Punishment and Responsibility Mar 27 2023 This classic collection of essays, first published in 1968, has had an enduring impact on academic and public debates about criminal responsibility and criminal punishment. Forty years on, its arguments are as powerful as ever. H.L.A. Hart offers an alternative to retributive thinking about criminal punishment that nevertheless preserves the central distinction between guilt and innocence. He also provides an account of criminal responsibility that links the distinction between guilt and innocence closely to the ideal of the rule of law, and thereby attempts to by-pass unnerving debates about free will and determinism. Always engaged with live issues of law and public policy, Hart makes difficult philosophical puzzles accessible and immediate to a wide range of readers. For this new edition, otherwise a reproduction of the original, John Gardner adds an introduction engaging critically with Hart's arguments, and explaining the continuing importance of Hart's ideas in spite of the intervening revival of retributive thinking in both academic and policy circles. Unavailable for ten years, the new edition of Punishment and Responsibility makes available again the central text in the field for a new generation of academics, students and professionals engaged in criminal justice and penal policy.

Against Capital Punishment Jan 30 2021 Built on in-depth interviews with movement leaders and the records of key abolitionist organizations, this work traces the struggle against capital punishment in the United States since 1972. Haines reviews the legal battles that led to the short-lived suspension of the death penalty and examines the subsequent conservative turn in the courts that has forced death penalty opponents to rely less on litigation strategies and more on political action. Employing social movement theory, he diagnoses the causes of the anti-death penalty movement's inability to mobilize widespread opposition to executions, and he makes pointed recommendations for improving its effectiveness. For this edition Haines has included a new Afterword in which he summarizes developments in the movement since 1994.

Their power should follow every subject, as the shadow follows the body. Sanctuaries and impunity differ only in degree, and as the effect of punishments depends more on their certainty, than their greatness, men are more strongly invited to crimes by sanc DEGREES tuaries, than they are deterred by punishment. To increase the number of sanctuaries, is to erect so many little sovereignties; for, where the laws have no power, new bodies will be formed in opposition to the public good, and a spirit established contrary to that of the state, History informs us, that from the 'T* . use. 'use of sanctuaries have arisen the greatest revolutions in kingdoms, and in opinions. Some have pretended, that in whatever . country a crime, that is an action contrary to the laws of society, be committed, the criminal may be justly punished for it in any other: as if the character of subject were indelible, or synonymous with, or worse than that of slave; as if a man could live in one country, and be subject to the laws of another, or be accountable for his actions to two sovereigns, or two codes of laws, often contradictory. There are also who think, that an act of cruelty committed, for example, at Constantinople, may be punished at Paris; for this abstracted reason, that he who offends humanity, should have enemies in all mankind, and be the object of universal execration; as if judges were to be the knights errant of human nature in general, rather than guardians of particular conventions between men.
