Style (Harriman Classics) Aug 12 2022 *4th edition with a new foreword by Joseph Epstein (Harriman Classics)* Lost for almost forty years, *Style* has acquired the status of a legend. Loved by some of the greatest modern authors and acclaimed by critics, this guide to recognising and writing stylish prose was written by a Cambridge don and veteran of Bletchley Park. Imbued with a lifetime of wit and wisdom, it retains its power today. Writing forcefully and persuasively has never mattered so much - and *Style* is the perfect guide for the busy, the ambitious, and the creative. With unique authority and good humour, F. L. Lucas takes us through his ten points of effective prose style and provides a tour of some of the best (and worst) that has been written in a number of languages and literatures. Wry, perceptive and rich in quotation and anecdote, the book reads like a personal conversation on the art of writing well - with a master of the art.

In what Style Should We Build? Jun 17 2020 "In 1828 a young architect, Heinrich Hübsch, published a polemical study in which he suggested that the rapid technological progress of the early nineteenth century, combined with changed living habits, had rendered the Greek Neoclassical style unsuitable for present needs or future development. The intriguing title of his book--*In What Style Should We Build?*--even more than its provocative argument, touched off a dispute among architects that filled the pages of the

newly founded journals of the 1830s and 1840s. The theme of this often animated discussion, hastened by the burst of historical knowledge, was the choice of a style--that is, the determination of the premises from which a future and culturally appropriate style might be engendered. By mid-century, however, the confident expectation of bringing the search to a conclusion began to wane. Now, historicism, plurality of styles, and eclecticism were becoming dominant factors in architecture. Evidently, the debate had failed in its prime objective, and yet, it had set in motion intellectual forces that from our present perspective appear to have instituted a new, nineteenth-century style. The Texts & Documents series offers to the student of art, architecture, and aesthetics neglected, forgotten, or unavailable writings in English translation. Edited according to modern standards of scholarship and framed by critical introductions and commentaries, these volumes gradually mine the past centuries for studies that retain their significance in our understanding of art and of the issues surrounding its production, reception, and interpretation. Eminent scholars assist in the selection and publication of volumes in the Texts & Documents series. Each volume acquaints readers with the broader cultural conditions at the genesis of the text and equips them with the needed apparatus for its study. Over time the series will greatly expand our horizon and deepen our understanding of critical thinking on art."--Publisher website.

The Style Mentors Sep 20 2020 Profiling more than eighty contemporary women with great style, *The Style Mentors* offers today's fashion-conscious woman role models for the here and now. Each of the book's eight chapters addresses a signature look with proven fashion longevity—icon, maverick, bohemian, gamine, siren, minimalist, rocker, and classic—and demonstrates how to achieve it by analyzing the style of those who wear it admirably. *The Style Mentors* then shows how to incorporate that know-how into a current personal look. Included throughout are a wealth of dos and don'ts, lists of wardrobe and accessory essentials, and sage tips on fashion and beauty in the words of the women themselves. With more than two hundred gorgeous photo-graphs and an informative, entertaining text, *The Style Mentors* is essential reading for fashion mavens and for anyone seeking tried-and-true advice on the art of dressing well from those who have mastered it.

Subculture Nov 22 2020 First Published in 2002. It is easy to see that we are living in a time of rapid and radical social change. It is much less easy to grasp the fact that such change will inevitably affect the nature of those disciplines that both reflect our society and help to shape it. Yet this is nowhere more apparent than in the central field of what may, in general terms, be called literary studies. 'New Accents' is intended as a positive response to the initiative offered by such a situation. Each volume in the series will seek to encourage rather than resist the process of change. To stretch rather than reinforce the boundaries that currently define literature and its academic study.

The Power of Style Jul 11 2022 Style is not just the clothes on our backs—it is self-expression, representation, and transformation. As a fashion-obsessed Ojibwe teen,

Christian Allaire rarely saw anyone that looked like him in the magazines or movies he sought out for inspiration. Now the Fashion and Style Writer for Vogue, he is working to change that—because clothes are never just clothes. Men’s heels are a statement of pride in the face of LGBTQ+ discrimination, while ribbon shirts honor Indigenous ancestors and keep culture alive. Allaire takes the reader through boldly designed chapters to discuss additional topics like cosplay, make up, hijabs, and hair, probing the connections between fashion and history, culture, politics, and social justice. *A Junior Library Guild Gold Standard Selection

Style Dec 04 2021 Kyle Blake likes plans. So far, they’re pretty simple: Finish her senior year of high school, head off to a good college, find a cute boyfriend, graduate, get a good job, get married, the whole heterosexual shebang. Nothing is going to stand in the way of that plan. Not even Stella Lewis. Stella Lewis also has a plan: Finish her senior year as cheer captain, go to college, finally let herself flirt with (and maybe even date) a girl for the first time and go from there. Fate has other plans for Kyle and Stella when they’re paired up in their AP English class and something between them ignites. It’s confusing and overwhelming and neither of them know what to do about it. One thing they do know is that their connection can’t be ignored. The timing just isn’t right. But is there ever a good time for falling in love?

The Style of Sophocles Mar 07 2022 Originally published in 1944, this book examines how Sophocles’ inventive use of the ancient Greek language and style justifies his place as, arguably, the greatest Athenian tragedian. Earp analyses in great detail Sophocles’ use of Greek words by listing those words used in the plays that appear nowhere else in the canon of ancient literature, as well as linguistic overlap between Sophocles and other ancient authors, and his use of idiom and metre. This thoroughly-researched book will be of value to anyone with an interest in Sophoclean tragedy and textual criticism.

The Style of Hawthorne’s Gaze Nov 03 2021 An exploration of Nathaniel Hawthorne’s narrative technique and unique vision of the world The Style of Hawthorne’s Gaze is an unusual and insightful work that employs a combination of critical strategies drawn from art history, philosophy, psychoanalysis, and contemporary aesthetic and literary theory to explore Nathaniel Hawthorne’s narrative technique and his unique vision of the world. Dolis studies Hawthorne’s anti-technological and essentially Romantic view of the external world and examines the recurring phenomena of lighting, motion, aspectivity,

fragmentation, and imagination as they relate to his descriptive techniques. Dolis sets the world of Hawthorne's work over and against the aesthetic and philosophical development of the world understood as a "view", from its inception in the camera obscura and perspective in general, to its 19th-century articulation in photography. In light of this general technology of the image, and drawing upon a wide range of contemporary critical theories, Dolis begins his study of Hawthorne at the level of description, where the world of the work first arises in the reader's consciousness. Dolis shows how the work of Heidegger, Merleau-Ponty, Freud, Lacan, and Derrida can provide fresh insights into the sophisticated style of Hawthorne's perception of and system for representing reality.

Senses of Style May 09 2022 In an age of interpretation, style eludes criticism. Yet it does so much tacit work: telling time, telling us apart, telling us who we are. What does style have to do with form, history, meaning, our moment's favored categories? What do we miss when we look right through it? *Senses of Style* essays an answer. An experiment in criticism, crossing four hundred years and composed of nearly four hundred brief, aphoristic remarks, it is a book of theory steeped in examples, drawn from the works and lives of two men: Sir Thomas Wyatt, poet and diplomat in the court of Henry VIII, and his admirer Frank O'Hara, the midcentury American poet, curator, and boulevardier. Starting with puzzle of why Wyatt's work spoke so powerfully to O'Hara across the centuries, Jeff Dolven ultimately explains what we talk about when we talk about style, whether in the sixteenth century, the twentieth, or the twenty-first.

The Elements of Style Apr 27 2021 *The Classic. The Elements of Style* by William Strunk, Jr. And E. B. White. *The Elements of Style* is a prescriptive American English writing style guide in numerous editions. The original was composed by William Strunk Jr., in 1918, and published by Harcourt, in 1920, comprising eight "elementary rules of usage", ten "elementary principles of composition", "a few matters of form", a list of 49 "words and expressions commonly misused", and a list of 57 "words often misspelled". E. B. White greatly enlarged and revised the book for publication by Macmillan in 1959. That was the first edition of the so-called "Strunk & White", which Time named in 2011 as one of the 100 best and most influential books written in English since 1923.

Semiotics of the Drama and the Style of Eugene O'Neill Sep 01 2021 A semiotic analysis is made of the six major plays by Eugene O'Neill and an attempt is made to yield a systematic analysis towards humanistic interpretations of texts. Theoretical interpretations are enriched with discussions of the plays. Technical matters such as the segmentation of the text are specified in appendices. Six semiotic dimensions have been studied: motifs, theatrical semiotic systems, their use in communicational functions, role function of the dramatis personae, their levels of awareness, and aristotelian divisions.

The Style of Paris Feb 06 2022 This portrait of the forerunners of the famed philosophes is an “impressive and challenging reevaluation of the 16th-century origins of the Enlightenment” (Sixteenth Century Journal). In this book, George Huppert introduces a group of talented young men, some of them teenagers, who were the talk of the town in Renaissance Paris. They called themselves philosophes, they wrote poetry, they studied Greek and mathematics—and they entertained subversive notions concerning religion and politics. Classically trained, they wrote, nevertheless, in French, so as to reach the widest possible audience. These young radicals fostered a succession of disciples who expressed confidence in the eventual enlightenment of humankind—and whose ideas would bear fruit two centuries later.

Empire of Style Mar 27 2021 Tang dynasty (618–907) China hummed with cosmopolitan trends. Its capital at Chang'an was the most populous city in the world and was connected via the Silk Road with the critical markets and thriving cultures of Central Asia and the Middle East. In *Empire of Style*, BuYun Chen reveals a vibrant fashion system that emerged through the efforts of Tang artisans, wearers, and critics of clothing. Across the empire, elite men and women subverted regulations on dress to acquire majestic silks and au courant designs, as shifts in economic and social structures gave rise to what we now recognize as precursors of a modern fashion system: a new consciousness of time, a game of imitation and emulation, and a shift in modes of production. This first book on fashion in premodern China is informed by archaeological sources—paintings, figurines, and silk artifacts—and textual records such as dynastic annals, poetry, tax documents, economic treatises, and sumptuary laws. Tang fashion is shown to have flourished in response to a confluence of social, economic, and political changes that brought innovative weavers and chic court elites to the forefront of history.
