Mysteries of English Grammar Jun 08 2022 Despite a history of hundreds of years of research analysing aspects of English grammar, there are still open problems which continue to baffle language researchers today. Such 'grammar mysteries' arise for a number of reasons: because the language is changing; because different speakers of the language adhere to distinct norms and thus

introduce and maintain variation in the system; because there are differences between the grammar of spoken and written English. This book illuminates some of the complexities of the subject, the areas where new discoveries await and why it matters. Through a series of accessible and engaging case studies on various aspects of grammar, from multiple negation to possession, the authors present grammar as an intellectual challenge. This book brings out into the open questions about language usage to which we still do not have good answers in a bid to make variation overt and to revel in the mystery of the English language. Both aimed at the interested general reader and the beginning student of English language and linguistics, this is a fresh take on grammar.

Parnell Perkins, and until shortly after midnight, he'd been a claims adjustor for California Fidelity. Then someone came along and put paid to that line of work. And to any other. Parnell Perkins had been shot at close range and left for dead in the parking lot outside California Fidelity's offices. To the cops, it looked like a robbery gone sour. To Kinsey Millhone, it looked like the cops were walking away from the case. She didn't like the idea that a colleague and sometime drinking companion had been murdered. Or the idea that his murderer was loose and on the prowl. It made her feel exposed. Vulnerable. Bibianna Diaz was afraid for her life. If there was one thing she knew for sure, it was that you didn't cross Raymond Maldonado and live to tell the tale. And Bibianna had well and truly crossed him, running out on his crazy wedding plans and going into hiding in Santa Teresa--light years away from the Los Angeles barrio that was home turf to Raymond and his gang. Now she needed money to buy time, to make sure she'd put enough space between them. And the quickest way she knew to get money was to work an insurance scam--just like the ones Raymond was running down in L.A. The trouble was, Bibianna picked California Fidelity as her mark. And it wasn't long before her name surfaced in one of Parnell Perkins's open files and Kinsey was on her case. But so, too, was her spurned suitor, Raymond Maldonado. He had a rap

sheet as long as his arm, a hair-trigger temper that was best left untested, and an inability to take no for an answer. He also had Tourette's syndrome, which did nothing to smooth out the kinks in his erratic and often violent behavior. All in all, Raymond Maldonado was not someone to spend a lot of time hanging out with. Unfortunately for Kinsey, she didn't have a lot of choice in the matter. Not after the love-sick Raymond kidnapped Bibianna. Like it or not, Kinsey was stuck babysitting Bibianna along with Raymond and his macho crew. You might say she was a prisoner of love. It may be Kinsey Millhone's most complicated and risk-filled case. It certainly is Sue Grafton's wittiest venture into low-life crime. It's "H" is for Homicide, and it confirms yet again that Kinsey Millhone is "a wonderful character, tough but not brutish, resourceful and sensitive, a fit knight to walk those mean streets with her male predecessors" (the Los Angeles Times) and that Sue Grafton is "a heads-up delight" (Detroit News). "B" is for Burglar Nov 20 2020 B is for Burglar, from Sue Grafton's #1 New York Times bestselling Kinsey Millhone Alphabet mystery series Beverly Danziger looked like an expensive, carefully wrapped package from a good but conservative shop. Only her compulsive chatter hinted at the nervousness beneath her cool surface. It was a nervousness out of all proportion to the problem she placed before Kinsey Millhone. There was an absent sister. A will to be settled--a matter of only a few thousand dollars. Mrs. Danziger did not look as if she needed a few thousand dollars. And she didn't seem like someone longing for a family reunion. Still, business was slow, and even a private investigator has bills to pay. Millhone took the job. It looked routine. Elaine Boldt's wrappings were a good deal flashier than her sister's, but they signaled the same thing: The lady had money. A rich widow in her early forties, she owned a condo in Boca Raton and another in Santa Teresa. According to the manager of the California building, she was last seen draped in her \$12,000 lynx coat heading for Boca Raton. According to the manager of the Florida building, she never got there. But someone else had and she was camping out illegally in Mrs. Boldt's apartment. The job was beginning to seem a bit less routine. It turned tricky when Beverly

Danziger ordered Millhone to drop the case and it took on an ominous quality when Aubrey Danziger surfaced, making all kinds of wild accusations about his wife. But it only became sinister when Millhone learned that just days before Elaine Boldt went missing, her next-door neighbor and bridge partner had been murdered and the killer was still at large. A house destroyed by arson. A brutally murdered a woman. A missing lynx coat. An apartment burgled of valueless papers, another ransacked in a melée of mindless destruction. And more murder. As Millhone digs deeper into the case, she finds herself in a nightmarish hall of mirrors in which reality is distorted by illusion and nothing--except danger--is quite what it seems.
