Make the Most of Your Time on Earth with The Rough Guide to Poland 'The perfect guide to this tremendous city' OBSERVER Written with unfailing common sense, as well as insight and affection... the perfect guide to this tremendous city OBSERVER A true traveller's companion and friend SUNDAY TELEGRAPH For more than thirty years Michael Leapman has been intimately involved with New York as a journalist, resident or visitor. Here he takes readers with him on a series of walks through the heart of Manhattan and beyond, explaining how it came to be the world's most fabulous city as well as revealing its present-day secrets. When the original edition of this incomparable guide was published in 1983, it won the Thomas Cook award as the guide book of the year. After he revised it in 1991 it was chosen by New York Magazine as the best of nearly a hundred books about the city. Now he has been back to retrace his steps. Thoroughly updated, this book is packed with inspiration, revelation, and sound practical advice. MICHAEL LEAPMAN lived in New York for seven years, as correspondent for The Times, reporting perceptively on the city's delights and foibles. He continues to visit New York regularly and to write about it for magazines and other newspapers. This is the 2nd issue of a book first published in 1983 and last revised in 2000. Covers every one of Queens's neighborhoods, providing a colorful portrait of their most interesting, unusual, and unfamiliar people, places, and things. Each neighborhood section features a brief overview and history; a detailed, user-friendly map keyed to the text; photographs; and a lively guided walking tour. Drawn from the author's 1,012-mile walk through every Queens neighborhood. Includes insights from conversations with hundreds of residents.

"This little gem fills you in on everything finned, furred, feathered, or scaled, and how to find it, in all five boroughs" (House and Garden). New York just might be the most biologically diverse city in temperate America. The five boroughs sit atop one of the most naturally rich sites in North America, directly under the Atlantic migratory path at the mouth of a 300-mile-long river, and on three islands? Manhattan, Staten Island, and Leslie Day, a New York City naturalist, reveals this amazing world in her *Field Guide to the Natural World of New York City*. Combining the stunning paintings of Mark A. Klingler with a variety of photographs and maps, this book is a complete guide for the urban naturalist—with tips on identifying the city's flora and fauna and maps showing the nearest subway stop. Here is your personal guide to the real wild side of America's largest city. Throw it in your backpack, hop on the subway, and explore. "Dr. Day

sort of Julia Child of nature." —Ellen Pall, New York Times "Provides historic facts, photographs and maps to give a snapshot of the city's natural resources and to challenge hard-charging New Yorkers of the unchanging parts of their environment." —Sally Goldenberg, Staten Island Advance "This book should be in every New Yorker's library as both reference and inspiration for low-carbon-impact journeys to places of urban beauty and tranquility." —Crawford-Doyle Booksellers Newsletter "You may well wonder why I am reviewing a book about New York city when we preach 'local, local, local' throughout these pages. I'll tell you, because this beautifully illustrated handbook is a wonderful example of exploring the bucolic city. . . . All illustrated with gorgeous watercolors by Klingler. We should have one of these. But in the meantime, you can find many of the same species in our fair cities., so why not pick up a copy for inspiration?"—Minneapolis Observer Quarterly

During the 1930s in the United States, the Works Progress Administration developed the Federal Writers' Project to support writers and artists while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little-known authors—many of whom would later become celebrated literary figures—were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories.
