With practical advice about how these sites work, what to expect, and when to join and quit, along with proven tips for making the most of them, *The Grown Woman's Guide* equips readers with all they need to take the plunge. Four years after an unexpected divorce, bestselling writer and funny lady Margot Starbuck found herself venturing into the unknown waters of online dating. What she discovered surprised her—and changed her. With her signature sharp wit and a solid biblical foundation, Margot shares what she learned, including how to: determine which sites are best and what to expect; write a first message that is most likely to get a response; avoid common pitfalls in creating your profile; and live out the truth that you are God's beloved. So dive into embracing your true value and drawing closer to God even in the midst of fear and questions. Because whatever your endgame might be, richness awaits. Margot promises, "You got this, girl!" "Gives you concrete steps for dating well, from the beginning to the end, all while reminding you just how loved you already are." —Chrystal Evans Hurst, bestselling author and speaker "With humor, wisdom, and practical answers, Margot's heart and voice shine through this book, and I can't wait to send it to my single friends!" —Bianca Juarez Olthoff, pastor, speaker, and author of the bestselling *How to Have Your Life Not Suck Online Searching* puts aspiring librarians working in all types of institutions on the fast track to becoming expert searchers, the intermediaries who unite information users with trusted sources that satisfy their information needs. How do you reply to your colleague's weird email? What would Emily Post say about your Tinder profile? And just how do you know if you're mansplaining? In this irreverent journey through the murky world of digital etiquette, *Wired's Victoria Turk* provides an indispensable guide to minding our manners in a brave new online world, and making peace with the platforms, apps, and devices we love to hate. The digital revolution has put us all within a few clicks, taps,
