The Lost Soul of American Politics is a provocative new interpretation of American political thought from the Founding Fathers to the Neo-Conservatives. Reassessing the motives and intentions of such great political thinkers as Madison, Thoreau, Lincoln, and Emerson, John P. Diggins shows how these men struggled to create an alliance between the politics of self-interest and a religious sense of moral responsibility—a tension that still troubles us today. In a realm where hollowed champions rise and fall with the ages, where brave knights quest for absolution and bonfires blaze against the everdark, myth and legend will forever prevail... From the desolate worlds of Namco-Bandai's critically lauded videogame series comes this unsettling collection of all-new Dark Souls tales, written and drawn by some of the industry's finest. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Calibri} p.p2 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Calibri; min-height: 14.0px} Hiroshima is the story of six people—a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest—who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima. There are pivotal moments in the lives of all seekers when we realize that we've been traveling on our path of growth toward happiness and fulfillment, but, simply put, we want to go faster. How we have been living, working, and loving just isn't enough or even acceptable anymore. We know we're being called to something more significant and expanded—we can feel it. At these times what's needed is not simply more change or an adjustment in our outer life, but profound transformation. We don't just want to rearrange the pieces of ourselves so that they look better temporarily. We want nothing less than rebirth. We are ready for Soul Shifts. Soul Shifts is the groundbreaking new book from New York Times best-selling author and renowned transformational teacher Barbara De Angelis, Ph.D. Now, in her most powerful offering yet—and the culmination of her life's work—Dr. De Angelis offers a practical handbook for awakening, and a brilliant revisioning of the journey of personal and spiritual transformation that will inspire and enlighten longtime seekers as well as new arrivals to the path of growth. Soul Shifts are radical, vibrational internal shifts that spontaneously and inevitably transform the way you relate to yourself, to others, and to the world. For transformation to be real and lasting, it must originate from the inside out, so that instead of trying to constantly micromanage everything, you operate from true mastery at the deepest level of who you are—the soul level. When you learn how to make these Soul Shifts on the inside, everything on the outside of your life shifts. Places where you've felt stuck or confused become illuminated with new clarity and understanding. Obstacles turn into possibilities, dead ends transform into doorways, and challenges convert into astonishing maps leading you to exciting new territories . . . all because you have made a Soul Shift. A masterful and moving teacher, Dr. De Angelis will offer you illuminating

guidance and invaluable techniques for living a life of practical spirituality and making your own personal Soul Shifts. Written with Barbara De Angelis's trademark eloquence, keen insight, and compassionate wisdom, Soul Shifts takes you on nothing less than a sacred inner journey to emotional and spiritual rebirth and lasting attainment. Reading it will leave you truly and authentically uplifted and transformed. Michael A. Singer, author of The Untethered Soul, tells the extraordinary story of what happened when, after a deep spiritual awakening, he decided to let go of his personal preferences and simply let life call the shots. As Singer takes you on this great experiment and journey into life's perfection, the events that transpire will both challenge your deepest assumptions about life and inspire you to look at your own life in a radically different way. Spirituality is meant to bring about harmony and peace. But the diversity of our philosophies, beliefs, concepts, and views about the soul often leads to confusion. To reconcile the noise that clouds spirituality, Michael Singer combines accounts of his own life journey to enlightenment - from his years as a hippie-loner to his success as a computer program engineer to his work in spiritual and humanitarian efforts - with lessons on how to put aside conflicting beliefs, let go of worries, and transform misdirected desires. Singer provides a road map to a new way of living not in the moment, but to exist in a state of perpetual happiness. Michael Patrick MacDonald grew up in "the best place in the world"--the Old Colony projects of South Boston--where 85% of the residents collect welfare in an area with the highest concentration of impoverished whites in the U.S. In All Souls, MacDonald takes us deep into the secret heart of Southie. With radiant insight, he opens up a contradictory world, where residents are besieged by gangs and crime but refuse to admit any problems, remaining fiercely loyal to their community. MacDonald also introduces us to the unforgettable people who inhabit this proud neighborhood. We meet his mother, Ma MacDonald, an accordion-playing, spiked-heel-wearing, indomitable mother to all; Whitey Bulger, the lord of Southie, gangster and father figure, protector and punisher; and Michael's beloved siblings, nearly half of whom were lost forever to drugs, murder, or suicide. By turns explosive and touching, All Souls ultimately shares a powerful message of hope, renewal, and redemption. Brian Ward is Lecturer in American History at the University of Newcastle upon Tyne .; This book is intended for american studies, American history postwar social and cultural history, political history, Black history, Race and Ethnic studies and Cultural studies together with the general trade music. This book is based upon Christ's words and tells you how you can know for sure that you are saved and will spend eternity in heaven. There are many false plans of salvation being taught by the great preachers of today which will not save you or prevent you from standing before Christ at the Great White Throne Judgement. When one stands before Christ at this judgement, they will be cast into the lake of fire for all eternity. Michael Bowen holds a Master's degree in English (Technical and Professional Communication) from East Carolina University. He is currently teaching college-level English composition at a community college and operates an IBM AS400 computer at a local hospital. He enjoys astronomy, martial arts, and reading. Written in an easy-to-read, accessible style by teachers with years of classroom experience, Masterwork Studies are guides to the literary works most frequently studied in high school. Presenting ideas that spark imaginations, these books help students to gain background knowledge on great literature useful for papers and exams. The goal of each study is to encourage creative thinking by presenting engaging information about each work and its author. This approach allows students to arrive at sound analyses of their own, based on in-depth studies of popular literature. Each volume: -- Illuminates themes and concepts of a classic text-- Uses clear, conversational language-- Is an accessible, manageable length from 140 to 170 pages-- Includes a chronology of the author's life and era-- Provides an overview of the historical context-- Offers a summary of its critical reception-- Lists primary and secondary sources and index Copyright © Libri GmbH. All rights reserved. A congresswoman and her son reveal how he survived a ten-year battle with opioid abuse—and what their family's journey to recovery can teach us about finding hope amid the unspeakable. "Beautiful and inspiring."—Maria Shriver's Sunday

Paper (Book of the Week) When Madeleine Dean discovered that her son Harry was stealing from the family to feed a painkiller addiction, she was days away from taking the biggest risk of her life: running for statewide office in Pennsylvania. For years, she had sensed something was wrong. Harry was losing weight and losing friends. He had lost the brightness in his eyes and voice, changing from a young boy with boundless enthusiasm to a shadow of himself, chasing something she could not see. Now her worst fears had come to light. Under Our Roof is the story of a national crisis suffered in the intimacy of so many homes, told with incredible candor through the dual perspectives of a mother rising in politics and a son living a double life, afraid of what might happen if his secret is exposed. In this honest, bracing, yet ultimately uplifting memoir, they discuss the patterns of a family dealing with an unspoken disease, the fear that keeps addicts hiding in shame, and the moments of honesty, faith, and personal insight that led to Harry's recovery. In a country searching for answers to the devastating effects of opioids and drug abuse, Under Our Roof is a ray of hope in the darkness. It is not only a love story between mother and son but also an honest account of a pressing national crisis by a family poised to make a difference.

AphroChic bloggers and designers Jeanine Hays and Bryan Mason along with Lonny co-founder and photographer Patrick Cline take you into homes where cultural, global décor breathes beauty and soul into contemporary interiors. Whether you love to source pieces from your travels or simply wish to evoke the destination of your dreams, Remix shows how bold color, unique patterns like ikats and suzani, original art, and handcrafted furnishings and accessories can help you express your cultural experiences in stylish, unforgettable rooms. With a foreword by HGTV Design Star Danielle Colding, Remix is both a striking object for your shelf and a book that restores meaning to the idea of "eclectic" decorating with genuine, personal style. #1 New York Times bestseller

What would it be like to free yourself from limitations and soar beyond your boundaries? What can you do each day to discover inner peace and serenity? The Untethered Soul offers simple yet profound answers to these questions. Whether this is your first exploration of inner space, or you've devoted your life to the inward journey, this book will transform your relationship with yourself and the world around you. You'll discover what you can do to put an end to the habitual thoughts and emotions that limit your consciousness. By tapping into traditions of meditation and mindfulness, author and spiritual teacher Michael A. Singer shows how the development of consciousness can enable us all to dwell in the present moment and let go of painful thoughts and memories that keep us from achieving happiness and self-realization. Copublished with the Institute of Noetic Sciences (IONS) The Untethered Soul begins by walking you through your relationship with your thoughts and emotions, helping you uncover the source and fluctuations of your inner energy. It then delves into what you can do to free yourself from the habitual thoughts, emotions, and energy patterns that limit your consciousness. Finally, with perfect clarity, this book opens the door to a life lived in the freedom of your innermost being. The Untethered Soul has already touched the lives of more than a million readers, and is available in a special hardcover gift edition with ribbon bookmark—the perfect gift for yourself, a loved one, or anyone who wants a keepsake edition of this remarkable book. Visit www.untetheredsoul.com for more information.

Red beans and rice, trad jazz, and second lines are the Big Easy's calling cards, but beyond where the carriage rides take you is a city brimming with genre-defying music, transnational cuisine, and pockets of wild, artistic locals that challenge preconceived notions of what it means to be New Orleans. With a respectful nod to the traditional and a full embrace of the obscure, New Orleans: The Underground Guide is a resource for discovering the city as it really is -- as much brass bands and boas as it is bounce and bicycle tours. From a speakeasy in the Bywater neighborhood to the delightfully sketchy vibe of St. Roch Tavern, lead author Michael Patrick Welch uncovers an unexpected tableau of musicians, venues, and novel ways to pass the bon temps. Contents include but are not limited to: where to get naked, how to make the most of Mardi Gras according to banjo player Geoff Douville, what to order from the delicious Slavic menu at Siberia, where to find the New Orleans Giant Puppet Festival, how to catch a performance by the New Movement comedy troupe, where to rent a kayak, and how to get in on the "bed and beverage" experience at the Royal Street Inn. From Robert Browning's The Pied Piper of Hamelin and William Makepeace Thackeray's The Rose and the Ring to Kenneth Grahme's The Reluctant Dragon and J. M. Barrie's Peter Pan in Kensington Gardens, here are seventeen classic stories and poems from the golden age of the English fairy tale. Some of them amuse, some enchant, some satirize and

criticize, but each one is an expression of the joy of living. Accompanied by illustrations from the original editions of these works this collection will delight readers both young and old. Part of the Pantheon Fairy Tale and Folklore Library SuperSummary, a modern alternative to SparkNotes and CliffsNotes, offers high-quality study guides for challenging works of literature. This 36-page guide for "All Souls" by Michael Patrick MacDonald includes detailed chapter summaries and analysis covering 11 chapters, as well as several more in-depth sections of expert-written literary analysis. Featured content includes commentary on major characters, 25 important quotes, essay topics, and key themes like Silence and Loyalty and Family. Social media is full of dead people. Nobody knows precisely how many Facebook profiles belong to dead users but in 2012 the figure was estimated at 30 million. What do we do with all these digital souls? Can we simply delete them, or do they have a right to persist? Philosophers have been almost entirely silent on the topic, despite their perennial focus on death as a unique dimension of human existence. Until now. Drawing on ongoing philosophical debates, Digital Souls claims that the digital dead are objects that should be treated with loving regard and that we have a moral duty towards. Modern technology helps them to persist in various ways, while also making them vulnerable to new forms of exploitation and abuse. This provocative book explores a range of questions about the nature of death, identity, grief, the moral status of digital remains and the threat posed by AI-driven avatars of dead people. In the digital era, it seems we must all re-learn how to live with the dead. This utterly unconventional narrative of reinvention begins with the young MacDonald's first forays outside the soul-crushing walls of Southie's Old Colony housing project. He provides one-of-a-kind 1980s social history and a powerful glimpse of what punk music was for him. Mitchell Hogan, an imaginative new talent, makes his debut with the acclaimed first installment in the epic Sorcery Ascendant Sequence, A Crucible of Souls, a mesmerizing tale of high fantasy that combines magic, malevolence, and mystery. When young Caldan's parents are brutally slain, the boy is raised by monks who initiate him into the arcane mysteries of sorcery. Growing up plagued by questions about his past, Caldan vows to discover who his parents were, and why they were violently killed. The search will take him beyond the walls of the monastery, into the unfamiliar and dangerous chaos of city life. With nothing to his name but a pair of mysterious heirlooms and a handful of coins, he must prove his talent to become apprenticed to a guild of sorcerers. But the world outside the monastery is a darker place than he ever imagined, and his treasured sorcery has disturbing depths he does not fully understand. As a shadowed evil manipulates the unwary and forbidden powers are unleashed, Caldan is plunged into an age-old conflict that will bring the world to the edge of destruction. Soon, he must choose a side, and face the true cost of uncovering his past. This is the author's definitive edition. The best and only resource you will ever need for helping any child understand and cope with illness, death, and loss Just as death is inevitable, talking about death is an inevitable part of parenting. Dr. Elena Lister and Dr. Michael Schwartzman offer us the way to have conversations with children that are as much about life as they are about death—conversations that anyone who parents, teaches, or counsels children can have. Giving Hope is a must-have resource that expands our understanding of how to prepare for, initiate, and facilitate these personal and profound conversations. The approach is honest, practical, and compassionate and will benefit a grieving child both now and in the future. Giving Hope provides us with the tools to make our children's experiences positive and life-affirming. Explores the history of Irish immigrants to New York City via three intertwined tales, from a woman raising a daughter alone in the Five Points slum of 1870, to a struggling artist drawn to the counterculture of 1960, to a billionaire searching for the secret of the music of his childhood in 2010. A New York Times Notable Book National Book Critics Circle Award Finalist An NPR Best Book of the Year God Save Texas is a journey through the most controversial state in America. It is a red state, but the cities are blue and among the most diverse in the nation. Oil is still king, but Texas now leads California in technology exports. Low taxes and minimal regulation have produced extraordinary growth, but also striking income disparities. Texas looks a lot like the America that Donald Trump wants to create. Bringing together the historical and the contemporary, the political and the personal, Texas native Lawrence Wright gives us a colorful, wide-ranging portrait of a state that not only reflects our country as it is, but as it may become—and shows how the battle for Texas's soul encompasses us all. While Africa is the continent on which human life began, it is also a continent that has been invaded throughout

the history of mankind. Christianity was firmly established in North Africa by the third century CE only to be extinguished when Islam invaded North Africa in the 7th century CE. Once the Portuguese sailed around Africa, the rest of Western Europe followed and Christianity bloomed in sub-Saharan Africa. Over the centuries Christianity and Islam have attempted to convert Africa. However, Africa's own traditional religions have remained ingrained in the culture and in the hearts of its people. Today, all three religions have been integrated into the continent's cultures. In turn, Africa has made these religions "African" by infusing them with her own traditional religions and values. This book will bring to light the history behind Africa's three great religions, as well as explaining the ebb and flow of these religions and how both religion and culture have brought together a unique way of life. Bringing to life the fabulous, colorful panorama of New Orleans in the first flush of the jazz era, this book tells the story of Buddy Bolden, the first of the great trumpet players--some say the originator of jazz--who was, in any case, the genius, the guiding spirit, and the king of that time and place. In this fictionalized meditation, Bolden, an unrecorded father of Jazz, remains throughout a tantalizingly ungraspable phantom, the central mysteries of his life, his art, and his madness remaining felt but never quite pinned down. Ondaatje's prose is at times startlingly lyrical, and as he chases Bolden through documents and scenes, the novel partakes of the very best sort of modern detective novel--one where the enigma is never resolved, but allowed to manifest in its fullness. Though more 'experimental' in form than either *The English Patient* or *In the Skin of a Lion*, it is a fitting addition to the renowned Ondaatje oeuvre. One of the most honored authors in the field of fantasy and science fiction, Lois McMaster Bujold transports us once more to a dark and troubled land and embroils us in a desperate struggle to preserve the endangered souls of a realm. Three years have passed since the widowed Dowager Royina Ista found release from the curse of madness that kept her imprisoned in her family's castle of Valenda. Her newfound freedom is costly, bittersweet with memories, regrets, and guilty secrets -- for she knows the truth of what brought her land to the brink of destruction. And now the road -- escape -- beckons. . . . A simple pilgrimage, perhaps. Quite fitting for the Dowager Royina of all Chalion. Yet something else is free, too -- something beyond deadly. To the north lies the vital border fortress of Porifors. Memories linger there as well, of wars and invasions and the mighty Golden General of Jokona. And someone, something, watches from across that border -- humans, demons, gods. Ista thinks her little party of pilgrims wanders at will. But whose? When Ista's retinue is unexpectedly set upon not long into its travels, a mysterious ally appears -- a warrior nobleman who fights like a berserker. The temporary safety of her enigmatic champion's castle cannot ease Ista's mounting dread, however, when she finds his dark secrets are entangled with hers in a net of the gods' own weaving. In her dreams the threads are already drawing her to unforeseen chances, fateful meetings, fearsome choices. What the inscrutable gods commanded of her in the past brought her land to the brink of devastation. Now, once again, they have chosen Ista as their instrument. And again, for good or for ill, she must comply. "A book that should be read . . . Smith brings an alchemic talent to describing physical labor." —The New York Times Book Review "Beautiful, funny, and harrowing." - Sarah Smarsh, *The Atlantic* "Remarkable . . . this is the book that Hillbilly Elegy should have been." —Kirkus Reviews A vivid window into the world of working class men set during the Bakken fracking boom in North Dakota Like thousands of restless men left unmoored in the wake of the 2008 economic crash, Michael Patrick Smith arrived in the fracking boomtown of Williston, North Dakota five years later homeless, unemployed, and desperate for a job. Renting a mattress on a dirty flophouse floor, he slept boot to beard with migrant men who came from all across America and as far away as Jamaica, Africa and the Philippines. They ate together, drank together, argued like crows and searched for jobs they couldn't get back home. Smith's goal was to find the hardest work he could do--to find out if he could do it. He hired on in the oil patch where he toiled fourteen hour shifts from summer's 100 degree dog days to deep into winter's bracing whiteouts, all the while wrestling with the demons of a turbulent past, his broken relationships with women, and the haunted memories of a family riven by violence. *The Good Hand* is a saga of fear, danger, exhaustion, suffering, loneliness, and grit that explores the struggles of America's marginalized boomtown workers—the rough-hewn, castoff, seemingly disposable men who do an indispensable job that few would exalt: oil field hands who, in the age of climate change, put the gas in our tanks and the food in our homes. Smith, who had pursued theater and played guitar in New York, observes this world with a critical eye; yet he

comes to love his coworkers, forming close bonds with Huck, a goofy giant of a young man whose lead foot and quick fists get him into trouble with the law, and The Wildebeest, a foul-mouthed, dip-spitting truck driver who torments him but also trains him up, and helps Smith "make a hand." *The Good Hand* is ultimately a book about transformation--a classic American story of one man's attempt to burn himself clean through hard work, to reconcile himself to himself, to find community, and to become whole. This is a compelling introduction to the life-affirming philosophy of William James. In 1895, William James, the father of American philosophy, delivered a lecture entitled *Is Life Worth Living?* It was no theoretical question for James, who had contemplated suicide during an existential crisis as a young man a quarter century earlier. Indeed, as John Kaag writes, James's entire philosophy, from beginning to end, was geared to save a life, his life and that's why it just might be able to save yours, too. This is an introduction to James's life and thought that shows why the founder of pragmatism and empirical psychology - and an inspiration for Alcoholics Anonymous - can still speak so directly and profoundly to anyone struggling to make a life worth living. Kaag tells how James's experiences as one of what he called the sick-souled, those who think that life might be meaningless, drove him to articulate an ideal of healthy-mindedness an attitude toward life that is open, active, and hopeful, but also realistic about its risks. In fact, all of James's pragmatism, resting on the idea that truth should be judged by its practical consequences for our lives, is a response to, and possible antidote for, crises of meaning that threaten to undo many of us at one time or another. Along the way, Kaag also movingly describes how his own life has been endlessly enriched by James. Eloquent, inspiring, and filled with insight, this may be the smartest and most important self-help book you'll ever read. America urgently needs a new direction. But who will provide it? The time has come to move the country forward with a clear agenda based on common sense for the common good. THERE IS A BETTER WAY. Make no mistake: Congressmen Eric Cantor, Paul Ryan, and Kevin McCarthy are proud Republicans. But they believe the party had lost sight of the ideals it believes in, like economic freedom, limited government, the sanctity of life, and putting families first. This isn't your grandfather's Republican party. These Young Guns of the House GOP—Cantor (the leader), Ryan (the thinker), and McCarthy (the strategist)—are ready to take their belief in the principles that have made America great and translate it into solutions that will make the future even better, solutions that will create private sector jobs, maximize individual freedom, and establish a better world for our children. This groundbreaking book is a call to action that sets forth a plan for growth, opportunity, and commitment that will propel this country to prosperity once again. Together, the Young Guns are changing the face of the Republican party and giving us a new road map back to the American dream. The great Calculator of Libris was forced to watch as Overmayor Zarvora had four of its components lined up against a wall and shot for negligence. Thereafter, its calculations were free from errors, and that was just as well-for only this strangest of calculating machines and its two thousand enslaved components could save the world from a new ice age. And all the while a faint mirrorsun hangs in the night sky, warning of the cold to come. In Sean McMullen's glittering, dynamic, and exotic world two millennia from now, there is no more electricity, wind engines are leading-edge technology, librarians fight duels to settle disputes, steam power is banned by every major religion, and a mysterious siren "Call" lures people to their death. Nevertheless, the brilliant and ruthless Zarvora intends to start a war in space against inconceivably ancient nuclear battle stations. Unbeknownst to Zarvora, however, the greatest threat to humanity is neither a machine nor a force but her demented and implacable enemy Lemorel, who has resurrected an obscene and evil concept from the distant past: Total War. *Souls in the Great Machine* is the first volume of Sean McMullen's brilliant future history of the world of *Greatwinter* Who am I? What's my life's purpose? Where am I going when I die? These questions lie at the heart of all our lives, yet clear answers seem hard to come by. *A Complete Guide to the Soul* explains that answers can in fact be found in a secret history that runs like quicksilver through Western culture, from philosophy and alchemy, to poetry and modern psychology. This hidden tradition places our soul at the centre of the universe and shows us how to recover a sense of meaning that so many of us have lost today. In this important book, Patrick Harpur explores the nature of our soul, as well as its destiny. He unpacks the myths that surround it and shows how it may actually be the very fabric of reality. And he explains that, not until we have a clear understanding of this invisible part of ourselves, can we discover the answers to many of our questions about

existence and human nature. Ultimately, this knowledge could help us find our true place within the world in which we live. An “alternately funny and heartbreaking” memoir of leaving—and finding—home, by the author of *All Souls: A Family Story from Southie* (Newsweek). In *All Souls*, Michael Patrick MacDonald told the story of the loss of four of his siblings to the violence, poverty, and gangsterism of Irish South Boston. In *Easter Rising*, he tells the story of how he got out. Desperate to avoid the “normal” life of Southie, Michael first reinvents himself in the burgeoning punk rock movement and the thrilling vortex of Johnny Rotten, Mission of Burma, and the Clash. At nineteen, he escapes further, to Paris and then London. Finally, out of money, he contacts his Irish immigrant grandfather—who offers a loan, but only if Michael will visit Ireland. It is on this reluctant journey to his ancestral land that Michael will find a chance at reconciliation—with his heritage, his neighborhood, and his family—and, ultimately, a way forward. On his 80th birthday, a British citizen arrested in the 1950s for spying in the Soviet Union looks back on his life in Russia—his harrowing life in the “gulag” and his quiet life 20 years later in the village. A “New York Times” Notable Book of 1999. In our broken world, many Christians find their spiritual progress hindered or stalled by psychological wounds from their past. But these wounds can be healed with the proper treatment. Priest and licensed therapist Joshua Makoul shows how we can draw on the insights and resources of both the Church and modern psychology to help us come to terms with the past and use it to further our path to union with God. “An intelligent book that struggles honestly with important questions: Is the net turning us into passive knowers? Is it degrading our ability to reason? What can we do about this?” —David Weinberger, *Los Angeles Review of Books* We used to say “seeing is believing”; now, googling is believing. With 24/7 access to nearly all of the world’s information at our fingertips, we no longer trek to the library or the encyclopedia shelf in search of answers. We just open our browsers, type in a few keywords and wait for the information to come to us. Now firmly established as a pioneering work of modern philosophy, *The Internet of Us* has helped revolutionize our understanding of what it means to be human in the digital age. Indeed, demonstrating that knowledge based on reason plays an essential role in society and that there is more to “knowing” than just acquiring information, leading philosopher Michael P. Lynch shows how our digital way of life makes us value some ways of processing information over others, and thus risks distorting the greatest traits of mankind. Charting a path from Plato’s cave to Google Glass, the result is a necessary guide on how to navigate the philosophical quagmire that is the “Internet of Things.” “In the Technicolor glow of the early seventies, Jessica B. Harris debated, celebrated, and danced her way from the jazz clubs of the Manhattan’s West Side to the restaurants of the Village, living out her buoyant youth alongside the great minds of the day—luminaries like Maya Angelou, James Baldwin, and Toni Morrison. [This memoir] is her paean to that ... social circle and the depth of their shared commitment to activism, intellectual engagement, and each other”—Publisher marketing. A *Times Literary Supplement’s* Book of the Year 2020 A *New Statesman’s* Best Book of 2020 A *Bloomberg’s* Best Book of 2020 A *Guardian* Best Book About Ideas of 2020 The world-renowned philosopher and author of the bestselling *Justice* explores the central question of our time: What has become of the common good? These are dangerous times for democracy. We live in an age of winners and losers, where the odds are stacked in favor of the already fortunate. Stalled social mobility and entrenched inequality give the lie to the American credo that “you can make it if you try”. The consequence is a brew of anger and frustration that has fueled populist protest and extreme polarization, and led to deep distrust of both government and our fellow citizens—leaving us morally unprepared to face the profound challenges of our time. World-renowned philosopher Michael J. Sandel argues that to overcome the crises that are upending our world, we must rethink the attitudes toward success and failure that have accompanied globalization and rising inequality. Sandel shows the hubris a meritocracy generates among the winners and the harsh judgement it imposes on those left behind, and traces the dire consequences across a wide swath of American life. He offers an alternative way of thinking about success—more attentive to the role of luck in human affairs, more conducive to an ethic of humility and solidarity, and more affirming of the dignity of work. *The Tyranny of Merit* points us toward a hopeful vision of a new politics of the common good. “One of the most important political books of 2018.”—Rod Dreher, *American Conservative* Of the three dominant ideologies of the twentieth century—fascism, communism, and liberalism—only the last remains. This has created a peculiar situation in which liberalism’s proponents

tend to forget that it is an ideology and not the natural end-state of human political evolution. As Patrick Deneen argues in this provocative book, liberalism is built on a foundation of contradictions: it trumpets equal rights while fostering incomparable material inequality; its legitimacy rests on consent, yet it discourages civic commitments in favor of privatism; and in its pursuit of individual autonomy, it has given rise to the most far-reaching, comprehensive state system in human history. Here, Deneen offers an astringent warning that the centripetal forces now at work on our political culture are not superficial flaws but inherent features of a system whose success is generating its own failure. Chronicles the criminal career of the gangster who provided a protection racket against drug lords, ran illegal gambling, robbed banks, and served as an informant for the FBI until going into hiding for sixteen years. A breakaway bestseller since its first printing, *All Souls* takes us deep into Michael Patrick MacDonald's *Southie*, the proudly insular neighborhood with the highest concentration of white poverty in America. Rocked by Whitey Bulger's crime schemes and busing riots, MacDonald's *Southie* is populated by sharply hewn characters like his Ma, a miniskirted, accordion-playing single mother who endures the deaths of four of her eleven children. Nearly suffocated by his grief and his community's code of silence, MacDonald tells his family story here with gritty but moving honesty. OUR DEAR YOUNG MEN AND YOUNG WOMEN, we have great confidence in you. You are beloved sons and daughters of God and He is mindful of you. You have come to earth at a time of great opportunities and also of great challenges. The standards in this booklet will help you with the important choices you are making now and will yet make in the future. We promise that as you keep the covenants you have made and these standards, you will be blessed with the companionship of the Holy Ghost, your faith and testimony will grow stronger, and you will enjoy increasing happiness. Fourteen accomplished writers investigate the tantalizing gray area where memory and history intersect.
