**Amber on the Mountain** May 31 2021 Amber's mountain is beautiful, but it is a lonely place—until the day Anna arrives, bringing both her friendship and the will to teach Amber how to read. Suddenly, Amber's world is filled with a new magic and new challenges. But when Anna returns to the city, will Amber be able to keep reading on her own? "Heartwarming" —Publishers Weekly, starred review Tony Johnston's previous books include *Grandpa's Song* and *Yonder* (both Dial and Puffin). She lives in San Marino, California. Robert Duncan is a fine artist whose paintings have been exhibited throughout the United States. He lives in Midway, Utah.

**A. R. E. Building Systems Study Guide and Practice Exam (the Amber Book)** Feb 20 2023 This exam and study guide tests-and fosters-ownership of concepts in building systems, with an emphasis on the content stressed in the Architect Registration Examination (A.R.E.) Building Systems component. It is designed as a study tool, learning exercise, and confidence-builder. Questions are not reading comprehension devices that follow lessons, but rather opportunities to introduce a topic. Your time is valuable so this study guide does not treat all content that might appear on the exam equally. Rather it weights content by (1) its importance in the A.R.E. exam, and (2) its usefulness to the career of an architect. It further weights the content based on its "yield." In other words, memorizing the entire plumbing code will certainly help you on the A.R.E. exam, but it is certainly not the most

efficient means of studying for it.

**You'll Never Believe What Happened to Lacey** Feb 08 2022 \*A NEW YORK TIMES BESTSELLER AND INDIE NEXT PICK\* Writer and performer on Late Night with Seth Meyers Amber Ruffin writes with her sister Lacey Lamar with humor and heart to share absurd anecdotes about everyday experiences of racism. Now a writer and performer on Late Night with Seth Meyers and host of The Amber Ruffin Show, Amber Ruffin lives in New York, where she is no one's First Black Friend and everyone is, as she puts it, "stark raving normal." But Amber's sister Lacey? She's still living in their home state of Nebraska, and trust us, you'll never believe what happened to Lacey. From racist donut shops to strangers putting their whole hand in her hair, from being mistaken for a prostitute to being mistaken for Harriet Tubman, Lacey is a lightning rod for hilariously ridiculous yet all-too-real anecdotes. She's the perfect mix of polite, beautiful, petite, and Black that apparently makes people think "I can say whatever I want to this woman." And now, Amber and Lacey share these entertainingly horrifying stories through their laugh-out-loud sisterly banter. Painfully relatable or shockingly eye-opening (depending on how often you have personally been followed by security at department stores), this book tackles modern-day racism with the perfect balance of levity and gravity.

The Amber Forest Sep 03 2021 The Poinars are world leaders in the study of amber fossils and have spent years examining the uniquely rich supply that has survived from the ancient forests of the Dominican Republic. They draw on their research here to reconstruct in words, drawings, and spectacular color photographs the ecosystem that existed on the island of Hispaniola between fifteen and forty-five million years ago. The Poinars present richly detailed drawings of how the forests once appeared. They discuss how and when life colonized Hispaniola and what caused some forms to become extinct. Along the way, they describe how amber is formed, how and where it has been preserved, and how it is mined, sold, and occasionally forged for profit today.

And I Do Not Forgive You: Stories and Other Revenges Sep 22 2020 Amber Sparks holds her crown in the canon of the weird with this fantastical collection of "eye-popping range" (John Domini, Washington Post). Boldly blending fables and myths with apocalyptic technologies, Amber Sparks has built a cultlike following with *And I Do Not Forgive You*. Fueled by feminism in all its colors, her surreal worlds—like Kelly Link's and Karen Russell's—are all-too-real. In "Mildly Happy, With Moments of Joy," a friend is ghosted by a text message; in "Everyone's a Winner at Meadow Park," a teen coming-of-age in a trailer park befriends an actual ghost. Rife with "sharp wit, and an abiding tenderness" (Ilana Masad, NPR), these stories shine an interrogating light on the adage that "history likes to lie about women," as the subjects of "You Won't Believe What Really Happened to the Sabine Women" will attest. Written in prose that both shimmers and stings, the result is "nothing short of a raging success, a volume that points to a potentially incandescent literary future" (Kurt Baumeister, The Brooklyn Rail).

**Bees in Amber** May 11 2022 Reproduction of the original: *Bees in Amber* by John

Oxenham

**Amber in Archaeology** Oct 24 2020

Amber Aug 26 2023 The fossilized resin of ancient trees, amber preserves organic material--most commonly insects and other invertebrates--and with it the shape and surface detail that are usually obliterated or hopelessly distorted during the mineralization we associate with fossils. This fascinating substance offers a unique intersection of the fields of paleontology, botany, entomology, and mineralogy.

*Amber Beach* Mar 09 2022 Deadly secrets are buried on Amber Beach ... Donovan International is a power to be reckoned with in the dazzling and cutthroat worldwide gem trade -- and is therefore a target for the murderous greed of unscrupulous competitors. Though a shrewd businesswoman, Honor Donovan has been effectively shut out of the dangerous family enterprise by the Donovan males -- until her favorite brother, Kyle, mysteriously vanishes along with a fortune in stolen amber. Now, linking up with "fishing guide" Jake Mallory -- whose previous association with the Donovans has bred mistrust and suspicion -- Honor sets out for the Pacific Northwest in search of answers. But old wars and new politics have lured ruthless, high-stakes players from around the globe into a deadly game. And suddenly, elusive trust can be the only salvation -- and death the penalty for deceit -- if Honor and Jake hope to survive the perilous intrigues surrounding a breathtaking lost Czarist treasure known as the Amber Room ...

**Dream on, Amber** May 19 2020 My name is Amber Alessandra Leola Kimiko Miyamoto. I have no idea why my parents gave me all those hideous names but they must have wanted to ruin my life, and you know what? They did an amazing job. As a half-Japanese, half-Italian girl with a ridiculous name, Amber's not feeling molto bene (very good) about making friends at her new school. But the hardest thing about being Amber is that a part of her is missing. Her dad. He left when she was little and he isn't coming back. Not for her first day of middle school and not for her little sister's birthday. So Amber will have to dream up a way for the Miyamoto sisters to make it on their own... "[A] beautifully written story."-The Independent "One of those books that you simply won't want to put down...five out of five stars!"-The Guardian

*Ancient Carved Ambers in the J. Paul Getty Museum* Jul 13 2022 First published in 2012, this catalogue presents fifty-six Etruscan, Greek, and Italic carved ambers from the Getty Museum's collection—the second largest body of this material in the United States and one of the most important in the world. The ambers date from about 650 to 300 BC. The catalogue offers full description of the pieces, including typology, style, chronology, condition, and iconography. Each piece is illustrated. The catalogue is preceded by a general introduction to ancient amber (which was also published in 2012 as a stand-alone print volume titled *Amber and the Ancient World*). Through exquisite visual examples and vivid classical texts, this book examines the myths and legends woven around amber—its employment in magic and medicine, its transport and carving, and its incorporation into jewelry, amulets, and other objects of prestige. This publication highlights a group of remarkable

amber carvings at the J. Paul Getty Museum.

*Amber House* Nov 05 2021 After her grandmother's death Sarah Parsons, nearly sixteen, delights in exploring her family's centuries-old Maryland estate with new friend Jackson, but soon she is having vivid visions of her ancestors, one of whom may be a threat to Sarah's autism

**Amber Waves** Dec 06 2021 A biography of a staple grain we often take for granted, exploring how wheat went from wild grass to a world-shaping crop. At breakfast tables and bakeries, we take for granted a grain that has made human civilization possible, a cereal whose humble origins belie its world-shaping power: wheat. *Amber Waves* tells the story of a group of grass species that first grew in scattered stands in the foothills of the Middle East until our ancestors discovered their value as a source of food. Over thousands of years, we moved their seeds to all but the polar regions of Earth, slowly cultivating what we now know as wheat, and in the process creating a world of cuisines that uses wheat seeds as a staple food. Wheat spread across the globe, but as ecologist Catherine Zabiniski shows us, a biography of wheat is not only the story of how plants ensure their own success: from the earliest bread to the most mouthwatering pasta, it is also a story of human ingenuity in producing enough food for ourselves and our communities. Since the first harvest of the ancient grain, we have perfected our farming systems to grow massive quantities of food, producing one of our species' global mega crops—but at a great cost to ecological systems. And despite our vast capacity to grow food, we face problems with undernourishment both close to home and around the world. Weaving together history, evolution, and ecology, Zabiniski's tale explores much more than the wild roots and rise of a now-ubiquitous grain: it illuminates our complex relationship with our crops, both how we have transformed the plant species we use as food, and how our society—our culture—has changed in response to the need to secure food sources. From the origins of agriculture to gluten sensitivities, from our first selection of the largest seeds from wheat's wild progenitors to the sequencing of the wheat genome and genetic engineering, *Amber Waves* sheds new light on how we grow the food that sustains so much human life.

Amber Heard Vs Johnny Depp & Bots Jul 01 2021 Investigative reporting on Amber Heard's case involving social bots, Johnny Depp, Adam Waldman, and political conflicts in a 21st century stand-off online. Delves into Julian Assange, Jennifer Robinson, progressives and the alt-right, artificial intelligence, Russia voting interference, Elon Musk, United Nations, and Aquaman 2 with humanitarian and women's rights activist Amber Heard caught in a crossfire masked by domestic violence and hate online. Summarizes how Amber Heard won in the NGN case with 12 brutal assaults and fearing for her life validated, yet online bots bury her to snuff out her voice.

Waiting on Amber Oct 16 2022 Once-promising advertising executive, Nathan Amber — dysfunctional father, defiant loner, hopeless alcoholic — lives rough in London. One August morning a terrorist bomb explodes on a packed bus, triggering

a series of events that turns his life upside down. In a journey that weaves from London to France to a remote cottage on the Suffolk coast, Nathan finds he must re-evaluate his past in order to confront a situation he could never have predicted.

Becoming Ribbons Oct 04 2021 This stunning debut poetry collection announces the distinctive voice of an emerging American poet. Amber Adams, a veteran of the Army Reserves who was deployed under Operation Iraqi Freedom, writes of the marks left by war in a new and startling way. BECOMING RIBBONS presents four acts that weave together themes of love, trauma, loss, and grief. Early poems in the collection reflect on Amber's marriage to Marine Bradley Adams and her own upcoming deployment. In evocative, perceptive poems, Amber describes Bradley's injury in Al-Anbar province. The collection explores the way war and trauma changes Amber and Bradley's relationship, and finally grapples with the end of their marriage, Bradley's death by suicide, and the need to memorialize those who have gone. Amber Adams traces a remarkable emotional landscape from our contemporary social terrain. As of the publication of this volume, America has been at war for over two decades, in which the personal, inexorable aftermath of war has cracked into the lives of many Americans. Readers will see friends, family, loved ones, and themselves in the challenging lyric moments presented in this collection. "It's a book of love and loss and survival, full of hard-earned wisdom. With lyric beauty and immense skill, BECOMING RIBBONS explores the interior of a profoundly layered wartime experience."--Brian Turner, author of *Here, Bullet*

"Adams, in this masterful, beautifully-crafted collection, challenges the facades of safety our institutions represent-- marriage, war, freedom, our temporary bodies." --Jenny Molberg, author of *Refusal*

"No one in recent memory has written out of the military experience with such nuance, such knowledge, and such tenderness as Amber Adams has in this book." --Bin Ramke, author of *Earth on Earth Poetry*.

Amber Revolution Jun 19 2020 A must-have volume for all wine lovers and those who love orange wine. Written by renowned orange wine expert and award winning writer Simon J. Woolf, Amber Revolution is the world's first book to tell the full, forgotten story of this ancient wine (white wine made like a red wine) and its modern struggle to gain acceptance. It is a tale of lost identity, the fight for survival, and pioneering winemakers--from the Caucasus to the Adriatic. White grapes are left in contact with their skins for days, weeks or months during fermentation, creating stunning complexity, unusual aromas and intense flavors. The extended skin contact gives these wines bold amber, russet, or orange tints. The technique is ancient, but the hype is new and fast growing. This book includes profiles of 180 of the best producers from 20 countries worldwide and is crammed full of all the information you need to find the best orange wines worldwide together with tips for how to buy, enjoy, food-match and age them. Beautifully illustrated with over 150 specially commissioned photos, Amber Revolution is an essential reference work for any wine lover, sommelier, retailer or producer who loves orange wine. Written by renowned orange wine expert and award winning writer Simon J. Woolf, Amber Revolution is the world's first book to tell the full, forgotten story of this ancient wine

*The Quest For Life In Amber* Apr 10 2022 In passages that read more like an Indiana Jones screenplay than scientific research, the Poinars describe how their hobby-turned-obsession ultimately led to a breakthrough scientific finding: the discovery of preserved insect DNA in amber. Photos.

*Life in Amber* May 23 2023 "Amber is a semi-precious gem that is formed over eons by natural forces out of the resin of trees. Human fascination with amber dates back to prehistoric times, when it was probably considered to have magical powers and was used for adornment and trade. Amber amulets and beads dating from 35,000 to 1,800 B.C. have been found, and where they have been found (for example in graves hundreds of miles from their chemically determined origins) has often helped to establish ancient trade routes." "The preservative qualities of plant resins were well known by the ancients. The Egyptians used resins to embalm their dead, and the Greeks used them to preserve their wine. Amber often preserved fossils, frequently in a pristine state, of all kinds of animal and plant organisms that made contact with the sticky substance and became trapped in it. These fossils include such fragile organisms as nematodes and mushrooms that ordinarily are not preserved under normal processes of fossilization, as well as larger organisms like scorpions and lizards, and the fossils are preserved in their full three-dimensional form, complete with minute details of scales, mouth parts, antennae, and hairs. It has even been suggested that viable DNA may persist in some amber-trapped organisms." "This book is a compendium of all that we know about life found in amber. It surveys all life forms, from microbes to vertebrates and plants, that have been reported from amber deposits throughout the world, beginning with the earliest pieces dating from some 300 million years ago. It also describes the formation of amber and the location, geological history, and early exploration of the major world amber deposits, including those still being worked today." "The book also provides practical information on how to determine fake amber containing present-day forms of life. It can serve as a beginning for tracing the geological history of a particular group of animals or plants or even reconstructing ancient paleoenvironments, and because amber fossils are preserved so completely, in a transparent medium, they can be intimately compared with related living species.

Finally, the book discusses what amber fossils can tell us about evolution and speciation, cellular preservation, and paleosymbiosis." "The book is illustrated with 37 color photographs, 154 black-and-white photographs and drawings, and 8 maps."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

*Amber, the Golden Gem of the Ages* Jan 07 2022 The best available reference on amber is now revised and updated. Dr. Rice's Amber presents a comprehensive reference for the general collector, carver, or the scientist. She begins with the history of amber, which moves from the Stone Age through archaeological finds, ancient writings and medieval chronicles, and then on to explore the scientific studies of amber and how it attained commercial value. Amber provides information on the cultural changes relating to amber jewelry plus the mystical powers attributed to the gem. It is updated to include information on mining in the Baltic areas as well as new information on DNA Coding.

**On Amber in North America** Dec 18 2022

**Lebanese Amber** Dec 26 2020 "This illustrated book, the first major review of Lebanese amber, covers all aspects of this rare and highly valued resin, including its origin and its role as a commodity in ancient cultures. The authors discuss each plant and animal fossil thus far recovered from the amber, including nematodes, snails, mites, spiders and insects, and the earliest complete feather."

**Amber Waves** Apr 17 2020 "Wheat was one of the first domesticated food crops, and for roughly 8,000 years it has been a dietary staple in Europe, West Asia, and North Africa. Today, wheat is grown on more land area than any other commercial crop, and it continues to be the most important food grain for humans. A plant this prolific surely deserves its own biography. This book, by plant ecologist Catherine Zabinski, invites readers to follow the evolutionary journey of wheat while exploring its symbiotic relationship with humans. In the early chapters, we are introduced to the habits and history of this member of the grass family, how it lives, how it thrives, and how it arrived at its current form. The action swells when our ancestors discover and exploit grain, which went on to be foundational to the development of civilization -- from the wild grasses first cultivated in the Fertile Crescent to the ancient empires that sought to control its production. Later chapters track a more modern history, with wheat playing a starring role in the Green Revolution and the rise of genetically modified food. The end of the book explores the plant's place in the creation of a sustainable food system"--

Treasuring Amber Aug 14 2022 Editorial Reviews "This series is a MUST READ. " - United Indie Book Blog Synopsis Kissing handsome Harper Bay to avoid a confrontation with her past isn't on Amber Cross's to-do list, but sometimes a situation calls for desperate measures. She doesn't expect the kiss to leave her breathless. Amber is the hottest thing walking but clearly not Harper's type. He's not looking for a platinum-blond manicurist from the city. After her surprising kiss leaves him panting, he changes his mind and decides to get to know her. Chemistry sizzles between them, but this gorgeous woman has a past that could

get them both killed.

**Amber and the Ancient World** Apr 22 2023 "Amber has fascinated mankind since the Palaeolithic era. This book examines the myths and legends woven around amber - its employment in magic and medicine, its transport and carving, and its incorporation into jewellery, amulets, and other objects of prestige"--Publisher's description.

**Historical Jottings on Amber in Asia** Mar 21 2023

**Get Ready for Second Grade, Amber Brown** Mar 29 2021 Amber Brown is excited to be starting second grade--and a little nervous, too. But Amber Brown decides she's ready for whatever happens, and second grade had better be ready for Amber Brown!

Amber & Dusk Sep 15 2022 In a magical world where the sun never sets, a gifted girl dreams to be in the royal court but once inside, she may not be prepared for the drama. Sylvie has always known she deserves more. Out in the permanent twilight of the Dusklands, her guardians called her power to create illusions a curse. But Sylvie knows it gives her a place in Coeur d'Or, the palais of the Amber Empress and her highborn legacies. So Sylvie sets off toward the Amber City, a glittering jewel under a sun that never sets, to take what is hers. But her hope for a better life is quickly dimmed. The empress invites her in only as part of a wicked wager among her powerful courtiers. Sylvie must assume a new name, Mirage, and begin to navigate secretive social circles and deadly games of intrigue in order to claim

her spot. Soon it becomes apparent that nothing is as it appears and no one, including her cruel yet captivating sponsor, Sunder, will answer her questions. As Mirage strives to seize what should be her rightful place, she'll have to consider whether it is worth the price she must pay . . . Lyra Selene weaves a lush and thrilling story of sacrifice, secrets, and star-crossed love set in a Parisian-inspired world where the sun never sets in this remarkable YA fantasy debut. Praise for Amber & Dusk "A shimmering tapestry of language, woven through with soaring beauty and subtle menace." —Sara Holland, New York Times—bestselling author of the Everless series "Full of riotous color, fantastical locations, and surprising plot twists." —School Library Journal

*Stop on Amber*] Aug 22 2020

**Semi-Precious Stones - A Historical Article on Agate, Amber, Amethyst and Many Other Varieties of Gemstones** Jan 19 2023 This book contains classic material dating back to the 1900s and before. The content has been carefully selected for its interest and relevance to a modern audience. Carefully selecting the best articles from our collection we have compiled a series of historical and informative publications on the subjects of gemology and crystallography. The titles in this range include "Gemstone Manufacturing" "Geometrical Characters of Crystals" "The Thirty-Two Classes of Crystal Symmetry" and many more. Each publication has been professionally curated and includes all details on the original source material. This particular instalment, "Semi-Precious Stones" contains information on amber, amethyst, agate and much more. Intended to illustrate the main varieties of semi-precious stones it is a guide for anyone wishing to obtain a general knowledge of the subject and to understand the field in its historical context. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

*It's Justin Time, Amber Brown* Jun 12 2022 Amber Brown wants a watch for her seventh birthday more than anything else. She knows she will feel more grown-up when she can see what time it is whenever she wants. Also, she will always know exactly how late Justin Daniels, her best friend, is. He is a great best friend, but Amber is getting tired of waiting for him all the time. She wants to live on Amber Time, not Justin Time!

**The Amber Book** Jun 24 2023 Explains how amber is formed, where it is found, and why it holds a mystical place in our hearts. Explores the role amber plays in the folklore of many cultures, how to detect fake amber, how to care for amber jewelry, and how to use amber for lapidary projects. Photographs illustrate some of the finest amber specimens available.

Utility Apr 29 2021 Marking the tenth anniversary of the Yale Drama Series for emerging playwrights, Emily Schwend's powerful work centers on Amber, a young woman struggling to raise a family in East Texas. Amber is juggling two nearly full-time jobs and three kids. Her on-again, off-again husband Chris is eternally optimistic and charming as hell, but rarely employed. The house is falling apart and Amber has an eight-year-old's birthday party to plan. --Amazon.com.

**Mercury on amber** Nov 17 2022

**Amber Road** Jul 21 2020 With intrigue, romance and suspense, Amber Road tells an epic story of one woman's indomitable spirit against the backdrop of a world at war. 'Thunder was beginning to roll across the water. The storm would soon arrive.' It's 1941 and seventeen-year-old Victoria Khoo lives in luxury in colonial Singapore.

**Me (Moth)** Feb 25 2021 FINALIST FOR THE 2021 NATIONAL BOOK AWARD FOR YOUNG PEOPLE'S LITERATURE A debut YA novel-in-verse by Amber McBride, Me (Moth) is about a teen girl who is grieving the deaths of her family, and a teen boy who crosses her path. Moth has lost her family in an accident. Though she lives with her aunt, she feels alone and uprooted. Until she meets Sani, a boy who is also searching for his roots. If he knows more about where he comes from, maybe he'll be able to understand his ongoing depression. And if Moth can help him feel grounded, then perhaps she too will discover the history she carries in her bones. Moth and Sani take a road trip that has them chasing ghosts and searching for ancestors. The way each moves forward is surprising, powerful, and unforgettable. Here is an exquisite and uplifting novel about identity, first love, and the ways that our memories and our roots steer us through the universe.
