This exceptional collection of honest and open discussions reveals a rich variety of backgrounds and training, and an even greater range of approaches to the craft of acting. In preparing for a role, some actors feel, as Lindsay Crouse, that "Most of what is required is inside me." Others rely on extensive research, the construction of elaborate character sketches, or, like Richard Dreyfuss, a deceptively simple, instinctual "mental image." *Play Directing* describes the various roles a director plays, from selection and analysis of the play, to working with actors and designers to bring the production to life. Bryer (English, U. of Maryland) and Davison (English, U. of Delaware) interviewed 17 seasoned actors about their professional lives, their views of American theater, and their perspectives on acting, the characters they've played, and the directors they've worked with. The interviews are presented in qanda format, and include the thoughts of Zoe Caldwell, Hume Cronyn and Jessica Tandy, Blythe Danner, Ruby Dee, George Grizzard, Julie Harris, Eileen Heckart, Cherry Jones, James Earl Jones, Stacy Keach, Shirley Knight, Nathan Lane, Jason Robards, Maureen Stapleton, and Eli Wallach and Anne Jackson. Annotation copyrighted by Book News Inc., Portland, OR This is required reading for anyone passionate about the theater, acting, and the teaching of it. The struggles of a young actor, the actor/director relationship, the challenges of teaching art in universities, ageism, and techniques for teaching realistic acting are all communicated through a fictional series of letters between Andy, an anguished young New York City actor and Alice, his Quaker grade-school acting teacher. *Producing and Directing the Short Film and Video*, Fifth Edition is the definitive book on the subject for the serious film student or beginning filmmaker. Based on the popular course she teaches at UCLA, seven comprehensive chapters provide proven guidance on such key topics as understanding the actor, the director's preparation, casting, rehearsals, and working on the set. An additional chapter features directors' notes, character analysis, and a scene breakdown from a section of the movie classic *On the Waterfront*. Finally, *Friendly Enemies* features fascinating one-on-one interviews with entertainment professionals including: • Burt Brinckerhoff, well-known producer and director of the successful television series *Seventh Heaven* and director of over 46 legendary television shows • Tom Holland, Emmy-winning director of *Malcolm in the Middle*, as well as *The Larry Sanders Show* and *Twin Peaks* • Geena Davis, star of *The Accidental Tourist*, *Thelma and Louise*, and *A League of Their Own* • Anthony Franciosa, star of stage, screen, and television • Barry Primus, who has recently appeared in the films *Life as a House* and *15 Minutes*, as well as such television shows as *The Practice*, *X-Files*, and *Law and Order* Hear how directors handle on set problems effectively and the main issues that director's face; what they are and how to handle them: -making decisions quickly -the process of film making -handling the director - actor relationship -research -patience -technical shooting; knowing the rules and how to break them -fighting the time barrier -story boards; what they are, how to use them and when they're needed -shot lists; why they're important and when they're not -coverage and editing *Directors* will walk you through the job from start to finish; from prep to post, learn what the job entails and how to make the choices you need to make. The founder and director of the Yale Repertory Theater, as well as Harvard's American Repertory Theater, and a drama critic for more than thirty years, Robert Brustein is a living legend in theatrical circles. *Letters to a Young Actor* not only inspires the multitudes of struggling dramatists out pounding the pavement, but also reinvigorates the very state of the art of acting itself. The theatre director is one of the most critical roles in a successful drama company, yet there are no formal qualifications required for entry into this profession. This practical guide for emerging theatre directors answers all the key questions from the very beginning of your career to key stages as you establish your credentials and get professionally recognized. It analyzes the director's role through relationships with the actors, author, designer, production manager and creative teams and provides vital advice for "on-the-job" situations where professional experience is invaluable. The book also provides an overview of the many approaches to acting methodology without focusing on any in particular to allow the director to develop their own unique methods of working with any actor's style. Each chapter includes these key features: * Introduces important theories, identifies practitioners and provides key reading to provide an overview of historic and current practice. * Interviews with leading practitioners and emerging directors. * Suggested exercises to develop the director's own approach and practical skills. *The Director as Collaborator* teaches essential directing skills while emphasizing how directors and theater productions benefit from collaboration. Good collaboration occurs when the director shares responsibility for the artistic creation with the entire production team, including actors, designers, stage managers, and technical staff. Leadership does not preclude collaboration; in theater, these concepts can and should be complementary. Students will develop their abilities by directing short scenes and plays and by participating in group exercises. New to the second edition: updated interviews, exercises, forms, and appendices new chapter on technology including digital research, previsualization and drafting programs, and web-sharing sites new chapter on devised and ensemble-based works new chapter on immersive theater, including material and exercises on environmental staging and audience-performer interaction Ten highly popular and acclaimed film directors whose careers began in front of the cameras candidly offer their insights into the all-important and unexplored subject of directing actors. Each actor-turned-director discusses film making and acting as observed from and practised on both sides of the camera and offers invaluable guidelines and tips on casting, rehearsing, communicating and working with actors, and the whole of the movie making process. Jon Stevens is a writer/director whose most recent feature film is *Irish Whiskey*. He serves on the publications committee of the *Directors Guide of America*, with whose support this book was prepared. Demonstrates what constitutes a good performance, what actors want from a director, what directors do wrong and more. The collaboration of director and actor is the cornerstone of narrative filmmaking. This book provides the director with a concrete step-by-step guide to preparation that connects the fundamentals of film-script analysis with the actor's process of preparation. This book starts with how to identify the overall scope of a project from the creative perspective of the director as it relates to guiding an actor, before providing a blueprint for preparation that includes script analysis, previsualization, and procedures for rehearsal and capture. This methodology allows the director to uncover the similarities and differences between actor and director in their preparation to facilitate the development of a collaborative dialogue. Featuring chapter-by-chapter exercises and assignments throughout, this book provides a method that enables the director to be present during every stage of production and seamlessly move from prep to filming, while guiding the actor to their best performances. Written in a clear and concise manner, it is ideal for students of directing, early career, and self-taught directors, as well as cinematographers, producers, or screenwriters looking to turn their hand to directing for the first time. This book explains the broader context of what the art and craft of motion picture editing entails, framing the creative acts of editing within an overall view of the production process and requirements for effective storytelling. This book offers real experiences and advice from seasoned editors on the editing process, providing a detailed examination of filmmaking from the editor's point of view and exploring how best to cultivate creative relationships with other areas of production to form the final personality of the film. Emphasizing both practicality and creativity, industry veteran Michael Hoggan successfully bridges the gap between the mechanical skills of editing and the thought process behind these decisions. While most books focus primarily on the mind of the creator, this book explores the evolution of practices in film production and editing with respect to the ever-changing expectations of the audience. As the book demonstrates, understanding editing from the audience's perspective is essential to any successful film. This book will be of interest to post-production students, independent filmmakers, film critics, and agents with editing clients. It is accompanied by a collection of rich digital materials, including a glossary, bibliography, and more. The subject of this book is theatre directing in four internationally famous instances. The four directors--Konstantin Stanislavsky, Bertolt Brecht, Elia Kazan, and Peter Brook--all were monarchs of the profession in their time. Without their work, theatre in the twentieth century--so often called "the century of the director" --would have a radically different shape and meaning. The four men are also among the dozen or so modern directors whose theatrical achievements have become culture phenomena. In histories, theories, hagiographies, and polemics, these directors are conferred classic stature, as are the four plays on which they worked. Chekhov's *The Seagull*, Brecht's *Mother Courage and Her Children*, and Williams's *A Streetcar Named Desire* have long been recognized, in the theatre and in the study, as masterpieces. They are anthologized, quoted, taught, parodied, read, and produced constantly and globally. The culturally conservative might question the presence of *MaratiSade* in such august company, but Peter Weiss's play stands every chance of figuring in Western repertories, classroom study, and theatrical histories until well into the twenty-first century. In their quite different ways, these are all classics of that Western drama which is part of our immediate heritage. This book critically assesses the artistry of contemporary directors. Its discussion includes the work of Declan Donnellan, Thomas Ostermeier, Deborah Warner, Simon Stone and Krzysztof Warlikowski. Alongside the work of wider theorists (Patrice Pavis and Erika Fischer-Lichte), it uses neuroaesthetic theory (Semir Zeki) and cognitive and creative process models to offer an original means to discuss the performance event, emotion, brain structures and concepts, and the actor's body in performance. It offers first-hand observation of rehearsals led by Katie Mitchell, Ivo van Hove, Carrie Cracknell and the Steppenwolf Theatre. It also explores devising in relation to the work of Simon McBurney and contemporary groups, and scenography in relation to the work of Dmitry Krymov, Robert Wilson and Robert Lepage. *The Director and Directing* argues that the director creates a type of knowledge, 'reward' and 'resonant experience' (G. Gabrielle Starr) through instinctive and expert choices. First Published in 1992. A rare behind-the-scenes look at the rehearsal sessions of acclaimed directors and actors. Cole offers a view of what is often hidden from the public eye: what actors and directors do when they prepare a dramatic text for performance. "The interviews... demonstrate the myriad ways in which a theatre background can engender innovative and stimulating work in film. As unique and idiosyncratic as the personalities they feature, the director's conversations... range over a vast field of topics. Each one traces its subject's personal artistic journey and explores how he or she handled the lessons and challenges of moving from stage to screen." -- Back cover. The long-anticipated biography of Robert Redford. Among the most widely admired Hollywood stars of his generation, Redford has appeared onstage and on-screen, in front of and behind the camera, earning Academy, Golden Globe, and a multitude of other awards and nominations for acting, directing, and producing, and for his contributions to the arts. His Sundance Film Festival transformed the world of filmmaking; his films defined a generation. America has come to know him as the Sundance Kid, Bob Woodward, Johnny Hooker, Jay Gatsby, and Roy Hobbs. But only now, with this revelatory biography, do we see the surprising and complex man beneath the Hollywood façade. From Redford's personal papers—journals, script notes, correspondence—and hundreds of hours of taped interviews, Michael Feeney Callan brings the legendary star into focus. Here is his scattered family background and restless childhood, his rocky start in acting, the death of his son, his star-making relationship with director Sydney Pollack, the creation of Sundance, his political activism, his artistic successes and failures, his friendships and romances. This is a candid, surprising portrait of a man whose iconic roles on-screen (Butch Cassidy and the Sundance Kid, *All the President's Men*, *The Natural*) and directorial brilliance (*Ordinary People*, *Quiz Show*) have both defined and obscured one of the most celebrated, and, until now, least understood, public figures of our time. What is a 'Shakespearean actor'? Does the term still have any meaning? Drawing on the biographical and autobiographical accounts of actors and directors, as well as on interviews with actors from a wide range of backgrounds, this book looks at these questions in a variety of contexts, historical and contemporary. A survey of the training of the classical actor, with its increasing vocal and physical demands, considers how it, like its subsequent career path, is affected by class and gender. There is discussion of the uneasy balance of power between actors and directors, rehearsal practice, the difficulties faced by women as performers and directors, and attempts at undirected productions. Other chapters consider the roles that actors do and don't want to play, and why, their relation to the Shakespeare text and editorial practice, the complex relationship between actor and audience, and the popularity of anecdotes about things that go wrong. Throughout, examples are taken, as far as possible, from the author's own long experience of theatregoing. A final chapter looks at new trends in the theatre that have been accelerated by the long period of closure during the pandemic, particularly attempts at greater inclusivity in both actors and audiences. It concludes that the main reason Shakespeare is performed is that actors want to play the roles he wrote. This authoritative and highly respected classic text and "workbook" explores all aspects of directing plays in live theatre, including working with actors, playwrights, and designers. Thoroughly revised and updated, *Play Directing*, Fourth Edition, outlines for readers a technical method for examining the structure of ALL playscripts in order to show how plays are made and how directors can prepare. Author Francis Hodge focuses on the various methods a director can use in communicating with actors and designers. In addition, Hodge illustrates how to bring out the actor through visual stimulations and through the development of oral-aural expertise. *Creativity: the Actor in Performance* focuses on what it takes to be a creative performer. Many stage-actors succeed in rehearsals, yet under-perform where it counts—in performance. But, as actors know, performance is a thing unto itself—something is going to have to happen out there beyond anything that happened in rehearsals. This book provides actors, their teachers and directors with insights into the creativity of the actor in performance. An historical account of the emergence and development of one of the most generative concepts of our times – creativity - provides a theoretical backdrop to a critical discussion of the creativity of acting - a discussion that includes analyses of Denis Diderot, George Henry Lewes, William Archer, Konstantin Stanislavsky, Michael Chekhov, Michel Saint-Denis, Zeami and Eugenio Barba. *Creativity: the actor in performance* concludes by offering a detailed rationale for performance-oriented actor training, offering examples of workshop exercises (CREATICS) which focus on developing four main competencies crucial for successful and creative performances: situation awareness, audience awareness, divided consciousness and presence. Unique book written by well-known and best-selling Focal author! "The book... succeeds at refining elements in the problem that semiotics and theater represent to and for one another." -- Choice "The Semiotics of Performance surprisingly retains its revelatory freshness, and actually opens up areas of reseach that could very well supply new incentives for further probing into what semiotics can offer to the study of theatre." -- Theatre

Survey The new edition contains more in-depth information about the transition from analog to digital video production and includes the latest information on digital video and HD. It includes expanded coverage of nonlinear editing techniques and features a new organization that follows the actual shooting process more closely. This book compiles research from such varied disciplines as psychology, economics, sociology business, and communications to find the best empirical research being done on the movies, based on perspectives that many filmgoers have never considered. Until very recently, directing wisdom was passed on in the form of "tips". Continuing this tradition, you will find them ranging from the way set a scene to directing the actor on the way to laugh. The tips are clear, concise, evocative, and constructed to give you a better day in rehearsal and performance. A buffet of ways to improve immediately that you'll refer to over and over again! Flexible and concise, Stage Directing details the seven steps that make up the directing process: selecting a work, analyzing and researching the playscript, conceiving the production, casting, beginning rehearsals, polishing rehearsals, and giving and receiving criticism. Each step is highlighted with valuable directing tips, as well as examples from modern and contemporary playscripts and productions. Exercises, objectives, and key terms put directing precepts to a practical test, revealing what is significant about each phase of the process. Over eighty charts, graphs, and photographs unite to exemplify the text. With a fresh voice and an engaging writing style, Patterson provides insightful questions, suggestions, and illustrations that define and invoke contemplation about the role of the director. Three original short plays provide the opportunity for hands-on analysis and the application of practical concepts. In a final essay, Patterson highlights the function and growing artistry of the director in the modern and postmodern theatre by concisely examining the history of the director. The Actor Uncovered is certainly not a set of rigid rules advocating one "method" or one singular "truth." Departing from the common guidebook format, Michael Howard uses a unique approach to teaching acting, reflecting on his own history and sharing his own experiences as an actor, director, and teacher. How he writes about the process and craft of acting is at once intensely personal and relatable by others. Readers are invited to participate as though present in this master teacher's classes. Each human being, and thus each actor, is unique. Howard encourages actors to uncover their own ways of working, using their particular abilities and personality traits. Going beyond the craft and into human psychology and the importance of acting as a life force, readers will see new and deeper ways to study and practice, to be introspective, and to arrive at places of revelation about their craft. The Actor Uncovered will have much to say to beginners, to those who are advanced, and to professional and working actors. Howard discusses such topics as: Techniques, styles, and methods in a changing society Relaxation, concentration, and the breath The relationships among actor, director, and writer Memory On camera versus on stage Obstacles After more than seventy years as a professional actor, director, and teacher, Howard shows how living creatively and invoking one's own personality can lead to a successful career as an actor. Vivid tales and anecdotes about the theatre told by John D. Mitchell, founder of the Institute for Advanced Studies in the Theatre Arts. Casting is a crucial creative element of any production - and yet the craft and skills needed to put together a successful and exciting cast are often overlooked. The Casting Handbook explains the casting process from beginning to end and covers everything producers and directors needs to know - as well as proving a fascinating and illuminating read for actors. The book explores: how to prepare a breakdown where to source actors how to prepare for a casting session how to make casting decisions how a cast is put together how deals are done ethics and the law, with special reference to casting children how a casting director contributes to the initial development of the script how the casting works from fringe theatre to Hollywood blockbusters The Casting Handbook considers actors', producers', agents' and directors' relationship with a casting director, the day to day work that is casting, and how approaching it in a professional and informed manner can make the difference to the final product. Including interviews with actors, agents, directors, casting directors and producers; case studies; exercises; and a fact file of useful templates and contacts, this book offers a thorough induction into the casting process, suitable for students and early career professionals in any media. The multitalented writers, directors, producers, and actors (as seen on The League, Transparent, and The Mindy Project) share the secrets of their lifelong partnership in this unique memoir. "A book that anyone will love . . . You can enjoy it even if you have no idea who the Duplass brothers are."—Janet Maslin, The New York Times Whether producing, writing, directing, or acting, the Duplass Brothers have made their mark in the world of independent film and television on the strength of their quirky and empathetic approach to storytelling. Now, for the first time, Mark and Jay take readers on a tour of their lifelong partnership in this unique memoir told in essays that share the secrets of their success, the joys and frustrations of intimate collaboration, and the lessons they've learned the hard way. From a childhood spent wielding an oversized home video camera in the suburbs of New Orleans to their shared years at the University of Texas in early-nineties Austin, and from the breakthrough short they made on a three-dollar budget to the night their feature film Baghead became the center of a Sundance bidding war, Mark and Jay tell the story of a bond that's resilient, affectionate, mutually empowering, and only mildly dysfunctional. They are brutally honest about how their closeness sabotaged their youthful romantic relationships, about the jealousy each felt when the other stole the spotlight as an actor (Mark in The League, Jay in Transparent), and about the challenges they faced on the set of their HBO series Togetherness—namely, too much togetherness. But Like Brothers is also a surprisingly practical road map to a rewarding creative partnership. Rather than split all their responsibilities fifty-fifty, the brothers learned to capitalize on each other's strengths. They're not afraid to call each other out, because they're also not afraid to compromise. Most relationships aren't—and frankly shouldn't be—as intense as Mark and Jay's, but their brand of trust, validation, and healthy disagreement has taken them far. Part coming-of-age memoir, part underdog story, and part insider account of succeeding in Hollywood on their own terms, Like Brothers is as openhearted and lovably offbeat as Mark and Jay themselves. "Wright. Ringling. Jonas. I'm sure you could name a bunch of famous brother teams. They're all garbage compared to Mark and Jay. I can't wait for you to read this book."—from the foreword by Mindy Kaling As a young Jewish boy growing up in Vienna, Georgia, Abe Orvitz could never have predicted the twists and turns his life would take. Many years later, as retired film director with more than thirty movies to his credit, Vincent Sherman is no less surprised when he looks back on that life. In Studio Affairs he retraces his life with candor and enthusiasm. Sherman discusses the details of his three-year relationship with Joan Crawford, his inadvertent connection with the death of Bette Davis's second husband, and his poignant romantic involvement with Rita Hayworth. Providing counterpoint to these liaisons is the love and devotion of Sherman's wife, Hedda, who accepted her husband's occasional infidelities as part and parcel of his career. Studio Affairs provides an inside look at the motion picture industry during the heyday of the studio system by one who worked his way from nearly starving actor and playwright to respected director. In effect, the book serves as a primer on the art of film directing. Sherman quickly developed a reputation of being a consummate rewrite artist, able to take whatever assignment given him and turn it into a first rate motion picture. His skill at reworked scripts led him to bigger and bigger projects, even as the salary set by his long-term contract with Warner Brothers remained below that of most of his colleagues. Though not originally signed to direct, when asked to do so he drew on his experience putting together productions at summer camps across the "borscht circuit" in upstate New York. Like so many talented individuals in Hollywood during the 1950s, Sherman was targeted by the House Un-American Activities Committee, owing in part to his active support of the WPA Theatre project in New York two decades previous. Time spent on the lesser known gray list kept him out of work for several years. Eventually, he again enjoyed some critical success, but after the demise of the studio system life was never quite the same. The quintessential "studio director" ended his career directing for television. Vincent Sherman's path from Georgia to southern California is compelling, and his legendary talent for good storytelling makes the book impossible to put down. Producing and Directing the Short Film and Video is the definitive book on the subject for beginning filmmakers and students. The book clearly illustrates all of the steps involved in preproduction, production, postproduction, and distribution. Its unique two-fold approach looks at filmmaking from the perspectives of both producer and director, and explains how their separate energies must combine to create a successful short film or video, from script to final product. This guide offers extensive examples from award-winning shorts and includes insightful quotes from the filmmakers themselves describing the problems they encountered and how they solved them. The companion website contains useful forms and information on grants and financing sources, distributors, film and video festivals, film schools, internet sources for short works, and professional associations.
