Boys Don't Cry? Jan 05 2022 We take for granted the idea that white, middle-class, straight masculinity connotes total control of emotions, emotional inexpressivity, and emotional isolation. That men repress their feelings as they seek their fortunes in the competitive worlds of business and politics seems to be a given. This collection of essays by prominent literary and cultural critics rethinks such commonly held views by addressing the history and politics of emotion in prevailing narratives about masculinity. How did the story of the emotionally stifled U.S. male come into being? What are its political stakes? Will the "release" of straight, white, middle-class masculine emotion remake existing forms of power or reinforce them? This collection forcefully challenges our most entrenched ideas about male emotion. Through readings of works by Thoreau, Lowell, and W. E. B. Du Bois, and of twentieth century authors such as Hemingway and Kerouac, this book questions the persistence of the emotionally alienated male in narratives of white middle-class masculinity and addresses the political and social implications of male emotional release.

Boys Don't Cry Oct 22 2020 *Boys Don't Cry* is a book that will make sense of depression and anxiety for people who might not recognise those feelings in themselves or others.
