Sibert Honor Book Winner of the Schneider Family Book Award An ALA-ALSC Notable Children's Book Winner of the NCTE Orbis Pictus Award for Outstanding Nonfiction for Children As a child in the late 1800s, Horace Pippin loved to draw: He loved the feel of the charcoal as it slid across the floor. He loved looking at something in the room and making it come alive again in front of him. He drew pictures for his sisters, his classmates, his co-workers. Even during W.W.I, Horace filled his notebooks with drawings from the trenches . . . until he was shot. Upon his return home, Horace couldn't lift his right arm, and couldn't make any art. Slowly, with lots of practice, he regained use of his arm, until once again, he was able to paint--and paint, and paint! Soon, people—including the famous painter N. C. Wyeth—started noticing Horace's art, and before long, his paintings were displayed in galleries and museums across the country. Jen Bryant and Melissa Sweet team up once again to share this inspiring story of a self-taught painter from humble beginnings who despite many obstacles, was ultimately able to do what he loved, and be recognized for who he was: an artist.

**Splash!** Jun 08 2022 Choose a stroke and get paddling through the human history of swimming! From man's first recorded dip into what's now the driest spot on earth to the splashing, sparkling pool party in your backyard, humans have been getting wet for 10,000 years. And for most of modern history, swimming has caused a ripple that touches us all--the heroes and the ordinary folk; the real and the mythic. Splash! dives into Egypt, winds through ancient Greece and Rome, flows mostly underground through the Dark and Middle Ages (at least in Europe), and then reemerges in the wake of the Renaissance before taking its final lap at today's Olympic games. Along the way, it kicks away the idea that swimming is just about moving through water, about speed or great feats of aquatic endurance, and shows you how much more it can be. Its history offers a multi-tiered tour through religion, fashion, architecture, sanitation and public health, colonialism, segregation and integration, sexism, sexiness, guts, glory, and much, much more. Unique and compelling, Splash! sweeps across the whole of humankind's swimming history--and just like jumping into a pool on a hot summer's day, it has fun along the way.

**Mommy and Me Go to Swimming Lessons** May 15 2020 Mommy and Me Go to Swimming Lessons! Reading Level: Baby - 5 years old An infant can drown in as little as an inch of water in less than thirty seconds. A bathtub, toilet, bucket, swimming pool, hot tub, or any other container can be dangerous, and water safety should never be taken lightly. It's imperative never to leave a child unsupervised near water, and because child drowning is preventable with a long term commitment to swimming lessons, it's equally important to make sure your child can swim. The ability to swim is one of the best life skills you can give your child, and the sooner you do it, the safer your child will be. Statistics show that when water skills and comfort in the water are introduced early, children are less likely to develop a fear of swimming. Since a child's fear of water might prevent future attempts at learning the necessary water skills, it's important to start early and be safe. Mommy and Me Go to Swimming Lessons is a must-read guide book before starting swimming lessons with your child. Written through a child's eyes, it helps introduce parents and children to swimming lessons and encourages them to feel comfortable and excited about going. Your child will be asked to learn all of the water skills introduced in this book at their own swimming lessons.
