A sequence of 90 psychomotor skills for child and adolescent vocal development, drawn from the author's book *Teaching kids to sing* (Schirmer Books, 1992) Learn the most up-to-date information on materials used in the dental office and laboratory today. Emphasizing practical, clinical use, as well as the physical, chemical, and biological properties of materials, this leading reference helps you stay current in this very important area of dentistry. This new full-color edition also features an extensive collection of new clinical photographs to better illustrate the topics and concepts discussed in each

chapter. Organization of chapters and content into four parts (General Classes and Properties of Dental Materials; Auxiliary Dental Materials; Direct Restorative Materials; and Indirect Restorative Materials) presents the material in a logical and effective way for better comprehension and readability. Balance between materials science and manipulation bridges the gap of knowledge between dentists and lab technicians. Major emphasis on biocompatibility serves as a useful guide for clinicians and educators on material safety. Distinguished contributor pool lends credibility and experience to each topic discussed. Critical thinking questions appearing in boxes throughout each chapter stimulate thinking and encourage classroom discussion of key concepts and principles. Key terms presented at the beginning of each chapter helps familiarize readers with key terms so you may better comprehend text material. NEW! Full color illustrations and line art throughout the book make text material more clear and vivid. NEW! Chapter on Emerging Technologies keeps you up to date on the latest materials in use. NEW! Larger trim size allows the text to have fewer pages and makes the content easier to read. A thorough and detailed account of one of the best known pharaohs of Egypt, written by the leading expert on the subject. Kitchen discusses the early life and childhood of the young king, his reign, politics, wars and policies, and his death and the after-life. This book is to be read rather than studied and is more than a simple biography, giving the wider context of Ramesses' life; daily life in the towns and cities, temples and the gods, political advisers and the royal family. Sid Phillips, a World War II Marine Corps hero featured in HBO's The Pacific, offers up an invaluable firsthand account of the war against Japan. A mortarman with H-2-1 of the legendary 1st Marine Division, Sid was only seventeen years old when he entered combat with the Japanese. Some two years later, when he returned home, the island fighting on Guadalcanal and Cape Gloucester had turned Sid into an "Old Timer" by Marine standards, and more: he left as a boy, but came home a man. These are his memoirs, the humble and candid tales that Sid collected during a Pacific odyssey spanning half the globe, from the grueling boot camp at Parris Island, to the coconut groves of Guadalcanal, to the romantic respite of Australia. Sid recalls his encounters with icons like Chesty Puller, General Vandegrift, Eleanor Roosevelt, and his boyhood friend, Eugene Sledge. He remembers the rain of steel from Japanese bombers and battleships, the brutality of the tropical elements, and the haunting notion of being expendable. This is the story of how Sid stood shoulder to shoulder with his Marine brothers to discover the inner strength and deep faith necessary to survive the dark, early days, of World War II in the Pacific. PULITZER PRIZE FINALIST An epic, riveting history of New York City on the edge of disaster—and an anatomy of the austerity politics that continue to shape the world today When the news broke in 1975 that New York City was on the brink of fiscal collapse, few believed it was possible. How could the country's largest metropolis fail? How could the capital of the

financial world go bankrupt? Yet the city was indeed billions of dollars in the red, with no way to pay back its debts. Bankers and politicians alike seized upon the situation as evidence that social liberalism, which New York famously exemplified, was unworkable. The city had to slash services, freeze wages, and fire thousands of workers, they insisted, or financial apocalypse would ensue. In this vivid account, historian Kim Phillips-Fein tells the remarkable story of the crisis that engulfed the city. With unions and ordinary citizens refusing to accept retrenchment, the budget crunch became a struggle over the soul of New York, pitting fundamentally opposing visions of the city against each other. Drawing on never-before-used archival sources and interviews with key players in the crisis, *Fear City* shows how the brush with bankruptcy permanently transformed New York—and reshaped ideas about government across America. At once a sweeping history of some of the most tumultuous times in New York's past, a gripping narrative of last-minute machinations and backroom deals, and an origin story of the politics of austerity, *Fear City* is essential reading for anyone seeking to understand the resurgent fiscal conservatism of today. "I found Mexico to be a land where the people are poor because they have no rights, where peonage is the rule for the great mass, and where actual chattel slavery obtains for hundreds of thousands." ? John Kenneth Turner, *Barbarous Mexico* In *Barbarous Mexico* (1911), John Kenneth Turner describes the corruption and brutal labor system he observed during three years of involvement in a revolutionary movement which led to the overthrow of Mexico's ruler Porfirio Diaz in 1910. The book is organized around three themes: the slave life of the plantations, the elitism of the Diaz government, and the role of foreign governments in supporting the oppression of the Mexican people. During the late 1950s and early 1960s, after the shock of Elvis Presley and before the Beatles spearheaded the British Invasion, fourteen gifted young songwriters huddled in midtown Manhattan's legendary Brill Building and a warren of offices a bit farther uptown and composed some of the most beguiling and enduring entries in the *Great American Songbook*. *Always Magic in the Air* is the first thorough history of these renowned songwriters-tunesmiths who melded black, white, and Latino sounds, integrated audiences before America desegregated its schools, and brought a new social consciousness to pop music. Phillips (director, Koala Preservation Association of the US) looks at the natural history, behavior, and social life of koalas, and recounts the rescue and recovery of injured koalas in the Koala Hospital in Port Macquarie, Australia. He discusses the role of the animal in native myths of creation and renewal, and efforts at preserving the animal's natural habitat. Contains color photos and drawings. Annotation copyright by Book News, Inc., Portland, OR Skywood has been called 'a house that turns lifestyle into a work of art' and one that 'offers a masterclass in architecture's power to excite and inspire'. As a structure, it reflects rigour and attention to detail, attributes that its creator, Graham Phillips, credits both to his time at Foster & Partners,

and to his experiences of buildings he loves, from Mies van der Rohe's Barcelona Pavilion and Luis Barragán's house in Mexico City, to the serene composition of Japanese gardens. Skywood House garnered immediate acclaim from the architectural and popular press. It also became a favoured setting for television and film producers, who found in its pure form and exquisite geometries the perfect backdrop for an array of dramatic scenarios. Known as the 'Va Va Voom' house for its appearance in the 2005 Renault Clio television advert featuring the football titan Thierry Henry, Skywood continues to attract a popular and critical audience. And Phillips's further projects, carried out as an independent architect, resonate with the same sense of precision and elegance. Jim Phillips was the only voice of the Clemson Tigers for generations of fans. For 36 years, his matter-of-fact play by play brought Clemson athletics to life over the radio in South Carolina and wherever the Clemson network was broadcast. Phillips covered football from Frank Howard to Tommy Bowden, including the 1981 national championship season under Danny Ford. He broadcast Clemson's first 15 NCAA tournament games in seven appearances. In workmanlike fashion, he helped build audiences and credibility for baseball and women's basketball when many top college broadcasters delegated those sports to less experienced colleagues. Although Jim Phillips died suddenly of an aortic aneurysm on September 9, 2003, his memories endure in *Still Roaring: Jim Phillips's Life in Broadcasting*. In interviews before his death, Phillips told the story of his life to author Ken Tysiac. They talked about football in the president's box after games at Death Valley; about basketball at a Chili's Restaurant halfway between Duke and Chapel Hill; and about college baseball at Cascio's Restaurant in Omaha during the College World Series. In *Still Roaring*, Phillips recalls a personal guarantee from Charlie Waters before a huge victory for venerable coach Frank Howard. He shares memories of quiet time spent with Danny Ford after the Tigers captured the national title in the Orange Bowl, and he relates the message Rick Barnes gave the Clemson basketball team before a rare, memorable win at Duke's Cameron Indoor Stadium. He also traces the beginnings of future major leaguers such as Mark Lemke and David Justice back to the time Phillips covered them with the Greenville Braves. Phillips's memoirs are often humorous and always heartfelt—a personal history of Clemson athletics and the South Carolina sports scene. A less-expensive grayscale paperback version is available. Meticulously collected from recordings, square and contra dances, fiddle contests, jam sessions and individual fiddlers- this book is meant to provide a snapshot of what American fiddlers were playing and listening to in the latter part of the 20th Century. As the vinyl record format disappears from the marketplace, a great deal of recorded fiddle music will no longer be available. In this book, Stacy Phillips shares the fruits of some timely collecting for all fiddlers to enjoy. Bowings, fingerings, and guitar chords are provided for each melody line. The NIV is the world's best-selling modern translation, with over 150 million copies in print since its first full publication in 1978. This highly accurate and smooth-reading version of the Bible in modern English has the largest library of printed and electronic support material of any modern translation. This series presents biographies of deceased members of the National Academy of Engineering. On reclaiming the moral roots of capitalism for a virtuous future For good or ill, the capitalism we have is the capitalism we have chosen, says Kenneth Barnes. Capitalism works, and the challenge before us is not to change its structure but to address the moral vacuum at the core of its current practice. In *Redeeming Capitalism* Barnes explores the history and workings of this sometimes-brutal economic system. He investigates the effects of postmodernism and unpacks biblical-theological teachings on work and wealth. Proposing virtuous choices as a way out of such pitfalls as the recent global financial crisis, Barnes envisions a more just and flourishing capitalism for the good of all. "BITTERLY FUNNY . . . [A] SLEEK FIRST NOVEL . . . NOIR CRIME . . . HAS FOUND A STERLING NEW CHAMPION IN PHILLIPS." —The New York Times Book Review "A FUTURE HARD-BOILED CLASSIC—TIGHT, COLD, AND CACKLING WITH IRONY. On Christmas Eve [in Wichita], a mob lawyer is skipping

town with the cash. But in this boozy, neo-noir world—James M. Cain meets George V. Higgins—the best-laid plans of bagmen turn brutal.” —The Dallas Morning News “OMINOUS, ACTION-PACKED. . . This is a confident, wry debut . . . [that] may remind readers of Fargo or Pulp Fiction.” —Detroit Free Press “I SIMPLY CAN’T WAIT TO SEE WHAT SCOTT PHILLIPS WILL DO NEXT. [This] funny, tough first novel felt like it was written by an old pro, an Elmore Leonard we’ve never heard about who’s discovered a place where the criminals are really dumb, the low-lives are oh-so-fun to watch and, if somebody just happens to get what he deserves, there’s no one to blame.” —RICHARD RUSSO Author of Straight Man “A DARKLY COMIC, SOMETIMES BRUTAL PIECE OF NOIR FICTION.” —The Denver Post

The Sun has been an object of scientific interest since the time of the ancient Greeks. The vast amounts of observational data acquired in recent years have led to a greatly improved knowledge of the physics of the Sun. With a minimum of technicalities, this book gives an account of what we now know about the Sun's interior, its surface and atmosphere, its relation to the solar system including the earth, and its relation to other stars. The way that solar power is being converted to useful forms of energy is explained. The book is aimed at anyone with a broad science background interested in learning about the latest developments in solar studies, from those at high-school level to the non-specialist professional. Jeff Winston, forty-three, didn't know he was a replayer until he died and woke up twenty-five years younger in his college dorm room; he lived another life. And died again. And lived again and died again -- in a continuous twenty-five-year cycle -- each time starting from scratch at the age of eighteen to reclaim lost loves, remedy past mistakes, or make a fortune in the stock market. A novel of gripping adventure, romance, and fascinating speculation on the nature of time, *Replay* asks the question: "What if you could live your life over again?" This open access book provides both a broad perspective and a focused examination of cow care as a subject of widespread ethical concern in India, and increasingly in other parts of the world. In the face of what has persisted as a highly charged political issue over cow protection in India, intellectual space must be made to bring the wealth of Indian traditional ethical discourse to bear on the realities of current human-animal relationships, particularly those of humans with cows. Dharma, yoga, and bhakti paradigms serve as starting points for bringing Hindu--particularly Vaishnava Hindu--animal ethics into conversation with contemporary Western animal ethics. The author argues that a culture of bhakti--the inclusive, empathetic practice of spirituality centered in Krishna as the beloved cowherd of Vraja--can complement recently developed ethics-of-care thinking to create a solid basis for sustaining all kinds of cow care communities. ; Offers a focused insight into a key aspect of Hindu religious practice Integrates primary research and tertiary sources to give a multifaceted understanding of the intricacies of cow care practice

Challenges conventional Western thought on cow care and its worldwide implications for animal ethics. Kenneth H. Phillips, Ph.D., is Professor of Music and Director of Graduate Studies in Music Education at Gordon College and Professor Emeritus of the University of Iowa. An award-winning researcher and teacher, he has been recognized by the National Association of Music Education (MENC) as one of the nation's most accomplished music educators. Dr. Phillips is the author of *Teaching Kids to Sing* (Schirmer Books/Thompson), *Basic Techniques of Conducting* (OUP), and *Directing the Choral Music Program* (OUP), and has written over 90 articles published in leading music education journals. He has made numerous presentations of his research throughout the United States, and in Canada, China, Australia, and New Zealand.

Even the best cops burn out. *23 Shades of Black's* Filomena Buscarsela returns, having traded in her uniform for the trials of single motherhood. Once a cop, always a cop. She may have left the department, but Filomena's passion for justice burns as hot as ever. And when the owner of her neighborhood bodega is murdered—just another “ethnic” crime that will probably go unsolved and unavenged—Filomena doesn't need much prodding from the dead man's grieving sister to step in. Secretly partnered with a rookie cop, she hits the Washington Heights streets to smoke out the trigger-happy punks who ended an innocent life as callously as if they were blowing out a match. From the labyrinthine subway tunnels of upper Broadway to the upscale enclaves that house the rich and beautiful, from local barrio hangouts to high-priced seats of power, Filomena follows a trail of dirty secrets and dirtier politics, with some unexpected stops in between. In a town big enough to hold every kind of criminal, crackpot, liar, and thief, from ruthless gangsters to corporate executives drunk on greed and power, she tracks a killer through the city's danger zones. This book situates the essential areas of psychology within a cultural perspective, exploring the relationship of culture to psychological phenomena, from introduction and research foundations to clinical and social principles and applications.

- Includes contributions from an experienced, international team of researchers and teachers
- Brings together new perspectives and research findings with established psychological principles
- Organized around key issues of contemporary cross-cultural psychology, including ethnocentrism, diversity, gender and sexuality and their role in research methods
- Argues for the importance of culture as an integral component in the teaching of psychology

This book explores features of the Sun's atmosphere, for graduate students/researchers in astrophysics and solar physics. #1 New York Times Bestseller Oprah's Book Club Selection The “extraordinary . . . monumental masterpiece” (Booklist) that changed the course of Ken Follett's already phenomenal career—and begins where its prequel, *The Evening and the Morning*, ended. “Follett risks all and comes out a clear winner,” extolled Publishers Weekly on the release of *The Pillars of the Earth*. A departure for the bestselling thriller writer, the historical epic stunned readers and critics alike with its

ambitious scope and gripping humanity. Today, it stands as a testament to Follett's unassailable command of the written word and to his universal appeal. The Pillars of the Earth tells the story of Philip, prior of Kingsbridge, a devout and resourceful monk driven to build the greatest Gothic cathedral the world has known . . . of Tom, the mason who becomes his architect—a man divided in his soul . . . of the beautiful, elusive Lady Aliena, haunted by a secret shame . . . and of a struggle between good and evil that will turn church against state and brother against brother. A spellbinding epic tale of ambition, anarchy, and absolute power set against the sprawling medieval canvas of twelfth-century England, this is Ken Follett's historical masterpiece. A guide to wild flower propagation and cultivation based on ten years of pioneering research at the North Carolina Botanical Garden. Now in its second edition, Directing the Choral Music Program is a comprehensive introduction to developing and managing choral music programs for elementary, high school, and adult levels. Broad in scope and practical in orientation, this text is structured around three basic units: the administrative process, rehearsal and performance planning, and choral techniques. Clinical Management of Sex Addiction's newest edition updates many of the original chapters from 28 leaders in the field with new findings and treatment methods in the field of sex addiction. With a growing awareness of sex addiction as a problem, plus the advent of cybersex compulsion, professional clinicians are being confronted with sexual compulsion with little clinical or academic preparation. This is the first book distilling the experience of the leaders in this emerging field. It additionally provides new chapters on emerging areas of interest, including partner counseling, trauma and sexual addiction, and adolescent sex addiction. With a focus on special populations, the book creates a current and coherent reference for the therapist who faces quickly escalating new constellations of addictive sexual behavior. Readable, concise and filled with useful interventions, it is a key text for professionals new to the field and a classic reference for all clinicians who treat sex addiction. "In this thoughtful book, Ken Woodward offers us a memorable portrait of the past seven decades of American life and culture. From Reinhold Niebuhr to Billy Graham, from Abraham Heschel to the Dali Lama, from George W. Bush to Hillary Clinton, Woodward captures the personalities and charts the philosophical trends that have shaped the way we live now." –Jon Meacham, author of *Destiny and Power* Impeccably researched, thought-challenging and leavened by wit, *Getting Religion*, the highly-anticipated new book from Kenneth L. Woodward, is ideal perfect for readers looking to understand how religion came to be a contentious element in 21st century public life. Here the award-winning author blends memoir (especially of the postwar era) with copious reporting and shrewd historical analysis to tell the story of how American religion, culture and politics influenced each other in the second half of the 20th century. There are few people writing today who could tell this important story with such authority and insight. A

scholar as well as one of the nation's most respected journalists, Woodward served as Newsweek's religion editor for nearly forty years, reporting from five continents and contributing over 700 articles, including nearly 100 cover stories, on a wide range of social issues, ideas and movements. Beginning with a bold reassessment of the Fifties, Woodward's narrative weaves through Civil Rights era and the movements that followed in its wake: the anti-Vietnam movement; Liberation theology in Latin America; the rise of Evangelicalism and decline of mainline Protestantism; women's liberation and Bible; the turn to Asian spirituality; the transformation of the family and emergence of religious cults; and the embrace of righteous politics by both the Republican and Democratic Parties. Along the way, Woodward provides riveting portraits of many of the era's major figures: preachers like Billy Graham and Jerry Falwell; politicians Mario Cuomo and Hillary Clinton; movement leaders Daniel Berrigan, Abraham Joshua Heschel, and Richard John Neuhaus; influential thinkers ranging from Erik Erikson to Elizabeth Kubler-Ross; feminist theologians Rosemary Reuther and Elizabeth Schussler-Fiorenza; and est impresario Werner Erhardt; plus the author's long time friend, the Dalai Lama. For readers interested in how religion, economics, family life and politics influence each other, Woodward introduces fresh a fresh vocabulary of terms such as "embedded religion," "movement religion" and "entrepreneurial religion" to illuminate the interweaving of the secular and sacred in American public life. This is one of those rare books that changes the way Americans think about belief, behavior and belonging. A well-rounded hedge fund guide for the serious financial professional Alternative investment strategies-hedge funds in particular-have experienced a significant resurgence recently, largely in response to the dramatic downturn of the global equity markets. In response to this explosion in popularity, this book focuses on many of the best moneymaking strategies related to these alternative investment vehicles. IMCA (The Investment Management Consultants Association) is a professional association established in 1985, representing the investment consulting profession in the U.S. and Canada. Kenneth S. Phillips is a member of the IMCA Advisory Council and Managing Principal of Capital Partners, LLC. Ron Surz, CIMA, is a member of the IMCA Board of Directors and the President of PPCA Inc. For over three decades, director Ken Kwapis has charted a career full of exceptional movies and television, from seminal shows like The Office to beloved films like He's Just Not That Into You. He is among the most respected directors in show business, but getting there wasn't easy. He struggled just like everyone else. With each triumph came the occasional faceplant. Using his background and inside knowledge, But What I Really Want To Do is Direct tackles Hollywood myths through Ken's highly entertaining experiences. It's a rollercoaster ride fueled by brawls with the top brass, clashes over budgets, and the passion that makes it all worthwhile. This humorous and refreshingly personal memoir is filled with inspiring instruction, behind-the-scenes

hilarity, and unabashed joy. It's a celebration of the director's craft, and what it takes to succeed in show business on your own terms. "Ken Kwapis always brought out the best in the actors on *The Office*. Whenever Ken was directing, I always felt safe to go out on a limb and take chances, knowing he had my back. Every aspiring director should read this book. (I can think of several 'professional' directors that should read it too!)" -Jenna Fischer "A vital, magnificent manifesto on the art and craft of directing, written with emotional, instinctual and intellectual depth by one of America's most beloved film and television directors" -Amber Tamblyn "In the years that I was fortunate to work with Ken on *Malcolm in the Middle*, he had an uncanny ability to guide actors right to the heart of a scene and reveal its truths. He admits that he doesn't have all the answers, he'll make mistakes, and at times he'll struggle, but as he says in the book, 'It's the struggle to get it right that makes us human.'" -Bryan Cranston "Good luck finding a more kind, passionate, and talented director alive than Ken. Seriously, good luck." -Tig Notaro "'Action!' is what most directors bark out to begin a scene. But Ken Kwapis starts by gently intoning the words 'Go ahead...' That simple suggestion assures everyone they're in smart, capable, humble hands. That's how you'll feel reading this book. And so, if you're anxious to discover how a top director always brings humor, honesty, and humanity to his work, all I can tell you is...Go ahead." -Larry Wilmore

Analogy has been the focus of extensive research in cognitive science over the past two decades. Through analogy, novel situations and problems can be understood in terms of familiar ones. Indeed, a case can be made for analogical processing as the very core of cognition. This is the first book to span the full range of disciplines concerned with analogy. Its contributors represent cognitive, developmental, and comparative psychology; neuroscience; artificial intelligence; linguistics; and philosophy. The book is divided into three parts. The first part describes computational models of analogy as well as their relation to computational models of other cognitive processes. The second part addresses the role of analogy in a wide range of cognitive tasks, such as forming complex cognitive structures, conveying emotion, making decisions, and solving problems. The third part looks at the development of analogy in children and the possible use of analogy in nonhuman primates. Contributors Miriam Bassok, Consuelo B. plus hitherto unknown information on the artist's materials and process This lavishly illustrated volume reexamines Pablo Picasso's famous Blue Period (1901-04) in paintings, works on paper and sculpture. Relying on new information gleaned from technical studies performed on *The Blue Room (Le Tub)* (1901), *Crouching Beggarwoman (La Miséreuse accroupie)* (1902) and *The Soup (La Soupe)* (1903), this multidisciplinary volume combines art history and advanced conservation science in order to show how the young Picasso fashioned a distinct style and a pronounced artistic identity as he adapted the artistic lessons of fin-de-siècle Paris to the social and political climate of an economically struggling Barcelona. Essays, a chronology and a summary of conservation findings contextualize Picasso's experimental approach to painting during the Blue Period. A major contribution to the burgeoning field of technical art history, *Picasso: Painting the Blue Period* advances new scholarship on one of the most critical episodes in 20th-century modernism.
