Frequency of occurrence, potential usefulness, and overlap with existing thesaurus terms are criteria for inclusion. Entries give narrower and broader terms, as well as cross-references. Each postable term fits into 16 major categories and 64 subcategories. Also contains related alphabetical terms section.

Energy Psychology Journal, 1:1 Feb 24 2023 Energy Psychology: Theory, Research, and Treatment is a peer-reviewed professional journal dedicated to reporting developments in the field of energy psychology (EP) that are of interest to healthcare professionals and researchers. It contains original empirical research into the efficacy of EP methods; theoretical, experimental and basic science papers illuminating the mechanisms of action of EP; clinical insights on the application of EP to various populations, and interfaces with other interventions; book reviews, and abstracts published in other journals that are of relevance to the EP field. Its goal is to further the development of EP as an evidence-based method in the healing sciences.

Journal of Applied Psychology Jun 30 2023

Child Psychologist Oct 11 2021 Ideal for psychologists, students, therapists, and counselors Perfect to write notes, thoughts, lists, ideas or anything that needs to get out of the head Perfect size to carry easily in a purse or a bag for work, home, school or all those places on the go Can also be the perfect gift for a mom, sister, daughter, coworker, aunt, wife or friend

Culturally Responsive Cognitive Behavior Therapy Jun 06 2021 Gayle Y. Iwamasa and Pamela A. Hays show mental health providers how to integrate cultural factors into cognitive behavior therapy (CBT). They describe the application of CBT with clients of diverse cultures and discuss how therapists can refine CBT to increase its effectiveness with clients from a variety of cultural backgrounds. Contributors examine the unique characteristics of CBT and its use with various racial, ethnic, and religious minority groups in the United States. Strategies for using CBT with older adults; individuals with disabilities; and lesbian, gay, bisexual, transgender, queer, and questioning clients are also examined. A chapter on culturally responsive CBT clinical supervision closes the volume. This new edition includes updated demographic information, a greater emphasis on culture-specific assessments, and a new chapter on using CBT with clients of South Asian descent. -- Résumé de l'éditeur.

Energy Psychology Journal, 4.1 Jul 20 2022 Energy Psychology: Theory, Research, and Treatment is a peer-reviewed professional journal dedicated to reporting developments in the field of energy psychology (EP) that are of interest to healthcare professionals and researchers. Publishing Your Psychology Research Dec 25 2022 'Dennis McInerney's Publishing Your Psychology Research has bridged a gap in the research process literature, providing a well-oiled treaty from both insider and outsider perspectives as to what it takes to become a credible and published author' - Shawn Van Etten, Department of Psychology, State University of New York Institute of Technology at Utica-Rome 'Publish or perish' is the imperative in academic research. As students are now required to do postgraduate work in order to gain clinical qualifications, more are being exposed to the research culture than ever before. Academics are being pressured to increase their publishing output in peer-reviewed journals as a measure of their own and their university's success. Generally, researchers in psychology need to know how to get their work published in order to develop their reputation.

Essentials of Psychology: Concepts and Applications May 06 2021 The new edition of this brief introductory text retains the hallmark features that have made its parent text unique in the market, while offering a more manageable, student-friendly format. The text's organization breaks down each chapter into smaller instructional units organized around a set of key concepts in a particular area of study. The text also features Nevid's comprehensive learning system derived from research on memory, learning, and textbook pedagogy. This learning model incorporates what the author calls the Four Es of Effective Learning--Engaging Student Interest, Encoding Information, Elaborating Meaning, and Evaluating Progress. Nevid's *Essentials of Psychology: Concepts and Applications*, 2/e, provides a broad view of psychology that includes the history, methods of research, major theories, and research findings of the discipline as well as applications of the knowledge gained from contemporary research to the problems and challenges we face in today's world. Major content revisions cover many of the 1,000-plus new citations of research findings and theoretical developments that have appeared in the scientific literature in the past three years. In addition the text offers the latest research findings in the areas of neuroscience, gender, and positive psychology. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

American Journal of Religious Psychology and Education May 25 2020 Includes section, "Book reviews".

The British Journal of Medical Psychology Jun 18 2022 The British Journal of Medical Psychology is an international journal with a traditional orientation towards psychodynamic issues. While maintaining a broad theoretical base and insisting upon sound and sensible methodology, its objective is to avoid the more simplistic approaches to psychological science. The Journal aims to bring together the medical and psychological disciplines. Collaborative studies between psychiatrists and psychologists are especially encouraged. Original theoretical and research contributions are invited from the fields of psychodynamic and interpersonal psychology, particularly as they have a bearing upon vulnerability to, adjustment to and recovery from both medical and psychological disorders. The Journal aims to promote theoretical and research developments in the fields of subjective psychological states and dispositions, interpersonal attitudes, behaviour and relationships only if they illustrate unusual forms of psychopathology or innovative forms of therapy which carry important theoretical implications.

Reporting Qualitative Research in Psychology Sep 21 2022 "Reporting standards are guidelines that describe how to communicate findings clearly in journal articles so that readers can access and understand the story of the research endeavor. Recognizing that reporting standards can aid authors in the process of writing and evaluating manuscripts and editors and reviewers in the process of evaluating those manuscripts, the Publications and Communications (PC) Board of the American Psychological Association (APA) invited two task forces of researchers to develop standards for reporting quantitative and qualitative research in journal articles. The Quantitative Journal Article Reporting Standards Working Group developed standards for quantitative research, and a separate book details those standards. This book discusses the reporting standards. It permits the space to expand on the ideas in those standards and to articulate the rationale behind each. It articulates decisions one may need to make as an author as one decides how to present their work. It also provides examples to illustrate a strong presentation style, and these can serve as helpful models. It provides the conceptual undergirding for the reporting decisions that authors make during the writing process. The book considers the typical sections of a qualitative research paper#x1B;b7#x1B;(Bthe introductory sections, Method, Results, and Discussion. Guidance is provided for how to best present qualitative research, with rationales and illustrations. The book presents reporting standards for qualitative meta-analyses, which are integrative analyses of findings from across primary qualitative research. The book includes a discussion of objectivist and constructivist rhetorical styles in research reporting."--Preface. (PsycINFO Database Record (c) 2020 APA, all rights reserved).

The Pedagogical Seminary and Journal of Genetic Psychology Dec 13 2021 Vols. 5-15 include "Bibliography of child study," by Louis N. Wilson.

Psychology in the Spirit Aug 28 2020 Can real change happen in the human soul? Is it possible to have truly healthy relationships? Is psychology something that can help us see reality as God sees it? John H. Coe and Todd W. Hall tackle these and other provocative questions in this next volume of the Christian Worldview Integration Series which offers an introduction to a new approach to psychology that seeks to integrate psychology and spiritual formation. This model "represents a spiritual formation and relational approach to psychology for the sake of servicing the spiritual needs of the church." Their goal is to provide a unique model of doing psychology and science in the Spirit. Here you will find an introduction to the foundations, methodology, content and praxis for this new approach to soulcare.

This blank composition notebook makes a great gift for any Psychology student. Scroll up and grab YOUR copy of "Developmental Psychology" RIGHT NOW!

Clinical Psychology Apr 04 2021 Clinical Psychology is a graduate-level introduction to the field of clinical psychology. While most textbooks focus on either assessment, treatment, or research, this textbook covers all three together specifically for the introductory level graduate course. Chapter coverage is diverse and contributors come from both PhD and PsyD programs and a variety of theoretical orientations. Chapter topics cover the major activities of the contemporary clinical psychologist with an introduction focusing on training models. The book has a mentoring style designed to highlight the relevance of the topics discussed to clinicians in training. Assessment and treatment chapters focus on evidence-based practice, comparing and contrasting different options, the basis for clinical choice between them, and efficacy of same. It will also introduce the business and ethical aspects of the clinical career that current introductory books do not include, such as ethics in assessment, treatment, and research; third party payers; technological developments; dissemination of research findings; cross-cultural issues; and the future of the profession. The text is designed for students in their first year of clinical psychology graduate training. * Includes assessment, treatment, and practice issues * Compares and contrasts different therapeutic styles * Exemplifies practical application through case studies * Focuses on evidence-based practice * Orients future clinicians to contemporary issues facing psychological practices

A Simplified Style Manual: for the Preparation of Journal Articles in Psychology, Social Sciences, Education, and Literature
Sep 29 2020

The Journal of Philosophy, Psychology and Scientific Methods May 18 2022

Guide to Publishing in Psychology Journals Sep 02 2023 This book is an indispensable guide to how to write articles, choose journals, and deal with revisions or rejection. Each chapter is written by a highly experienced journal editor - people who have actually made decisions on manuscripts and publication, as well as being eminent in their respective scientific field and written many articles themselves. It showcases parts of articles, discusses journal submission, outlines the resubmission process, and highlights systemic issues. Clear instructions are given on writing an empirical article, literature reviews, titles and abstracts, introductions, theories, hypotheses, methods and data analysis. Each part of the process is laid out from presenting results, to mapping-out a discussion and writing for referees. The integral skills of revising papers and ensuring a high impact are taught in 'article writing 101'. Whilst less intuitive knowledge is provided concerning publishing strategies, references, online submission, review systems, open access and ethical considerations.

The International Journal of Indian Psychology, Volume 3, Issue 4, No. 56 Oct 30 2020 It gives me immense pleasure to welcome all to explore/publish/ comment in/on our journal, The International Journal of Indian Psychology (IJIP). There are a lot of challenges which the growing psychological face in the realms of basic necessities in life. Psychological thoughts can play a very distinct role in bringing about this change. One of the key objectives of research should be its usability and application. This journal attempts to document and spark a debate on the research focused on psychological research and ideas in context of emerging geographies. The sectors could range from psychological education and improvement, mental health, environmental issues and solution, health care and medicine and psychological related areas. The key focus would however be the emerging sectors and research which discusses application and usability in social or health context. We intended to publish case reports, review articles, with main focus on original research articles. Over objective is to reach all the psychological practitioners, who have knowledge and interest but have no time to record the interesting cases, research activities and new innovative procedures which helps us in updating our knowledge and improving our treatment. Finally, I would like to thank RED'SHINE International Publications, Inc for this keepsake, and my editorial team, technical team, authors and well wishers, who are promoting this journals. With these words, I conclude and promise that the standards policies will be maintained. We hope that the research featured here sets up many new milestones. I look forward to make this endeavour very meaningful.

The Journal of Comparative and Physiological Psychology Jan 26 2023

Short-term/working Memory Apr 24 2020 This special issue of the International Journal of Psychology had its origins in the Quebec 98 Conference on Short-Term Memory, held in Quebec City, Canada, in June 1998. Following this conference, participants were invited to submit contributions based on, and expanding upon, their presentation at this conference. The enthusiastic response made it possible to collect the exciting selection of articles that you will find herein. It must be noted that because of the finite journal space available, the editors and reviewers were faced with the difficult problem of selecting only a limited number of the excellent articles that were submitted. The outcome of this process is this special issue, which we believe provides an up-to-date overview of current research on short-term/working memory, including the challenges, controversies, and recent theoretical advances in this field.

The American Journal of Forensic Psychology Jan 14 2022

The SAGE Encyclopedia of Theory in Psychology Nov 11 2021 Drawing together a team of international scholars, The SAGE Encyclopedia of Theory in Psychology examines the contemporary landscape of all the key theories and theorists, presenting them in the context needed to understand their strengths and weaknesses. Key features include: · Approximately 300 signed entries fill two volumes · Entries are followed by Cross-References and Further Readings · A Reader's Guide in the front matter groups entries thematically · A detailed Index and the Cross-References provide for effective search-and-browse in the electronic version · Back matter includes a Chronology of theory within the field of psychology, a Master Bibliography, and an annotated Resource Guide to classic books in this field, journals, associations, and their websites The SAGE Encyclopedia of Theory in Psychology is an exceptional and scholarly source for researching the theory of psychology, making it a must-have reference for all academic libraries.
