttura eidetica come ambito di una duplice attuazione: il valore e la persona.

Hedwig Conrad-Martius Nov 01 2021 This volume, the first of its kind written in English, interprets the realistic-phenomenological philosophy of Hedwig Conrad-Martius (1888-1966). She was a prominent figure in the Munich-Göttingen Circle, the first generation of phenomenology after Edmund Husserl (1859-1938), and was known as the "first lady of German philosophy". The articles included in this collection deal with the two main themes constituting her realistic-metaphysical phenomenology: Being and the I. The new edition includes an additional chapter opening a new path into the study of Conrad-Martius with Heidegger. In addition, the collection includes a comprehensive Introduction that describes the personal background and the social and philosophical contexts behind Conrad-Martius's thought, with an emphasis on the mutual influence and fertilization of the group of early phenomenologists in the Munich-Göttingen Circle. The book is aimed at scholars of philosophy and educated readers.
