Tiffany Aliche was a successful pre-school teacher with a healthy nest egg when a recession and advice from a shady advisor put her out of a job and into a huge financial hole. As she began to chart the path to her own financial rescue, the

outline of her ten-step formula for attaining both financial security and peace of mind began to take shape. These principles have now helped more than one million women worldwide save and pay off millions in debt, and begin planning for a richer life. Revealing this practical ten-step process for the first time in its entirety, *Get Good with Money* introduces the powerful concept of building wealth through financial wholeness: a realistic, achievable, and energizing alternative to get-rich-quick and over-complicated money management systems. With helpful checklists, worksheets, a tool kit of resources, and advanced advice from experts who Tiffany herself relies on (her "Budgetnista Boosters"), *Get Good with Money* gets crystal clear on the short-term actions that lead to long-term goals, including:

- A simple technique to determine your baseline or "noodle budget," examine and systemize your expenses, and lay out a plan that allows you to say yes to your dreams.
- An assessment tool that helps you understand whether you have a "don't make enough" problem or a "spend too much" issue—as well as ways to fix both.
- Best practices for saving for a rainy day (aka job loss), a big-ticket item (a house, a trip, a car), and money that can be invested for your future.
- Detailed advice and action steps for taking charge of your credit score, maximizing bill-paying automation, savings and investing, and calculating your life, disability, and property insurance needs.
- Ways to protect your beneficiaries' future, and ensure that your financial wishes will stand the test of time.

An invaluable guide to cultivating good financial habits and making your money work for you, *Get Good with Money* will help you build a solid foundation for your life (and legacy) that's rich in every way. Missing Out! What's it worth to you to have just ONE good idea applied to your life? In many cases, it may mean expanded paychecks, better vitality, and magical relationships. Here's an Introduction of What You're About to Discover in this Premium Summary of I Will Teach You To Be Rich by Ramit Sethi: Ramit Sethi is keen on saying that there aren't any secrets to getting rich. It takes only small steps and discipline with little work to be successful. The book is about how to get rich. Sethi provides an overall view on correcting some mistaken ideas to achieve one's goal of becoming rich. The book is a six-week long program for managing one's financial goals. The book is intended for ordinary people who find it hard to manage their resources. Deciding to clean up one's fiscal mess is a mounting task. Thus, the book provides excellent financial advice to those willing to clean up their financial status. The title of the book should not be interpreted in the literal sense. In many ways, the book provides various straightforward and practical solutions for dealing with earnings, bills payments, and finances rather than with becoming rich. Sethi made the book easy to understand by dividing the book into nine chapters. The major topics include the following areas of discussion: a) credit card management, b) choosing a bank and how to manage your accounts, c) how and what to invest, d) how to manage one's finances and budget spending, e) and automation. Sethi's take on how to get rich is straightforward. One needs only to focus on how to take action to solve the problem rather than looking for a perfect answer. That's why Sethi's advice is to take a single step until you reach your goal. He conceived the idea of an 85% solution rather than aiming for perfection. Sethi also makes reference to the correct spending attitude. According to him, one must spend money on the things you love but

spend less on unnecessary things. Only invest your money in things that matter to you most. - The Grind (Months 0-4): This step-by-step plan will help you identify a winning product idea, target customers that are guaranteed to buy, secure funding, and take your first sale within your first four months.
- The Growth (Months 5 - 8): Once you're in business, you will discover how to use cheap and effective advertising strategies to get your product to at least 25 sales per day, so you can prove you have a profitable business.
- The Gold (Months 9-12): It's time to establish series of products available for sale, until you are averaging at least 100 sales per day, getting you closer to the million-dollar mark every single day.
