There is nothing in artistic poetry quite akin to "Aucassin and Nicolette." - Andrew Lang, poet and scholar. Aucassin and Nicolette is one of the most, if not the most, beautiful love stories ever written. One may search the literature of the world and find no other romance of chivalry, no thousand-page novel, no short story, perhaps even no fairy tale that can rival this flawless gem from thirteenth century France. Let the author speak for himself: Who would list to the good lay Gladness of the captive grey? 'Tis how two young lovers met, Aucassin and Nicolette, Of the pains the lover bore And the sorrows he outwore, For the goodness and the grace, Of his love, so fair of face. Sweet the song, the story sweet, There is no man hearkens it, No man living 'neath the sun, So outwearied, so foredone, Sick and woful, worn and sad, But is heald, but is glad 'Tis so sweet. It is a very great boast, but it is true. Rossignol Books is proud to present rare medieval works in handsome yet affordable editions. From summer camp crushes to awkward first dates, these experiences exude a certain nostalgia. It's like a yearbook, or a diary you don't remember writing. Within these poems you may find someone you knew, or wanted to know, or perhaps completely forgot about...until now. Contrary to common assumptions, medieval and early modern writers and poets often addressed the high value of freedom, whether we think of such fable authors as Marie de France or Ulrich Bonerius. Similarly, medieval history knows of numerous struggles by various peoples to maintain their own freedom or political independence. Nevertheless, as this study illustrates, throughout the pre-modern period, the loss of freedom could happen quite easily, affecting high and low (including kings and princes) and there are many literary texts and historical documents that address the problems of imprisonment and even enslavement (Georgius of Hungary, Johann Schiltberger, Hans Ulrich Krafft, etc.). Simultaneously, philosophers and theologians discussed intensively the fundamental question regarding free will (e.g., Augustine) and political freedom (e.g., John of Salisbury). Moreover, quite a large number of major pre-modern poets spent a long time in prison where they composed some of their major works (Boethius, Marco Polo, Charles d'Orléans, Thomas Malory, etc.). This book brings to light a vast range of relevant sources that confirm the existence of this fundamental and impactful discourse on freedom, imprisonment, and enslavement. This book has two aims - to introduce new readers to the riches of Old French storytelling and the culture from which it arose and, secondly, to suggest a way out of the impasse apparent in current criticism of Aucassin et Nicolette. Each chapter of the book Unlocked is a collection of 50 poems that touch on different topics. The overall style of writing is free verse with a few haiku poems. This book expresses how she feels as a young, black, christian woman living in America. Coming from the mind of an introvert, Unlocked is the release of many emotions always kept inside. There are moments of anger, pain, love, encountering God, and even being a little quirky. The hope behind this book is that other young people can relate to these feelings and will become inspired to follow their dreams of expressing themselves through art whether that looks like writing, painting, singing, or dancing. We all have a voice but it's how we use it that matters. When I wrote that particular poem, "Unhappiness," I was at my height of misery, not knowing where to turn. Finally, after fifteen years of a hell-like marriage, I ran. I took my two children, my daughter, aged thirteen, and my son, aged ten, and packed all our clothing and left. I stayed with a sister who lives in another state. I was on my own from then on. I finally had the courage to leave. My life was now revolving around my two children and self. We now had peace of mind, and we survived very nicely. If anyone who reads this finds themselves in a marital predicament like mine, my advice is take courage, be brave, and do what's best for you and your children. You will survive. The notions of other peoples, cultures, and natural conditions have always been determined by the epistemology of imagination and fantasy, providing much freedom and creativity, and yet have also created much fear, anxiety, and horror. In this regard, the pre-modern world demonstrates striking parallels with our own insofar as the projections of alterity might be different by degrees, but they are fundamentally the same by content. Dreams, illusions, projections, concepts, hopes, utopias/dystopias, desires, and emotional attachments are as specific and impactful as the physical environment. This volume thus sheds important light on the various lenses used by people in the Middle Ages and the early modern age as to how they came to terms with their perceptions, images, and notions. Previous scholarship focused heavily on the history of mentality and history of emotions, whereas here the history of pre-modern imagination, and fantasy assumes center position. Imaginary things are taken seriously because medieval and early modern writers and artists clearly reveal their great significance in their works and their daily lives. This approach facilitates a new deep-structure analysis of pre-modern culture. Jehan et Blonde is the second somewhat better-known of Philippe de Remi's two verse romances. It is presented here in a scholarly edition accompanied by a facing translation into English and an ample commentary. In addition, this volume contains the rest of Philippe's works as preserved in the unique manuscript, Paris BNF fr. 1588: eight substantial verse compositions offering much variety in length, tone, and content. Two other bodies of work are also included: eleven songs in BNF fr. 24006 (of which ten are surely by him) and the series of 'Resveries' in BNF fr. 837 now generally ascribed to

him. The volume, a companion to *Le Roman de la Manekine* (1999), rounds out the complete works of this 13th-century land-holder, professional administrator, family man, gifted amateur writer, and lover of literature. It includes the first English translation of *Jehan et Blonde* and is the only edition of Philippe's works to contain the songs and the 'Resveries.' It should be of interest to specialists in medieval French romance and lyric verse, and also to general readers of medieval narrative who find English translations useful. This book has two aims: to introduce new readers to the riches of Old French storytelling and the culture from which it arose and, secondly, to suggest a way out of the impasse apparent in current criticism of *Aucassin et Nicolette*. Each chapter of the book begins with an English version of a section of the Old French text. This is followed by an analysis of the corresponding passage of the original text using the English version as a point of reference. Many of the text's poetic structures survive translation and it is in these that the discussion finds its point of departure. This is a facsimile reprint of the original book by Andrew Lang, rebuilt using the latest technology. There are no poor, missing or blurred pages and all photographic images have been professionally restored. A consideration of the ways in which the past was framed and remembered in the pre-modern world. This is a book of pure emotions written in between these pages the sour, the savory, and the sweet. Rosamund Marriott Watson was a gifted poet, an erudite literary and art critic, and a daring beauty whose life illuminates fin-de-siècle London and the way in which literary reputations are made--and lost. A participant in aestheticism and decadence, she wrote six volumes of poems noted for their subtle cadence, diction, and uncanny effects. Linda K. Hughes unfolds a complex life in *Graham R.: Rosamund Marriott Watson, Woman of Letters*, tracing the poet's development from accomplished ballads and sonnets, to avant-garde urban impressionism and New Woman poetry, to her anticipation of literary modernism. Despite an early first divorce, she won fame writing under a pseudonym, Graham R. Tomson. The influential Andrew Lang announced the arrival of a new poet he assumed to be a man. She was soon hosting a salon attended by Lang, Oscar Wilde, and other 1890s notables. Publishing to widespread praise as Graham R., she exemplified the complex cultural politics of her era. A woman with a man's name and a scandalous past, she was also a graceful beauty who captivated Thomas Hardy and left an impression on his work. At the height of her success she fell in love with writer H. B. Marriott Watson and dared a second divorce. *Graham R.* combines the stories of a gifted poet, of London literary networks in the 1890s, and of a bold woman whose achievements and scandals turned on her unusual history of marriage and divorce. Her literary history and her uncommon experience reveal the limits and opportunities faced by an unconventional,

ambitious, and talented woman at the turn of the century. In this passionate collection of poetry Nicolette van der Walt shares with her readers the intimacy of her very marrow. It more than a poet who shares their heart and soul through the beauty of flowers or the tragedy of their short lives, with Nicolette it is depth of love as it smolders within long after the fire has grown cool; her poetry is a window into longing that is more intense than mere desire. Then by turns of sunlight and flowers, she is every season of the earth as she guides her readers into unblinking truths that are as luminous in the dance of sublime understanding of love and loss, as they are of intimacy, lust, parenting, nature, society and celebrations. You will want this book on your nightstand for bedtime reading and dreaming. The Old French fabliaux may be notorious for their bawdy content, but few aspects of these medieval comic narratives are as astonishing as their depiction of the parish priest, whose fiscal and sexual transgressions are on occasion so enormous that lay protagonists are driven to inflict graphic punishments ranging from public exposure and communal beating to castration and murder. In this study, Burrows draws on social psychological research into the cognitive and socio-motivational components of stereotyping to explore the forces underlying the creation and development of the fabliau priest. Through an assessment of the constituent elements of the figure against a background of a range of literary and historical sources, Burrows demonstrates that the literary figure is the product of the specific socio-historical context of contemporaneous changes in relationships between Church and laity in which anticlerical stereotyping, in a manner comparable to other instances of outgroup derogation, can be attributed to a quest for positive social identity and ingroup solidarity on the part of an inscribed lay audience. Aucassin and Nicolette is a medieval French chante-fable. It is a sung story combining prose and verse. This is the first known work from this literary tradition and from it the term chantefable was coined. The author is unknown but the work probably comes from the 13th century. Aucassin is the son of a count and Nicolette is the slave girl he loves. Aucassin's father forbids their union and imprisons them. They escape and have many romantic adventures eventually marrying. They then discover that Nicolette is in reality a Saracen princess. The early Middle Ages provided twentieth-century poets with the material to re-imagine and rework local, religious, and national identities in their writing. Poet of the Medieval Modern focuses on a key figure within this tradition, the Anglo-Welsh poet and artist David Jones (1895-1974): representing the first extended study of the influence of early medieval English culture and history on Jones and his novel-length late modernist poem *The Anathemata* (1952). Jones's second major poetic project after *In Parenthesis* (1937), *The Anathemata* fuses Jones's visual and verbal arts to write a Catholic history of Britain as told through the history of man-as-artist. Drawing on unpublished archival material including manuscripts, sketches, correspondence, and, most significantly, the marginalia from David Jones's Library, this volume reads with Jones in order to trouble the distinction between poetry and scholarship. Placing this underappreciated figure firmly at the centre of new developments in Modernist and Medieval Studies, *Poet of the Medieval Modern* brings the two fields into dialogue and argues that Jones uses the textual and material culture of the early Middle Ages--including Old English

prose and poetry, Anglo-Latin hagiography, early medieval stone sculpture, manuscripts, and historiography--to re-envision British Catholic identity in the twentieth-century long poem. Jones returned to the English record to seek out those moments where the histories of the Welsh had been elided or erased. At a time when the Middle Ages are increasingly weaponised in far-right and nationalist political discourse, the book offers a timely discussion of how the early medieval past has been resourced to both shore-up and challenge English hegemonies across modern British culture. Jan Huizinga and Roger Caillois have already taught us to realize how important games and play have been for pre-modern civilization. Recent research has begun to acknowledge the fundamental importance of these aspects in cultural, religious, philosophical, and literary terms. This volume expands on the traditional approach still very much focused on the materiality of game (toys, cards, dice, falcons, dolls, etc.) and acknowledges that game constituted also a form of coming to terms with human existence in an unstable and volatile world determined by universal randomness and fortune. Whether considering blessings or horse fighting, falconry or card games, playing with dice or dolls, we can gain a much deeper understanding of medieval and early modern society when we consider how people pursued pleasure and how they structured their leisure time. The contributions examine a wide gamut of approaches to pleasure, considering health issues, eroticism, tournaments, playing music, reading and listening, drinking alcohol, gambling and throwing dice. This large issue was also relevant, of course, in non-Christian societies, and constitutes a critical concern both for the past and the present because we are all *homines ludentes*. A comic masterpiece of medieval French literature, Aucassin and Nicolette recounts the love story of the aristocratic but distinctly unheroic young lord Aucassin and his beloved Nicolette. Despite familial disapproval and class and ethnic differences, Nicolette's single-minded pursuit of Aucassin raises questions about gender roles and their depiction in the Middle Ages. This volume, with an introduction about the text's background, genre, and relevance to a contemporary audience, includes the thirteenth-century French text and a modern English translation on facing pages. In this posthumous work, Robert Zend bends and often breaks every rule of layout and poetic convention. His text takes us into a time warp across two continents as his obsessive love for Nicolette, the unconquered muse, defies fate and gives birth to Nicolette, the book.. Zend was a prolific writer in both English and Hungarian. His collections of poetry have received the attention of both Jorge Luis Borges and Northrop Frye.
