The hospitality industry is one of the world's largest and oldest industries. A Profile of the Hospitality Industry provides an inside look to the strategies of this industry. This book reviews the developments, challenges, and opportunities for the hotel, restaurant, foodservice and gaming industries. The hospitality industry is unique in many aspects which makes this book a must read for hospitality students, business students and those interested in management strategy. Before the 1820s, the vast majority of Americans ate only at home. As the nation began to urbanize and industrialize, home and work became increasingly divided, resulting in new forms of commercial dining. In this fascinating book, Kelly Erby explores the evolution of such eating alternatives in Boston during the nineteenth century. Why Boston? Its more modest assortment of restaurants, its less impressive—but still significant—expansion in commerce and population, and its growing diversity made it more typical of the nation's other urban centers than New York. Restaurants, clearly segmented along class, gender, race, ethnic, and other lines, helped Bostonians become more comfortable with deepening social

stratification in their city and young republic even as the experience of eating out contributed to an emerging public consumer culture. Restaurant Republic sheds light on how commercial dining both reflected and helped shape growing fragmentation along lines of race, class, and gender—from the elite Tremont House, which served fashionable French cuisine, to such plebeian and ethnic venues as oyster saloons and Chinese chop suey houses. The epilogue takes us to the opening, in 1929 near Boston, of the nation's first Howard Johnson's and that restaurant's establishment as a franchise in the next decade. The result is a compelling story that continues to shape America. From the producer of the popular on line The Go-To Mom.TV, comes a handy guide filled with practical tips that reject old-fashioned discipline and instead use empathy and emotion coaching, a more effective, open-hearted method of support and positive change. Blaine shows how to put in place life-changing solutions and access previously untapped resources. This book is written for parents who struggle to solve the day-to-day problems of raising kids. She offers emotion coaching solutions for dealing with tantrums, nightmares, hitting, bedtime, whining, bedwetting potty training, shyness, and anger. With breathtaking color photography and absorbing historical detail, Carolyn Brown and J'Nell Pate tell the story of the Fort Worth Stockyards, the place that earned the city the nickname "Cowtown." From the rise of the stockyards as a vital railhead for the ranching industry through the postwar decline and rebirth as a National Historic District, first-time visitors and long-time acquaintances will find this chronicle engaging and enjoyable. Brown and Pate accompany readers through the early days of settlement, the cattle drives that saw thousands of head of livestock going up the trail through what was then little more than a frontier outpost, and the rising tide of industry that accompanied the arrival of the railroads. Continuing after World War II when the changes in the livestock industry led to decline of their importance, the stockyards, once a bustling, vital part of the regional culture and economy, fell into slow decay. In 1976, citizens banded together to create a National Historic District. Today, the Fort Worth Stockyards attract thousands of visitors from all over the world with restaurants, entertainment venues, and the world's only twice-daily longhorn cattle drive along East Exchange Avenue. Brown's lens captures the vibrancy of today's stockyards while Pate's research depicts the drama of the area's rise, fall, and rebirth. The
