L'Atharvaveda è il quarto Veda, ossia il quarto testo sapienziale della cultura indiana più antica. In esso sono racchiusi i germi del pensiero filosofico e religioso delle Upanisad, fondamentali non solo per la cultura indiana, ma anche per quella occidentale. Così, ecco intrecciarsi nell'Atharvaveda formule magico-rituali e principi cosmogonici in una metafora continua tra micro e macrocosmo, tra molteplice e unità: è il mondo magico degli specchi, il riflesso dell'alterità indefinibile. Acta 46 comprises 64 articles. Out of the 120 scheduled lectures and posters presented at the 31st Congress of the Rei Cretariæ Romanæ Favtores, 61 are included in the present volume, to which three further were added. Given the location of the conference in Romania it seems natural that there is a particular focus on the Balkans and Danube. [Italiano]: Il presente lavoro costituisce una biografia intellettuale di Jacques-André Naigeon (1735-1810), importante figura del secolo dei Lumi francese. Biografo e primo editore di Diderot, Naigeon fu testimone privilegiato delle innumerevoli vicende politiche,

sociali e culturali che sconvolsero la società francese. Ateo convinto, editore infaticabile, fine conoscitore della letteratura clandestina, il giovane Naigeon fece in tempo a collaborare agli ultimi volumi dell'Encyclopédie e a partecipare, con il barone d'Holbach, alla propagazione di numerosi scritti eterodossi, materialisti e ferocemente anti-clericali; dopo la Rivoluzione - la quale lo spinse alla riflessione ma non ad un'attività politica propriamente detta - fu integrato dalla cultura "ufficiale" tramite l'elezione presso l'Institut de France: ma nonostante alcuni lavori editoriali di grande pregio, Naigeon resterà esclusivamente la testimonianza vivente di una stagione culturale ormai irripetibile ./[English]:This work aims at being an intellectual biography of Jacques-André Naigeon (1735-1810), an important figure of French Enlightenment. Not only was he very close to Diderot - of whom he was biographer and editor - but he was also a privileged witness of the countless political, social and cultural events that led to the French Revolution. Besides being a convinced atheist, a tireless publisher, a fine connoisseur of Clandestine literature, Naigeon had the opportunity to collaborate in writing the last volumes of the Encyclopédie and to participate in the propagation of heterodox, materialistic and fiercely anti-clerical writings. After the Revolution - at the beginning of which he tried in vain to make himself heard by the Assemblée Nationale - he was then integrated into the "official" culture through the election at the Institut de France: however, even if he is the author of some prestigious works, Naigeon remains exclusively the living testimony of a now unrepeatable cultural season. Temples are the most prestigious buildings in the urban landscape of ancient Italy, emerging within a network of centres of the then-known Mediterranean world. Notwithstanding the fragmentary condition of the buildings[] remains, these monuments [] and especially their richly decorated roofs [] are crucial sources of information on the constitution of political, social and craft identities, acting as agents in displaying the meaning of images. The subject of this volume is thematic and includes material from the Eastern Mediterranean (including Greece and Turkey). Contributors discuss the network between patron elites and specialized

craft communities that were responsible for the sophisticated terracotta decoration of temples in Italy between 600 and 100 BC, focusing on the mobility of craft people and craft traditions and techniques, asking how images, iconographies, practices and materials can be used to explain the organization of ancient production, distribution and consumption. Special attention has been given to relations with the Eastern Mediterranean (Greece and Anatolia). Investigating craft communities, workshop organizations and networks has never been thoroughly undertaken for this period and region, nor for this exceptionally rich category of materials, or for the craftspeople producing the architectural terracottas. Papers in this volume aim to improve our understanding of roof production and construction in this period, to reveal relationships between main production centres, and to study the possible influences of immigrant craftspeople. Reappraisal of the pioneering humanist scholar Biondo Flavio During his lifetime the historian and antiquarian Biondo Flavio (1392- 1463) struggled to obtain recognition as a major contributor to the humanistic movement of the fifteenth century. Throughout the Renaissance, fellow Italian scholars far too often condemned rather than endorsed his scholarly works. His troublesome career and mixed reputation among his peers stand in stark contrast with the highly innovative character of his learning, which proved to be ground-breaking for the further development of various strands of historical and antiquarian research in the Early Modern Age. The authors of this volume aim to contribute to a reappraisal of this pioneering humanist scholar by a fresh assessment of his major writings in the fields of historical linguistics, historiography, Roman topography, and historical geography. Contributors Angelo Mazzocco (Mount Holyoke College), Marc Laureys (Universität Bonn), Giuseppe Marcellino (Scuola Normale Superiore di Pisa), Fulvio Delle Donne (Università della Basilicata), Fabio Della Schiava (Universität Bonn), Paolo Pontari (Università di Pisa), Catherine Castner (University of South Carolina), Jeffrey White (St. Bonaventure University), Frances Muecke (University of Sydney) This vast collection of scholarly writings examines a wide range of legal topics, including

for example: European Private International Law of Obligations and Internal Market Legislation: A Matter of Coordination -- Balancing Sovereignty and Party Autonomy in Private International Law -- Parenthood for Same-Sex Couples: Challenges of Private International Law from a Scandinavian Perspective -- The Use of Unpublished Opinions on Relocation Law by the California Courts of Appeal: Hiding the Evidence? -- Spousal Support after Divorce under American Family Law: An Attempt to Contribute to the Alimony Debate -- Working with Children: The Balance between the Protection of Children and the Right to Work with Children -- Changing Parenthood after Divorce -- The Contribution of the UNCITRAL Arbitration Rules to International Commercial Arbitration -- Universalism and Tradition: The Use of Non-binding Principles in International Commercial Law -- Problems in the Implementation of WTO Law in the People's Republic of China -- Notes on the Pellegrini Judgment of the European Court of Human Rights -- Professional Traditions: The Reciprocating Ethics of Jurist and Judge This Festschrift honours Günter Stemberger on the occasion of his 75th birthday on 7 December 2015 and contains 41 articles from colleagues and students. The studies focus on a variety of subjects pertaining to the history, religion and culture of Judaism - and, to a lesser extent, of Christianity - from late antiquity and the Middle Ages to the modern era. This work contains the papers of the Tenth Conference on "Antitrust between EU Law and national law", held in Treviso on May 17 and 18, 2012 under the patronage of the European Lawyers Union - Union des Avocats Européens (UAE), the Associazione Italiana per la Tutela della Concorrenza - the Italian section of the Ligue Internationale du Droit de la Concurrence (LIDC)-, the Associazione Italiana Giuristi di Impresa (AIGI), the European Company Lawyers Association (ECLA), and the Associazione Antitrust Italiana (AAI). Some of the papers have been extensively reviewed and updated by the authors prior to publication. Contributions contained in this volume are the result of an in-depth analysis and study of the most salient issues arising from the application of antitrust rules, carried out by experienced and high-ranking professionals, company lawyers,

academics and EU/national institutional representatives who attended the Conference. They deal with extremely topical issues, lying at the heart of current antitrust debate. Some of the most contemporary topics include those relative to the large-scale distribution sector and the control of concentrations at both national and European level. Ample consideration is also given to salient antitrust issues encountered in undertakings' day-to-day business life, as well as to the future of antitrust in the global economy, also in the light of the new powers recently attributed to the Italian Antitrust Authority to challenge administrative acts. This volume also includes some precious insights on the assessment and quantification of damages in antitrust infringements, from both an economic and legal perspective, as well as reflections on the role of judges in the application of antitrust law, also following the principles set forth by the European Court of Human Rights in the well-known Menarini case. This contributed volume is a collection of international writings on dance, human rights, and social justice in the 20th and 21st centuries. The book illuminates and analyzes dance in contexts of oppression and its subversion, as well as in situations promoting access to dance, and those encouraging healing from human rights abuses through movement.

Volume pubblicato nel 2008 (nella I ed. presentato nella Collana "Testo Unico Sicurezza del Lavoro") sul quadro sanzionatorio e sulle regole innovative che governano il sistema istituzionale della vigilanza in materia di sicurezza sul lavoro a seguito dell'entrata in vigore del decreto legislativo 9 aprile 2008, n. 81 (Testo Unico). La riedizione si è resa necessaria in seguito alle rilevanti modifiche introdotte dal decreto correttivo del Testo Unico Sicurezza del Lavoro (D.Lgs. 106/2009). Il volume si presenta suddiviso in varie parti rispettivamente dedicate: all'esame specifico dei nuovi meccanismi istituzionali che governano il complesso fenomeno delle ispezioni e della vigilanza in materia di sicurezza sul lavoro alle linee di sviluppo del nuovo apparato sanzionatorio così come individuato dal d.lgs. n. 81/2008 e successivamente modificato dal d.lgs. 106/2009, con particolare riferimento: al procedimento ispettivo e sanzionatorio, amministrativo e penale, ai limiti di applicabilità dei poteri degli organi di vigilanza (prescrizione, disposizione, diffida), alla lettura dell'apparato punitivo fra contravvenzioni e sanzioni amministrative, alla responsabilità diretta dell'ente, alle condizioni di estinzione agevolata dell'illecito, all'esercizio dei diritti della persona offesa all'analisi dell'apparato sanzionatorio e alla puntuale individuazione di tutte le ipotesi sanzionatorie previste dal nuovo testo unico, anche mediante apposite tabelle che individuano: la fattispecie illecita, la reazione punitiva, le forme di estinzione agevolata dell'illecito. Infine viene proposta: la normativa e la prassi amministrativa di principale rilievo, accanto alla modulistica riguardante le fasi principali del procedimento sanzionatorio penale e amministrativo. Stipulare un contratto con una controparte estera può far sorgere dubbi e problemi più complessi ed articolati rispetto a quelli generati dai rapporti contrattuali con soggetti nazionali. Il contesto in cui si sviluppa una transazione con l'estero è, infatti, caratterizzato dalla diversità di sistemi giuridici, dalla diversità di norme, di consuetudini, di significato attribuito a termini di uso comune che suggeriscono un esame attento delle diverse clausole contrattuali per ricercare quelle più idonee. Le componenti valutarie, finanziarie, creditizie, logistiche e commerciali, gli usi e le consuetudini, la scelta

dei termini di consegna delle merci, le forme di pagamento in uso nei singoli Paesi possono, infatti, incidere in misura rilevante nella determinazione della natura e del contenuto del rapporto contrattuale. Nel volume sono approfondite le normative che interessano l'operatore italiano impegnato nel recupero di somme di denaro all'estero. Si esaminano il quadro normativo in vigore nell'Unione Europea, le norme italiane di diritto internazionale privato e processuale nonché le principali disposizioni di diritto uniforme relative alla vendita di beni mobili previste dalla Convenzione di Vienna. Si analizzano poi le disposizioni in essere in alcuni principali Paesi del mondo, ossia gli USA, la Cina, il Brasile, l'India, la Turchia e la Russia.

Appendice
 Proceedings of a symposium held in January of 1993 by the Danish Institute in Rome, 1993. This reference presents the proceedings of an international meeting on the occasion of the University of Bologna's ninth centennial - highlighting the latest developments in the field of geometry and complex variables and new results in the areas of algebraic geometry, differential geometry, and analytic functions of one or several complex variables. Building upon the rich tradition of the University of Bologna's great mathematics teachers, this volume contains new studies on the history of mathematics, including the algebraic geometry work of F. Enriques, B. Levi, and B. Segre ... complex function theory ideas of L. Fantappiè, B. Levi, S. Pincherle, and G. Vitali ... series theory and logarithm theory contributions of P. Mengoli and S. Pincherle ... and much more. Additionally, the book lists all the University of Bologna's mathematics professors - from 1860 to 1940 - with precise indications of each course year by year. Including survey papers on combinatorics, complex analysis, and complex

algebraic geometry inspired by Bologna's mathematicians and current advances, *Geometry and Complex Variables* illustrates the classic works and ideas in the field and their influence on today's research. The broad valley of the Bradano river and its tributary, the Basentello, separates the Apennine mountains in Lucania from the limestone plateau of the Murge in Apulia in southeast Italy. This book aims to explain how the pattern of settlement and land use changed in the valley over the whole period from the Neolithic to the late medieval.

Nelson Fausto The Greek myth of Prometheus with its picture of a vulture feasting on its chained victim has traditionally provided a visual image of liver regeneration. It is a powerful and frightening representation but if one were to substitute the vulture by a surgeon and Prometheus by a patient laying on a properly prepared operating table, the outcome of the procedure would not differ significantly from that described by Greek poets. Yet few of us who work in the field have stopped long enough to ask where this myth originated. Did the poet observe a case of liver regeneration in a human being? Was it brilliant intuition or perhaps, literally, just a 'gut feeling' of a poet looking for good rhymes that led to the prediction that livers grow when part of the tissue is removed? This book does not attempt to solve these historical issues. It does, instead, cover in detail some of the major modern themes of research on liver regeneration, injury and repair. As indicated in Dr. N. Bucher's chapter, the modern phase of experimental studies on liver regeneration started in 1931 with the publication by Higgins and Anderson of a method to perform a two-thirds resection of the liver of a rat. The technique described has 3 remarkable features: 1) it is highly reproducible, resulting in the removal of 68% of the liver, 2) it has minimal if any mortality, and 3) it consists only of blood vessel ligation and does not involve cutting through or wounding hepatic tissue. In the globalized, postmodern world, the production of encounters and clashes between dissimilar cultures, ways of life, and systems of values has drastically increased in number. More and more frequently, they originate harsh conflicts, exhibiting the existence of alternative and apparently incompatible ways of living and

thinking – culturally, religiously, economically and politically speaking. In this context, words as tolerance and intolerance have been put at the heart of the political debate. However, what is the real meaning of these political concepts? Why did they originate and how did they develop over time? Do they still represent a valid resource for comprehending our current societies and dealing with them? Through the different voices of several scholars in the humanities, this book traces the history of tolerance since the wars of religion to the contemporary age, combining the historical reconstruction with a theoretical and critical analysis of the idea and practice of tolerance in different epochs and places. The obstacle course depicted here reveals the constitutive fragility of this concept that, however, cannot be totally dismissed from our political vocabulary. The intellectual societies known as Academies played a vital role in the development of culture, and scholarly debate throughout Italy between 1525-1700. They were fundamental in establishing the intellectual networks later defined as the 'République des Lettres', and in the dissemination of ideas in early modern Europe, through print, manuscript, oral debate and performance. This volume surveys the social and cultural role of Academies, challenging received ideas and incorporating recent archival findings on individuals, networks and texts. Ranging over Academies in both major and smaller or peripheral centres, these collected studies explore the interrelationships of Academies with other cultural forums. Individual essays examine the fluid nature of academies and their changing relationships to the political authorities; their role in the promotion of literature, the visual arts and theatre; and the diverse membership recorded for many academies, which included scientists, writers, printers, artists, political and religious thinkers, and, unusually, a number of talented women. Contributions by established international scholars together with studies by younger scholars active in this developing field of research map out new perspectives on the dynamic place of the Academies in early modern Italy. The publication results from the research collaboration "The Italian Academies 1525-1700: the first intellectual networks of early modern

Europe' funded by the Arts and Humanities Research Council and is edited by the senior investigators. Il volume raccoglie gli atti del XXème Congrès International de la Société Rencesvals pour l'étude des épopées romanes (Sapienza - Università di Roma, 20-24 luglio 2015) e presenta lo stato dell'arte e le ricerche in corso sull'epica romanza medievale propriamente detta, sulla sua posterità nell'età moderna e sulla produzione non romanza a essa correlata, offrendo un panorama ricco – se non completo – degli attuali orientamenti scientifici e dei risultati raggiunti. Per il congresso di Roma – cui hanno preso parte studiosi provenienti dall'Europa, dal Nord e dal Sud America e dall'Africa – sono stati proposti i seguenti temi: I. Rome et l'Italie dans les chansons de geste; II. Phénomènes de cyclisation: grandes et petites gestes; III. Le XVe siècle: proses et renouvellements; IV. L'histoire des recherches sur la matière de France; a questi si aggiungono gli interventi raccolti nella sezione Varia. La quarta edizione del libro "Fringe benefits e rimborsi spese", rinnovata ed aggiornata con le previsioni della Legge Finanziaria per il 2010, L. 23 dicembre 2009, n. 191, in materia di tassazione agevolata dei premi di produttività, tiene conto di molte e importanti modifiche normative che sono diventate operative nel corso degli ultimi anni, per esempio l'eliminazione dei regimi agevolativi precedentemente previsti per le stock option o i limiti di deducibilità delle spese relative a prestazioni alberghiere e alle somministrazioni di alimenti e bevande. Il volume, pur conservando l'originaria agilità di consultazione, fornisce una trattazione completa ed esaustiva del quadro di riferimento per la qualificazione e quantificazione dei redditi di lavoro dipendente ed assimilati, ne analizza le varie fattispecie che si possono incontrare nella pratica professionale, con particolare attenzione alla disciplina delle trasferte, e le relative modalità di rimborso degli oneri sostenuti dai dipendenti, e a quella dei fringe benefits. L'ultimo capitolo è stato riservato all'esame della disciplina della deducibilità, sia ai fini delle imposte dirette (Irpef/Ires) sia ai fini IRAP, degli oneri connessi ai dipendenti e collaboratori, per aiutare nella determinazione degli importi deducibili specie quelli la cui deduzione è soggetta a limitazioni. Utile per chi deve

affrontare la compilazione della dichiarazione dei redditi. "This volume presents a series of papers which cover the general theme of the reception of antiquity, a topic which has in recent years become a discipline in itself, or what some might call a 'cross-discipline'. Indeed the Nachleben of the (culture of) classical antiquity, and of antiquity as a whole, manifests in a number of diverse domains, opening up the field of reception studies to scholars from disciplines other than Classics. This collection of papers illustrates this diversity, uniting as it does original research by scholars from a variety of disciplines: classicists, historians, theatre historians, architectural historians, psychologists, archaeologists, artists, and more, all of whom have treated some aspect of the so-called 'classical tradition' by means of their own individual approaches, leading to a volume rich and dense in themes and methodologies. 'Receptions of antiquity' has been written by friends of Freddy Decreus, in honour of his career, and in celebration of his thought."-- This volume results from the conference "Between Appia and Latina, Settlement Dynamics and Territorial Development on the Slopes of the Alban Hills", held at the Royal Dutch Institute at Rome (KNIR) in February, 2017. It contains 23 methodological, thematic and material culture studies on the historical topographical reconstruction of the Alban Hills in Antiquity with a focus on the area of contact with the suburbium of Rome. Papers present both data from new research and results of research done in the past. In the initiative a range of research institutions partook (foreign Institutes at Rome, Universities, Archaeological Services) and independent researchers stimulating the exchange of current knowledge of this small, but important part of the Campagna Romana. During the Ptolemaic period, Egyptian temples were divided into three ranks: first, second and third class. This volume examines the rules according to which Egyptian sacred buildings were classified and how the different classes of temples were planned and arranged. Gestrinov zbornik je zbornik razprav v počastitev osemdesetletnice nestorja slovenske zgodovine akad. prof. dr. Ferda Gestrina. Zbornik poleg predgovora prinaša 48 prispevkov uglednih domačih in tujih avtorjev. V uvodnem delu so

združeni bio- in bibliografski podatki o jubilanu. Ostali prispevki so razvrščeni v pet tematskih sklopov. Prvi zajema pet razprav, ki posegajo v obravnavo mediteranskega prostora. Nadaljnji blok devetih prispevkov slika zgodovino vzhodnoalpskega prostora v srednjem in novem veku. Sledi skupina desetih razprav o gospodarski zgodovini. četrti sklop vsebuje dvanajst prispevkov, ki slikajo politično in populacijsko zgodovino od srede 19. stoletja do druge svetovne vojne. Zadnja, peta skupina sedmih prispevkov je heterogena, obravnava pa tematiko šolstva in izobrazbe, teoretična, historiografska in filozofska vprašanja.
