'Users Guide to Powder Coating, Fourth Edition' combines information on the latest breakthroughs in the industry (notable ultraviolet-curable materials for plastic and wood products, and improved systems) and tried-and-true guidelines from the previous edition (including factors like material selection, design considerations, surface preparation, quality control and testing, trouble shooting and safety, and more), so you can achieve superior finishes with efficiency. Reprints of slide rule instructions, for the use of collectors, educators and students. All ephemera is currently archived in the International Slide Rule Museum Library. Instruction manuals, for the most part, are no longer available, Slide rule production ended in the mid 1970's and instruction manuals have deteriorated and are rapidly disappearing over time. The slide rule models themselves, now considered vintage math instruments, are still in abundance, and in the hands of private collections, museums, and many family homes. These volumes, organized by manufacturers, provide instructions for the most popular models, as well as some special designs. The scans from the faded and wrinkled manuals, have been "restored" digitally in order improve their clarity to provide decent black printing on white pages. All "noise", speckles, staple marks, etc., have been cleaned off the original scans, to improve the reader's experience. Where required, as in this volume, permissions have been obtained from manufacturers that are still in existence.
