This book tells the story of Burma's financial system - of its banks, moneylenders and 'microfinanciers' - from colonial times to the present day. It argues that Burma's financial system matters, and that the careful study of this system can tell us something more general about Burma - not least about how the richest country in Southeast Asia at the dawn of the twentieth century, became the poorest at the dawn of the twenty-first. While financial systems and institutions matter in all countries, Turnell argues that they especially count in Burma as events in the financial and monetary sphere have been unusually, spectacularly, prominent in Burma's turbulent modern history. The story of Burma's financial system and its players is one that has shaped the country. It is a dramatic story of interest beyond the confines of economics and development studies. Econometrics is the combined study of economics and statistics and is an 'applied' unit. It is increasingly becoming a core element in finance degrees at upper levels. This first local adaptation of Wooldridge's text offers a version of Introductory Econometrics with a structural redesign that will better suit the market along with Asia-Pacific examples and data. Two new chapters at the start of the book have been developed from material originally in Wooldridge's appendix section to serve as a clear introduction to the subject and as a revision tool that bridges students' transition from basic statistics into econometrics. This adaptation includes data sets from Australian and New Zealand, as well as from the Asia-Pacific region to suit the significant portion of finance students who are from Asia and the likelihood that many graduates will find employment overseas. In the US and UK, saving and borrowing routines have changed radically and become closely bound-up with the capital markets of global finance. As mutual funds have increased in popularity and pension provision has been transformed, many more individuals and households have come to invest in stocks and shares. As consumer borrowing has risen dramatically and mortgage finance has been extended to those deemed sub-prime, so the repayments of credit card holders and mortgagors have provided the basis for the issue and trading of bonds and other market instruments. The Everyday Life of Global Finance explores the unprecedented relationships that now bind society and the markets, challenging the dominant tendency to simply position recent developments in Wall Street and the City of London at the centre of contemporary finance. Grounded in literature from the sociology of finance and international political economy, drawing on the social theory of Callon, Foucault, and Latour, and informed by extensive empirical research, the book shows how global

finance has become mundane and ordinary in Anglo-America. Finance is not 'out there somewhere', but is embedded in the calculative technologies and performances of reconfigured saving and borrowing networks, and is embodied through the assembly of everyday financial identities and self-disciplines. Society's new-found relationships with the financial markets are also shown, however, to be marked by stark inequalities, manifest contradictions, and political dissent. The *Everyday Life of Global Finance* is thus an ambitious and innovative contribution to our understanding of the contemporary financial world.

**NINE GATES OF THE KINGDOM OF SHADOWS...** The reissue compact nostalgia "Amethyst Edition" of the original 2009 "Necronomicon Shadows: The Nine Gates of the Kingdom of Shadows" (Liber-9) companion to the authentic Sumerian/Babylonian Liber-N "Necronomicon" (Lapis Edition), the now infamous bestselling classic that launched itself from the modern underground movement known as the Mardukites. "More than simply a book imagined by a fantasy horror writer, or the product of some intensive Mesopotamian investigations in the 1970's, the NECRONOMICON is a piece of human consciousness, a primordial archetype that has existed in the backwaters of the mind for thousands of years. During a "new age" of revivals in ancient paganism and earth oriented spirituality, people have flocked to the ranks of neo-paganism, Wicca, Druidry and Scientology, and for good reason: the state of the world is in demand for a complete shift in human awareness. And while H.P. Lovecraft may have been alluding to such a tradition nearly one hundred years ago (even if only subconsciously) and the 1960's witnessed a gigantic practical rebirth in such traditions, it was really in the late 1970's that a separate but synchronous mainstream awakening occurred: the renewed interest in the the most antiquated Sumerian and Babylonian mysteries, specifically the role of the ANUNNAKI, Great Gods who once roamed the Earth and became the figures of our ancient mythologies..." The Mardukite Research Organization was founded on the Summer Solstice in 2008 during the underground release of "Arcanum" by Joshua Free. At its inception, the group was extraordinarily small but pointedly grew exponentially as soon as it began to make an online internet presence. In 2009, the Mardukite Chamberlains began releasing their underground publications as part of an extraordinarily extensive version of what many people's debut into the realm of Mesopotamian esoterica had been - the Necronomicon. The original versions of the 2009 'Mardukite Core' were all elaborately designed limited edition handcrafted tomes that later only appeared in the consolidated anthology titled 'Necronomicon Anunnaki Bible'. It consisted of the 'Necronomicon (of Joshua Free)' (Liber-N) in June of 2009 and three subsequent titles, 'Necronomicon Liturgy & Lore' (Liber-L), the 'Necronomicon Gatekeeper's Grimoire' (Liber-G) and the 'Nine Gates of the Kingdom of Shadows' or 'Necronomicon Shadows' (Liber-9). Although the entire 'Year-1' anthology has been available exclusively as the 'Necronomicon Anunnaki Bible' for over four years, the 'Mardukite Truth Seeker Press' has decided to release a 'nostalgia edition' in 2012 of the original 'Mardukite Core' for those who are new to the mysteries and to rekindle the original flavor of the mystique that was ascertained by those involved with the early development of the materials. In early 2012 a condensed, compact and abridged edition of the 'Necronomicon Anunnaki Bible' appeared on the scene as a reissue

of the original 'lapis edition'. To coincide with this effort, a similarly designed reissue of the remaining 2009 'gem series' (as it was called then) is intended for release. Following popular demand, the previously released 2012 'Lapis Edition' *Necronomicon* actually included more material than simply 'Liber-N' and thus differed from the original edition, these companions: 'Liber L', 'Liber G' and 'Liber-9', were all designed to match the original format and content as much as possible given the preexisting difference in production style.

EDITION NOTE: This is a compact and abridged version excerpting key elements from the complete "Year 1" work of the Mardukite Chamberlains released in the Liber-N]L+G+9 anthology as the "*Necronomicon Anunnaki Bible*" edited by Joshua Free. This book paints a vivid picture of women's active involvement in reshaping intimate and public sexual life in East Asia. In bringing together exciting new feminist research on sexuality from East Asia and making it available to a wider audience, *East Asian Sexualities* unsettles stereotypes, rectifies lack of awareness and demonstrates that East Asia matters. The chapters address the diversity and variety of everyday sexual lives and sexual politics in China, Hong Kong, Taiwan, Korea and Japan. They range from workplace sexual cultures, trans-national sexual relations, the conditions of sex-work and the emergence of new sexual desires, cultures and movements. The contributors highlight the gendered and sexual consequences of globalization and rapid social change. In doing so, they engage with western debates on late modernity while also exploring the contested understandings of modernization and westernization in the East. This is a collection which illuminates the local situations in which women's sexual lives are lived and offers fresh perspectives on global issues. Over 50,000 copies sold of earlier editions! Powerful strategies and practical tools for white people committed to racial justice

Completely revised and updated, this fourth edition of *Uprooting Racism* offers a framework around neoliberalism and interpersonal, institutional, and cultural racism, along with stories of resistance and white solidarity. It provides practical tools and advice on how white people can work as allies for racial justice, engaging the reader through questions, exercises, and suggestions for action, and includes a wealth of information about specific cultural groups such as Muslims, people with mixed heritage, Native Americans, Jews, recent immigrants, Asian Americans, and Latino/as. Inequalities in education, housing, health care, and the job market continue to prevail, while increased insecurity and fear have led to an epidemic of scapegoating and harassment of people of color. Yet, recent polls show that only thirty-one percent of white people in the United States believe racism is a major societal problem; at the same time, resistance is strong, as highlighted by indigenous struggles for land and sovereignty and the Movement for Black Lives. Previous editions of *Uprooting Racism* have sold more than 50,000 copies. This accessible, personal, supportive, and practical guide is ideal for students, community activists, teachers, youth workers, and anyone interested in issues of diversity, multiculturalism, and social justice. Paul Kivel is an award-winning author and an accomplished trainer and speaker. He has been a social justice activist, a nationally and internationally recognized anti-racism educator, and an innovative leader in violence prevention for over forty years.

When Kate L. Turabian first put her famous guidelines to paper, she could hardly have imagined the world in which today's students would be conducting research. Yet while the ways in which we research and compose papers may have changed, the fundamentals remain the same: writers need to have a strong research question, construct an evidence-based argument, cite their sources, and structure their work in a logical way. *A Manual for Writers of Research Papers, Theses, and Dissertations*—also known as "Turabian"—remains one of the most popular books for writers because of its timeless focus on achieving these goals. This new edition filters decades of expertise into modern standards. While previous editions incorporated digital forms of research and writing, this edition goes even further to build information literacy, recognizing that most students will be doing their work largely or entirely online and on screens. Chapters include updated advice on finding, evaluating, and citing a wide range of digital sources and also recognize the evolving use of software for citation management, graphics, and paper format and submission. The ninth edition is fully aligned with the recently released *Chicago Manual of Style*, 17th edition, as well as with the latest edition of *The Craft of Research*. Teachers and users of the previous editions will recognize the familiar three-part structure. Part 1 covers every step of the research and writing process, including drafting and revising. Part 2 offers a comprehensive guide to Chicago's two methods of source citation: notes-bibliography and author-date. Part 3 gets into matters of editorial style and the correct way to present quotations and visual material. *A Manual for Writers* also covers an issue familiar to writers of all levels: how to conquer the fear of tackling a major writing project. Through eight decades and millions of copies, *A Manual for Writers* has helped generations shape their ideas into compelling research papers. This new edition will continue to be the gold standard for college and graduate students in virtually all academic disciplines.

Islam in Historical Perspective integrates history of Islamic societies with discussion of how Muslim scriptures, laws, moral values and myths have shaped lives and thought of individual Muslims and various Muslim communities from the rise of Islam until today. It provides carefully selected historical and scriptural evidence that enables readers to form a comprehensive balanced vision of Islam's evolution.
