Sort Your Shit Out Sep 21 2022 *Sort Your Shit Out* is an irreverent Self-Help exploration into where our shit comes from and how we can take back control from a little guy called Bob who lives in our minds and influences our every thought and action. Along the way we learn that a battle for the universe between puppies and zombies would be a fair fight and what we have in common with superheroes. The author uses his own experiences in helping companies transform through to rescuing himself from his own darkness using the Self-Help Improvement Toolkit (SHIT!): 1. Know your shit - this identifies where your shit comes from. 2. Own your shit - we often blame everyone else for our unhappiness, here we learn to own our shit. 3. Deal with your shit - knowledge without action is useless, here you learn strategies to deal with it. 4. Manage your shit - Just like going to gym, we need to working at staying shit-fit. We all experience life's ups and downs, this focusses on what we can do to maintain a healthy mental balance while life happens. This is not a psychology book, nor is it a "ra ra" feel good self-help book telling you to think positively and only good things will happen. This is a no bullshit self-help book in the style of Mark Manson's successful book *The Subtle Art of Not Giving A Fuck* with an Australian self-deprecating twang.

Dave Barry Slept Here Sep 02 2023 "What caused the American Revolution? This is indeed a rhetorical question that for many years historians have begun chapters with. As well they should. For the American Revolution is without a doubt the single most important historical event to occur in this nation except of course for Super Bowl III (Jets 16. Colts 7. This historian won \$35)." So goes the skewed sensibility, the muddled mind, the bent pen of one of America's funniest writers, Dave Barry. This time his subject is U.S. history, the way it's never been told before. Every single momentous event and crucial moment is covered, including . . . • The Birthing Contractions of a Nation • Kicking Some British Butt • Barging Westward • The Forging of a Large, Wasteful Bureaucracy • Deep Economic Doo-doo • The Fifties: Peace, Prosperity, Brain Death . . . and right up through the scintillating Reagan-Bush years, during which, Mr. Barry notes, America is steadfastly Napping Toward Glory. If you love to laugh, if you love your country, if you are unaware that "the Sixth Amendment states that if you are accused of a crime, you have a right to a trial before a jury of people too stupid to get out of jury duty," Dave Barry Slept Here is the book you've been waiting for since 1776. Or at least since Super Bowl III. Praise for Dave Barry Slept Here "A dazzling performance . . . Barry is brilliant."—The Washington Post Book World "[Dave] Barry turns his formidable wit to the subject of American history, with a result reminiscent of the Reduced Shakespeare Company: The better you know the original, the funnier it gets."—Los Angeles Times "I fear that Mr. Barry's dream of making millions of dollars through mass sales of his book to a captive audience of innocent schoolchildren will not be realized, and he will have to be content with making readers laugh a lot, as this one did."—The New York Times Book Review

Let the Lord Sort Them Mar 28 2023 NEW YORK TIMES EDITORS' CHOICE • A deeply reported, searingly honest portrait of the death penalty in Texas—and what it tells us about crime and punishment in America "If you're one of those people who despair that nothing changes, and dream that something can, this is a story of how it does."—Anand Giridharadas, The New York Times Book Review WINNER OF THE J. ANTHONY LUKAS AWARD In 1972, the United States Supreme Court made a surprising ruling: the country's death penalty system violated the Constitution. The backlash was swift, especially in Texas, where executions were considered part of the cultural fabric, and a dark history of lynching was masked by gauzy visions of a tough-on-crime frontier. When executions resumed, Texas quickly became the nationwide leader in carrying out the punishment. Then, amid a larger wave of criminal justice reform, came the death penalty's decline, a trend so durable that even in Texas the punishment appears again close to extinction. In *Let the Lord Sort Them*, Maurice Chammah charts the rise and fall of capital punishment through the eyes of those it touched. We meet Elsa Alcalá, the orphaned daughter of a Mexican American family who found her calling as a prosecutor in the nation's death penalty capital, before becoming a judge on the state's highest court. We meet Danalynn Recer, a lawyer who became obsessively devoted to unearthing the life stories of men who committed terrible crimes, and fought for mercy in courtrooms across the state. We meet death row prisoners—many of them once-famous figures like Henry Lee Lucas, Gary Graham, and Karla Faye Tucker—along with their families and the families of their victims. And we meet the executioners, who struggle openly with what society has asked them to do. In tracing these interconnected lives against the rise of mass incarceration in Texas and the

country as a whole, Chammah explores what the persistence of the death penalty tells us about forgiveness and retribution, fairness and justice, history and myth. Written with intimacy and grace, *Let the Lord Sort Them* is the definitive portrait of a particularly American institution.

The Talisman Jan 31 2021 *Following the 30th Anniversary edition of *The Legacy* comes the thrilling sequel, *The Talisman*, from bestselling screenwriter and author of *The Dirty Dozen*, Lynda La Plante. *The Talisman* is the key to a fortune, or so the tradition says. Each new generation can benefit if they remain selfless enough. Evelyne and Juliana, the fourth generation, are still haunted by the family's past. Edward inherited his father's looks - and his curse - while Alex's quest for revenge will fuel an empire. But a fortune can make people ruthless - and a family can hit you where it hurts. This is the passionate story of a family's lives and fortunes and the curse that forged their names . . .

Lynda La Plante's *Widows* is now a major motion picture Praise for Lynda La Plante 'Lynda La Plante practically invented the thriller' Karin Slaughter 'Classic Lynda - a fabulous read' Martina Cole 'Satisfyingly full of twists and turns' *The Independent* 'A rare ring of authenticity' *Sunday Telegraph* 'An absorbingly twisty plot' *Guardian*

Super Host Dec 25 2022 "Get ready to smile...[A] sweet story and the perfect antidote to the chaos that's been 2021." –the Skimm A deeply funny and shrewdly observed debut novel about being lost in the very place you know by heart. Bennett Driscoll is a Turner Prize-nominated artist who was once a rising star. Now, at age fifty-five, his wife has left him, he hasn't sold a painting in two years, and his gallery wants to stop selling his work, claiming they'll have more value retrospectively...when he's dead. So, left with a large West London home and no income, he's forced to move into his artist's studio in the back garden and list his house on the popular vacation rental site, AirBed. A stranger now in his own home, with his daughter, Mia, off at art school, and any new relationships fizzling out at best, Bennett struggles to find purpose in his day-to-day. That all changes when three different guests--lonely American Alicia; tortured artist Emma; and cautiously optimistic divorcée Kirstie--unwittingly unlock the pieces of himself that have been lost to him for too long. Warm, witty, and utterly humane, *Super Host* offers a captivating portrait of middle age, relationships, and what it truly means to take a new chance at life.

Angels on the Head of a Pin Jul 28 2020 In this contemporary Russian classic, a samizdat document arrives at a Soviet newspaper headquarters with unimaginable consequences. *Angels on the Head of a Pin* is set in Moscow in the late 1960s, at a time when Khrushchev-era liberalization is being threatened by the return to personality cult and repression following the Soviet intervention in Czechoslovakia. The editor-in-chief of the organ of the Communist Party collapses with a heart attack outside the Central Committee building. This is partly brought on by the appearance of a samizdat manuscript on his desk that leads to his anguishing over who left it there and what to do with it to avoid falling victim to the malevolence its content is likely to unleash. The solution lies with Yakov Rappoport, an ageing and cynical Jewish veteran of the war and two spells in the Gulag, the author of not only the obnoxious popular campaigns sponsored by the newspaper (and all its letters to the editor) but of every speech that gets made in public by the principals of the regime as well. His efforts to help his stricken editor, as well as the novel's star-crossed lovers, lead to a hallucinatory climax.

Sorting Things Out Jan 26 2023 A revealing and surprising look at how classification systems can shape both worldviews and social interactions. What do a seventeenth-century mortality table (whose causes of death include "fainted in a bath," "frighted," and "itch"); the identification of South Africans during apartheid as European, Asian, colored, or black; and the separation of machine- from hand-washables have in common? All are examples of classification—the scaffolding of information infrastructures. In *Sorting Things Out*, Geoffrey C. Bowker and Susan Leigh Star explore the role of categories and standards in shaping the modern world. In a clear and lively style, they investigate a variety of classification systems, including the International Classification of Diseases, the Nursing Interventions Classification, race classification under apartheid in South Africa, and the classification of viruses and of tuberculosis. The authors emphasize the role of invisibility in the process by which classification orders human interaction. They examine how categories are made and kept invisible, and how people can change this invisibility when necessary. They also explore systems of classification as part of the built information environment. Much as an urban historian would review highway permits and zoning decisions to tell a city's story, the authors review archives of classification design to understand how decisions have been made. *Sorting Things Out* has a moral agenda, for each standard and category valorizes some point of view and silences another. Standards and classifications produce advantage or suffering. Jobs are made and lost; some regions benefit at the expense of others. How these choices are made and how we think about that process are at the moral and political core of this work. The book is an important empirical source for understanding the building of information infrastructures.

You're Not Special Apr 04 2021 In her first-ever (sort of) memoir, the beloved actor and YouTube sensation gets personal about everything from mental health to drunken debaucheries. As an only child raised in a town of less than 8,000 people and without a Starbucks in sight, Meghan Rienks has always been pretty good at entertaining herself. Then one day—cue the dramatic voiceover—her life changed forever. On June 12th, 2010, Meghan was diagnosed with mononucleosis. Mono is basically just a really bad case of the flu, right? Wrong. To a party crazed sixteen-year-old, mono is social suicide. More than anything, it's just plain boring. So, Meghan opened up her 2009 MacBook, used the webcam for something other than a bad Andy Warhol-style photobooth session, and recorded her first YouTube video. Since then, Meghan has shared the ups and downs of her life with the internet, documenting her teenage years for the whole world to see. Now that she's (mostly) through her awkward stage, Meghan's here to tell you that it gets better. You're not alone in the thoughts you think. Sometimes a bad hair day feels worse than a punch in the gut and asking a boy out seems about as difficult as achieving that perfect dewy glow. But despite what you've been told, your problems are not unique, your struggles have taken form in everybody else's life too, and somebody else has felt the way you feel right at this very moment. You're not special. But you're also not alone on the bumpy road to adulthood.

Albion's Seed Sep 09 2021 This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

The Big Sort Feb 24 2023 The award-winning journalist reveals the untold story of why America is so culturally and politically divided in this groundbreaking book. Armed with startling demographic data, Bill Bishop demonstrates how Americans have spent decades sorting themselves into alarmingly homogeneous communities—not by region or by state, but by city and neighborhood. With ever-increasing specificity, we choose the communities and media that are compatible with our lifestyles and beliefs. The result is a country that has become so ideologically inbred that people don't know and can't understand those who live just a few miles away. In *The Big Sort*, Bishop explores how this phenomenon came to be, and its dire implications for our country. He begins with stories about how we live today and then draws on history, economics, and our changing political landscape to create one of the most compelling big-picture accounts of America in recent memory.

This Isn't the Sort of Thing That Happens to Someone Like You May 06 2021 The powerful first collection of short stories by Jon McGregor. From the publication of his first Booker-nominated novel at the age of twenty-six, Jon McGregor's fiction has consistently been defined by lean poetic language, a keen sense of detail, and insightful characterization. Now, after publishing three novels, he's turning his considerable talent toward short fiction. The stories in this beautifully wrought collection explore a specific physical world and the people who inhabit it. Set among the lowlands and levees, the fens and ditches that mark the spare landscape of eastern England, the stories expose lives where much is buried, much is at risk, and tender moments are hard-won. The narrators of these delicate, dangerous, and sometimes deeply funny stories tell us what they believe to be important—in language inflected with the landscape's own understatement—while the real stories lie in what they unwittingly let slip. A man builds a tree house by a river in preparation for a coming flood. A boy sets fire to a barn. A pair of itinerant laborers sit by a lake and talk, while fighter-planes fly low overhead and prepare for war. *This Isn't the Sort of Thing That Happens to Someone Like You* is an intricate exploration of isolation, self-discovery, and the impact of place on the human psyche. Praise for *Even the Dogs*: "A rare combination of profound empathy and wonderful writing." -Mark Haddon, author of *The Curious Incident of the Dog in the Night-Time*

Letters from Tove May 18 2022 A virtual memoir in letters by the beloved creator of the Moomins Tove Jansson's works, even her famed Moomin books, fairly teem with letters of one kind or another, from messages bobbing in bottles to whole epistolary novels. Fortunately for her countless readers, her life was no different, unfolding as it did in the letters to family, friends, and lovers that make up this volume, a veritable autobiography over the course of six decades—and the only one Jansson ever wrote. And just as letters carry a weight of significance in Jansson's writing, those she wrote throughout her life reflect the gravity of her circumstances, the depth of her thoughts and feelings, and the critical moments of humor, sadness, and grace that mark an artist's days. These letters, penned with characteristic insight and wit, provide an almost seamless commentary on Jansson's life within Helsinki's bohemian circles and on her island home. Shifting between hope and despair, yearning and happiness, they describe her immersion in art studies and her ascension to fame with the Moomins. They speak frankly of friendship and love, loneliness and solidarity, and also of politics, art, literature, and society. They summon a particular place and time reflected through a mind finely attuned to her culture, her world, and her own nature—all clearly put into biographical and historical context by the volume's editors, both longtime friends of Tove Jansson—and, in the end, draw a complex, intimate self-portrait of one of the world's most beloved authors.

Being Human, Being Migrant Aug 09 2021 Migrant experiences accentuate general aspects of the human condition. Therefore, this volume explores migrant's movements not only as geographical movements from here to there but also as movements that constitute an embodied, cognitive, and existential experience of living "in between" or on the "borderlands" between differently figured life-worlds. Focusing on memories, nostalgia, the here-and-now social experiences of daily living, and the hopes and dreams for the future, the volume demonstrates how all interact in migrants' and refugees' experience of identity and quest for well-being.
