KSI is one of the biggest and baddest YouTube stars on the planet. With over a billion views and millions of subscribers to his name, he is the undisputed king of social media. But despite this success he is a self-confessed bell-end. Excessively posting selfies, oversharing about his dead nan, spending all day scouring Tinder and suffering from red-hot Fifa rage, are just some of his undesirable online habits. However, with acceptance comes salvation and now KSI is blowing the doors off the internet to find the cure. No one is spared, as KSI takes down fellow YouTubers, trolls, paedos, Tinder catfishers and Nigerian scammers in an all-out assault on the online universe. Along the way he also reveals how to become a YouTube kingpin as well as his hot Fifa tips, before he unveils his online revolution to help save the next generation from his fate. So, if you want to avoid becoming a total bell-end, then calm your tits, and simply take the medicine KSI is dishing up. Experience an in-depth exploration of logical volume management and the use of file managers to manipulate files and directories and the critical concept that, in Linux, everything is a file and some fun and interesting uses of the fact that everything is a file. This book builds upon the skills you learned in Volume 1 of this course and it depends upon the virtual network and virtual machine created there. More experienced Linux users can begin with this volume and download the assigned script that will set up the VM for the start of Volume 2. Instructions with the script will provide specifications for configuration of the virtual network and the

virtual machine. Refer to the volume overviews in the book's introduction to select the volume of this course most appropriate for your current skill level. You'll see how to manage and monitor running processes, discover the power of the special filesystems, monitor and tune the kernel while it is running – without a reboot. You'll then turn to regular expressions and the power that using them for pattern matching can bring to the command line, and learn to manage printers and printing from the command line and unlock the secrets of the hardware on which your Linux operating system is running. Experiment with command line programming and how to automate various administrative tasks, networking, and the many services that are required in a Linux system. Use the logs and journals to look for clues to problems and confirmation that things are working correctly, and learn to enhance the security of your Linux systems and how to perform easy local and remote backups. What You Will Learn Understand Logical Volume Management, using file managers, and special filesystems Exploit everything in a file Perform command line programming and basic automation Configure printers and manage other hardware Manage system services with systemd, user management, security, and local and remote backups using simple and freely available tools Who This Book Is For Anyone who wants to continue to learn Linux in depth as an advanced user and system administrator at the command line while using the GUI desktop to leverage productivity. This book is a legacy to our children and grandchildren..However, since they have not been incarnated on this Earth yet, it is our pleasure to share it with the reader! Dear reader, The journey you are about to embark on is of an abstruse nature. In front of you is a collection of imaginative drawings or comic strips, if you will. These visions have been summoned from the unconscious and subconscious mind of my husband. All of the drawings were drawn in a matter of minutes with both his left and right hand (both brain hemispheres) simultaneously. The surreal images appear on paper as some sort of auto-drawing, where the subject/theme/dreamscape of the drawing is not premeditated. It is drawing in the moment, while the pen is

gliding over the paper..(no pencils, no erasing, no pausing to think.) Pure stream of (un)consciousness; instant mind to paper. The original drawings were created by him in black ink on white paper, to later be scanned into the computer and colored digitally by moi. It has become a collaborative work of two minds working together. The characters hidden in the book are unique, have a life and a world of their own and are inviting you to take a holiday in their realm. Lose your sense of time and urgency getting lost in reverie. Find the hidden riddles and questions each vision postulates. Get lost in a dreamworld, where the surreal and abstract reign whilst all the rules of conventional art and aesthetic are parodied. Let the characters and their environments tickle your own imagination while you watch the them live similar lives to ours: they wander, they wonder, they are confused and pensive, they get angry and fall in love, they have their own dreams within dreams...they are just like us but just a bit strange and silly. They wear their emotions and thoughts on their visages. Their appearances merge with their thoughts. Inner space and outer space are married on paper. Welcome to our world!

Since childhood, Sufoh has lived his life according to the principle of Slayer's Heart, a technique which rids him of all emotion and renders him a ruthless, bloodthirsty killer. Such a reputation is a badge of honor among the warrior race of Macaris from which he hails. But when Sufoh accidentally releases six legendary demons that threaten to plunge the world into chaos, he must leave his people to undo what he has done. As he ventures into a world that hates and fears him, Sufoh is forced to confront not only the evil he has unleashed, but the evil within himself and learn what it truly means to be human.

CAMERA OBSCURA is a collection of poetry that draws on Melinda's experience as an artist and photographer-translating her keen sense of visual awareness into poems that engage us. But her poems dig deeper than merely presenting an image. They bring insight to her world, and ours.

A riveting true story of the failure of the courts and police to protect a woman and her daughters. Explains how computer software is designed and tested. The complete collection of the Pon and Zi webcomic series, created by Jeff Thomas. When Obama stated that if elected, he would keep his Blackberry, debate echoed

through Washington and among the ranks of the Secret Service. What would it be like to have a president who could Twitter, send text messages, and navigate the web with ease? What would it be like to receive a text message from inside the Oval Office and, most importantly, what would it say? Now, for the first time, We The People are privy to our new leader's epistolary back-and-forths on his wily hand-held device. We're about to discover that his emails (and the replies, from his wife and daughters, Biden, Palen, Rush, Hannity, the new first puppy, and even Bush) are so tuned in to the language of electronic correspondence they come hilariously close to the brink of legibility. This giftable, imagined glimpse into Obama's beloved Blackberry traverses the mundane and momentous contours of the Commander in Chief's life, from security briefings to spam, basketball practice to domestic bliss, and the panic of oops-I-hit-reply-all, to, of course, the trauma of dealing with the First Mother In Law. To wit: BidenMyTime: Hey U, whatcha doin?

BARACKO: M rly busy BidenMyTime: Right :(Can I lv at 4:45? Teens form an all-girl band in the face of an impending comet. A woman faces giant spiders to collect silk and protect her family. New friends take their radio show on the road in search of plague survivors. A man seeks love in a fading world. How would you survive the apocalypse? Defying Doomsday is an anthology of apocalypse fiction featuring disabled and chronically ill protagonists, proving it's not always the "fittest" who survive – it's the most tenacious, stubborn, enduring and innovative characters who have the best chance of adapting when everything is lost. In stories of fear, hope and survival, this anthology gives new perspectives on the end of the world, from authors Corinne Duyvis, Janet Edwards, Seanan McGuire, Tansy Rayner Roberts, Stephanie Gunn, Elinor Caiman Sands, Rivqa Rafael, Bogi Takács, John Chu, Maree Kimberley, Octavia Cade, Lauren E Mitchell, Thoraiya Dyer, Samantha Rich, and K L Evangelista. This is the first book in the series of The Little Miss Adventures of Aariah, which celebrates being African American and Latina. The author of Aariah Meets Prima uses rhythm and

rhymes to tell the story of how these two primas met. Ariaiah better known as Neicy Peicy, is usually outgoing, until the day she was not. That was the day her dad's brother drove four hours so the two primas could meet for the very first time. This exciting adventure, written in English and Spanish, retells the ups and downs the two faced once prima arrived in town. The Loremaster's Guide is packed with extra setting material and advice for running Adventures in Middle-earth. There are expanded rules and guidance for running Journeys, Audiences, new rules for combat and adversaries, and a whole lot more.
