NS-Cross Entropy-Based MAGDM under Single-Valued Neutrosophic Set Environment May 18 2022 A single-valued neutrosophic set has king power to express uncertainty characterized by indeterminacy, inconsistency and incompleteness. Most of the existing single-valued neutrosophic cross entropy bears an asymmetrical behavior and produces an undefined phenomenon in some situations.

More Precisely Oct 30 2020 More Precisely provides a rigorous and engaging introduction to the mathematics necessary to do philosophy. It is impossible to fully understand much of the most important work in contemporary philosophy without a basic grasp of set theory, functions, probability, modality and infinity. Until now, this knowledge was difficult to acquire. Professors had to provide custom handouts to their classes, while students struggled through math texts searching for insight. More Precisely fills this key gap. Eric Steinhart provides lucid explanations of the basic mathematical concepts and sets out most commonly used notational conventions. Furthermore, he demonstrates how mathematics applies to many fundamental issues in branches of philosophy such as metaphysics, philosophy of language, epistemology, and ethics.

Generalized Q-Neutrosophic Soft Expert Set for Decision under Uncertainty Jan 14 2022 Neutrosophic triplet structure yields a symmetric property of truth membership on the left, indeterminacy membership in the centre and false membership on the right, as do points of object, centre and image of

reflection. As an extension of a neutrosophic set, the Q-neutrosophic set was introduced to handle two-dimensional uncertain and inconsistent situations. We extend the soft expert set to generalized Q-neutrosophic soft expert set by incorporating the idea of soft expert set to the concept of Q-neutrosophic set and attaching the parameter of fuzzy set while defining a Q-neutrosophic soft expert set.

T-MBJ Neutrosophic Set under M-Subalgebra Jan 26 2023 In this paper, the idea of T-MBJ neutrosophic set is introduced in which MBJ-neutrosophic set is used to present this new set called T-MBJ neutrosophic set. furthermore the notion of T-MBJ neutrosophic M-subalgebra on G-algebra is also introduced and provide the conditions for T-MBJ neutrosophic M-subalgebra. The word M in the term M-subalgebra, represents the initial of author's first name Mohsin. We study the T-MBJ neutrosophic set through different characteristics and also prove some results for better understanding of newly defined T-MBJ neutrosophic set.

Under the Magnolias Oct 11 2021 2022 Christy Award Finalist!

This night not only marked the end to the drought, but also the end to the long-held secret we'd kept hidden under the magnolias. Magnolia, South Carolina, 1980 Austin Foster is barely a teenager when her mama dies giving birth to twins, leaving her to pick up the pieces while holding her six siblings together and doing her best to stop her daddy from retreating into his personal darkness. Scratching out a living on the family's tobacco farm is as tough as it gets. When a few random acts of kindness help to ease the Fosters' hardships, Austin finds herself relying upon some of Magnolia's most colorful citizens for friendship and more. But it's next to impossible to hide the truth about the goings-on at Nolia Farms, and Austin's desperate attempts to save face all but break her. Just when it seems she might have something more waiting for her—with the son of a wealthy local family who she's crushed on for years—her father makes a choice that will crack wide-open the family's secrets and lead to a public reckoning. There are consequences for loving a boy like Vance Cumberland, but there is also freedom in the truth. T. I. Lowe's gritty yet tender and uplifting tale reminds us that a great story can break your heart . . . then heal it in the best possible way.

Fuzzy Parameterized Complex Neutrosophic Soft Expert Set for Decision under Uncertainty Feb 12 2022 This paper introduces the concept of fuzzy parameterized complex neutrosophic soft expert set (FP-CNSES) to handle this issue by assigning a degree of importance to each of the problem parameters. We further develop FP-CNSES by establishing the concept of weighted fuzzy parameterized complex neutrosophic soft expert set (WFP-CNSES) based on the idea that each expert has a relative weight.

Under the Sea Origami Nov 11 2021 From a slithering electric eel to a ferocious barracuda, Duy Nguyen shows you simple paper folding techniques for crafting extraordinary sea creatures. These striking projects, specially designed for Under the Sea

Origami, are fun to make using Nguyen's instructions. You don't have to dive under the sea to spot dolphins because these mammals enjoy jumping out of the water. Your origami model will emulate this graceful leaping motion once you create its intricately-folded arched back, fins, and snout. With a long, wide body and whip-like tail, the stingray is a most distinctive-looking fish. It appears to be in mid-flight even though it's nimbly swimming in the water. The hammerhead shark is easily recognized by the shape of its skull. A large tail, made by using mountain and valley folds, rises dramatically to give the hammerhead a great silhouette. The origami blue shark, on the other hand, will attract attention because of its large gaping mouth! To complete the swordfish, you'll need to attach two pieces of folded paper together. Anyone might be frightened by the appearance of a creature that has a swordlike beak and pointy head, unless it was made of paper like this one is! The squid is as fun to create as the swordfish. Its creepy tentacles will take shape after you cut the valley-folded tail into layers. You will find that these unusual origami projects are among the most original ever designed. Book jacket.

Bella Tuscany May 30 2023 Frances Mayes, whose enchanting #1 New York Times bestseller *Under the Tuscan Sun* made the world fall in love with Tuscany, invites readers back for a delightful new season of friendship, festivity, and food, there and throughout Italy. Having spent her summers in Tuscany for the past several years, Frances Mayes relished the opportunity to experience the pleasures of primavera, an Italian spring. A sabbatical from teaching in San Francisco allowed her to return to Cortona—and her beloved house, Bramasole—just as the first green appeared on the rocky hillsides. *Bella Tuscany*, a companion volume to *Under the Tuscan Sun*, is her passionate and lyrical account of her continuing love affair with Italy. Now truly at home there, Mayes writes of her deepening connection to the land, her flourishing friendships with local people, the joys of art, food, and wine, and the rewards and occasional heartbreaks of her villa's ongoing restoration. It is also a memoir of a season of change, and of renewed possibility. As spring becomes summer she revives Bramasole's lush gardens, meets the challenges of learning a new language, tours regions from Sicily to the Veneto, and faces transitions in her family life. Filled with recipes from her Tuscan kitchen and written in the sensuous and evocative prose that has become her hallmark,

Bella Tuscany is a celebration of the sweet life in Italy. Now with an excerpt from Frances Mayes's latest southern memoir, Under Magnolia.

Under the Hood Boxed Set Feb 24 2023 Under the Hood When Alice

Starr mistakenly believes attorney Mark Jameson needs her help, he discovers he likes being rescued for a change. Smitten by her confidence, he hides his expertise so he has an excuse to see her again. Alice doesn't have time for a man. But with one kiss, she and Mark have advanced into water so deep she's in danger of drowning... Racing the Hunter's Moon Feisty Betty Smith should have only one thing on her mind—catching the conman who swindled her mother. Not the sexy stranger who kissed her then completely disappeared. Undercover FBI agent Joe Carter needs to focus on the bad guy who got away, not the gorgeous headstrong brunette who watches too many cop shows and keeps interfering in his case. And while entering the vintage car rally as a couple seemed like a good idea at the time, faking feelings for each other turns out to be the easiest part. Love for Beginners Melody Swan is looking for a man who can share her hopes and dreams, but she swore she would never lose herself to passion. When sexy Heath Starr agrees to temporarily sub in the Under the Hood garage for his sister, Mel sees the perfect opportunity to enjoy being with a man without becoming attached. Heath came to Meadowsweet to photograph nature, not find a hookup, especially since his last relationship ended in disaster. When the two find themselves isolated in a rustic cabin, they could both break their promises if they aren't careful...
