permitted, orphans preferred. Amsterdam, 1620. Jana Beil has learned that life rarely provides moments of joy. Having run away from a violent father, her days are spent searching for work in an effort to stay out of the city brothels, where desperate women trade their bodies for a mouthful of bread. But when Jana is hired as a servant for the wealthy and kind Master Reynst and his beautiful daughter Sontje, Jana ' s future begins to look brighter. Then Master Reynst loses his fortune on a bad investment, and everything changes. The house is sold to creditors, leaving Jana back on the street and Sontje without a future. With no other choice, Jana and Sontje are forced to sign with the East India Company as Company Daughters: sailing to a colonial Dutch outpost to become the brides of male settlers they know nothing about. reviewer It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys ' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his

life. Spanning more than two centuries in Ireland, *Castle on the Rise* unites the legacy of three women who must risk mending their broken places for life, love, and the belief that even through the depths of our pain, a masterpiece of a story can emerge. When Laine Forrester travels overseas to attend her best friend's vineyard wedding, she expects to find the bride on the brink of a fairy-tale life. But after a series of unforeseen setbacks, it seems the storybook lives they'd imagined are suddenly ripping apart. With hopes of resurrecting a happy ending, Laine agrees to accompany the newlyweds to the groom's home in Ireland—never expecting she'd be the one drawn in by its wide-open moors, backroads bordering the Irish Sea, and a mysterious castle that dares to keep its secrets hidden. From the storied streets of Dublin to the shores of the Emerald Isle, Laine is drawn in to the land and its rich history. The castle ruins whisper stories of Issy—a photojournalist battling through the 1916 Easter Rising, and Maeve—the castle's lady of legend, fighting for survival through the 1798 rebellion that started it all. Praise for *Castle on the Rise*: “ Enchanting and mesmerizing! ” —PATTI CALLAHAN, New York Times bestselling author of *Becoming Mrs. Lewis* “ *Castle on the Rise* perfectly showcases rising star Kristy Cambron's amazing talent! Gripping and epic, this intricately woven tale of three

generations seeking truth and justice will stay with you long after the last page. ” —Rachel Hauck, New York Times bestselling author Second in the Lost Castle series (The Lost Castle, Castle on the Rise, The Painted Castle) Can be read as a stand-alone, but best if read in order Sweet romance set in three time periods: present day, World War I/Easter Rising, and late 1700s Full-length novel (over 110,000 words) The important role that randomness plays in evolutionary change John Tyler Bonner, one of our most distinguished and insightful biologists, here challenges a central tenet of evolutionary biology. In this concise, elegantly written book, he makes the bold and provocative claim that some biological diversity may be explained by something other than natural selection. With his customary wit and accessible style, Bonner makes an argument for the underappreciated role that randomness—or chance—plays in evolution. Due to the tremendous and enduring influence of Darwin's natural selection, the importance of randomness has been to some extent overshadowed. Bonner shows how the effects of randomness differ for organisms of different sizes, and how the smaller an organism is, the more likely it is that morphological differences will be random and selection may not be involved to any degree. He traces the increase in size and complexity of organisms over geological time, and looks at the varying significance of randomness at different size levels, from microorganisms to large mammals. Bonner also discusses how sexual cycles vary depending on size and complexity, and how the trend away from randomness in higher forms has even been

reversed in some social organisms. Certain to provoke lively discussion, *Randomness in Evolution* is a book that may fundamentally change our understanding of evolution and the history of life. The world is in chaos. Stars are falling from the sky. Floods, hurricanes, and fires rage across the land. And the only being strong enough to stop it, is stuck in teenage form ... again. Tasked with guiding her, it falls to me to help her weather the storms, and hopefully, find a place where she can be at peace. But time is running out, and her patience is waning. Now, I fear if the human race doesn't destroy the world ... she will. It ' s a summer internship. Never mind that the owners are hot. Never mind that there are three of them. Never mind that they are twice her age. Never mind that they have a secret " play" room in the basement. Never mind that she ' s never been more intrigued in her life. She only has three months. Ceanra Montgomery had notions of marrying for love after her first disastrous marriage ended in widowhood. But now Robert the Bruce has ordered her to marry a stranger, securing a strong alliance and ending a decades-old feud. Already used as a pawn once in marriage, she is devastated that she will once more have to give up her happiness in order to please the edicts of men. And while the braw warrior standing before her might incite feelings inside her she thought long since buried, desire is a far cry from love. The rivalry between Brochan Lamont and his twin brother, John, began in the womb, and only grew worse from there. They were pitted against each other in childhood, and their father left them with a legacy that was a race to the finish-whoever has an heir first inherits the lands. The only problem is that Brochan has given his loyalty to the Scots, and his brother to the English. In order to keep the lands and ships under Scottish control, Robert the Bruce demands Brochan marry to break the iron-clad will. His new bride harbors a fiery temperament that lures Brochan into stoking her passions instead of her ire. Aligned to strengthen the Scottish claims on the realm, Brochan and Ceanra must work together to overcome the obstacles that bind them. But perhaps

seeing their duties through does not have to be as painful as they both predicted. Is it possible that love can be forged from a union born in alliance? Maybe Fate knew all along just who was meant for who... Investment has flooded back to cities because dense, walkable, mixed-use urban environments offer choices that support diverse dreams. This book is the first thorough introduction to and comprehensive treatment of the theory and applications of integrodifference equations in spatial ecology. Integrodifference equations are discrete-time continuous-space dynamical systems describing the spatio-temporal dynamics of one or more populations. The book contains step-by-step model construction, explicitly solvable models, abstract theory and numerical recipes for integrodifference equations. The theory in the book is motivated and illustrated by many examples from conservation biology, biological invasions, pattern formation and other areas. In this way, the book conveys the more general message that bringing mathematical approaches and ecological questions together can generate novel insights into applications and fruitful challenges that spur future theoretical developments. The book is suitable for graduate students and experienced researchers in mathematical ecology alike. Ich werde mir das zurückholen, was er mir gestohlen hat, und noch mehr. Ich bin nicht an seinen Immobilien oder Aktien interessiert. Ich will sein Kleingeld nicht. Ich will seinen größten Schatz, die schöne, mental instabile Angelina Dalton-Clarke. Mit ihren Milliarden ist sie die reichste Witwe des Landes, und auch die verrückteste. Ihre selbstverletzenden Tendenzen hatten Jack dazu veranlasst, sie für unzurechnungsfähig erklären zu lassen, bevor er sich eine Waffe an den Kopf hielt und sich das Gehirn rausblies. Lina darf keinen Cent ihres Reichtums anfassen. Ihr Vater verwaltet ihre Finanzen und hat alle Unterschriftsvollmachten. Als ihr Mann werden mir diese Aufgaben zufallen, aber wenn sie denkt, dass ich sie nur wegen ihres Geldes will, irrt sie sich gewaltig. Contemporary artists Robert Colescott (1925-2009), Kerry James Marshall (b. 1955), and Mickalene Thomas (b. 1971) are distinguished by their attention to a history of representation, which they re-visit and revise to reflect on individual and collective Black experience. Equally engaged with social and political histories, and the history of art, Colescott, Marshall, and Thomas have created

works that at times poignantly and satirically critique dominant narratives and posit alternatives. By considering these artists together, this thought-provoking book expands our understanding of contemporary history painting, a genre first defined during the 17th century and known for didactic paintings that often depicted Biblical or mythological subjects, and expressed the tastes and narratives of a ruling class. Colescott, Marshall, and Thomas marry appreciation of these traditional forms of representation to a deep understanding of contemporary American culture to create insightful works that disrupt historic narratives and read canonic art history against the grain.
