Fully revised and updated content matching the Cambridge International AS & A Level Chemistry syllabus (9701). The Cambridge International AS and A Level Chemistry Workbook with CD-ROM supports students to hone the essential skills of handling data, evaluating information and problem solving through a varied selection of relevant and engaging exercises and exam-style questions. The Workbook is endorsed by Cambridge International Examinations for Learner Support. Student-focused scaffolding is provided at relevant points and gradually reduced as the Workbook progresses, to promote confident, independent learning. Answers to all exercises and exam-style questions are provided on the CD-ROM for students to use to monitor their own understanding and track their progress through the course. Exam Board: Edexcel Level: IGCSE Subject: Science First Teaching: September 2017 First Exam: June 2019 Develop your students' scientific thinking and practical skills with this second edition, fully updated to match the new 2017 specifications. - Build students' confidence with in-depth yet accessible scientific content - Test understanding with study questions throughout the book - Prepare students for the exam with sample answers and expert comments plus exam-style questions for every section - Build practical skills with coverage of all

required practicals plus further suggested experiments - Develop mathematical skills with maths explanations and questions throughout - Challenge higher ability students with extend and challenge activities - Answers to all activities freely available online 500 AP style questions with detailed answer explanations to prepare you for what you'll see on test day 5 Steps to a 5: 500 AP Chemistry Questions to Know by Test Day gives you 500 practice questions that cover the most essential course material and help you work toward a 5 on the test. The questions parallel the format and degree of difficulty that you'll find on the actual AP exams and are accompanied by answers with comprehensive explanations. The questions in this book were written by expert AP teachers who know the exam inside and out, so they closely reflect what you'll see when you'll sit for the AP Chemistry test. This valuable study guide features:

- 500 AP-style questions and answers
- Detailed review explanations for right and wrong answers
- Close simulations of the real AP exam
- Updated material that reflects the latest AP exam

Practise and prepare for AQA A-level Chemistry with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers.

- Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions.
- Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested.
- Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face.
- Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder

Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book. A PERFECT PLAN for the PERFECT SCORE STEP 1 Set up your study plan with three customized study schedules STEP 2 Determine your readiness with an AP-style diagnostic exam STEP 3 Develop the strategies that will give you the edge on test day STEP 4 Review the terms and concepts you need to score high STEP 5 Build your confidence with full-length practice exams Questions, including those that require longer text answers, give students plenty of practice on all types of exam questions. Stretch questions and take it further sections provide the right level of a challenge for the higher tier. Fully revised and updated content matching the Cambridge International AS & A Level Chemistry syllabus (9701). Endorsed by Cambridge International Examinations, the Second edition of the AS/A Level Chemistry Coursebook comprehensively covers all the knowledge and skills students need for AS/A Level Chemistry 9701 (first examination 2016). Written by renowned experts in Chemistry, the text is written in an accessible style with international learners in mind. The Coursebook is easy to navigate with colour-coded sections to differentiate between AS and A Level content. Self-assessment questions allow learners to track their progression and exam-style questions help learners to prepare thoroughly for their examinations. Contemporary contexts and applications are discussed throughout enhancing the relevance and interest for learners. A revision guide tailored to the AS and A Level Chemistry syllabus (9701) for first examination in 2016. This Revision Guide offers support for students as they prepare for their AS and A Level Chemistry (9701) exams. Containing up to date material that matches the syllabus for examination from 2016 and packed full of guidance such as Worked Examples, Tips and Progress Check questions throughout to help students to hone their revision and exam technique and avoid common mistakes. These features have been specifically designed to help

students apply their knowledge in exams. Written in a clear and straightforward tone, this Revision Guide is perfect for international learners. The Cambridge IGCSE Chemistry Revision Guide supports students through their course, containing specifically designed features to help students apply their knowledge as they prepare for assessment. This Revision Guide offers support for students as they prepare for their Cambridge IGCSE Chemistry (0620) exams. Containing up to date material that matches the syllabus for examination from 2016 and packed full of guidance such as Worked Examples, Tips and Progress Check questions throughout to help students to hone their revision and exam technique and avoid common mistakes. These features have been specifically designed to help students apply their knowledge in exams. Written in a clear and straightforward tone, this Revision Guide is perfect for international learners. Essential facts. Exam-style questions. Answers. Provides information in manageable chunks, which is reinforced by questions and activities that encourage students to consider the practical application of science to everyday life. This work is useful for Higher Tier GCSE students. Chemistry for the IB Diploma, Second edition, covers in full the requirements of the IB syllabus for Chemistry for first examination in 2016. The Second edition of this well-received Coursebook is fully updated for the IB Chemistry syllabus for first examination in 2016, comprehensively covering all requirements. Get the best coverage of the syllabus with clear assessment statements, and links to Theory of Knowledge, International-mindedness and Nature of Science themes. Exam preparation is supported with plenty of sample exam questions, online test questions and exam tips. Chapters covering the Options and Nature of Science, assessment guidance and answers to questions are included in the additional online material available with the book. Exam Board: Edexcel, AQA, and OCR Gateway Level & Subject: GCSE Grade 9-1 Chemistry First Teaching: September 2016, First Exams: June 2018 Letts Revision improves exam confidence

Matched to the requirements of the National Curriculum, this workbook prepares students for their GCSE Chemistry exam with confidence. This workbook provides invaluable practice in answering exam-style questions ahead of the new, more challenging GCSEs. The first section is organised by topic for focused revision. The second section features a complete GCSE Chemistry exam practice paper. * Lively magazine-style layout communicates all the essential information in an accessible way.* Plenty of exam-style questions reinforce understanding and improve performance.* Topic-by-topic practice for focused revision

Revision Guides: Simple and concise explanations of every topic are explored through different activity types.

Workbooks: A mixture of question styles help children can get closer to a real' test experience.

Practice Test Papers: Test-style questions test understanding and improve performance.

Exam Board: AQA Level: AS/A-level Subject: Chemistry First Teaching: September 2015 First Exam: June 2016

Ensure your students get to grips with the core practicals and develop the skills needed to succeed with an in-depth assessment-driven approach that builds and reinforces understanding; clear summaries of practical work with sample questions and answers help to improve exam technique in order to achieve higher grades. Written by experienced teachers Tim Waite and Amber Waite, this Student Guide for practical Chemistry:

- Help students easily identify what they need to know with a concise summary of required practical work examined in the A-level specifications.
- Consolidate understanding of practical work, methodology, mathematical and other skills out of the laboratory with exam tips and knowledge check questions, with answers in the back of the book.
- Provide plenty of opportunities for students to improve exam technique with sample answers, examiners tips and exam-style questions.
- Offer support beyond the Student books with coverage of methodologies and generic practical skills not focused on in the textbooks.

Chemistry for the IB Diploma, Second edition, covers in full the requirements of the IB syllabus for

Chemistry for first examination in 2016. This workbook is specifically for the IB Chemistry syllabus, for examination from 2016. The Chemistry for the IB Diploma Workbook contains straightforward chapters that build learning in a gradual way, first outlining key terms and then providing students with plenty of practice questions to apply their knowledge. Each chapter concludes with exam-style questions. This structured approach reinforces learning and actively builds students' confidence using key scientific skills - handling data, evaluating information and problem solving. This helps empower students to become confident and independent learners. Answers to all of the questions are on the CD-ROM. This title covers the AQA level 1/level 2 certificate in chemistry and contains a huge range of exam-style practice questions, arranged by topic for targeted revision - with detailed answers included. Practise and prepare for AQA GCSE Chemistry with hundreds of topic-based questions and one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book. Practise and prepare for AQA A-level Chemistry with hundreds of topic-based questions and

one complete set of exam practice papers designed to strengthen knowledge and prepare students for the exams. This extensive practice book raises students' performance by providing 'shed loads of practice', following the 'SLOP' learning approach that's recommended by teachers. - Consolidate knowledge and understanding with practice questions for every topic and type of question, including multiple-choice, multi-step calculations and extended response questions. - Develop the mathematical, literacy and practical skills required for the exams; each question indicates in the margin which skills are being tested. - Confidently approach the exam having completed one set of exam-style practice papers that replicate the types, wording and structure of the questions students will face. - Identify topics and skills for revision, using the page references in the margin to refer back to the specification and accompanying Hodder Education Student Books for remediation. - Easily check answers with fully worked solutions and mark schemes provided in the book. The Cambridge International AS & A Level Chemistry Exam Success Guide brings clarity and focus to exam preparation, with detailed and practical guidance on raising attainment. The guide helps students to recap content through easy-to-digest chunks, apply knowledge with targeted revision activities, review and reflect on work done, and raise their grades with sample answers, examiner commentary and exam-style practice. The Cambridge International AS & A Level Chemistry Exam Success Guide is written by Philippa Gardom Hulme, an experienced author and former Chemistry teacher. Students can benefit from her vast experience and her commitment to doing all she can to support them in achieving their potential in exams. Other resources available include a Student Book which offers a rigorous yet accessible approach for covering the whole syllabus and an Enhanced Online Student Book which provides extra digital hotspots including downloadable questions and additional activities. These are also available in a great-value Print & Enhanced Online

Student Book Pack. This is a resource book for IGCSE Chemistry concepts for students to clearly understand and explain all key concepts of IGCSE Chemistry. The book explains how students should approach Chemistry in IGCSE board exams and for intensive revision of concepts. It is also useful for new teachers as it clearly explains and illustrates through examples and diagrams based on pattern of questions for various secondary boards. The book contains comprehensive lecture notes and key points as asked in the exams for six chapters along with EXAM STYLE QUESTIONS at the end of each chapter for thorough practice. These questions are based on three paper types of IGCSE chemistry components (papers) viz MCQ type, structured short and long answer questions. Also instructional lines are given after each question to enable the learners to draft objective responses to the given questions. The topics included in the book are matter, atomic structure, formulae, valencies, equations and balancing, moles, periodic table and bonding are clearly explained by solved examples. The book is highly recommended for students of other international secondary chemistry curricula such as O-level, Edexcel GCSE secondary, IB MYP.: Contents: Chapter-1 Particulate Nature of Matter: States of Matter: Arrangement of particles in matter: Kinetic Particle Theory: Conversion of States: Heating Curve: Cooling Curve: Brownian motion: Exam Style Questions: Chapter-2 Measurement Experimental Techniques:-: Measurement: Pure Substances: Criteria for Purity: Difference between compounds and mixtures: Homogenous mixtures: Heterogeneous mixtures: Separation Techniques: Decantation: Filtration: Sublimation: Chromatography: Distillation: Fractional distillation: Crystallization: Centrifugation: Exam Style Questions: Chapter-3 Structure of Atom: Atoms: Elements: Discovery of sub atomic particles: Models of Atom Structure and Stability Atom and Ion: Isotopes: Radio Isotopes: Electronic Arrangement: Exam style Questions: Chapter-5 Stoichiometry: Elements: Compounds: Chemical Formula: Word

Equation: Symbol Equation: Balancing Equation: Relative Atomic Mass: Naming Compound: Information from a chemical equation: Definition of Mole: The mole concept: Molar Mass: Important Formula: Limiting reagent: Reacting Masses: Reacting masses and ratios: Molar Volumes: Concentration of Solutions: Water of Crystallization Empirical and Molecular Formula Percentage Yield: Percentage Purity: Solved Examples of all the concepts: Practice Questions: Exam style Questions: Chapter-6 Chemical Bonding: Chemical Bond: Ionic Bond: Covalent Bond: Metallic Bond: Coordinate Bond: Giant Structures: Formula of positive and negative ions: Exam style Questions

Improve exam skills, check understanding and familiarise students with the types of questions they will face in AQA GCSE (9-1) Science. This photocopiable pack of exam-style questions, sample answers and mark schemes can be used flexibly for mocks, classwork or homework. - Reinforce the skills and knowledge that students need for their exams, selecting exam question worksheets to focus on tricky topics or revise more broadly across the course - Pick and choose whether you assign the questions in test conditions or use them alongside the sample answers, encouraging students to reflect on their responses - Help students understand what a 'good' answer looks like, sharing sheets of sample answers with examiner comments and mark schemes - Mark students' work more easily, consulting the examiner comments and mark schemes yourself or giving them to students for self/peer-marking activities

Exam board: SQA Level: National 5 Subject: Chemistry First teaching: September 2017 First exam: Summer 2018 Practice makes permanent. Feel confident and prepared for the SQA National 5 Chemistry exam with this two-in-one book, containing practice questions for every question type and topic, plus two full practice papers. - Choose to revise by question type or topic: A simple grid enables you to pick particular question styles or course areas that you want to focus on, with answers provided at the back of the book - Understand what the examiner is looking

for: Clear guidance on how to answer each question type is followed by plenty of questions so you can put the advice into practice, building essential exam skills - Remember more in your exam: Repeated and extended practice will give you a secure knowledge of the key areas of the course (chemical changes and structure; nature's chemistry; chemistry in society) - Familiarise yourself with the exam paper: Both practice papers mirror the language and layout of the real SQA papers; complete them in timed, exam-style conditions to increase your confidence before the exams - Find out how to achieve a better grade: Answers to the practice papers have commentaries for each question, with tips on writing successful answers and avoiding common mistakes Fully up to date with SQA's requirements The questions, mark schemes and guidance in this practice book match the requirements of the revised SQA National 5 Chemistry specification for examination from 2018 onwards. Get your best grades with this exam-focused text that will guide you through the content and skills you need to prepare for the big day. Manage your own revision with step-by-step support from experienced examiner and author David Bevan. This guide also includes a Questions and Answers section with exam-style questions, student's answers for each question, and examiner comments to ensure you're exam-ready. - Plan and pace your revision with the revision planner - Use the expert tips to clarify key points - Avoid making typical mistakes with expert advice - Test yourself with end-of-topic questions and answers and tick off each topic as you complete it - Practise your exam skills with exam-style questions and answers This title has not been through the Cambridge International endorsement process. Collins AS Chemistry for AQA is the ideal resource to support you through the 2008 AQA GCE course. It has been developed with the help of AQA examiners to ensure a perfect match to the 2008 specification and provides everything you need to succeed in your exam. This book covers AQA Chemistry AS units: Unit 1 - Foundation Chemistry Unit 2 -

Chemistry in Action The book includes the following features: - How Science Works feature boxes and assignments - Real world science in context at the start of every chapter - Questions throughout the text, with answers provided in the back of the book - Key fact summaries throughout the text - Stretch and challenge boxes to push the most able students - Exam-style questions at the end of every chapter - Practice synoptic questions The website includes the following additional support material: - Mark schemes for exam-style questions from the book - Sample student answers to exam-style questions at 2 levels with examiner comments to show students how to achieve a higher grade - Guidance for PSAs to help students to achieve the best grades in their practical assessments - Mathematical and examination technique guidance to ensure that students know how to best prepare for and handle their exams. Also available, Collins A2 Chemistry for AQA, covering: Unit 4: Kinetics, Equilibria and Organic Chemistry Unit 5: Energetics, Redox and Inorganic Chemistry Exam Board: AQA Level & Subject: AS Chemistry First teaching: September 2015 Next exams: June 2023 Checked by AQA examiners, this is an essential study and revision guide for the 2015 AQA AS and A-level Year 1 Chemistry specification concentrating on organic chemistry and related physical chemistry topics for Paper 2. Tackle new-style written exam questions with guidance on practical and mathematical skills Avoid common mistakes and get advice on exams with Exam Notes Focus on just the content you need with Essential Notes Memorise terminology for required practicals and mathematical and Working Scientifically aspects Practise exam-style questions Provide clear guidance to the 2014 changes and ensure in-depth study with accessible content, directly mapped to the new syllabus and approach to learning This second edition of the highly-regarded first edition contains all SL and HL content, which is clearly identified throughout. Options are available free online, along with appendices and data and statistics. - Improve exam performance, with exam-style

questions, including from past papers - Integrate Theory of Knowledge into your lessons and provide opportunities for cross-curriculum study - Stretch more able students with extension activities - The shift to concept-based approach to learning , Nature of Science, is covered by providing a framework for the course with points for discussion - Key skills and experiments included - Full digital package - offered in a variety of formats so that you can deliver the course just how you like! REA's Crash Course for the AP® Chemistry Exam - Gets You a Higher Advanced Placement® Score in Less Time

Crash Course is perfect for the time-crunched student, the last-minute studier, or anyone who wants a refresher on the subject. Are you crunched for time? Have you started studying for your Advanced Placement® Chemistry exam yet? How will you memorize everything you need to know before the test? Do you wish there was a fast and easy way to study for the exam AND boost your score? If this sounds like you, don't panic. REA's Crash Course for AP® Chemistry is just what you need. Our Crash Course gives you: Targeted, Focused Review - Study Only What You Need to Know Fully revised for the 2014 AP® Chemistry exam, this Crash Course is based on an in-depth analysis of the revised AP® Chemistry course description outline and sample AP® test questions. It covers only the information tested on the new exam, so you can make the most of your valuable study time. Our targeted review focuses on the Big Ideas that will be covered on the exam. Explanations of the AP® Chemistry Labs are also included. Expert Test-taking Strategies This Crash Course presents detailed, question-level strategies for answering both the multiple-choice and essay questions. By following this advice, you can boost your score in every section of the test. Take REA's Online Practice Exam After studying the material in the Crash Course, go to the online REA Study Center and test what you've learned. Our practice exam features timed testing, detailed explanations of answers, and automatic scoring analysis. The exam is balanced to include every topic and type of

question found on the actual AP® exam, so you know you're studying the smart way. Whether you're cramming for the test at the last minute, looking for extra review, or want to study on your own in preparation for the exams - this is the study guide every AP® Chemistry student must have. When it's crucial crunch time and your Advanced Placement® exam is just around the corner, you need REA's Crash Course for AP® Chemistry! About the Author Adrian Dingle is a chemistry educator and author, with 24 years of experience teaching in the United States and the United Kingdom. He is the creator of the award-winning chemistry website, www.adriandingleschemistrypages.com. The focus of Mr. Dingle's teaching career has been on preparing students for standardized tests; AP® and SAT® tests in the United States, GCSE's and A levels in the United Kingdom, and International Baccalaureate in both countries. An Englishman, he lives in Atlanta, Georgia, where he teaches at The Westminster Schools. He holds a B.Sc. (Hons.) Chemistry, and a Postgraduate Certificate in Education, both from the University of Exeter in England. In addition to writing this Crash Course, Mr. Dingle has written *The Periodic Table: Elements With Style*, *How To Make A Universe With 92 Ingredients*, and *SAT™ Chemistry Crash Course*. He is the 2011 winner of the School Library Association of the UK's Information Book Award, and, in 2012, was honored with the prestigious literary prize *Wissenschaftsbuch des Jahre*, sponsored by the Austrian Ministry of Science and Research. *Chemistry for the IB Diploma, Second edition*, covers in full the requirements of the IB syllabus for Chemistry for first examination in 2016. Exam board: SQA Level: Higher Subject: Chemistry First teaching: September 2018 First exam: Summer 2019 Practice makes permanent. Feel confident and prepared for the SQA Higher Chemistry exam with this two-in-one book, containing practice questions for every question type and topic, plus two full practice papers. - Choose to revise by question type or topic: A simple grid enables you to pick particular question

styles or course areas that you want to focus on, with answers provided at the back of the book - Understand what the examiner is looking for: Clear guidance on how to answer each question type is followed by plenty of questions so you can put the advice into practice, building essential exam skills - Remember more in your exam: Repeated and extended practice will give you a secure knowledge of the key areas of the course (chemical changes and structure; nature's chemistry; chemistry in society; researching chemistry) - Familiarise yourself with the exam papers: Both practice papers mirror the language and layout of the real SQA papers; complete them in timed, exam-style conditions to increase your confidence before the exams - Find out how to achieve a better grade: Answers to the practice papers have commentaries for each question, with tips on writing successful answers and avoiding common mistakes Fully up to date with SQA's requirements The questions, mark schemes and guidance in this practice book match the requirements of the revised SQA Higher Chemistry specification for examination from 2019 onwards. Stretch yourself to achieve the highest grades, with structured syllabus coverage, varied exam-style questions and annotated sample answers, to help you to build the essential skill set for exam success. - Benefit from expert advice and tips on skills and knowledge from experienced subject authors - Effectively manage your revision with a brand-new introduction that clearly outlines what is expected from you in the exam - Keep track of your own progress with a handy revision planner - Use the new glossary-index section to identify and address gaps in knowledge - Consolidate and apply your understanding of key content and skills with short 'Test yourself' and exam-style questions Get ready for your AP Chemistry exam with 500 AP Chemistry questions updated for all the latest exam changes We want you to succeed on your AP exams. That's why we've selected these 500 questions to help you study more effectively, use your preparation time wisely, and get your best score. These AP-style questions

and answers are similar to the ones you'll find on the exam, so you will know what to expect on your test day. Each question includes detailed explanation with right and wrong answers to enhance your full understanding of the concepts. Whether you are just beginning your test preparation or doing a last-minute review, 5 Steps to a 5 500 AP Chemistry Questions, 2ed will help you achieve the score you desire. 500 AP-style questions and answers Complete answer explanations for every question What you really need to know to achieve a high score A good way to prepare for your exam is to practise solving exam-style questions. This book provides a comprehensive range of chemistry problems at a foundation level, especially formulated to familiarise the student with exam questions. Although the book is based on the AS level specification (UK), it can be used by anyone studying foundation chemistry. The book covers the following topics: Atomic Structure, Amount of Substance, Bonding, Periodicity, Introduction to Organic Chemistry, and Alkanes. Packed full of GCSE-style questions to test understanding, this AQA Chemistry revision and classroom companion is designed to help students revise everything they need to know, and familiarise themselves with the types of questions that they may come across in the exam. Endorsed by AQA, this Chemistry revision and classroom companion provides in-depth coverage of all the externally assessed course content for the GCSE AQA course. Clear explanations and supporting diagrams ensure understanding and help students to prepare for the exam with confidence. Included in this book: * in-depth coverage that provides everything required for thorough exam preparation * detailed explanations and diagrams to help consolidate and build on knowledge throughout the course * clear design and direct references to the specification to provide structured revision and maximum assurance * separate units differentiated by colour and labelling * topic summaries provide at-a-glance topic overviews * exam-style questions at the end of each unit * How Science Works overview Packed full of GCSE-style

questions to test understanding, this OCR gateway Chemistry A revision and classroom companion is designed to help students revise everything they need to know, and familiarise themselves with the types of questions that they may come across in the exam. Endorsed by OCR, this Chemistry A revision and classroom companion provides in-depth coverage of all the externally assessed course content for the GCSE OCR course. Clear explanations and supporting diagrams ensure understanding and help students to prepare for the exam with confidence. Included in this book: * in-depth coverage that provides everything required for thorough exam preparation* detailed explanations and diagrams to help consolidate and build on knowledge throughout the course* clear design and direct references to the specification to provide structured revision and maximum assurance* separate units differentiated by colour and labelling* topic summaries provide at-a-glance topic overviews* exam-style questions at the end of each unit* How Science Works overview Target success in Science with this proven formula for effective, structured revision; key content coverage is combined with exam-style tasks and practical tips to create a revision guide that students can rely on to review, strengthen and test their knowledge. With My Revision Notes, every student can: - Plan and manage a successful revision programme using the topic-by-topic planner - Consolidate subject knowledge by working through clear and focused content coverage - Test understanding and identify areas for improvement with regular 'Now Test Yourself' tasks and answers - Improve exam technique through practice questions, expert tips and examples of typical mistakes to avoid - Get exam ready with extra quick quizzes and answers to the practice questions available online Study as you go with Cambridge Checkpoints. Updated annually to provide the most up-to-date exam preparation available, Cambridge Checkpoints provides everything you need to prepare for your exams in a go-anywhere format that fits easily into your school bag. • Recent

official exam papers with suggested responses • Hundreds of additional past exam and exam-style questions with answers • Dot point summaries of key topics and concepts to help you pinpoint where you need further revision Exam Board: AQA Level: GCSE Combined Science Subject: Chemistry First teaching: September 2016 This is the perfect revision book to help you achieve the grade you want in your GCSE Combined Science Chemistry exams containing the new 9-1 syllabus throughout the booklet, which has been closely matched to the AQA course. This Chemistry AQA revision booklet consists of 4, 70-mark practice papers with realistic exam style questions to test your understanding of the most difficult topics, handpicked by teachers and including practical exam questions. Included are 4 detailed mark schemes which are clear and concise to help students. This GCSE Combined Science Chemistry workbook is well suited for assessments, homework, independent study and exam preparation Unlock your full potential with My Revision Notes: expert guidance on how to apply the key content you need to know. With Edexcel AS Chemistry you will be able to: - Take control of your revision - plan and focus on the areas where you need to improve your knowledge and understanding with advice, summaries and notes from expert author George Facer - Achieve your potential - make accurate and effective use of chemical terms and concepts with the help of key words and definitions on all topics - Improve your exam skills - tackle a range of exam-style and test yourself questions in the book, plus last-minute quick quizzes at www.hoddereducation.co.uk/myrevisionnotes
