Labour Markets, Industrial Relations and Human Resources Management in Europe Jan 13 2023 Social models are always contested and ambiguous. This is particularly evident in the field of human resources management, where decisions that ultimately affect the patterns of social relations are made every day. This collection of in-depth essays focuses on some central human resources elements – gender, youth, ageing, educational background, training, workers' rights – providing an up-to-date summary and analysis of how employers are dealing – and should be dealing – with workforce characteristics under current globalized forces. The emphasis is on Europe, but valuable insights come also from Chile, Canada, and the United States. Sixteen experts discuss such important issues as the following: the shift from intervention in favour of workers' rights towards corporate neo-liberal policies; importance of transnational framework agreements in countries where a trade union; tradition is lacking; evidence that provision of childcare promotes female labour market participation; short-time working, labour hoarding, and labour underutilization; enhancing training policies for employable skills; enforcement of corporate social responsibility; alarmingly high rates of precarious employment; worldwide decline of full-time permanent positions; pension system reform; over-exposure of young people to non-standard employment; discouraged workers; regional imbalances in employment policy; and weaknesses of education programmes in connection with the world of work. Industrial relations and human resources professionals as well as employment lawyers worldwide will welcome this incisive analysis, and academics everywhere are sure to benefit from its evidence, insights, and proposals. The book presents a selection of papers from the international conference in commemoration of Marco Biagi entitled Europe 2020: Comparative Perspectives and Transnational Action, held at the Marco Biagi Foundation in Modena, Italy. 17–19 March 2011.

Changing Industrial Relations & Modernisation of Labour Law May 17 2023 Thirty-three distinguished authorities in the field of labour and industrial relations law gather here to enhance and complement the work of the late Marco Biagi, a man who, at the time of his violent and untimely death, had shown himself to be the most insightful and committed international scholar in this complex and controversial and, as it proved, even dangerous field. The topics covered range over many of Professor Biagi's special interests, including the following: the formulation of a new basis for labour law that could resolve new issues; employee protection in corporate restructuring; the trend toward individual 'enterprise bargaining'; a new European employment policy and what it might entail; the growing phenomenon of 'flexibilisation'; the effects of an aging workforce; the crucial nexus of free trade, labour, and human rights; the promise of EU enlargement; and protection of part-time workers. There is a lot of insight, innovation, and just clear thinking in this wide-ranging and far-reaching book. It will be of exceptional value to scholars, lawyers, and others concerned with the extensive and unpredictable changes under way in today's world of work.

Il contratto di agenzia Feb 02 2022 Con la presente opera si è approfondito lo studio del contratto di agenzia muovendo da un'attenta analisi dei suoi elementi essenziali, avuto riguardo agli insegnamenti impartiti dalla più recente giurisprudenza e dalla moderna dottrina. Nel contempo, si è sottolineato l'influenza esercitata sui nostri interpreti dalla giurisprudenza della Corte di giustizia europea, le cui più importanti pronunce sono state oggetto di ampi commenti. Al fine di delineare una disciplina del contratto internazionale di agenzia, si è quindi preso in esame i Regolamenti CE del 2008/593 (c.d. Roma 1) e 2012/1215 (c.d. Bruxelles 1 Bis), quest'ultimo entrato in vigore nel gennaio di quest'anno. Un'attenzione particolare è stata riservata all'esame dei tre AEC sottoscritti nel 2014, relativi ai settori industriale, piccola e media industria ed artigianato, le cui principali novità, soprattutto in materia di calcolo dell'indennità di fine rapporto, sono state prima commentate e quindi poste in confronto con la disciplina dettata con l'accordo del 2009, settore

commercio, nonché con i previgenti accordi del 2002. Specifica trattazione ha infine ricevuto il comparto previdenziale, la cui attuale disciplina è offerta dal Regolamento 2012, ulteriormente aggiornato nell'edizione 2013. Nonostante il taglio scientifico dell'opera, si è evidenziato i diversi convincimenti maturati dalla giurisprudenza in relazione ad ogni questione giuridica trattata. Lo stesso si è fatto con riguardo alla dottrina. Ciò al fine di favorire gli operatori del diritto nella ricerca della soluzione del caso pratico. Si pone in linea con questo obiettivo la decisione di dotare il volume di una esaustiva appendice all'interno della quale le varie fonti, interne ed internazionali, potranno essere di immediata consultazione.

Much Ado About Nothing? Sep 28 2021 The relationship between historical studies and psychoanalysis remains an open debate that is full of tension, in both a positive and negative sense. In particular the following question has not been answered satisfactorily: what distinguishes a psychoanalytical-oriented study of historical realities from a historical psychoanalysis? ...

CCNL Metalmeccanici Industria Mar 15 2023 Aggiornato con l'accordo 29 settembre 2010 Il commentario offre un supporto sistematico per l'applicazione della normativa contrattuale che regola il rapporto di lavoro dei dipendenti dalle aziende industriali del settore metalmeccanico. La trattazione offre sia una lettura rapida degli elementi essenziali che caratterizzano i singoli istituti contrattuali che un approfondimento puntuale dei singoli articoli del C.C.N.L., inquadrando la disciplina contrattuale nel contesto della normativa legale e coordinando, quando necessario, il contenuto originario con le modifiche/integrazioni apportate dagli accordi successivi. L'opera è corredata dai dati operativi necessari per la gestione del rapporto (come le tabelle delle retribuzioni minime contrattuali per i lavoratori qualificati e gli apprendisti, in vigore per tutto il periodo di vigenza del C.C.N.L.), da un utile scadenzario degli adempimenti contrattuali e da un ampio indice analitico. STRUTTURA: L'opera si articola nei seguenti capitoli: La contrattazione collettiva nell'industria metalmeccanica Gli elementi essenziali del trattamento economico-normativo Commentario agli articoli del contratto nazionale di lavoro I testi contrattuali vigenti Tabelle retributive e dati operativi Scadenzario degli adempimenti contrattuali Indice analitico

Ezio Tarantelli - Economic Theory and Industrial Relations Nov 30 2021 The present book analyses the work of Ezio Tarantelli, a remarkable Italian scientist and economist killed by the Red Brigades in 1985 after only a short life (1941-1985). Tarantelli's work and its implications are not only of importance for Italian researchers, but also represents a contribution of interest to economists worldwide. The first chapter of this volume shows the most important features of the European and Italian economy from 1970 to 1985. The contribution of Tarantelli, in fact, was his attempt to address the questions arising from such a context, incorporating the thought of F. Modigliani and J. Robinson in the process. After some brief biographical notes in the second chapter, the third and the fourth concentrate on Tarantelli's theoretical contribution. The fifth chapter and the conclusions, finally, show how, from his economic analysis, he derived some economic policy proposals that still hold relevance today. The text includes a complete bibliography of his scientific writings.

Labour Law and Industrial Relations in Recessionary Times Sep 16 2020 This volume includes a number of papers written in English and published in the last fifteen years in which the Italian labour market faced many changes. The book not only provides the international readership with a frame of reference – in both conceptual and legal terms – that helps to appreciate the Italian Labour Law currently in force, but also represents a contribution to moving beyond the self-referential nature of the Italian debate on the reform of labour laws. As such, the book supplies the reform process of the Italian labour market with an international and comparative dimension which – in accordance with the programmatic approach of Marco Biagi – will also feed the debate at the national level.

From the Industrial Revolution to World War II in East Central Europe Jun 06 2022 The Centers for Austrian Studies - founded by the Austrian Federal Ministry for Science and Research - play an important role for the international scientific community. Their tasks are to promote studies on Austria and Central Europe, and to give Austrian students the opportunity to conduct research abroad and make contact with local scientific communities. This book contains reports on the activities of these institutions during the 2010/2011 academic year, as well as the working papers developed by some of their most promising PhD students. The research presented in this book covers various aspects of Central European history in modern times, ranging from the 17th century to the present. (Series: Europa Orientalis - Vol. 12)

The Europeanisation of Industrial Relations Jan 21 2021 This title was first published in 2002: Although the economic integration of the European Union is far-advanced, its social dimension remains under-developed. Often there is uncertainty about, and lack of information on, the economic, social and legal situation of employees in the other EU countries. This study investigates this situation. It acknowledges the term "Europeanization" as being in no way clearly defined, but offers an interpretation of the Europeanization of industrial relations as a socio-political process, with the main focus the change within the plant and organization. Industrial relations in Germany are used as a point of reference against which selected aspects of industrial relations in France, the UK, and Italy are compared and contrasted. Specific areas of study include: workplace and company organization; collective bargaining; trade unions and employers' associations; and government regulations and legislative standardization.
