The Traders' War -- an omnibus edition of the third and fourth novels in Charles Stross's Merchant Princes series. Miriam was an ambitious business journalist in Boston. Until she was fired—then discovered, to her shock, that her lost family comes from an alternate reality. And although some of them are trying to kill her, she won't stop digging up secrets. Now that she knows she's inherited the family ability to walk between worlds, there's a new culture to explore. Her alternate home seems located around the Middle Ages, making her world-hopping relatives top dogs when it comes to "importing" guns and other gadgets from modern-day America. Payment flows from their services to U.S. drug rings—after all, world-skipping drug runners make great traffickers. In a land where women are property, she struggles to remain independent. Yet her outsider ways won't be tolerated, and a highly political arranged marriage is being brokered behind her back. If she can stay alive for long enough to protest. "These books are immense fun."--Locus At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. From the author of the award-winning The Master Switch, who coined the term "net neutrality"—a revelatory, ambitious and urgent account of how the capture and re-sale of human attention became the defining industry of our time. "Dazzling." —Financial Times Ours is often called an information economy, but at a moment when access to information is virtually unlimited, our attention has become the ultimate commodity. In nearly every moment of our waking lives, we face a barrage of efforts to harvest our attention. This condition is not simply the byproduct of recent technological innovations but the result of more than a century's growth and expansion in the industries that feed on human attention. Wu's narrative begins in the nineteenth century, when Benjamin Day discovered he could get rich selling newspapers for a penny. Since then, every new medium—from radio to television to Internet companies such as Google and Facebook—has attained commercial viability and immense riches by turning itself into an advertising platform. Since the early days,

the basic business model of "attention merchants" has never changed: free diversion in exchange for a moment of your time, sold in turn to the highest-bidding advertiser. Full of lively, unexpected storytelling and piercing insight, *The Attention Merchants* lays bare the true nature of a ubiquitous reality we can no longer afford to accept at face value. The *Merchant Princes* is a sweeping new series from the hottest new writer in science fiction! The six families of the Clan rule the kingdom of Gruinmarkt from behind the scenes, a mixture of nobility and criminal conspirators whose power to walk between their world and ours make them rich in both. Braids of family loyalty and intermarriage provide a fragile guarantee of peace, but a recently ended civil war has left the families shaken and suspicious. Miriam, a hip tech journalist from Boston, discovered her alternate-world relatives with explosive results that shook three worlds. Now, as the prodigal Countess Helge Thorold-Hyorth, she finds herself ensnared in schemes and plots centuries in the making. She is surrounded by unlikely allies, lethal contraband, and, most dangerous of all, her family. With her modern American attitudes, she's not sure she can fit in, or if she even wants to, but to stay alive, she really has no choice. To avoid a slippery slope down to an unmarked grave, Miriam must build a power-base of her own. She started applying modern business practices and scientific knowledge to a trade heretofore dominated by medieval mercantilists-with unexpected consequences for three different timelines, including the quasi-Victorian one exploited by the hidden family. Blending the creativity and humor, and the rigor and scope of science-fiction on the grandest scale, Charles Stross has set a new standard for fantasy epics. Charles Stross is one of the big new SF writers of the 21st century, and the saga of *The Merchant Princes* is his most ambitious work yet. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

"Recent influential work on Jacobean city comedies, by Jean-Christophe Agnew and Douglas Bruster in particular, is confined to the well-worn topics of urban alienation and the avaricious merchant, drawing on 1550s sermons and tracts against usury. In this model, where social credit is deemed to circulate without limit, the city comedy's specific reference to contemporary ideas of trade, cash, and credit is lost. The plays are reduced to moral satires against greed, humoural comedies of the hollow self, or self-referencing literary artifacts which create and interact with a coterie audience. Aging rants against avarice might account for earlier interludes which mock usurers and misers, but not for the slick, formal pleasures of the city comedy, bringing together gull, courtesan, prodigal gallant, virgin daughter, and jealous citizen father or husband."--BOOK JACKET.

This book is a complete guide to the Regia Marina, the navy with which Italy fought the Second World War. Starting with the historical background, it describes how the navy developed, how it was organised, the facilities that supported it, and the operations it conducted both before and after the armistice in 1943. It also details all its ships, with full technical particulars, plans and photos. Furthermore, there are chapters on special topics like camouflage; uniforms, decorations and insignia; and a 'who's who' of important naval personalities; and the reference value of the book is enhanced by a comprehensive bibliography and guide to sources. The illustration is a noteworthy feature of the book as the author's collection of naval photographs is one of the best in Italy. He is also a fine draughtsman, and his ship plans and colour illustrations are both detailed and accurate, adding a particular appeal for modelmakers. Of all the main combatant navies of this era, the Italian is probably the most poorly represented in English publications, so this comprehensive handbook will be especially welcomed by the naval history community. In January 2012, millions participated in the now-infamous "Internet blackout" against the Stop Online Piracy Act, protesting the power it would have given intellectual property holders over the Internet. However, while SOPA's withdrawal was heralded as a victory for an open Internet, a small group of corporations, tacitly backed by the US and other governments, have implemented much of SOPA via a series of secret, handshake agreements. Drawing on extensive interviews, Natasha Tusikov details the emergence of a global regime in which large Internet firms act as regulators for powerful intellectual property owners, challenging fundamental notions of democratic accountability. Every life requires a spiritual foundation. "Grandfather, you left this..." Julio lifted the leather-bound journal and stepped toward the old man.
