This convenient, money-saving package is a must-have for practical/vocational nursing students! It includes Linton's Introduction to Medical-Surgical Nursing, 4th edition text, the Study Guide for Introduction to Medical-Surgical Nursing, 4th edition, and Mosby's Dictionary of Medicine, Nursing & Health Professions, 7th edition. This convenient, money-saving package is a must-have for practical/vocational nursing students! It includes Linton's Introduction to Medical-Surgical Nursing, 3rd edition text & the Study Guide for Introduction to Medical-Surgical Nursing, 3rd edition. Part of the popular LPN Threads series, this bestselling text discusses the care of adults and older adults while covering the full range of disorders that require medical, surgical, or psychiatric management. Written specifically for the LPN/LVN student, this text thoroughly explores the role of the LPN/LVN in a variety of care settings, and the new Companion CD takes learning to the next level with an extensive pharmacology tutorial, realistic 3-D A&P animations, and a Dorland's audio glossary. Never HIGHLIGHT a Book Again Virtually all testable terms, concepts, persons, places, and events are included. Cram101 Textbook Outlines gives all of the outlines, highlights, notes for

your textbook with optional online practice tests. Only Cram101 Outlines are Textbook Specific. Cram101 is NOT the Textbook. Accompanys: 9780521673761 Reader-friendly and easy to use, the Study Guide for Introduction to Medical-Surgical Nursing, 6th Edition, is designed to help you master content and evaluate your progress through practical, useful exercises and activities, including a wealth of multiple-choice and alternate-format questions. This edition places an increased emphasis on higher-level application questions, including exercises to encourage practice in setting priorities, to prepare you to transfer your knowledge of medical-surgical concepts to patient care in the clinical setting. Learning activities include matching (key term and vocabulary review), completion, listing, labeling (illustrations), ranking/ordering, and application questions for textbook nursing care plans. Approximately 2,000 review questions include revised as well as new standard multiple-choice and alternate-format questions. NCLEX review question answer rationales discuss both correct and incorrect responses to help you explore the logic of your choices. Prioritization activities provide practice in prioritizing (deciding what to do first) and assignment (giving specific tasks to health care providers who may be supervised by LPNs, including nurse aids and nurse assistants). NEW! Completely revised content matches the most up-to-date nursing diagnoses. Part of the popular LPN Threads series, this bestselling text discusses the care of adults and older adults while covering the full range of disorders that require medical, surgical, or psychiatric management. Written specifically for the LPN/LVN student, this text thoroughly explores the role of the LPN/LVN in a variety of care settings, and the new Companion CD takes learning to the next level with an extensive pharmacology tutorial, realistic 3-D A&P animations, and a Dorland's audio glossary. This Counselingexam.com Test prep study guide covers the NCMHCE National Clinical Mental Health Counseling Exam based on the DSM-5 material. The study guide prepares for NCC certification and state licensure. The study guide for LCPC (in some states LPC or LMHC) licensure includes human diversity, evaluation, assessment, mental status exam, abusive and addictive behaviors, diagnosis, treatment,

DSM-5, disorders, schools of psychotherapy, family therapy, groups, career, lifestyle development, human growth, clinical practice, ethics, adjunct services and simulations Never HIGHLIGHT a Book Again Virtually all testable terms, concepts, persons, places, and events are included. Cram101 Textbook Outlines gives all of the outlines, highlights, notes for your textbook with optional online practice tests. Only Cram101 Outlines are Textbook Specific. Cram101 is NOT the Textbook. Accompanys: 9780521673761 Approx. 474 pages Questions arranged by level of difficulty move from simple recall to more difficult exercises designed to help you apply, analyze, and synthesize basic concepts. Alternate format questions include multiple response, labeling, prioritizing, ordering, and calculation questions to help you practice for the NCLEX-PN®. Review questions on care for older adults focus on long-term care and community-based settings, asking you to apply content to real-world practice. Additional review questions are provided on the Evolve website for the textbook. NEW! Next-Generation NCLEX®-format questions help you review and practice for the new licensure examination. NEW! Case studies in the clinical chapters allow you to develop skills in clinical judgment. NEW! Updated exercises and review questions match the new content in the textbook, and cover newly approved pharmaceutical treatments and drugs. Designed to be used by the student together with Introductory nursing care of adults by Adrienne Dill Linton, Mary Ann Matteson, and Nancy K. Maebius. A Study Guide for Emily Bronte's "Wuthering Heights," excerpted from Gale's acclaimed Novels for Students. This concise study guide includes plot summary; character analysis; author biography; study questions; historical context; suggestions for further reading; and much more. For any literature project, trust Novels for Students for all of your research needs. Virtual Clinical Excursions is an innovative CD-ROM/workbook package that makes textbook content come alive and diminishes your anxiety about entering the clinical setting. VCE helps bridge the gap between the classroom and the real world by introducing you to clinical settings and critical thinking before you actually start clinical rotations - making the transition from nursing student to caregiver a smoother

process. In this virtual hospital setting, you will interact with a variety of patients and gain valuable experience with documentation, communication, prioritization, medication safety, critical thinking, patient education, and care planning. Real-world nursing scenarios challenge you to set priorities for care, collect data, analyze and interpret data, and reach conclusions about complex problems within a health-illness transition. The highly engaging format encourages active learning and provides opportunities to collect and process data for evidence-based patient care; work with data entry and retrieval screens; access available information resources; understand hospital information systems; manage information for decision-making; and maintain and improve your core computing skills. Includes over 250 NCLEX(R) examination-style questions based on the VCE patients. Augments knowledge of physical assessment by allowing you to examine and document vital signs, as well as assess information related to the head and neck, chest, back and spine, upper extremities, abdomen, pelvic, and lower extremities. The software allows you to access realistic information essential for patient care, including: charts, medical administration records, electronic patient records, video clips of nurse-client interactions, and other related materials. The realistic environment gives you the opportunity to monitor and care for one or more patients during three 45-minute periods of care within a 12-hour shift. Clinical Alerts highlight changes in the patient's condition. New flash-based technology is easier to use and offers seamless navigation. You can leave the software program at any time and return later to pick up where you left off without losing any information. Six unique new patients/cases feature new patient data in the Electronic Patient Record, Patient Charts, KARDEX, and Medication Administration Record. The workbook includes time icons that indicate how long it will take to complete a particular exercise. Icons for linked activities alert you when a particular workbook exercise is linked to another exercise and cannot be completed independently. A new Medication Room introduces you to a wide variety of drug storage areas, such as a Unit Dosage Cabinet, Automated Dispensing System, IV Storage, and a Refrigerator. A medication

administration feature enables you to select, prepare, and administer medications. Over 50 common medication errors embedded within the software challenge you to think critically about safe medication practices and follow safe medication standards. A Medication Scorecard provides instant feedback on what medications you administered correctly and which medications you administered incorrectly. The Examination Report checklist tracks your performance on Baseline and Focused assessments. With just the right level of information to equip you to effectively care for adults and older adults, Linton's Introduction to Medical-Surgical Nursing, 5th Edition is the leading LPN/LVN text in its field. Covering both med-surg and psychiatric mental health conditions and disorders, it addresses your role in a variety of care settings, emphasizes culturally competent care and holistic nursing, and thoroughly covers all relevant NCLEX-PN Test Plan content. Abundant real-life case studies clearly show how to apply what you've learned to clinical practice. Features separate chapters on common, high-profile disorders (including hypertension, diabetes, and shock), providing an in-depth understanding for patient care. Offers foundational units on basic concepts related to the health care system, care settings, the nursing process, leadership, nutrition, the older adult, growth and nutrition, legal/ethical considerations, evidence-based nursing care, and many more essential topics, avoiding repetition later in the text. Includes a separate, comprehensive unit on the older adult and related disorders — no other LPN/LVN med-surg text has as much coverage of this primary patient group. Includes a separate, comprehensive unit on psychosocial responses to illness, psychiatric disorders, and substance abuse — eliminating the need for a separate psychiatric mental health nursing text. Emphasizes content related to the NCLEX-PN Test Plan, including health promotion, nutrition, legal/ethical issues, HIPAA, and prevention of medication/medical errors. Offers in-depth pharmacology coverage: the Pharmacology Tutorial covers drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes provide medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables in body

systems chapters include classification, use/action, side/adverse effects, and nursing interventions — all with the goal of reducing medication errors on the job and equipping you to pass the NCLEX exam. Assists with assignment and supervision, helping you assign tasks to nurse assistants, patient care techs, and unlicensed assistive personnel, and making sure you understand the difference between delegation, management, supervision, and assignment of tasks on the health care team. Features Diagnostic Tests and Procedures tables for a quick reference to MRI, CT, Doppler flow, lumbar puncture tests for neurologic disorders, and much more. Highlights timely information with Health Promotion boxes, Cultural Considerations boxes, Nutrition Considerations boxes, and Complementary and Alternative Therapies boxes. Provides bulleted lists of nursing instructions for Patient Teaching Plans, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Provides consistent Nursing Care Plans that reinforce the nursing process and focus on critical thinking, and Put on Your Thinking Cap Critical Thinking boxes encourage you to pause and consider the practical implications of what you have just read. With chapters corresponding to the chapters in Linton and Matteson's *Medical-Surgical Practical Nursing in Canada*, this study guide provides a variety of questions and exercises to help you master the PN's role in Canadian medical-surgical care. Review exercises include fun activities, multiple-choice questions, alternate format questions, and more, all divided by level of difficulty. In the chapters on medical conditions, practical questions help you apply your knowledge directly to real-world patient care. This study guide provides the review and practice you need to prepare for the REx-PN® or CPNRE® licensure exams! Comprehensive review reflects the latest Canadian Council for Practical Nurse Regulators (CCPNR) national PN competencies (including Ontario and British Columbia). Variety of exercises reinforces learning with matching, multiple-choice, multiple-response, labelling, diagram reading, fill-in-the-blank questions, case studies, and more. Consistent format in each chapter: Part I: Mastering the Basics focuses on basic knowledge and comprehension of medical-surgical nursing. Part II: Putting it All

Together integrates chapter content related to basic pathophysiology and basic nursing content, and focuses on comprehension and application levels. Part III: Challenge Yourself! Getting Ready for PN Examinations focuses on the application or analysis levels of cognitive ability, and can include case studies, nursing care plans, and nursing assessment. Questions arranged by level of difficulty move from simple recall to more difficult exercises designed to help you apply, analyze, and synthesize basic concepts. Alternate format questions include multiple response, labelling, prioritizing, ordering, and calculation questions to help you practice for the REx-PN® and CPNRE® licensure examinations. Review questions on care for older adults focus on long-term care and community-based settings, asking you to apply content to real-world practice. Additional review questions are provided on the Evolve website for the textbook. The leading medical-surgical text for LPN/LVN students, Linton's *Introduction to Medical-Surgical Nursing, 6th Edition* offers just the right level of information to equip today's students to effectively care for adults and older adults. Covering both medical-surgical and psychiatric mental health conditions and disorders, this comprehensive text addresses the LPN/LVN's role in a variety of care settings, including acute care and long-term care, with a special emphasis on assignment and supervision responsibilities. It also emphasizes culturally competent care and holistic nursing, while thoroughly covering all relevant NCLEX-PN test plan content. No other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student. Foundational units on basic concepts related to the health care system, care settings, the nursing process, leadership, nutrition, the older adult, growth and nutrition, legal/ethical considerations, evidence-based nursing care, and many more essential topics, avoid repetition later in the text and create a foundation to build your understanding of disorders by body system. Safety alerts are highlighted throughout the text with a Safety Considerations icon. A separate unit on psychiatric mental health nursing covers psychosocial responses to illness, psychiatric disorders, and substance abuse - eliminating the need for a separate psychiatric mental health nursing

text. Content related to the NCLEX-PN test plan is emphasized throughout the text, including health promotion, nutrition, legal/ethical issues, HIPAA, and prevention of medication/medical errors. Separate chapters on common, high-profile disorders (including hypertension, diabetes, and shock), provide an in-depth understanding for patient care. Focus on assignment and supervision helps you assign tasks to nurse assistants, patient care techs, and unlicensed assistive personnel, and makes sure they understand the difference between delegation, management, supervision, and assignment of tasks on the health care team. UNIQUE! In-depth pharmacology coverage includes: the Pharmacology Tutorial covering drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes providing medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables including classification, use/action, side/adverse effects, and nursing interventions. A separate unit on gerontologic nursing provides comprehensive coverage of the care of the older adult and related disorders. No other LPN/LVN med-surg text offers as much coverage of this primary patient group. Diagnostic Tests and Procedures tables offer quick reference to MRI, CT, Doppler flow, lumbar puncture tests for neurologic disorders, and much more. Health Promotion Considerations boxes highlight timely wellness and disease prevention topics. Patient Teaching Plans provide bulleted lists of nursing instructions for patients, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Nutrition Considerations boxes are spotlighted at appropriate points throughout the text to emphasize the role that nutrition plays in disease and nursing care. Nursing care plans reinforce the nursing process and focus on critical thinking. Cultural Considerations boxes discuss the importance of providing culturally-competent care related to various clinical situations. Put on Your Thinking Cap boxes allow you to pause and consider the practical implications of what you have just read. Get Ready for the NCLEX-PN Examination! sections at the end of chapters include key points, review questions, and case studies that address the various NCLEX Client Needs categories. NEW! Continued emphasis on evidence-

based practice and the most current research findings include specific examples of how scientific evidence can justify and support patient care. NEW! Updated nursing diagnoses all reflect the most current NANDA listings for NCLEX compliance. Get the additional practice you need to master class content and pass the NCLEX® with the Study Guide for Medical-Surgical Nursing, 7th Edition! This easy-to-use guide includes exercises divided by difficulty level, fun activities, and a wealth of multiple-choice and alternate-format questions. Questions in disorders chapters cover the Client Needs categories in the NCLEX-PN® test plan which also helps you to transfer your knowledge of medical-surgical concepts directly to patient care in the clinical setting. Questions grouped by level of difficulty encourage you to move from easy, knowledge-based questions to more difficult, analytical questions. Alternate item formats exam include priority order, multiple response, labeling, and calculation questions to help you practice for the NCLEX-PN®. Exercises focus on long-term care patients and settings help you to prepare for real-world practice. NEW! Completely revised exercises and review questions match the most up-to-date nursing diagnoses from the text. This money-saving package includes the 5th edition of Introduction to Medical-Surgical Nursing Textbook and Study Guide. We've updated and expanded our popular Vitamins & Minerals study guide to ensure complete coverage of what you need for good long-term health. Every important vitamin and mineral--as well as the various disorders they're used for and the recommended amounts--is listed in a handy table format; types of food containing specific vitamins and minerals are also included. Access to this important information has never been easier! Corresponding chapter-by-chapter to Introduction to Medical-Surgical Nursing, 5e, Elsevier Adaptive Quizzing is the fun and engaging way to focus your study time and effectively prepare for class, course exams, and the NCLEX®/certification/licensure] exam. Elsevier Adaptive Quizzing is comprised of a bank of high-quality practice questions that allows you to advance at your own pace - based on your performance - through multiple mastery levels for each chapter.. A comprehensive dashboard allows you to view your progress and stay motivated. This

convenient, money-saving package is a must-have for practical/vocational nursing students! It includes Linton's Introduction to Medical-Surgical Nursing, 4th edition text and Virtual Clinical Excursions for Introduction to Medical-Surgical Nursing, 4th edition. Student-friendly and easy to use, the Study Guide for Introduction to Medical-Surgical Nursing, 5th Edition, is designed to help you master content and evaluate your progress through practical, useful exercises and activities, including a wealth of multiple-choice and alternate-format questions. This edition places an increased emphasis on higher-level application questions, including exercises to encourage practice in setting priorities, to prepare you to transfer your knowledge of medical-surgical concepts to patient care in the clinical setting. Helps you hone critical thinking skills essential for success on licensure exams and in clinical practice. Reinforces textbook content and provides ample opportunity for self-assessment with a wide variety of learning activities, including matching (key term and vocabulary review), completion, listing, labeling (illustrations), ranking/ordering, and application questions for textbook nursing care plans. Includes textbook page references, making self-assessment easier and faster. Emphasizes application of nursing concepts with new knowledge and comprehension exercises and activities that ask you to apply your knowledge to patient care situations. Features a new section at the end of each chapter: Challenge Yourself! Getting Ready for the NCLEX includes both standard multiple-choice and alternate-format questions (over 1,800) that test your knowledge of chapter content while providing practice for the Boards. Provides valuable practice in prioritizing (deciding what to do first) and assignment (giving specific tasks to health care providers who may be supervised by LPNs) -- skills that are essential for providing effective nursing care and are covered on the NCLEX-PN Examination. Links you to online Evolve resources, where you'll find an additional set of review questions, encouraging utilization of and familiarity with an electronic format. Gain the knowledge and skills you need to effectively care for adult patients. Medical-Surgical Nursing, 7th Edition covers both medical-surgical and psychiatric mental health conditions and disorders

while building on the fundamentals of nursing. This essential text focuses on nursing roles, settings, trends, body systems and their disorders, and emergency and disaster management. Unique to this edition is the gerontologic nursing unit which addresses physiologic and psychosocial changes in the older adult, along with related disorders common to the elder patient - the primary patient group population you'll encounter in practice. It also emphasizes culturally competent care and holistic nursing, while thoroughly covering all relevant NCLEX-PN® test plan content. With updated guidelines on diabetes, heart failure, asthma, COPD, and cancer treatment protocols, no other resource offers the breadth of topics at a level that is so perfectly tailored to the LPN/LVN student. UNIQUE! Gerontologic nursing unit covers physiologic and psychosocial changes in the older adult, along with related disorders common to the elder patient, the primary patient group for whom LPNs provide care. UNIQUE! In-depth pharmacology coverage includes: the Pharmacology Tutorial covering drug classifications, how drugs work, and nursing responsibilities; Pharmacology Capsules boxes providing medication information, precautions for use, interactions, and side/adverse effects; and Pharmacology and Medications tables including classification, use/action, side/adverse effects, and nursing interventions. Nursing care plans reinforce the nursing process and focus on critical thinking. Get Ready for the NCLEX-PN® Examination! sections at the end of chapters include key points, review questions, and case studies that address the various NCLEX® Client Needs categories. Coordinated Care boxes highlight team approach to patient care, helping you to prioritize tasks and assign them safely to assistive personnel. Patient Teaching Plans provide bulleted lists of nursing instructions for patients, stressing the role and responsibility of the LPN/LVN to reinforce patient education. Health Promotion Considerations boxes highlight timely wellness and disease prevention topics. Cultural Considerations boxes discuss the importance of providing culturally competent care related to various clinical situations. Put on Your Thinking Cap boxes allow you to pause and consider the practical implications of what you have just read. Nutritional Considerations boxes are spotlighted at appropriate points

throughout the text to emphasize the role that nutrition plays in disease and nursing care. Complementary and Alternative Therapies focus on nontraditional therapies along with precautions and possible side effects. Key terms with phonetic pronunciations help improve terminology and language skills of English-as-a-Second-Language (ESL) students and students with limited proficiency in English before they enter clinical practice. NEW! Organization of disorders units consolidates anatomy and physiology, nursing assessment/data collection, and diagnostic tests into one chapter. NEW! Updated guidelines on diabetes, heart failure, asthma, COPD, and cancer provides you with latest treatment protocols. Never HIGHLIGHT a Book Again! Includes all testable terms, concepts, persons, places, and events. Cram101 Just the FACTS101 studyguides gives all of the outlines, highlights, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanies: 9781437717082. This item is printed on demand. Practical and student-friendly, this best-selling Study Guide is designed to assist students in mastering the content presented in the text. Matching, labeling, completion, and multiple-choice exercises are provided. Keyed chapter-by-chapter to the textbook. Text page references accompany each question. A complete answer key is provided in the Instructor's Manual. Critical Thinking questions have been added throughout. Questions grouped by level of difficulty encourage you to move from easy, knowledge-based questions to more difficult, analytical questions. Alternate item formats exam include priority order, multiple response, labeling, and calculation questions to help you practice for the NCLEX-PN®. Exercises focus on long-term care patients and settings help you to prepare for real-world practice.
