It may be the embodiment of your time, your talents, and your commitments. It buys the food you eat, the house you sleep in, the car you drive, and the clothes you wear. It also helps provide you with the lifestyle you want to live once you retire. You have spent a lifetime earning it, spending it, and hopefully, accumulating it. When the time comes for retirement, you want your money to provide you with a comfortable lifestyle and stable income after your working days are done. You might also have other desires, such as traveling, purchasing property, or moving to be closer to your family (or farther away). You may also want your assets to provide for your loved ones after you are gone. The truth is that it takes more than just money to fulfill those needs and desires. Your income, your plans for retirement, your future healthcare expenses, and the continued accumulation of your assets after you stop working and drawing a paycheck all rely on one thing: You. Explains aspects of personal finances including savings and checking accounts, mortgages, personal loans, bankruptcy, and stocks and bonds.
