Includes Part 1, Number 1: Books and Pamphlets, Including Serials and Contributions to Periodicals (January - June) The Voyages of Marco Polo is a 13th-century travelogue written down by Rustichello da Pisa from stories told by Italian explorer Marco Polo, describing Polo's travels through Asia between 1271 and 1295, and his experiences at the court of Kublai Khan. The Travels is divided into four books. Book One describes the lands of the Middle East and Central Asia that Marco encountered on his way to China. Book Two describes China and the court of Kublai Khan. Book Three describes some of the coastal regions of the East: Japan, India, Sri Lanka, South-East Asia, and the east coast of Africa. Book Four describes some of the then-recent wars among the Mongols and some of the regions of the far north, like Russia. Polo's writings included descriptions of cannibals and spice-growers. This title focuses on the "Risorgimento", the movement that led to the unification of Italy as a single kingdom. The Italian Wars of Independence were a sequence of three

separate conflicts, taking place in 1848-49, 1859 and 1866. This volume examines the role of the major powers outside Italy in these conflicts, particularly France, Austria, Great Britain and Prussia, and in Italy the Italian states, the Catholic Church and the revolutionaries. It also examines the role of: Cavour's Piedmont, Mazzini's Young Italy and the Party of Action, Garibaldi's Red Shirts and Daniele Manin's National Society. It is based on original research, particularly in the Vatican archives and it should to be an invaluable text for all students of Italian and European History from 6th form to undergraduate level. Reprint of the original, first published in 1862. A vast treasury of invaluable observations on the peoples and geography of the Near East and Asia in the 13th century. Detailed descriptions of cities, customs, laws, crops, animals, politicals, more. Pubblicato a cura del Partito Nazionale Fascista nel 1940, il "Dizionario di politica" rappresenta l'opera della "piena maturità dottrinale del Fascismo." Uno strumento culturale che nelle intenzioni dei suoi estensori non doveva limitarsi ad una "esposizione di dottrine e di indirizzi teorici" ma che invece doveva costituire una "opera di politica in atto che comprende tutto quanto possa giovare alla formazione spirituale rigorosamente fascista delle nuove generazioni, liberandole dalle sovrastrutture con cui il demoliberalismo si illuse di fissare la vita dei popoli," un mezzo che "non soltanto desse la misura delle conquiste della Rivoluzione, ma formasse, per così dire una visione panoramica della realtà, come appare sotto l'angolo visuale fascista." La "Biblioteca del Covo," per la prima volta dopo più di 70 anni, ripropone la lettura di questo documento storico fondamentale realizzandone un'antologia che include oltre un centinaio di voci.
