## **Aqa GCSE (9-1) Design & Technology 8552** Jun 21 2023

This is a brand new book that provides comprehensive yet concise coverage of all the topics and disciplines covered in the new AQA 8552 Design and Technology (9-1) specification, written and presented in a way that is accessible to teenagers and easy to teach from. It will be invaluable both as a course text and as a revision guide for students nearing the end of their course. It is divided into neat sections covering every element of the specification. Sections 5A to 5F of the textbook cover each of the six specialist technical areas. These sections would complement practical classroom experience. Solutions to all questions and exercises are provided in a free teacher pack available on our website. To accompany this textbook, PG Online also publishes a series of 12 downloadable teaching units. Each topic in a unit consists of a PowerPoint presentation, teacher's notes, worksheets, homework sheets and a final assessment test with practice questions. Each topic within a unit is expected to be taught over several lessons in a week. Units are sold as a lifetime site licence and may be loaded onto the school's private network or VLE.

**French** Jan 24 2021 Exam

**AQA GCSE Biology 9-1 Student Book**

Oct 01 2021 Covering the whole of the new 2016 GCSE Biology course, this book is structured around a brand new innovative assessment framework that uses regular check points and tailored intervention to help all students make progress. This

book has been entered into the AQA approval process. Written by a team of expert authors for the 2016 AQA specification, this book covers the whole of the new GCSE Biology course. It combines clear and comprehensive explanations with a wealth of practice opportunities, and builds the skills that students will need to succeed. - Track students' progress in the new linear GCSE course through a brand new, innovative assessment framework. Teaching is organized into four semesters that function as checkpoints. - Each spread starts with language and ideas at a lower level and increases in complexity, engaging students of all ability levels - Key concept spreads highlight concepts that students must grasp before they can move on - Stipulated practicals spreads in each chapter build and test students' development of the appropriate skills (e.g. analyzing, evaluating and applying to different contexts) - Math skills are embedded throughout the book and tested at the appropriate level - Real-life contexts and applications are included to show the students the relevance of the concepts they are studying - Prepare students for the demands of the new specification with differentiated questions, worked examples and lots of opportunities to practice - Co-teach both Foundation and Higher tier with a single book (the Higher-only content is clearly flagged)
