Media and the Make-Believe Worlds of Children Oct 21 2020 Media and the Make-Believe Worlds of Children offers new insights into children's descriptions of their invented or "make-believe" worlds, and the role that the children's experience with media plays in creating these worlds. Based on the results of a cross-cultural study conducted in the United States, Germany, Israel, and South Korea, it offers an innovative look at media's role on children's creative lives. This distinctive volume: *outlines the central debates and research findings in the area of children, fantasy worlds, and the media; *provides a descriptive account of children's make-believe worlds and their wishes for actions they would like to take in these worlds; *highlights the centrality of media in children's make believe worlds; *emphasizes the multiple creative ways in which children use media as resources in their environment to express their own inner worlds; and *suggests the various ways in which the tension between traditional gender portrayals that continue to dominate media texts and children's wishes to act are presented in their fantasies. The work also demonstrates the value of research in unveiling the complicated ways in which media are woven into the fabric of children's everyday lives, examining the creative and sophisticated uses they make of their contents, and highlighting the responsibility that producers of media texts for children have in offering young viewers a wide array of role models and narratives to use in their fantasies. An enclosed CD provides full-color images of the artwork produced during the study. This book will appeal to scholars and graduate students in children and media, early childhood education, and developmental psychology. It can be used in graduate level courses in these areas.

When Highbrow Meets Lowbrow Apr 14 2020 This book examines nobrow, a cultural formation that intertwines art and entertainment into an identifiable creative force. In our eclectic and culturally turbocharged world, the binary of highbrow vs. lowbrow is incapable of doing justice to the complexity and artistry of cultural production. Until now, the historical power, aesthetic complexity, and social significance of nobrow "artertainment" have escaped analysis. This book rectifies this oversight. Smart, funny, and iconoclastic, it scrutinizes the many faces of nobrow, throwing surprising light on the hazards and rewards of traffic between high entertainment and genre art.
