**"For anyone in a caring, facilitative or managing role, Counselling Skills provides a uniquely comprehensive, accessible and practical guide to interpersonal helping. It introduces a way of working that is both focused and personalised: tailored to an individual client's specific goals and preferences. The book will be invaluable to anyone who wants to help others deal with their problems." Mick Cooper, University of Strathclyde, UK "Not everyone possesses the skills required to ensure that professional communication is compassionate and supportive, but the skills can be learned and this book on Counselling Skills provides just the resource needed. Its authors have the experience as practitioners and teachers to imbue the text with wisdom derived from life, academia and counselling. The book is carefully crafted and beautifully written; it includes exercises and examples that enhance learning; it is comprehensive and completely relevant for anyone who seeks to use counselling skills competently in their work." Professor Sue Wheeler, University of Leicester, UK "The book offers a sound and accessible introduction for anyone considering formal counselling skills training ... As a bereavement counsellor I will gladly keep a place for this book on my bookshelf, as it offers a useful**

refresher in basic skills. I would certainly recommend it to colleagues within pastoral caring roles and other caring professions." Sally Smith, Counselling Psychology student at The University of Wolverhampton, UK

This bestselling book is designed to help counselling trainees acquire and develop the skills and techniques needed to have therapeutic impact with their clients. It also provides those in the helping professions with an easy-to-follow model of 'embedded counselling' that provides tools and strategies for offering counselling relationships within a diversity of work settings. The new edition is thoroughly revised and features nine new chapters, addressing such topics as: an A-Z of practical counselling skills, dealing with difficult relationships, issues caused by cultural diversity or life transitions, and issues in loss and bereavement. The book also covers: Key counselling skills such as caring, listening, questioning and reframing, reflection, attunement to a client, challenging and giving advice Building a counselling relationship Developing understanding of clients' issues Resolving difficult feelings and emotions Ethical principles of counselling practice Working together to change behaviour

Counselling Skills, 2nd edition is packed with exercises and information on recent studies, to help readers relate theory to their own practice. Written in an accessible, engaging style, with numerous case examples, this book is suitable for students taking courses or modules in counselling skills, counsellors in training, and any professionals who may provide counselling support within their roles, including teachers, doctors, community workers, social workers and nurses. For helping professional practitioners and students in training, and those preparing for licensure Using a case study approach--in a practitioner's voice--this practical guide helps beginning and future

**counselors understand and use various effective assessment methods, from interviewing and observing to tests and counselor- and client-friendly standardized measures. Here is valuable assessment information and guidance which emerging helping professionals can apply to various mental health, school, community, and organizational settings. Using a case study approach and written in a practitioner's voice, the book includes a variety of topics not found, or minimally covered in current counseling assessment textbooks: the risks and resources approach to assessment, interviewing principles and methods, exploring presenting problems and readiness for change, informal and formal observations, assessing the therapeutic alliance; standardized risk assessments, dangerousness to self and others, and assessing substance use. Based on the premise that assessment is an on-going information gathering process that relies on multiple methods and sources for making decisions or answering a question, this guide takes a balanced, comprehensive approach that looks at much more than the traditional coverage of assessment alone. Three chapters detail the most commonly used assessment methods--interviewing and observing--and the author describes the traditional tests and measurement concepts of reliability and validity. Also unique to this guide are its detailed descriptions of, and applications for, standardized measures which readers can use immediately to administer, score, and interpret. ?This book will be of interest to anyone who may be considering training for a career in counselling and psychotherapy.... This text provides the reader with a considerable amount of information that may be used to select and hopefully successfully complete the right programme of study pertinent to their specific requirements. It**

**maintains a good balance of being honest about the often rigorous and intense task of completing training, as well as being kindly reassuring that success can be achieved if approached in the right manner with sound advice being given throughout on how this may be carried out effectively? - Jacqueline A Lawrence, Counselling Psychology Review**

**This highly practical and informative book is designed for all who are considering training in counselling, counselling psychology or psychotherapy. To secure work within these increasingly professional and competitive fields, candidates need to have the appropriate training and qualifications. While theoretically, and in practice, the professional groups have much in common, each has its own distinct training routes and qualifications which can be confusing for the newcomer. A Beginner's Guide to Training in Counselling & Psychotherapy sets out clearly the range of options for trainees including the professional pathways and main theoretical models available to them. Drawing on their vast experience as trainers, practitioners and former trainees, the contributors provide insights into what to expect from training and offer clear advice to help the reader: - select the right training - identify personal qualities which make them suitable or unsuitable - make a successful application - get the most out of training**

**This book is the ideal starting point for anyone considering training in counselling, counselling psychology or psychotherapy. Trainers who want to provide students with an overview of the training process will find this an excellent text to recommend as initial or pre-course reading. Guidance and counselling in the context of learning is an area that is growing rapidly and attracting a lot of interest within the field of education. This reader presents a range of different perspectives - those of the user, practitioner, professional,**

manager, policy-maker and academic. By offering these various tales, the book aims to encourage a more beneficial interchange of dialogue between the people involved, whether they be in the role of the counsellor or the counselled. Written for a new module on the Open University's MA in Education - E839 College for Students with Learning Disabilities is the high school counselor's best resource for preparing college-bound students with learning disabilities and related disorders. Through a comprehensive lens, the book provides an overview of learning disabilities and related issues as they apply to the role of the high school counselor. The 6- to 8-week program outlined in the book provides a step-by-step guide for high school counselors to create and implement the program in their own schools. Each area of the program is explored in detail, covering topics such as college readiness, study skills, self-advocacy, and picking the right school. Drawing on the lived experience of students with learning disabilities, current research, case studies and more, College for Students with Learning Disabilities advises counselors in a positive way and aims to change the lives of students with learning disabilities by preparing them for college in an effective, concrete way. This unique book informs elementary school counselor practice in a positive way that changes the lives of students with learning disabilities by helping to engage them in their learning in an effective and concrete manner. Through a comprehensive lens, this book gives elementary school counselors the tools they need to work with students with learning disabilities in a school setting, starting with an overview of learning disabilities as they apply to the role of the elementary school counselor. The second part of the book then explores these topics in depth with a step-by-step program for creating counselor-led groups for

elementary school students with learning disabilities. The 6-to-8-week plan outlines how elementary school counselors can create and implement the program in their own schools and is accompanied by worksheets and handouts to help engage students. Exceptionally beneficial for elementary school counselors and graduate students in school counseling programs, it is a guide book for counselors working with elementary school students with learning disabilities. Clearly setting out the range of options for counselling and psychotherapy trainees, this book presents the professional pathways and main theoretical models available.
