Homeschooling All Subjects and Ages Lesson Planner Mar 28 2023 The popularity of homeschooling has skyrocketed in the past few years, especially in the West. More and more parents choose to educate their kids at home. There are a number of reasons for it and I am not going to list them here. I would just like to say that parents who choose to do it work as hard if not harder than teachers at school. To teach a good lesson, good planning is needed. The Homeschooling All Subjects Lesson Planner aims to help parents and tutors plan and teach a successful lesson to children of all ages and abilities no matter what the subject. Having all the lesson plans in one book helps to keep them together to keep track of what has been done and what else needs doing. You can keep all the lesson plans in one book or separate the books by the subject - whichever option works best for you. I must mention two more benefits of keeping your lesson plans in one book. One is for the educational authorities should they wish to check on how the homeschooling is getting on. The other one is simply to save you time filling every lesson plan and looking for them when you need to go back to a certain lesson. One thing - you don't need to fill in all the spaces. Do what works best for your child. Wishing you all the best with it!
