This updated guidance on traditional windows covers both timber and metal windows and is aimed at building professionals and property owners. Historic windows are often of considerable importance to the significance of listed buildings. They can contribute to significance through their design, materials and workmanship. Detailed technical advice is provided on their maintenance, repair and thermal upgrading as well as on their restoration. The guidance also sets out our general approach when alteration or replacement requires listed building consent. The second edition of Modern Construction Envelopes was originally based on the two books by Andrew Watts, Modern Construction Roofs and Modern Construction Facades . Both volumes were gathered into one single volume and consolidated in terms of content, which permits the consideration of facades and roofs as envelopes. Using current examples by renowned architects, Watts presents the constructive and material-related details. This presentation is based on a text, photos, and standardized detail drawings, as well as 3D representations of the components. The new edition has 3D views that are easier to understand than the first edition, with sharper images and more key explanations.
