Captivated by tales of adventure, fifteen-year-old George Nelson left his family in Quebec in 1802 and headed to the Northwest Territory to work for Sir Alexander Mackenzie's XY Company, one of the major fur trade companies of the time. Required to keep a daily log as a fur trade clerk, his growth from homesick lad to experienced fur trader forms the heart of this unique and fascinating journal. He recorded his feelings and thoughts, and was a vital witness to all that went on around him. Nelson's journals are particularly valuable for their candid observations on the customs and culture of the Ojibwa people and provide some of the most detailed descriptions available of Ojibwa spiritual practices. Long treasured by fur trade historians, the early journals of George Nelson are published here in their entirety for the first time. Named a Best Book of the Year by The Washington Post, Time, NPR, Amazon, Vice, Bustle, The New York Times, The Guardian, Kirkus Reviews, Entertainment Weekly, The AV Club, & Audible A New York Times Bestseller "One of the most compelling protagonists modern fiction has offered in years: a loopy, quietly furious pillhead whose Ambien ramblings and Xanax b\*tcherries somehow wend their way through sad and funny and strange toward something genuinely profound." — Entertainment Weekly "Darkly hilarious . . . [Moshfegh's] the kind of provocateur who makes you laugh out loud while drawing blood." — Vogue From one of our boldest, most celebrated new literary voices, a novel about a young woman's efforts to duck the ills of the world by embarking on an extended hibernation with the help of one of the worst psychiatrists in the annals of literature and the battery of medicines she prescribes. Our narrator should be happy, shouldn't she? She's young, thin, pretty, a recent Columbia graduate, works an easy job at a hip art gallery, lives in an apartment on the Upper East Side of Manhattan paid for, like the rest of her needs, by her inheritance. But there is a dark and vacuous hole in her heart, and it isn't just the loss of her parents, or the way her Wall Street boyfriend treats her, or her sadomasochistic relationship with her best friend, Reva. It's the year 2000 in a city aglitter with wealth and possibility; what could be so terribly wrong? My Year of Rest and Relaxation is a powerful answer to that question. Through the story of a year spent under the influence of a truly mad combination of drugs designed to heal our heroine from her alienation from this world, Moshfegh shows us how reasonable, even necessary, alienation can be. Both tender and blackly funny, merciless and compassionate, it is a showcase for the gifts of one of our major writers working at the height of her powers. An honest and deeply reported account of five women and the opportunities and frustrations they face in the year following their graduation from an elite university. Recent Princeton graduate Caroline Kitchener weaves together her experiences from her first year after college with that of four of her peers in order to delve more deeply into what the world now offers a female college graduate, and how the world perceives them. Each of the five girls in this diverse group were expected to attend college—but most had no clear expectations for their futures post-graduation. And as Kitchener follows each member of the group, it becomes harder to reduce them to stereotypes, harder either to defend or to judge their choices. Kitchener navigates expertly between the very personal and the wider sociological perspectives as she outlines a chronological year in the lives of all five women, illuminating and clarifying each one of their choices, victories, and foibles. Both a broad and an intensely individual exploration, Post Grad is a portrait of the shifting environment of that important year after graduation, as well as an intimate look at how a select group of very different individuals handles its challenges—navigating family tensions, relationships, jobs, and that ever-elusive notion of independence.
