The Mushroom Hunters Oct 19 2020 “A beautifully written portrait of the people who collect and distribute wild mushrooms . . . food and nature writing at its finest.”—Eugenia Bone, author of *Mycophilia* “A rollicking narrative . . . Cook [delivers] vivid and cinematic scenes on every page.”—The Wall Street Journal In the dark corners of America’s forests grow culinary treasures. Chefs pay top dollar to showcase these elusive and enchanting ingredients on their menus. Whether dressing up a filet mignon with smoky morels or shaving luxurious white truffles over pasta, the most elegant restaurants across the country now feature one of nature’s last truly wild foods: the uncultivated, uncontrollable mushroom. The mushroom hunters, by contrast, are a rough lot. They live in the wilderness and move with the seasons. Motivated by Gold Rush desires, they haul improbable quantities of fungi from the woods for cash. Langdon Cook embeds himself in this shadowy subculture, reporting from both rural fringes and big-city eateries with the flair of a novelist, uncovering along the way what might be the last gasp of frontier-style capitalism. Meet Doug, an ex-logger and crabber—now an itinerant mushroom picker trying to pay his bills and stay out of trouble; Jeremy, a former cook turned wild-food entrepreneur, crisscrossing the continent to build a business amid cutthroat competition; their friend Matt, an up-and-coming chef whose kitchen alchemy is turning heads; and the woman who inspires them all. Rich with the science and lore of edible fungi—from seductive chanterelles to exotic porcini—*The Mushroom Hunters* is equal parts gonzo travelogue and culinary history lesson, a fast-paced, character-driven tour through a world that is by turns secretive, dangerous, and quintessentially American.

Wonderfully illustrated with outstanding images by award-winning photographer, Julia Johnson, *Successful Small Game Hunting* follows in the footsteps of Johnson's other titles - *Successful Duck Hunting* and *Successful Turkey Hunting* - by putting you right into the middle of the action with some of the finest small game hunters and trappers in the nation. The Wild Hunt Divinations Mar 16 2023 *The Wild Hunt Divinations: A Grimoire* is a stunning second collection from National Poetry Series winner, Trevor Ketner. Comprised of 154 sonnets, each anagrammed line-by-line from Shakespeare's sonnets, the book refracts these lines through the thematic lens of transness, queer desire, kink, and British paganism. The sonnets come together to form a grimoire that casts a trancelike and intense spell on the reader. Centered on love and desire in the English canon, this collection speaks to the ever-emerging and beautiful manifestations of queer love and desire. Relentless, excessive, wild, and tender, *The Wild Hunt Divinations: A Grimoire* sets itself to chanting from beginning to end. When forty winters shall beseege thy brow, gowns web (herb hysteria)—let's thin flowery then—gaudy bicep—insistent herd—leaf dyed to holy doorway—hunt syrups—doze—given that i swallow debt, let me whorl—feed lard / ale / ill breath—they get eye winks—husband, of thudhurt, eyeray, saltwar—sheets yell, tan—nude hyphen—i knot woe; sinewy, it sees fingernails (limp waters, a hand sea), leather sets, meshes—hewed out virus—debauchery: try a mop or a match—i hot—i lucid—i wonderflush—stiffens: exoskeleton / cum—cuddly human mass—la, sings a boyish brute in his coven—cut—yep, hood him—we want a wren duet / to be shelter, a trans thud, sob, melt—oh, welt / honeyed wife.

That Wild Country May 14 2020 From prominent outdoorsman and nature writer Mark Kenyon comes an engrossing reflection on the past and future battles over our most revered landscapes--America's public lands. Every American is a public-land owner, inheritor to the largest public-land trust in the world. These vast expanses provide a home to wildlife populations, a vital source of clean air and water, and a haven for recreation. Since its inception, however, America's public land system has been embroiled in controversy--caught in the push and pull between the desire to develop the valuable resources the land holds or conserve them. Alarmed by rising tensions over the use of these lands, hunter, angler, and outdoor enthusiast Mark Kenyon set out to explore the spaces involved in this heated debate, and learn firsthand how they came to be and what their future might hold. Part travelogue and part historical examination, *That Wild Country* invites readers on an intimate tour of the wondrous wild and public places that are a uniquely profound and endangered part of the American landscape.

Toni Morrison Oct 31 2021 This is an illuminating and original introduction to Toni Morrison's fiction, focusing on its engagement with African-American history and the way the traumas of the collective past shape Morrison's work. Jill Matus approaches Morrison's fiction as a form of cultural memory concerned with obscured or erased history. She argues that Morrison sees African-American history--from the times of slavery to the continued racial oppressions of the twentieth century--as a history of traumatic experience, and explores how this powerful storyteller bears witness to a painful yet richly enlivening past. Morrison's novels are known for their great lyric power, but they often dwell on scenes of horror, and Matus emphasizes the uneasy relations of memory, pain and pleasure in literature. In doing so, she sheds new light on Morrison as a contemporary writer working at a time when literature is being urgently explored for its capacity to memorialize and testify. Direct and accessible, this critical study highlights the political and historical contexts of Morrison's work, offers close readings of each of the novels, and concludes with a critical overview of the field of Morrison studies.

A Thousand Deer Dec 21 2020 In November, countless families across Texas head out for the annual deer hunt, a ritual that spans generations, ethnicities, socioeconomics, and gender as perhaps no other cultural experience in the state. Rick Bass's family has returned to the same hardscrabble piece of land in the Hill Country—"the Deer Pasture"—for more than seventy-five years. In *A Thousand Deer*, Bass walks the Deer Pasture again in memory and stories, tallying up what hunting there has taught him about our need for wildness and wilderness, about cycles in nature and in the life of a family, and particularly about how important it is for children to live in the natural world. The arc of *A Thousand Deer* spans from Bass's boyhood in the suburbs of Houston, where he searched for anything rank or fecund in the little oxbow swamps and pockets of woods along Buffalo Bayou, to his commitment to providing his children in Montana the same opportunity—a life afield—that his parents gave him in Texas. Inevitably this brings him back to the Deer Pasture and the passing of seasons and generations he has experienced there. Bass lyrically describes his own passage from young manhood, when the urge to hunt was something primal, to mature adulthood and the waning of the urge to take an animal, his commitment to the hunt evolving into a commitment to family and to the last wild places.

Making Game Nov 19 2020 *Making Game* is a mixed-genre composition in which the author reflects on the philosophical and ethical implications of hunting wild game. Through the activity of hunting, Atkinson finds a connection to the roots of his identity: both his family history and his sense of self. This engaging essay is informed by the author's significant background of scholarly engagement with the phenomenological tradition in modern philosophy, represented by the work of Husserl, Heidegger, and Merleau-Ponty.

I began trapping at a very early age, the same as many boys do who live out in the country where they have an opportunity. My father owned a grist mill and a sawmill. These mills were about one-half mile apart and it was about these mills and along the mill races and ponds of these mills that I set my first traps for muskrats, mink and coon. Before I was stout enough to set a trap which was strong enough to hold the varmint, it was necessary for me to get some older person to set the trap. I would take the trap to the intended place and set for the particular animals I was in quest of, whether mink, coon or rat. In those days clearings were small, woods large and full of game. Deer could be seen in bunches every morning in the fields and it was not uncommon to see a bear's track near the house that had been made during the night. Wolves were not plenty though it was a common thing to see their tracks and sometimes hear them howl on the hills.

Fifty stories from Yogavasistha Jul 28 2021 Telling stories is the most effective and the easiest way to teach and preach ethics and morality, philosophy or human psychology, social ideals and religion, politics and social human behavior, emotions of love, hate, anger, and heroism to any age group of the species of mankind. We find many Akhyanas (stories) in the oldest available scriptures i.e. the oldest available scriptures i.e. the tenth Mandala of the Rigveda. The same is developed later on in Brahman literature, Upanishads, Puranas, Epics, and classical literature. The famous 'Panchtantra' is known to be written by Vishnu Sharma to teach politics to the three princes of King Amarshkti. Similarly, the author of Yogavasistha has also, employed this technique of storytelling in expounding subtle ideals of Indian philosophy through Akhyanas in the book. Yogavasistha like Srimad Bhagvadgita is the most appropriate, even in the present times of information technology for the most ordinary human being, anywhere in the world. It gives us 'Peace' the most sought-after thing in the present world. This book does not believe in renouncing the world or duties, unlike the Upanishads. Here the author has utilized 'Fifty-five' Akhyanas (Stories) to simplify the difficult ideals of Indian Philosophy. A few of them are repetitions, so to avoid repetition I have compiled them into fifty stories.

Bathed in Blood Mar 24 2021 Regardless of color or class, men in the Old South hunted; the meat, hides, and furs they brought home reinforced the hunters' claims to patriarchal authority as providers for their households. During the antebellum era, many white men also began using the hunt as a venue for the display of increasingly complex ideas about gender, race, class, and community. Proctor (history, Simpson College) explores the social drama of the hunt as it was conducted between 1800 and 1860, through accounts in books, letters, journals, and periodicals. He looks at the historical developments that shaped hunting as well as interactions between men and women and between owners and slaves. Annotation copyrighted by Book News, Inc., Portland, OR

Trilogy of Terror Jul 16 2020 Roman and Elsbone were veteran animal trappers and hunters. They were warned by the Chalukyas tribesmen that the Devil Dogs were ferocious and did not fear man or any other animal. The hunters were experienced predators and huntsmen and knew that the wild beast that the tribesmen were leery of were just Himalayan tempestuous wolves. The Chalukyas tribesmen disclosed to the hunters that they had seen two Devil Dogs bring down a huge wild boar and tear it apart one evening at the base of the Mahila Mountains. It is known amongst hunters and wildlife individuals that no wild animal/beasts or man want any part of the violent desolate fierce boars; these Devil Dogs were fearsome and vicious. The major deciding factors that finally made the huntsmen want to seek and capture the wolves were these main issues: One, the Los Angeles zoo was offering a large amount of money for two legendary Devil Dogs from India. The second aspect was they heard that a single Devil Dog had fought and killed a Siberian Tiger; this factor increased their inquisitiveness and curiosity of this sensational beast and its folklore. Their egos also played a part in their judgment to capture the animals An element they had to contemplate and had caused them concern was that they were told that the beast only come out after the sun has set. Nightfall, this is an advantageous factor for the nighttime predator. So these beasts were nocturnal hunters; this was not an odd characteristic for any wolf, but still it was a concern for the hunters. All these tidbits of information just enticed Roman and Elsbone even more, and it heightened their hunting and ego desires. The two English veteran hunters were now traveling toward their prey and compensations as they were now heading toward the foothills of the snowcapped Himalayas, the hunting grounds of the Devil Dogs. The huntsmen eventually had left their regular and familiar stomping grounds of South Africa years earlier because of the civil turmoil that continues to cause chaos and havoc with many of the unsettled tribes and conformed city dwellers. The other object and issue was now there are all the new restrictions and hunting laws causing hardship on hunters and trappers, also there were the conservation laws protecting the wild beast limiting them even more. Elsbone and Roman left Africa and went and took their trade to South America. But after some time, they grew tired of the humid atmosphere, the different language, and customs along with the constant damp eerie rain forest. So now they were here in India following the harsh rumors of the ferocious wild Devil Dogs that killed cattle, pigs, and villagers and nowthey also heardeven killed mountain lions. The hunters journey did have some hardships. They needed to travel far through hot rough desolate deserts with very cold nights.

The Compassionate Hunter's Guidebook Feb 15 2023 “This book reminds us that hunting provides sustenance for both body and soul, and that mindful eating requires both respect and gratitude.”—Tovar Cerulli, author of *The Mindful Carnivore* Wild meat, hunted in a responsible way, is one of the most healthful, sustainable foods possible. Depending on how it is done, hunting can be as local, intimate and humane as it gets. And aside from this, it demands the hunter enter a world of awareness, wildness, life and death that as a culture we have lost connection to. The Compassionate Hunter’s Guidebook is for those who come to the act of hunting with pure intentions, motivated by a desire for healthy food that comes directly from the land where they live. This practical manual suggests that hunting is not a “sport” and the animals whose lives are taken are not “game.” It combines a deep, philosophical exploration of the ethics of killing with detailed instructions on every step of the process including: Understanding your prey Tools, techniques and preparation The act of the hunt From forest to table—processing, preserving and preparing your kill. A unique and comprehensive, fully-illustrated guide to the complexity, ethics and spirit of the hunt, *The Compassionate Hunter* is a must-read for beginning and experienced hunters alike. It will appeal to anyone who wishes to delve more deeply into the complex, humbling and ultimately profound reality of our relationship with the food that nourishes us. “Arguably the food that most closely approximates our nutritional needs, wild game

assumes a sacred and satiating beauty in *The Compassionate Hunter*.”—Joel Salatin, farmer and author of *Pastured Poultry Profits*

Daddy, Tell Them We Don't Shoot Bambi Jun 14 2020 *Daddy, Tell Them We Don't Shoot Bambi* spins a true account of what one man did to introduce his sons to the basics of hunting and firearms safety, resulting in major quality time during their formative years. More important than tips on getting started, the author underscores strengthening father-son relationship. The author's closeness to nature is accented as he enthusiastically paints an accurate portrait of the average hunter. Included also are the agonies and disappointments of the hunt, often swept aside by the hunter, as well as some laugh out loud stuff hunters encounter. The author offers a 53-year writing background, with many published credits (including hunting) as well as tenure as editor of regional newspapers. He is past-president of the South Carolina Press Association.

Desire Aug 29 2021 Reporter Jack Tyler returns in his second action-packed adventure – searching pristine Sanibel Island for the treasure buried by pirate Black Caesar. Nothing is sacred in the wild hunt for fortune and fame – it's an expedition to the dark side of human nature – a journey of unrestrained sexual attraction, greed, backstabbing, lying, taking without permission – and the surprised - “Why me?” It's the world of Wilkerson Blade, an evil corporate hatchet man, a heavy named Ron Crete, and a wiry, wise guy – Taco Styen – who controls one-half of a “really old and possibly authentic” treasure map. Jack, along with his cohort of dubious character, Reno Fox, slithers into the underworld and snakes his way between Sanibel Island's coconut trees to be the first to uncover the lost loot. And, along the way, Jack finds himself face-to-face with the only force known to be more powerful than the desire to own gold – a beauty named Ms. Stratford. jmfisher.com

Seasons and Days Feb 20 2021 "The desire to hunt and kill comes from a place well before reason and words, so that when it arises it does so almost always beyond articulation. Most hunters can't even say when it began for them." In this compendium, McIntyre covers such topics as stag hunting in Scotland, turkey hunting in Mexico, alligator hunting in Florida, kudu hunting in Africa, and much more. *HUNTING DAYS* explores what lives in the heart of every hunter, and in so doing truly captures the essence of the hunt. Through numerous stories about hunting, Thomas McIntyre captivates his readers by bringing them right into the action of the intense struggle between the hunter and his prey. Recounted are stories that encompass various aspects of the hunt, including: oThe sobering and spiritual pursuit of a bandtail pigeon oHunting grouse in the north country of British Columbia oWading in icy mud at dawn while setting out decoys for mallard ducks oFirst impressions of a wild turkey strutting into range oHunting wildfowl and fishing for bass in Castro's Cuba oHunting pronghorns on the sage-covered plains in Wyoming oBattling the cold while hunting wild pigs in a canyon in California oAnd much more From this seasoned hunter and gifted writer come tales of courage, ethics, intensity, and the overall thrill of the hunt. To McIntyre, it is not the prize but the chase that serves as the ultimate reward--ringing true the words of the Spanish philosopher, Jose Ortega y Gasset: "I hunt not to kill, but to have hunted."
