Devotional Music in the Iberian World, 1450-1800 Oct 19 2020

From the fifteenth century to the beginning of the nineteenth century, devotional music played a fundamental role in the Iberian world. Songs in the vernacular, usually referred to by the generic name of 'villancico', but including forms as varied as madrigals, ensaladas, tonos, cantatas or even oratorios, were regularly performed at many religious feasts in major churches, royal and private chapels, convents and in monasteries. These compositions appear to have progressively fulfilled or supplemented the role occupied by the Latin motet in other countries and, as they were often composed anew for each celebration, the surviving sources vastly outnumber those of Latin compositions; they can be counted in tens of thousands. The close relationship with secular genres, both musical, literary and performative, turned these compositions into a major vehicle for dissemination of vernacular styles throughout the Iberian world. This model of musical production was also cultivated in Portugal and rapidly exported to the Spanish and Portuguese colonies in America and Asia. In many cases, the villancico repertory represents the oldest surviving source of music produced in these regions, thus affording it a primary role in the construction of national identities. The sixteen essays in this volume explore the development of devotional music in the Iberian world in this period, providing the first broad-based survey of this important genre.

**The Sea** Feb 15 2023 Following the convening of Hong Kong International Poetry Nights 2013, *The World of Words* is a collection of selected works by some of the most internationally acclaimed poets today. The poem of "The Sea" by Raul Zurita (Chile) is finest contemporary poetry in trilingual or bilingual presentation.

**An Early Self** Sep 17 2020 What role has Jewish intellectual culture played in the development of modern Romance literature? Susanne Zepp seeks to answer this question through an examination of five influential early modern texts written between 1499 and 1627: Fernando de Rojas's *La Celestina*, Leone Ebreo's *Dialoghi d'amore*, the anonymous tale *Lazarillo de Tormes* (the first picaresque novel), Montaigne's *Essais*, and the poetical renditions of the Bible by João Pinto Delgado. Forced to straddle two cultures and religions, these Iberian conversos (Jews who converted to Catholicism) prefigured the subjectivity which would come to characterize modernity. As "New Christians" in an intolerant world, these thinkers worked within the tensions of their historical context to question norms and dogmas. In the past, scholars have focused on the Jewish origins of such major figures in literature and philosophy. Through close readings of these texts, Zepp moves the debate away from the narrow question of the authors' origins to focus on the innovative ways these authors subverted and transcended traditional genres. She interprets the changes that took place in various literary genres and works of the period within the broader historical context of the sixteenth and seventeenth centuries, demonstrating the extent to which the development of early

modern subjective consciousness and its expression in literary works can be explained in part as a universalization of originally Jewish experiences.

*Ánimas de día claro y otras obras de teatro* Aug 21 2023 Las tres obras que presentamos en este volumen son fieles representantes de la creación del autor: *Ánimas de día claro* se inscribe dentro de un teatro popular, basado en mitos y leyendas, mientras que *Parecido a la felicidad* y *El paraíso semiperdido* tienen rasgos más ligados al realismo psicológico y social.

*Life Sucks* Mar 24 2021 A veces se siente como si la vida sólo estuviera ahí para patearnos al suelo, y luego patearnos más para mantenernos en el suelo, ¿no? John se pregunta por qué no puede simplemente hacer todo lo que quiera, como su mejor amigo Henry lo hace. ¿Es acaso solamente el hecho de que Henry es asquerosamente rico? ¿O hay algo más en ello? Cansado de lo que él percibe como un sin fin de pérdida de tiempo, John decide salirse de la escuela, y perseguir sus sueños. Cómo muchos antes que él, John quizás se hubiera rendido después de no ver resultados. ¿Honestamente? Lo más seguro es que se hubiera rendido. No obstante, un búho curioso, notable, y raro lo encuentra. Y es este encuentro el que lanza a

John a una aventura increíble para averiguar por qué la vida apesta tanto.

En un día claro se ve la noche Apr 17 2023 En "En un día claro se ve la noche", Andrés de Luna da fe y nos comparte los territorios emocionales y los espacios geográficos en los que Eros y Psique se unen para que los personajes ardan en el fuego de la carne y la imaginación. En esas relaciones peligrosas los protagonistas ganan o pierden; quizás ganan y pierden. El que no pierde es el lector, voyeur del mirón, una cadena más en la representación sin límites que establece el deseo.

**Introducci?n a la lingüística hispánica** Aug 29 2021 Written entirely in Spanish, this is the ideal introduction to Spanish linguistics for students. Using clear explanations, it covers all the basic concepts required to study the structural aspects of the

Spanish language - phonetics and phonology, morphology and syntax - as well as the history of Spanish, its dialects and linguistic variation. This second edition incorporates new features designed to enhance its usefulness for classroom teaching: chapters have been added on the sociolinguistics of Spanish in the USA, and on semantics and pragmatics. The chapter on syntax has been considerably expanded. Numerous exercises have been added throughout the book, as well as a new glossary to help with technical terms.

**From Serra to Sancho** Nov 19 2020 Music in the California missions was a pluralistic combination of voices and instruments, of liturgy and spectacle, of styles and functions - and even of cultures - in a new blend that was non-existent before the Franciscan friars' arrival in 1769. This book explores aesthetic, stylistic, historical, cultural, theoretical, liturgical, and biographical aspects of this repertoire. It contains a "Catalogue of Mission Manuscripts," 150+ facsimiles, translations of primary documents, and performance-ready music reconstructions.

*Chilean Theater, 1973-1985* Jun 14 2020 This work is a study of the themes that have found prominence on the Chilean stage from the military coup of 1973 until 1985. The author looks at how theater has become an important medium of expression, partly as a result of its relative freedom from repression. Censorship is largely economic in nature, and few plays have been expressly banned, although there are sporadic attempts to prohibit plays that are deemed to be politically dangerous. This work poses and seeks to answer the question of how dramatists have used this space for self-expression. As a means of setting

the study in a wider perspective, the first chapter is dedicated to a study of the development of Chilean theater since the founding of the first university theater in 1941. The themes treated are found to be expressions of the dominant preoccupations of each period, dealt with through social realism, psychological drama, folkloric theater, and the absurd. The late 1960s, a period of radical social and political change, saw themes of political commitment and social reform come to the fore, when amateur and grassroots theater was flourishing and the individual dramatist found him- or herself in the wings. These are important factors in the understanding of the development of theater since the coup, for it is based in a sense of rupture and continuity. In the initial stages after 1973, theater, like the other arts, suffered a period of silence, a result of censorship and self-censorship, the so-called "cultural blackout." Yet, by 1976, theater began to prove its resilience when new works appeared dealing primarily with the most salient social problem of the period: the social cost of the regime's economic policies to the lowest sector of the community. In the primary chapters of the book the themes, language, and images of the stage are studied: themes of unemployment, and marginality; perceptions of totalitarian rule, which emerge as images of a limbo-like society, stagnating behind a facade of perfection and prosperity; the "forgotten people" who populate the work of a new dramatist, Juan Radigan; and the new theme of political exile and return. Alongside themes of contemporary relevance, there has been a constant exploration of the state of the individual in dictatorship. There is an overwhelming impression of a society in a state of impasse, with a mass of people who feel socially, economically, or culturally marginalized. The dramatic space has been used to

voice dissent, to explore the meanings of power, and to explore the inner self in what is commonly portrayed as a prolonged period of impasse in Chilean history.
