**Sap R/3 Black Book** Feb 24 2021 The book is designed to begin with the very basics and moves forward to cover the topics necessary to unleash the power of SAP - from the way tasks are handled in SAP to how Reports are executed in your task; from getting a complete know-how of SAP Administrative Utilities and Background Job Scheduling to SAP R/3 Basis System; from ABAP Workbench to ABAP Programming with MM and SD Modules and much more. With each topic building upon others, you are quickly able to utilize the R/3 functionality in a meaningful and productive manner. All this, as the book zips through the material and doesn't blather on or repeat points made earlier. A definitive informative guide that will help you make good on your company's sizable investment - no doubt, every aspect is worth the price of the entire book.

**Overviews** This is a detailed book that covers every screen of the SAP Menu and IMG. Details are preceded by overviews that show the larger picture and linkages between different concepts. **Learning Guide** This book can be used to learn SAP. You can start learning SAP using this book even if you know nothing about SAP. How to read this book in multiple iterations is explained in the book.

**Technical Reference** If you are in SAP menu or IMG and want to find the relevant material in this book, it is very easy. Both SAP menu and IMG are expanded and section number is provided against each item. **A New Approach to SAP Implementation** You can use this book to implement SAP in a structured way. This approach is explained in the book. **Configuration manual** The documentation of SAP implementation includes a configuration manual. This configuration manual may be structured on the lines of this book. **User manual** The documentation of an SAP implementation includes a user manual. This book should serve as a generic user manual. Company-specific user manual may also be structured on the lines of this book and may include only company-specific guidelines for the users.

**SAP HANA Platform Migration** Jul 20 2020 This IBM® Redpaper publication provides SAP HANA platform migration information and details for successful planning for migration to IBM Power Systems servers. This publication addresses topics for sellers, IT architects, IT specialists, and anyone who wants to migrate and manage SAP workloads on Power Systems servers. Moreover, this guide provides documentation to transfer how-to skills to the

technical teams, and it provides solution guidance to the sales team. This publication complements documentation that is available at IBM Knowledge Center, and it aligns with educational materials that are provided by IBM Systems.

### **Mastering the SAP Business Information Warehouse**

Sep 02 2021 "This book is the definitive guide for SAP NetWeaver BI professionals. Based on their extraordinary expertise with the product, the authors provide deep insights about key innovations in the areas of user experience, query performance, integrated planning, and enterprise-wide data warehousing." —Stefan Sigg, Vice President, SAP NetWeaver Business Intelligence

The long-anticipated publication of this second edition reflects the growing success of SAP NetWeaver as well as the various Business Intelligence (BI) capabilities that are embedded with SAP BW version 7.0. Written by SAP insiders, this comprehensive guide takes into account the ever-changing features, functionality, and toolsets of SAP NetWeaver to bring you the most updated information on how to use SAP BW to design, build, deploy, populate, access, analyze, present, and administer data. You'll discover the options that are available in SAP NetWeaver and uncover a new means to improve business performance. This book reflects the process an organization goes through during an implementation of the software. The authors begin with an introduction to BI and SAP NetWeaver and quickly progress to information modeling and enterprise data warehouse concepts. You'll learn how to access and deliver meaningful analytic information to the organization, as well as perform

integrated planning functions. Finally, the authors share invaluable insight on warehouse administration, performance, and security. With more than 50 percent new or revised material, this second edition of Mastering the SAP Business Information Warehouse shows you how to:

- Extract data from online transaction processing systems
- Store transformed data in a way that best supports reporting and analysis
- Use the various Business Explorer tools such as BEx Report Designer, BEx Analyzer, BEx Broadcaster, and BEx Web Application Designer
- Schedule, monitor, troubleshoot, and archive data loads

### **Retail Information Systems Based on SAP Products**

Feb 07 2022 Concentration tendencies, globalization, increasing cost pressure and well-informed customers all make up the hard competition faced by today's businesses. The "right" products, a successful market image, a strong positioning between suppliers and customers, efficient logistics and optimum organization structures contribute to a company's survival. Achieving this goal requires flexible information and communication systems that are fully adaptable to the specific situation. Modern retail information

systems are not bound by organization borders but support both business partner cooperation and electronic commerce. This book presents the architecture of retail information systems, as well as the functions of SAP Retail, and in so doing links modern retail management with the implementation strategies based on innovative software systems.

**The Ultimate SAP Pricing Guide** Jan 26 2021 SAP(r)  
Pricing is one of the most flexible functionalities in the SAP system, but it's also one of the most complex. Project team members and consultants alike avoid having to deal with Pricing. Why is that? Although the standard SAP documentation explains SAP's individual Pricing capabilities, it does not clearly illustrate how the individual pieces connect as a whole. Pricing expert Matthias Liebich provides this missing link with *The Ultimate SAP Pricing Guide*. Through easy-to-read, step-by-step instructions, Matthias guides you through real-life business examples in how to use the SAP Pricing functionality. If you would like to get a better understanding of SAP Pricing and become a respected Pricing resource in your company or a sought-after Pricing consultant, *The Ultimate SAP Pricing Guide* is the right start for yo

**Enterprise Management with SAP SEM/business Analytics** Sep 21 2020 In order to make strategy happen there is a need for powerful management information systems. SAP focuses on the application of modern business administration concepts, e.g. Value Based Management, the Balanced Scorecard, the Management

Cockpit or flexible planning methods. The book describes the methodology and implementation of a powerful tool for enterprise management. Practical examples show how SAP Strategic Enterprise Management/Business Analytics (SAP SEM/BA) can help to improve cross functional planning, reporting and analyzing. SAP SEM/BA is a leading edge IT-solution for top management and related departments in large enterprises and groups. It demonstrates the state of the art of modern management information and decision support systems.

**JavaScript Essentials for SAP ABAP Developers** Aug 01 2021 Easily master JavaScript (JS) with this quick guide and develop mobile and desktop applications for SAP Fiori. This book equips ABAP/SAP developers with the essential topics to get started with JS. The focus of JavaScript Essentials for SAP ABAP Developers is on the parts of the JS language that are useful from the perspective of an ABAP developer. The book starts with a brief intro to HTML, the basics of JS, and how to create and run a simple JS program. It then dives into the details of the language, showing how to make simple programs. It covers loops in detail, mathematical operations, and string and regular expressions in JS, as well as a taste of functions, followed by objects and object-oriented programming in JavaScript. The book provides: Sample code and screenshots to help you fully understand JS A chapter on JS best practices and recommendations Differences and comparisons of the elements and data structures of ABAP and JavaScript to help you quickly master the material What You'll Learn

**First Steps in SAP Fiori** Jul 12 2022 Are you wondering what SAP Fiori is all about? Dive into SAP's new user interface and gain an understanding of core SAP Fiori concepts and get quickly up to speed SAP Fiori functionality, architecture, prerequisites, and technical components. Walk through key configuration and get examples of what has gone well (and not so well) on real SAP Fiori implementation projects. Take a technical deep dive into the types of Fiori apps including transactional apps, analytics apps, and fact sheets and walk through custom development and enhancements. By using practical examples, tips, and screenshots, the author brings technical and non-technical readers alike up to speed on SAP Fiori. - SAP Fiori fundamentals and core components - Instructions on how to create and enhance an SAP Fiori app - Installation and configuration best practices - Similarities and differences between SAP Fiori and Screen Personas

**Using SAP R/3 F1** Apr 28 2021 This book is for the professional financial manager, accountant, or bookkeeper who needs to learn the basics of SAP R/3 FI quickly, without wading through a morass of technical jargon.

Featuring a clear, functional outline, copious sample screens, and simple step-by-step instructions, Using SAP R/3 FI presents the most widely used FI functions in plain, argot-free English, following menu lines from the actual program. The book also provides details about using FI for international business, such as translating the chart of accounts, keeping accounts in foreign currency, entering transactions in foreign currency, and revaluing accounts and open items in different currencies. You'll also learn the highlights of integrating R/3 FI with SD (order entry, shipping, and invoicing) and MM (purchasing, receiving, and inventory control). This remarkably detailed manual shows you how to use R/3 FI for all your basic accounting functions, including \* General ledger \* Accounts receivable \* Accounts payable \* System administration \* And much, much more.

**SAP® R/3® Interfacing using BAPIs** Oct 03 2021 Das Buch führt in verständlicher Weise in die praktische Nutzung der Business Application Programming Interfaces (BAPIs) ein und klärt zunächst die wesentlichen Begriffe, die hinter dieser neuen SAP®-Technologie stehen. Das Buch zeigt eine empfehlenswerte Vorgehensweise für die Einführung und Realisierung der System-Kopplung zwischen R/3® am Beispiel von Lotus Notes. An Hand eines in nahezu jedem Unternehmen relevanten Ablaufs wird exemplarisch die Umsetzung eines Geschäftsprozesses der Kundenauftragsabwicklung gezeigt. Das neue Wissen wird mit Hilfe der beigelegten CD, die auch ScreenCams beinhaltet, plastisch und leicht

verständlich vermittelt. Das Buch verfolgt im wesentlichen zwei Ziele: Es zeigt, welchen Nutzen die BAPIs bieten, um externe Systeme an ein R/3® System anzubinden, und wie hoch der Realisierungsaufwand ist. Es versetzt den Leser in die Lage, die Funktionsweise von R/3® und die angebotenen BAPIs und Lotus Notes nicht nur schnell zu verstehen, sondern auch Geschäftsprozesse schnell und zuverlässig in die Praxis umzusetzen.

### SAP MM CONSUMPTION BASED MRP : TECHNICAL REFERENCE AND LEARNING GUIDE Jun 18 2020

Consumption-based MRP is an important business process in almost every company. In SAP, you can plan material requirements based on consumption. SAP provides important functionalities like determining net requirement, procurement dates, etc. This book explains all the concepts underpinning SAP's MM Consumption based MRP Module. It is a comprehensive technical manual which explains every single node of the User Menu and the Configuration. The book is organized in chapters that are important business activities. The author has taken care to balance details with overviews that explain linkages between concepts. In this book, like author's earlier books, he explains every screen of SAP MM Consumption-based MRP. Divided into 16 chapters, the book clearly explains both the SAP Menu and the Customizing Implementation Guide. It also indicates the chapter number where these are covered, thereby creating a direct link between the book and the SAP software. The implementation of SAP MM Consumption Based MRP and documentation can also be

guided by the structure of this book.

**ISA-95 Implementation Experiences** Apr 21 2023 The ISA (International Society of Automation) standards 88 and 95 are manufacturing standards established in the late 1990s and periodically updated by the governing bodies responsible for them - the Instrumentation Society of America and the American National Standards Institute). The two standards set up protocols and uniform specifications for batch control systems, including types of control equipment, design of control systems and interpretation of batch control data. The reader will find examples and case studies of how the ISA 95 standard is used to integrate manufacturing operations with the rest of the business enterprise - from inventory to accounting to customer relations. It features: Explanation of ISA 95 and ERP-MES integration How to map SAP PP-PI, ISAN 94 Production Schedule and ISA 95 Production Performance How to Use ISA 95 as a manufacturing enterprise Analytic tool

*SAP HANA on IBM Power Systems Backup and Recovery Solutions* May 30 2021 This IBM® Redpaper Redbooks publication provides guidance about a backup and recovery solution for SAP High-performance Analytic Appliance (HANA) running on IBM Power Systems. This publication provides case studies and how-to procedures that show backup and recovery scenarios. This publication provides information about how to protect data in an SAP HANA environment by using IBM Spectrum® Protect and IBM Spectrum Copy Data Manager. This publication focuses on

the data protection solution, which is described through several scenarios. The information in this publication is distributed on an as-is basis without any warranty that is either expressed or implied. Support assistance for the use of this material is limited to situations where IBM Spectrum Scale or IBM Spectrum Protect are supported and entitled, and where the issues are specific to a blueprint implementation. The goal of the publication is to describe the best aspects and options for backup, snapshots, and restore of SAP HANA Multitenant Database Container (MDC) single and multi-tenant installations on IBM Power Systems by using theoretical knowledge, hands-on exercises, and documenting the findings through sample scenarios. This document provides resources about the following processes: Describing how to determine the best option, including SAP Landscape aspects to back up, snapshot, and restore of SAP HANA MDC single and multi-tenant installations based on IBM Spectrum Computing Suite, Red Hat Linux Relax and Recover (ReAR), and other products. Documenting key aspects, such as recovery time objective (RTO) and recovery point objective (RPO), backup impact (load, duration, scheduling), quantitative savings (for example, data deduplication), integration and catalog currency, and tips and tricks that are not covered in the product documentation. Using IBM Cloud® Object Storage and documenting how to use IBM Spectrum Protect to back up to the cloud. SAP HANA 2.0 SPS 05 has this feature that is built in natively. IBM Spectrum Protect for Enterprise Resource Planning (ERP) has this feature too.

Documenting Linux ReaR to cover operating system (OS) backup because ReAR is used by most backup products, such as IBM Spectrum Protect and Symantec Endpoint Protection (SEP) to back up OSs. This publication targets technical readers including IT specialists, systems architects, brand specialists, sales teams, and anyone looking for a guide about how to implement the best options for SAP HANA backup and recovery on IBM Power Systems. Moreover, this publication provides documentation to transfer the how-to-skills to the technical teams and solution guidance to the sales team. This publication complements the documentation that is available at IBM Knowledge Center, and it aligns with the educational materials that are provided by IBM Garage™ for Systems Technical Education and Training.

### **Auditing and GRC Automation in SAP** May 10 2022

Over the last few years, financial statement scandals, cases of fraud and corruption, data protection violations, and other legal violations have led to numerous liability cases, damages claims, and losses of reputation. As a reaction to these developments, several regulations have been issued: Corporate Governance, the Sarbanes-Oxley Act, IFRS, Basel II and III, Solvency II and BilMoG, to name just a few. In this book, compliance is understood as the process, mapped not only in an internal control system, that is intended to guarantee conformity with legal requirements but also with internal policies and enterprise objectives (in particular, efficiency and profitability). The current literature primarily confines itself to mapping controls in SAP ERP

and auditing SAP systems. Maxim Chuprunov not only addresses this subject but extends the aim of internal controls from legal compliance to include efficiency and profitability and then well beyond, because a basic understanding of the processes involved in IT-supported compliance management processes are not delivered along with the software. Starting with the requirements for compliance (Part I), he not only answers compliance-relevant questions in the form of an audit guide for an SAP ERP system and in the form of risks and control descriptions (Part II), but also shows how to automate the compliance management process based on SAP GRC (Part III). He thus addresses the current need for solutions for implementing an integrated GRC system in an organization, especially focusing on the continuous control monitoring topics. Maxim Chuprunov mainly targets compliance experts, auditors, SAP project managers and consultants responsible for GRC products as readers for his book. They will find indispensable information for their daily work from the first to the last page. In addition, MBA, management information system students as well as senior managers like CIOs and CFOs will find a wealth of valuable information on compliance in the SAP ERP environment, on GRC in general and its implementation in particular.

**SAP S4 HANA Production Planning and Manufacturing Certification Questions** Jun 23 2023 SAP S/4 HANA Production Planning and Manufacturing Certification Questions These questions are similar to the ones asked in the actual Test. How should I know? I know, because although I have been working as an SAP HANA & SAP PP Consultant for many years, I have myself recently certified with the latest version of the Associate Certification test. Before you start here are some Key features of the SAP Certified Application Associate - SAP S/4 HANA Production Planning and Manufacturing Certification Exam. This certification exam verifies that the candidate has the knowledge required in the area of SAP S/4 HANA Production Planning and Manufacturing. This certificate builds on the basic knowledge gained through related SAP HANA and SAP Production Planning and Manufacturing

training and preferably refined by practical experience within an SAP HANA Production Planning and Manufacturing project team, whereby the consultant applies acquired knowledge in this specialist area practically in projects.. The exam is Computer based and you have three Hours to answer 80 Questions. The Questions are (mostly) multiple choice type and there is NO penalty for an incorrect answer. Some of the Questions have more than one correct answer. You must get ALL the options correct for you to be awarded points. For questions with a single answer, the answers will have a button next to them. You will be able to select only one button. For questions with multiple answers, the answers will have a 'tick box' next to them. This allows you to select multiple answers. You are not allowed to use any reference materials during the certification test (no access to online documentation or to any SAP system). Clearing the Certification will not automatically lead you to a job. However a Certification with some project experience will certainly open a lot of doors for you. So if you have little or no experience, you should get yourself certified, get some project experience, and then the whole of the SAP World open for you to explore. Helping you with the first step on you ladder to success is this book! Some UNIQUE features of this Book: - There is NO Other material in the market for the SAP Certified Application Associate - SAP S/4 HANA Production Planning and Manufacturing exam. - The author has himself cleared the exam. - All questions are multiple choice format, similar the questions you will get in the actual exam. - Over 125 authentic questions, testing

the exact same concepts that will be tested in Your exam!

**IBM Storage Solutions for SAP Applications Version 1.4** May 18 2020 This IBM® Redpaper™ publication is intended as an architecture and configuration guide to set up the IBM System Storage™ for the SAP HANA tailored data center integration (SAP HANA TDI) within a storage area network (SAN) environment. SAP HANA TDI allows the SAP customer to attach external storage to the SAP HANA server. The paper also describes the setup and configuration of SAP Landscape Management for SAP HANA systems on IBM infrastructure components: IBM Power Systems and IBM Storage based on IBM Spectrum® Virtualize. This document is written for IT technical specialists and architects with advanced skill levels on SUSE Linux Enterprise Server or Red Hat Enterprise Linux (RHEL) and IBM System Storage. This document provides the necessary information to select, verify, and connect IBM System Storage to the SAP HANA server through a Fibre Channel-based SAN. The recommendations in this Blueprint apply to single-node and scale-out configurations, and Intel and IBM Power based SAP HANA systems.

*LABORATORY QUALITY/MANAGEMENT* Oct 23 2020 This book should be of interest to the management of all types of laboratories supporting all types of scientific disciplines. Even though the scientific processes may be different the overall approach to management is very similar including how technical processes should be managed and controlled. The book addresses principal elements of laboratory management, technical and support operations

and offers several detailed “how to” procedures designed to help laboratory management to establish and maintain control through a continuous low level internal audit, (self assessment) process. This activity enables management to take prompt corrective action, maintain control and provides the ability to measure improvement over time toward achieving a higher, more efficient, cost effective level of quality services to its assigned customers. The objective of this book is to expand on the knowledge and understanding of laboratory quality/management system process.

*Trends in Enterprise Architecture Research and Practice-Driven Research on Enterprise Transformation* Feb 19 2023 This volume constitutes the proceedings of the combined 7th International Workshop on Trends in Enterprise Architecture Research (TEAR 2012) and the 5th Working Conference on Practice-Driven Research on Enterprise Transformation (PRET-5), held in Barcelona, Spain, October 23-24, 2012, and co-located with The Open Group's Conference on Enterprise Architecture, Cloud Computing, and Security. Joining the forces of the two events with The Open Group Conference provided the unique opportunity for an intensive exchange between practitioners as well as for discussions on standardization efforts and academic research in the areas of enterprise transformation and enterprise architecture (EA). Based on careful reviews by at least three Program Committee members, 18 papers were chosen for inclusion in these proceedings. They were presented in six sessions on enterprise architecture management (EAM) effectivity,

languages for EA, EAM and the ability to change, advanced topics in EA, governing enterprise transformations, and EA applications.

**SAP S4 HANA Production and Manufacturing Certification** Aug 25 2023 SAP Certified Application Associate - SAP S/4 HANA Production Planning and Manufacturing These questions are similar to the ones asked in the actual Test. How should I know? I know, because although I have been working as an SAP HANA & SAP PP Consultant for many years, I have myself recently certified with the latest version of the Associate Certification test. Before you start here are some Key features of the SAP Certified Application Associate - SAP S/4 HANA Production Planning and Manufacturing Exam. This certification exam verifies that the candidate has the knowledge required in the area of SAP S/4 HANA Production Planning and Manufacturing. This certificate builds on the basic knowledge gained through related SAP HANA and SAP Production Planning and Manufacturing training and preferably refined by practical experience within an SAP HANA Production Planning and Manufacturing project team, whereby the consultant applies acquired knowledge in this specialist area practically in projects.. The exam is Computer based and you have three Hours to answer 80 Questions. The Questions are (mostly) multiple choice type and there is NO penalty for an incorrect answer. Some of the Questions have more than one correct answer. You must get ALL the options correct for you to be awarded points. For questions with a single answer, the

answers will have a button next to them. You will be able to select only one button. For questions with multiple answers, the answers will have a 'tick box' next to them. This allows you to select multiple answers. You are not allowed to use any reference materials during the certification test (no access to online documentation or to any SAP system). Clearing the Certification will not automatically lead you to a job. However a Certification with some project experience will certainly open a lot of doors for you. So if you have little or no experience, you should get yourself certified, get some project experience, and then the whole of the SAP World open for you to explore. Helping you with the first step on your ladder to success is this book! Some UNIQUE features of this Book: - There is NO Other material in the market for the SAP Certified Application Associate - SAP S/4 HANA Production Planning and Manufacturing exam. - The authors have themselves cleared the exam. - All questions are multiple choice format, similar the questions you will get in the actual exam. - Over 125 authentic questions, testing the exact same concepts that will be tested in Your exam!

*Practical Guide to Using Focused Build for SAP Solution Manager* Nov 16 2022

Dive into the world of SAP Solution Manager's Focused Build application with this essential guide, designed to help you manage development and configuration activities effectively. This book aims to go beyond technical information and setup guides by sharing practical

experiences, valuable tips, and insights on what works and what doesn't. Understand the relationship between Focused Build and SAP Solution Manager, and explore the key features that can enhance your project management experience. Determine if Focused Build is the ideal tool for your projects. Familiarize yourself with Focused Build's end-to-end processes and the various roles crucial for successful project implementation. Department of BioScience & Sericulture, Sri Padmavati Mahila Visvavidyalayam (Women's University), Tirupati, Andhra Pradesh, India, during 4–5 December 2020. The book includes the latest research on advanced computational methodologies such as artificial intelligence, data mining and data warehousing, cloud computing, computational intelligence, soft computing, image processing, Internet of things, cognitive computing, wireless networks, social networks, big data analytics, machine learning, network security, computer networks and communications, bioinformatics, biocomputing/biometrics, computational biology, biomaterials, bioengineering, and medical and biomedical informatics.

**Implementing SAP CRM** Apr 09 2022 In today's competitive business environment, most companies realize that the better they can manage their customer relationships, the more successful they will become. Customer Relationship Management (CRM) software systems are key tools for companies to manage the customer-facing processes of their businesses. However, many companies have resisted

**SAP MM INVENTORY MANAGEMENT** Oct 15 2022 SAP is a powerful software that meets the requirement of business all over the world. This well-organised book comprising 34 chapters is useful for both beginners and professionals. Being a learning guide and a user manual, the book will be immensely valuable for all those who are training to be SAP consultant. If you are a material/production manager, a QM professional or a

business executive, you will find that the book brings a lot of convenience in your work and minimises inventory losses.

**A New Approach to SAP Implementation**

**Structured dialog** :The dialog between the consultant and the users should be based on the structure of this book. The consultant would demonstrate a business transaction, e.g. goods receipt, in its simplest form. He would then explain the data items on the screens, their meaning and significance. He would enquire whether the data item is relevant for the client company. The data items that are not relevant can be hidden in the implementation, and related configuration marked as not required. When the consultant would come to a section explaining IMG node, his questions to the user would be designed to collect the information required to configure that node.

**Prototyping** :As the structured dialog continues, the consultant would go on doing the configuration. By the end of the dialog, the consultant would have built a company-specific prototype.

**Training and trials** :The prototype would be a rough-cut implementation of SAP for the company. It would be used for training the users. After training, the users would try out the system. They would perform routine transactions several times using real-life data of their company. They would try different scenarios and record their observations.

**Refinement** :After prototype trials, the consultant and the users would sit together to discuss what the users required to do, but could not do with the prototype. The consultant would use this input to refine the prototype and to build new functionality, if needed.

**Configuration manual** :The documentation of SAP

implementation includes a configuration manual. This configuration manual should be structured on the lines of this book as explained in Chapter 34. Such a configuration manual will be easy to understand as it groups logically related elements together. User manual :This book will serve as a generic user manual. Company-specific user manual can also be structured on the lines of this book including only company-specific guidelines for the users. **Enterprise Resource Planning and Supply Chain Management** Aug 13 2022 This book is about running modern industrial enterprises with the help of information systems. Enterprise resource planning (ERP) is the core of business information processing. An ERP system is the backbone of most companies' information systems landscape. All major business processes are handled with the help of this system. Supply chain management (SCM) looks beyond the individual company, taking into account that enterprises are increasingly concentrating on their core competencies, leaving other activities to suppliers. With the growing dependency on the partners, effective supply chains have become as important for a company's success as efficient in-house processes. This book covers typical business processes and shows how these processes are implemented. Examples are presented using the leading systems on the market – SAP ERP and SAP SCM. In this way, the reader can understand how business processes are actually carried out "in the real world".

**Customizing Extended Warehouse Management with SAP ERP** Jan 18 2023 The goal of every warehouse manager is to have an efficiently-run operation that provides clear visibility into warehouse activities, as well as the ability to quickly optimize stock, reduce inventory movements, and streamline the supply chain process. **Production and Inventory Management with Substitutions** Jan 06 2022 Quantitative approaches for solving production planning and inventory management problems in industry have gained growing importance in the past years. Due to the increasing use of Advanced Planning Systems, a widespread practical application of the sophisticated optimization models and algorithms developed by the Production Management and Operations Research community now seem within reach. The possibility that products can be replaced by certain substitute products exists in various application areas of production planning and inventory management. Substitutions can be useful for a number of reasons, among others to circumvent production and supply bottlenecks and disruptions, increase the service level, reduce setup costs and times, and lower inventories and thereby decrease capital lockup. Considering the current trend in industry towards shorter product life cycles and greater product variety, the importance of substitutions appears likely to grow. Closely related to substitutions are flexible bills-of-materials and recipes in multi-level production systems. However, so far, the aspect of substitutions has not attracted much attention in academic literature. Existing lot-sizing models matching complex requirements of industrial optimization problems

(e.g., constrained capacities, sequence-dependent setups, multiple resources) such as the Capacitated Lot-Sizing Problem with Sequence-Dependent Setups (CLSD) and the General Lot-Sizing and Scheduling Problem for Multiple Production Stages (GLSPMS) do not feature in substitution options.
